Maximum capacity

American-style fridge with unprecedented capacity. Interior with XL depth, also available in matt glass.

A-20

Fridges inspired by nature

They save energy and protect the planet

A class

Help protect the planet thanks to the Class A energy efficiency of our fridges, which optimise energy consumption without affecting the conditions inside.

Inverter Plus compressor

Adjusts its operation according to internal conditions to maintain the ideal temperature using as little energy as possible. Includes a 10-year warranty.

BOLERO COOLMARKET F2D 458 SBI

AI RADAR

The heart of your kitchen, now with artificial intelligence

Enjoy optimal food preservation thanks to its AI-powered radar, which takes 15 temperature readings per minute to ensure uniform cooling with maximum variations of $\pm 0.5^{\circ}\text{C}$. This thermal stability guarantees ideal internal conditions for preserving the freshness and nutrients of all your food.

TAILOR MADE

Your fridge. Your style.

Choose the perfect exterior finish for your kitchen from the various Stone models (Graphite, Lunar, Onyx and Silex) or discover the Glass and Stainless Steel finishes in the Tailor Made range. You can also choose between the Crystal Aura or Cool Matrix interiors in grey or white.

GRAPHITE

LUNAR

ONYX

SILEX

COOL MATRIX

CRYSTAL AURA

Designed to store more and live better

MAX INSIDE

More capacity in less space

This compact combi fridge offers a more spacious interior, with a capacity of up to 450 litres thanks to its ultra-thin interior walls.

XL DOOR SHELVES

Stores more and larger bottles

Its extra-large door shelves allow you to conveniently store large bottles, small bottles, sauces and even two rows of tins. Additionally, its horizontal wine rack is perfect for keeping your favourite wines and drinks within easy reach.

FRENCH DOOR

Everything to hand and at a glance

Pull out the drawer for easy access to your frozen food, so you can organise it and find what you need in seconds.

ELITE GREY

An interior to match your kitchen

An elegant, premium grey finish transforms the fridge's interior into a more sophisticated, modern space, with attention to every last detail.

The 70 cm fridge-freezer your kitchen has been waiting for

Discover the new 70 cm-wide combi fridges: more space for your everyday needs, premium finishes in matt or stainless steel, and a colour display for convenient and intuitive control.

SHELVES
FRESHNESS FLEX HUB

AURA SKY

BOTTOM VENTILATION

XL DOOR

Everything you could imagine in a fridge

With a 606-litre capacity, a premium design that elevates your kitchen, and an integrated wine cooler to turn every toast into a special moment.

606 L

AURA CRYSTAL

Surrounding lighting that highlights every corner with a soft, gradual glow, so you can find and organise your food with complete ease.

TRIPLE COOLING

Three independent cooling systems to keep every food item at its ideal temperature, without mixing smells or flavours.

ELITE GREY

A metallic, stainless-steel-effect interior that enhances your fridge's design with a more premium and sophisticated finish.

FRESHNESSFLEX HUB

A drawer designed to keep your fruit, vegetables and delicate products fresh for longer.

Premium interior¹

AURALED MATRIX

Illuminates every corner

The LED wall provides complete, uniform lighting that illuminates the entire interior of the refrigerator, creating a perfect visual experience with soft, natural light.

SHELF SYSTEM

A complete view of your food.

Every detail counts, which is why our refrigerators feature glass shelves with LED-backlit metal frame that provides a perfect view of each level inside.

HETTICH TECH

Innovation that transforms every door opening

Hettich hinges support doors weighing up to 92 kg in XXL refrigerators. Also, they allow an opening angle of up to 115°, which can be limited to 90°, and smooth and silent door closing.

CRISPER TELESCOPIC

Maximum comfort

This telescopic slide system allows drawers to be pulled out easily and steadily, providing convenient access to fresh food.

ICE MAKER

Ice ready whenever you want it

Its built-in water tank makes ice cubes conveniently and easily, without the need for complicated installations, allowing you to enjoy soft or cold drinks whenever you fancy.

Preserves original freshness

DUAL FLEX HUB¹

XXL convertible drawer

Adjusts the temperature for each type of food to keep it as fresh and flavourful as on the first day. Meat, vegetables, fish or drinks: storage tailored to every need.

PURE COOL MATRIX

Pure freshness, superior preservation

It distributes the cold evenly and eliminates up to 99.9% of bacteria, keeping food fresh for longer.

FULLCOLOUR DISPLAY

Elegant design, intuitive control.

FRESH ZONE

Designed to integrate seamlessly

90° OPENING

A smooth 90° opening, integrated hinge and front ventilation to make the most of every centimetre. Available in matt white or matt black glass.

AUTO ICEMAKER

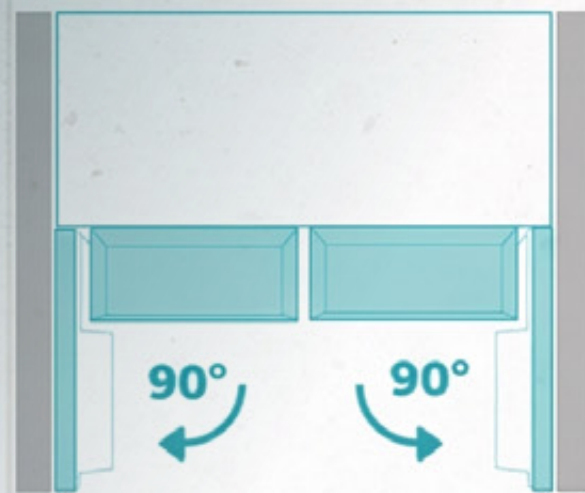

Built-in water tank for instant ice, offering maximum convenience.

COOL MATRIX

Its metallic wall distributes the cold evenly to keep every food item in perfect condition, wherever it is.

FRESH FLEX

A drawer with adjustable temperature that adapts to every type of food to keep it fresh for longer.

BOLERO COOLMARKET UF BI 267 DUAL D

Vertical fridge or freezer – the choice is yours.

One appliance, two possibilities. Fridge or upright freezer: you decide how you want to organise your space. Choose between fully integrated or freestanding installation and find the option that suits your kitchen, your pace and your lifestyle.

DUAL FLEX¹

Switch easily between fridge and freezer to adapt the capacity to your needs.

PURE FRESHNESS¹

Extra protection that keeps the interior cooler, cleaner and ready to preserve every food item.

BOLERO COOLMARKET UF BI-S 231 WL E
AND BOLERO COOLMARKET 1D BI-S 324

Vertical freezer and built-in fridge.

Built-in fridge or upright freezer: two options for designing a kitchen tailored to you, with the versatility and style that suit you.

AURA CRYSTAL

Even lighting throughout the interior so you can see every item clearly.

FRESH FLEX

A drawer that adjusts the temperature to keep every food item fresh for longer.

Bolero CoolMarket Combi 456 Elite Inox C

Combi fridge-freezer, stainless steel, C class, MAX INSIDE with VIP tech, Cool Matrix, variable drawer with 6 temperature settings and humidity control, Total No Frost, Inverter Plus Compressor, Multi AirFlow, 456 L, 201 x 59.5 cm, Fast Cooling and Fast Freezing functions, Smart mode, Green HUB XL, exterior display, reversible doors, bottle rack, glass shelves and SkyLight lighting.

FEATURES:

MAX INSIDE with VIP Tech: Experience maximum interior space thanks to innovative VIP Tech insulation technology. This system of thinner walls increases interior capacity and maximises energy efficiency, allowing for a large capacity of 456 litres without altering the standard dimensions of a fridge-freezer.

Superior capacity compared to the market standard: this refrigerator offers significantly more capacity than the market standard, providing extra space to store large containers, food and beverages. Make the most of every inch to keep your products organised and accessible, making this model the perfect choice for those who need flexible and spacious storage.

Much wider door shelves with a bottle holder for 5 extra bottles: Maximise space with extra-wide door shelves, ideal for storing large bottles, two rows of cans, small bottles and sauces. These XL door shelves make it easy to access frequently used beverages, allowing you to enjoy your products at any time. The horizontal bottle rack is perfect for large bottles and wines.

Fresh Flex: Flexible zone with variable temperature that prolongs the freshness of your food. Keep your food in optimal condition for longer with the Fresh Flex zone, which offers 6 adjustable temperatures to preserve a variety of products at their optimal temperature, from meat, fish and dairy products to delicate fruits.

Innovation in cooling with Cool Matrix technology: an advanced cooling system that provides even and efficient distribution of cold air throughout the interior. Technology that incorporates a film inside the refrigerator that maintains a constant temperature and cools food much faster, preserving the freshness and quality of your food for longer.

GREEN HUB XL: Easy-access drawer with large capacity and humidity control. Discover the

Bolero CoolMarket Combi 444 Inox D

CoolMarket Combi 444 Inox D Bolero, No Frost, Inverter motor, large capacity, Multi Air Flow, Metal Cooling, energy class C, Silence mode, Holiday mode, 90° door design, Humidity Freshness Flex, Fast Freeze & Fast Cooling, antibacterial filter

FEATURES:

Inverter Compressor: a quiet, efficient and durable system with a 10-year warranty. It automatically adjusts to maximise power or minimise energy consumption depending on usage.

Total No Frost: Completely eliminates ice build-up in all compartments. Continuous and efficient cooling without the need for manual defrosting.

Large 444 L capacity: The elegant design complements any kitchen décor and provides ample space for all fresh food and leftovers, offering more internal storage without taking up any additional external space.

Multi AirFlow: Distributes cold air evenly throughout all compartments. Optimal temperature guaranteed in every corner of the fridge.

Metal Cooling: The metal rear wall retains the cold and stabilises the internal temperature. Even distribution of cold air for better food preservation.

Energy efficiency class D: Class D rating in accordance with European regulations, with balanced energy consumption. Solid cooling performance at an affordable level of efficiency.

Holiday mode: Keeps the fridge at 8°C with the lowest possible energy consumption. No need to worry about energy costs or unpleasant odours while you're away.

90° door design: Drawers open fully with the doors at 90°, without requiring any additional space. Ideal for corner kitchens or compact layouts.

Humidity Freshness Flex: Spacious drawers with adjustable humidity control that keep fruit and vegetables fresh for longer, providing the ideal humidity levels for each type of food.

Fast Freezing & Fast Cooling: Fast Cooling quickly chills your shopping to keep it fresh straight away. Fast Freezing freezes in record time, preserving flavour and freshness.

Antibacterial Freshness: Eliminates odours and bacteria from the interior for a healthier environment. Freshness guaranteed for 21 days with active antibacterial protection.

Smart Mode: Automatically adjusts temperature and cooling power in real time. Better food preservation and lower energy consumption without any manual intervention.

Antibacterial filter: Features an antibacterial filter that eliminates odours from the fridge, keeping food fresher and your family healthier. Offers robust antibacterial protection, neutralises stubborn odours and guarantees 21 days' freshness.

Bolero CoolMarket Combi 444 Matt White Glass C

CoolMarket Combi 444 Matt White Glass C Bolero, No Frost, Inverter motor, large capacity, Multi Air Flow, Metal Cooling, energy class C, Silence mode, Holiday mode, bottom ventilation, space-saving design, 90° door design, Humidity Freshness Flex, Fast Freeze & Fast Cooling, antibacterial filter, premium matt glass finishes

FEATURES:

Inverter Compressor: a quiet, efficient and durable system with a 10-year warranty. It automatically adjusts to maximise power or minimise energy consumption depending on usage.

Total No Frost: Completely eliminates ice build-up in all compartments. Continuous and efficient cooling without the need for manual defrosting.

Large 444 L capacity: The elegant design complements any kitchen décor and provides ample space for all fresh food and leftovers, offering more internal storage without taking up any additional external space.

Multi AirFlow: Distributes cold air evenly throughout all compartments. Optimal temperature guaranteed in every corner of the fridge.

Metal Cooling: The metal rear wall retains the cold and stabilises the internal temperature. Even distribution of cold air for better food preservation.

Energy efficiency class C: Class C rating in accordance with European regulations, with optimised energy consumption. Stable and efficient performance for a modern home.

Holiday mode: Keeps the fridge at 8°C with the lowest possible energy consumption. No need to worry about energy costs or unpleasant odours while you're away.

Bottom ventilation: Compressor and condenser located at the bottom for greater efficiency. Less noise, lower energy consumption and improved heat dissipation.

Make the most of its space: built-in installation with minimal clearance and a door that opens to over 135°. The door does not protrude from the unit, ensuring a seamless fit.

90° door design: Drawers open fully with the doors at 90°, without requiring any additional space. Ideal for corner kitchens or compact layouts.

Humidity Freshness Flex: Drawers with adjustable humidity control for fruit and vegetables. The ideal humidity level for each food item, prolonging its freshness.

Fast Freezing & Fast Cooling: Fast Cooling quickly chills your shopping to keep it fresh straight away. Fast Freezing freezes in record time, preserving flavour and freshness.

Explore the range

Bolero CoolMarket Combi FD 450 Elite Inox D

Combi fridge-freezer, MAX INSIDE with VIP tech, Cool Matrix, Fresh Flex (variable drawer with 6 temperatures and humidity control), Total No Frost, Inverter Plus Compressor, Multi AirFlow, 450 L, 201×59.5×68 cm, Fast Cooling and Fast Freezing functions, Smart mode, Green HUB XL, exterior display, bottle rack, glass shelves, SkyLight illumination design (grey interior with LED) and energy class D.

FEATURES:

MAX INSIDE with VIP Tech: maximises interior space thanks to VIP Tech insulation (thinner walls), increasing capacity and improving energy efficiency. Achieves a large 450 L capacity while maintaining a compact format.

Superior capacity compared to market standard: offers more space than a standard combi for storing large containers, food and drinks, keeping everything organised and accessible.

XL door shelves with 5-bottle rack: extra-wide door shelves for large bottles, two rows of cans, bottles, and sauces. Includes horizontal bottle rack ideal for large bottles and wine.

Fresh Flex: flexible zone with variable temperature to extend food freshness. Features 6 adjustable temperatures for preserving meat, fish, dairy, or delicate fruits at their optimal point.

Cool Matrix Technology: advanced cooling system that helps maintain constant temperature and cool faster, better preserving food freshness and quality.

GREEN HUB XL: large capacity, easy-access drawer with humidity control, designed to keep fruits and vegetables fresh and crisp for longer and reduce waste.

Multi AirFlow: even cold air distribution to maintain stable temperature throughout the interior, preventing colder or warmer zones and improving preservation.

Exterior digital display: intuitive and accessible control for easily adjusting temperature and functions, customising use according to your daily needs.

Fast Freezing and Fast Cooling: cools and freezes quickly to preserve freshness and flavour, ideal for storing large grocery shopping trips or cooling food in less time.

Combi design with single refrigerator door: more convenient access to the refrigeration compartment with a single door, facilitating daily use and interior organisation.

Convenient access to the freezer through drawers: allows you to remove the freezer drawers and access the contents more easily, improving the handling and organisation of frozen food.

Inverter Plus compressor: quiet and efficient operation, adjust the power as needed to reduce consumption and extend service life.

Bolero CoolMarket XDW 606 MC Elite Inox E

Bolero CoolMarket XDW 605 MC Elite Inox E

FEATURES:

No Frost technology: prevents frost build-up in the freezer and helps maintain a constant flow of air, reducing the need for maintenance and making everyday use easier.

Multi AirFlow: an air distribution system that distributes the cold air more evenly throughout the fridge, helping to maintain a more stable temperature on every shelf and in every area.

No Frost technology, Multi AirFlow, Elite Grey (premium metallic stainless steel interior), FreshnessFlex HUB, integrated wine cooler, Triple Cooling (fridge + freezer + wine cooler), CoolMatrix¹, XXL 605 L capacity (MaxInside), ECO mode, Fast Cooling, energy class E

Multi AirFlow: an air distribution system that distributes the cold air more evenly throughout the fridge, helping to maintain a more stable temperature on every shelf and in every area.

Elite Grey (premium metallic stainless steel interior): an interior with a metallic stainless steel finish that enhances the 'premium' feel, improves the appearance when the fridge is opened and gives it a more refined and professional look.

FreshnessFlex HUB (freshness drawer): a dedicated drawer designed to keep food fresh for longer, helping to better preserve fruit, vegetables and other delicate produce thanks to a more controlled and organised environment.

Integrated wine compartment: a dedicated wine compartment within the unit, designed to improve organisation and provide a specific area for bottles without taking up space in the other compartments.

Triple Cooling (fridge + freezer + wine compartment): independent cooling in three zones, allowing separate control for each compartment and helping to better maintain optimal storage conditions in the fridge, freezer and wine compartment.

CoolMatrix¹: cooling system technology designed to improve cooling stability and maintain the internal temperature (depending on model configuration).

605 L XXL capacity (MaxInside): large MaxInside capacity for bulk shopping and families, with more usable space to organise food by category (fresh, frozen and drinks) in a convenient and accessible way.

ECO Mode: an operating mode designed to optimise energy consumption during steady use and maintaining food preservation while prioritising efficiency.

Fast Cooling: rapid cooling to speed up the drop in temperature after food or drinks are placed inside, helping the fridge to cool down more quickly.

COMPOSITION:

Bolero CoolMarket 4D 517 SBI Matt White Glass D

CoolMarket 4D 517 SBI Matt White Glass D Bolero – front-bottom ventilation, Dual System, CoolMatrix system, Amber Grey Pro interior finish, Extra Capacity (517 L), FastCooling, FastFreezing, super-quiet inverter compressor (39 dB), NoFrost with MultiAirFlow, Holiday Mode, door alarm, LED lighting, external digital display, glass finish, large convertible DualFlexHub zone (76 L)

FEATURES:

Lower-front ventilation: It allows installation with a minimum side clearance of just 10 mm, avoiding unsightly gaps that other models require for proper operation. In addition, with a depth of less than 60 cm, it won't protrude and will align perfectly with your kitchen cabinets.

Dual System (dual independent cooling circuits): features two separate cooling systems, one exclusively for the fridge and the other for the freezer, maintaining more stable temperatures in each zone and ensuring better food preservation by preventing interference between compartments.

CoolMatrix system: the metal panel on the inside promotes a more stable temperature and faster temperature transfer.

Amber Gray Pro interior finish: interior in Amber Gray Pro, a distinctive finish designed to enhance the sense of quality and provide a more refined interior design.

Extra capacity: provides greater usable storage volume than fridges of similar or even larger dimensions, with a total of 517 litres.

FastCooling: for two hours, the fridge compartment temperature is set to 2°C to cool new quantities of food more quickly.

FastFreezing: for four hours the freezer performance increases to set the temperature at -32°C, achieving quick freezing of new quantities of food.

Super-quiet inverter compressor: with improved performance and greater durability, it operates without consumption peaks and in an ultra-quiet mode at just 39 dB.

NoFrost with MultiAirFlow: cools and freezes without producing frost, achieving a more efficient operation and longer preservation time. In addition, MultiAirFlow maintains the natural moisture of food.

Holiday mode. Optimise energy consumption when you are away for long.

COMPOSITION:

Product, egg tray, ice cube tray, instruction manual.
