Designed and produced in Spain

Cecotec has its own factory located in Valencia, where the entire range of rest products is manufactured. In addition, we rely on national suppliers, which guarantees the quality of the materials and provides great flexibility in the production process, from the conception of the design to the final delivery to each client.

CERTIFICATES

Well-being guarantee

Oeko-Tex

The world leading eco-label guarantees that the materials used during manufacture are environmentally friendly and not harmful to health.

Ceco2Pure

Unique and exclusive treatment that transforms carbon dioxide and other harmful gases into elements that are harmless to health and the environment.

Eliminates CO_2, improves well-being.

All products in the Flow range feature the innovative Ceco2Pure technology, a revolutionary natural compound that absorbs CO_2 and transforms them into compounds that are not harmful to health. This creates a healthier environment that guarantees a unique rest, improving the well-being of each user on a daily basis.

Perfect balance for your rest

Discover the latest products in our rest range, designed to help you sleep well and wake up feeling even better. Mattresses, pillows, bases and headboards, everything you need to enjoy a dream rest.

Pocket springs

Discover a series that perfectly combines firmness and adaptability thanks to SpringProtect technology, which reduces the foaming of the mattress and enhances the advantages of its pocket spring core. But that's not all. It also features exclusive viscoelastic layers and premium materials:

REVIFRESH 40
Improves perspiration.

MOVETEX-4D
Greater adaptability.

VISCONATURE 60
Ecological viscoelastic.

ZEROGLEX
Prevents slippage.

Technical foams

A unique multi-layer design that adapts to the silhouette of the body thanks to its foam core, which provides superior firmness and extends its resistance to prevent deformation over time. It also incorporates viscoelastic layers and premium materials to improve the quality of your rest:

REVIFRESH 40
Reduces the heat factor.

FLEXINTEX
Flexible rest.

VISCOVEL 45
Fast cooling.

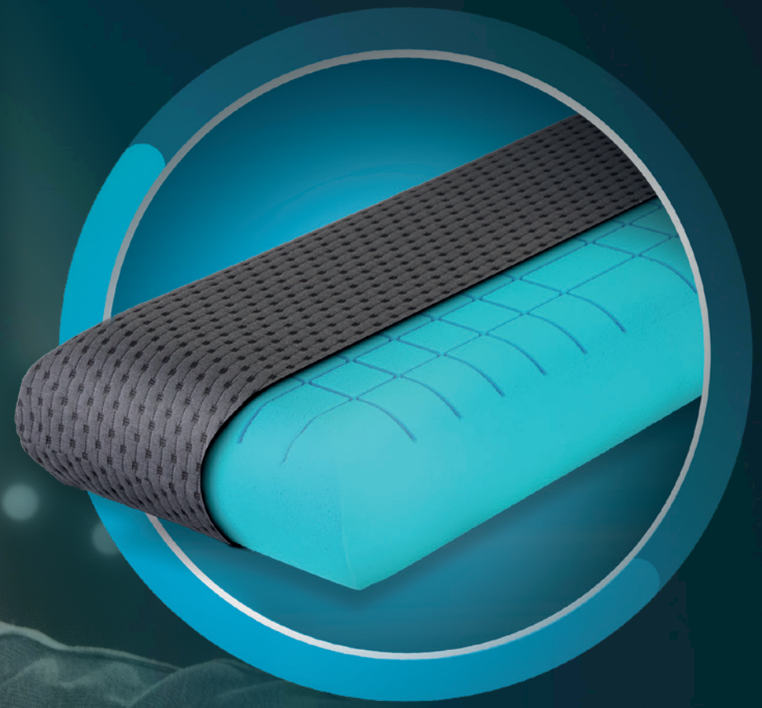

ZEROGLEX
Prevents slippage.

ERGONOMIC PILLOWS

They take care of your posture while protecting your sleep

Designed with super-soft foam or exclusive viscoelastic foam to adapt to each user. In addition, all models have a profiled core that improves breathability and an orange blossom oil base that guarantees a comforting rest thanks to its relaxing properties.

BASES

Design and technology to disconnect

LIGHT SENSORS
Activates when it detects that the user stands up.

MUSIC EQUIPMENT
Immersive audio experience.

15 CM HIGH
Allows the Conga to vacuum under the mattress.

LED LIGHT
Creates a cozy and welcoming atmosphere.

USB PORT
Connect devices and always have them at hand.

CECO2PURE TREATMENT
Eliminates carbon dioxide while improving well-being.

Flow Select mattresses

Pocket springs

Flow Select Earth

Multilayer hybrid mattress with AdaptCore 5-zone pocket spring core and ViscoNature 60 viscoelastic foam.

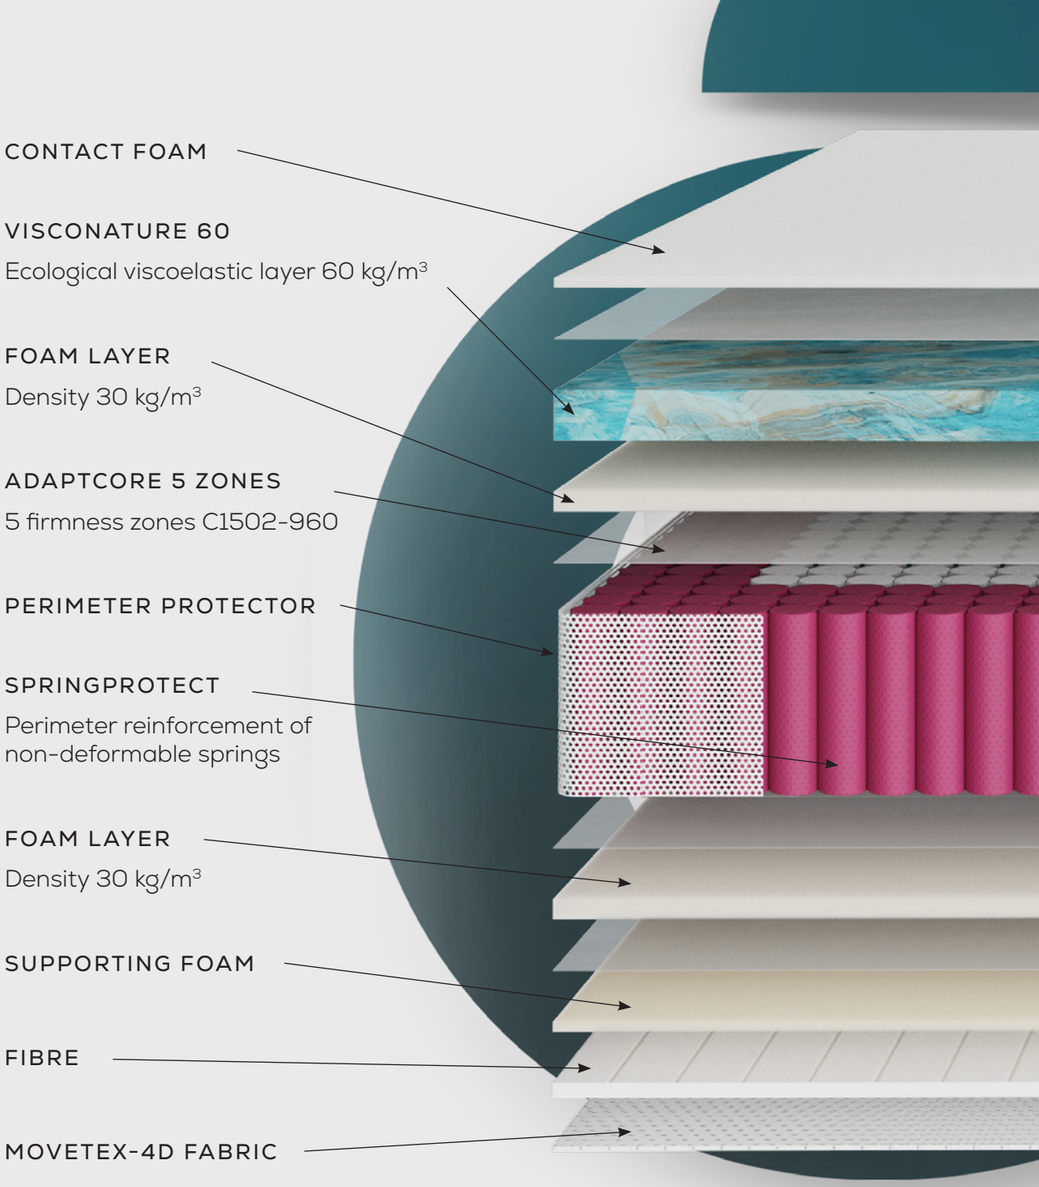

FEATURES:

100% pocket springs structure. Pocket spring core mattress with SpringProtect perimeter reinforcement of non-deformable springs that prevent deformation of the mattress.
Ceco2Pure treatment. It reduces the concentration of CO2 and NOx gases on surfaces and helps to maintain a healthy environment by minimising the health effects of these gases.
Rest always fresh. Perimeter protector in the mattress border area that allows air to circulate freely inside the mattress, regulating its temperature while preventing moisture condensation.
Adaptability: 8
Firmness: 7
Breathability: 9
Height: 29 cm
AdaptCore technology with 5 different firmness zones for total adaptability to the body. Number of springs: C1502 = 960.
ViscoNature 60. It has an ecological viscoelastic layer with a density of 60 kg/m^{3,} which allows personalised adaptability to the body, providing greater comfort during sleep.
MoveTex-4D fabric. A layer of fabric that offers adaptability and transformation, providing a more dynamic and functional experience than conventional textiles.
Multi-layer composition. The mattress offers a superior sleeping experience, with a firmness and adaptability ideal for rest and comfort, without neglecting the protection of the spine with good posture.
GermoTech control. Treatment against mites, bacteria and fungi.

COMPOSITION:

Mattress, instruction manual, warranty book

Flow Select Nebula

Multilayer hybrid mattress with AdaptCore Slim pocket spring core and MemoryLuxe Comfort 40 memory foam.

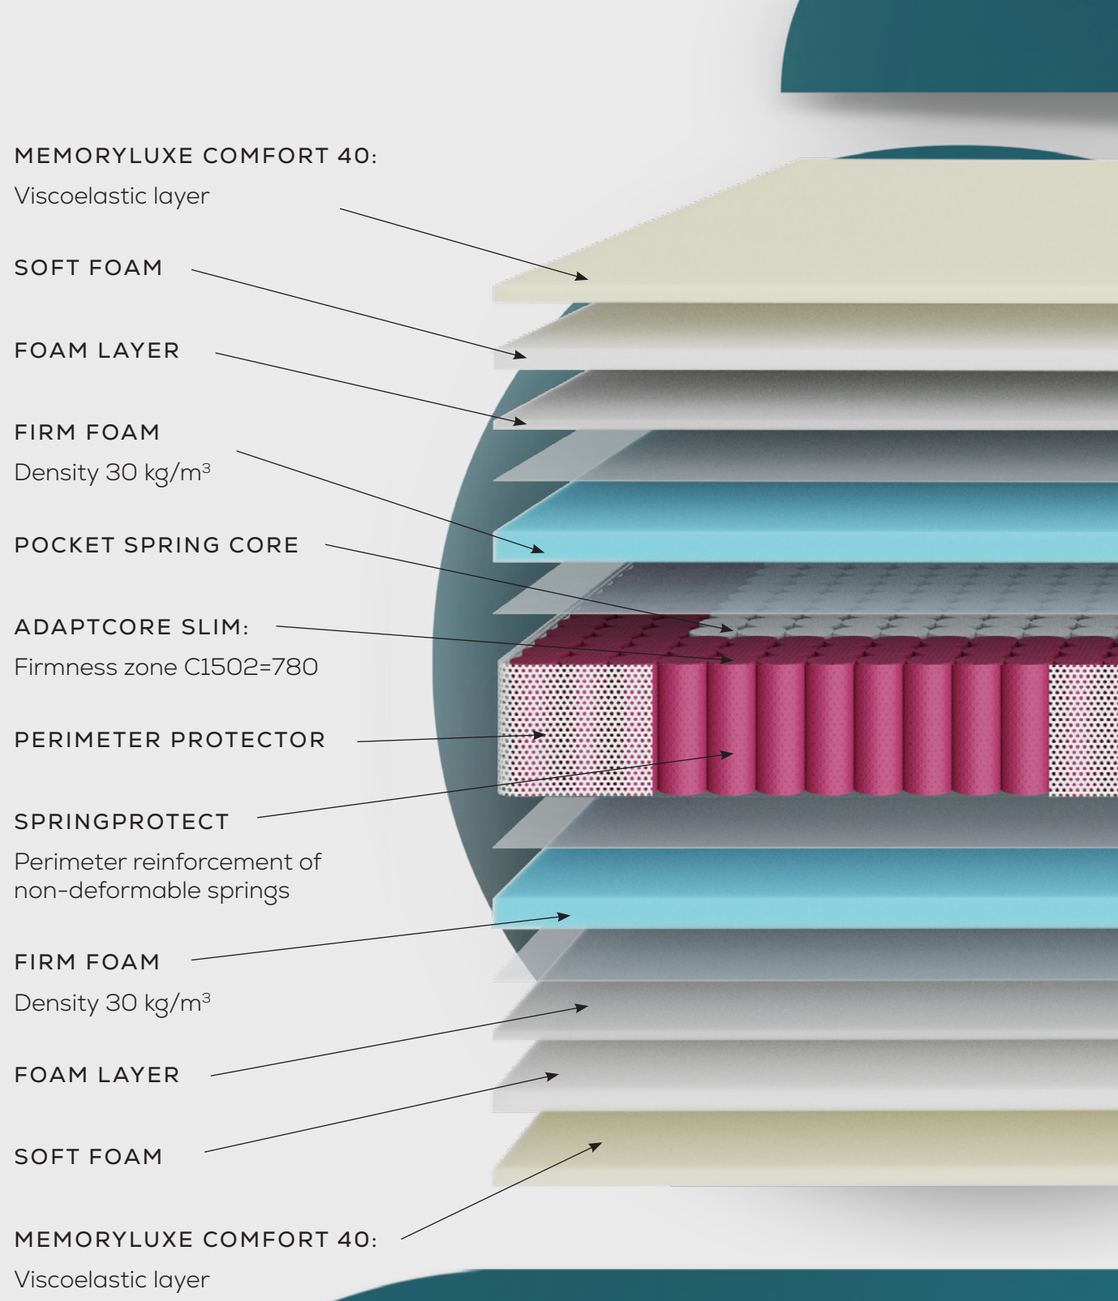

FEATURES:

Pocket spring core mattress with SpringProtect perimeter reinforcement of non-deformable springs that prevent deformation of the mattress.
Ceco2Pure treatment: reduces the concentration of CO2 and NOx gases on surfaces and helps to maintain a healthy environment by minimising the health effects of these gases.
Mattress perimeter protector: perimeter protector in the mattress border area that allows air to circulate freely inside the mattress, regulating its temperature while preventing moisture condensation.
Adaptability: 7
Firmness: 7.5
Breathability: 7.5
Height: 26 cm
AdaptCore Slim technology: a zone of firmness along the length of the mattress, with a thinner spring block. Number of springs C1502 = 780
MemoryLuxe Comfort 40: it has two viscoelastic layers with a density of 40 kg/m^3 that allows personalised adaptability to the body, providing greater comfort during sleep.
Reversible mattress, which allows both sides of the mattress to be used and prolongs the mattress' durability.
Sootex+: soft and comfortable fabric texture.
The multilayer composition of the mattress is designed to offer a superior sleeping experience, with a firmness and adaptability ideal for rest and comfort, without neglecting the protection of the spine with a good posture.
GermoTech control: treatment against mites, bacteria and fungi.

COMPOSITION:

Mattress, instruction manual, warranty book

Flow Select Touch

Multilayer hybrid mattress with AdaptCore Slim pocket spring core and Soft 40 foam.

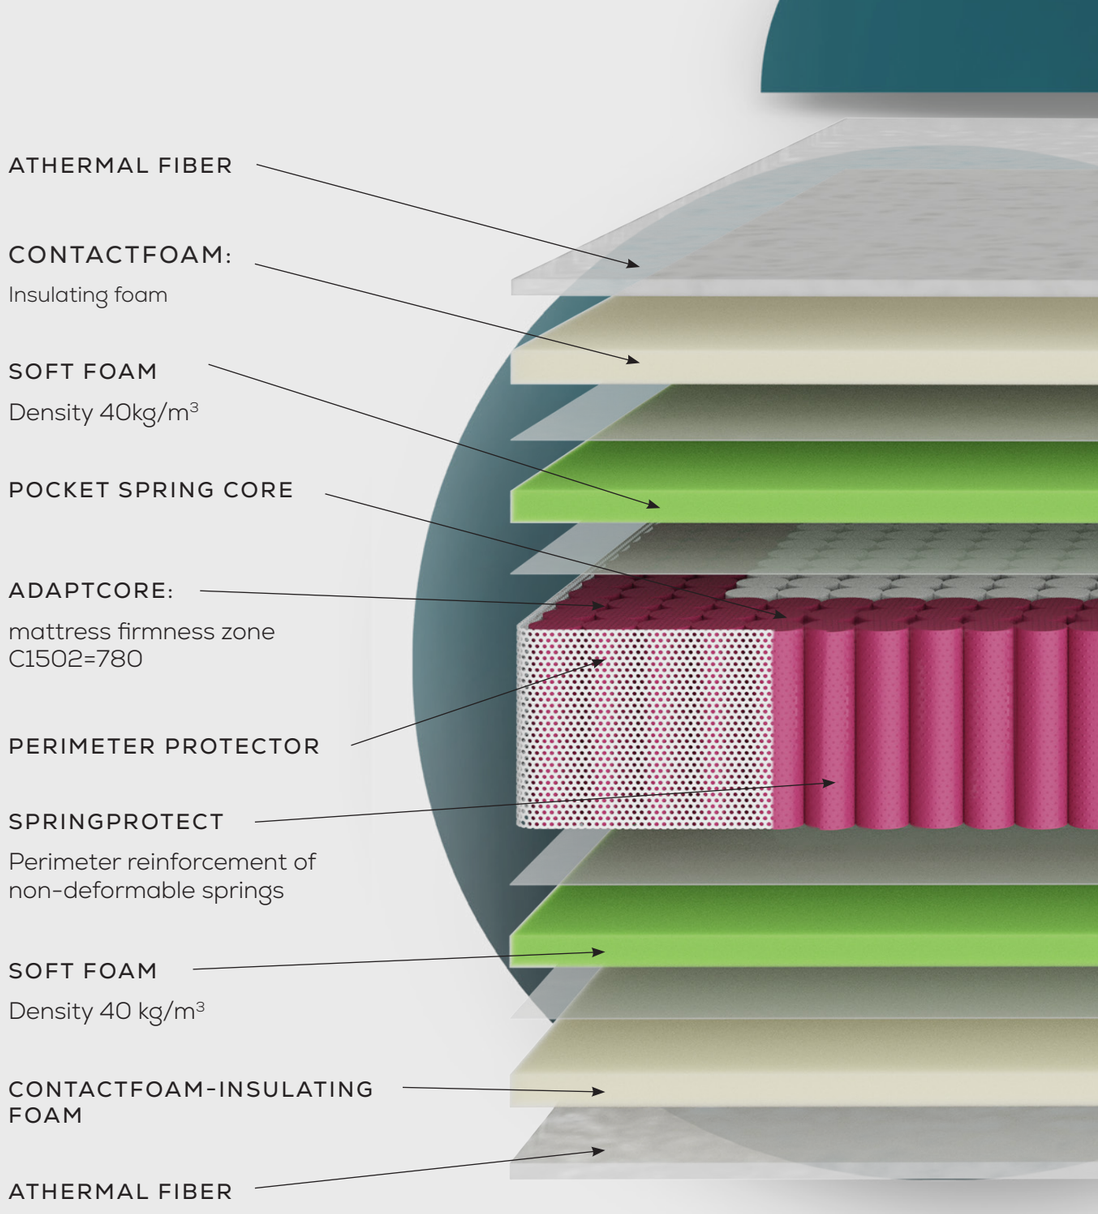

FEATURES:

Pocket spring core mattress with SpringProtect perimeter reinforcement of non-deformable springs that prevent deformation of the mattress.
Ceco2Pure treatment: reduces the concentration of CO2 and NOx gases on surfaces and helps to maintain a healthy environment by minimising the health effects of these gases.
Mattress perimeter protector: perimeter protector in the mattress border area that allows air to circulate freely inside the mattress, regulating its temperature while preventing moisture condensation.
Adaptability: 7
Firmness: 5
Breathability: 7.5
Height: 26 cm
AdaptCore Slim technology: a zone of firmness along the length of the mattress. Number of springs C1502 = 780
ContactFoam: it has two layers of insulating foam that keep your body fully supported for a good night's sleep.
Reversible mattress, which allows both sides of the mattress to be used and prolongs the mattress' durability.
Sootex+: soft and comfortable fabric texture.
The multilayer composition of the mattress is designed to offer a superior sleeping experience, with a firmness and adaptability ideal for rest and comfort, without neglecting the protection of the spine with a good posture.
GermoTech control: treatment against mites, bacteria and fungi.

Flow Select Bolt

Removable multilayer hybrid mattress with AdaptCore Slim pocket spring core and ViscoVel45 and EchoFlex 40 viscoelastic foam.

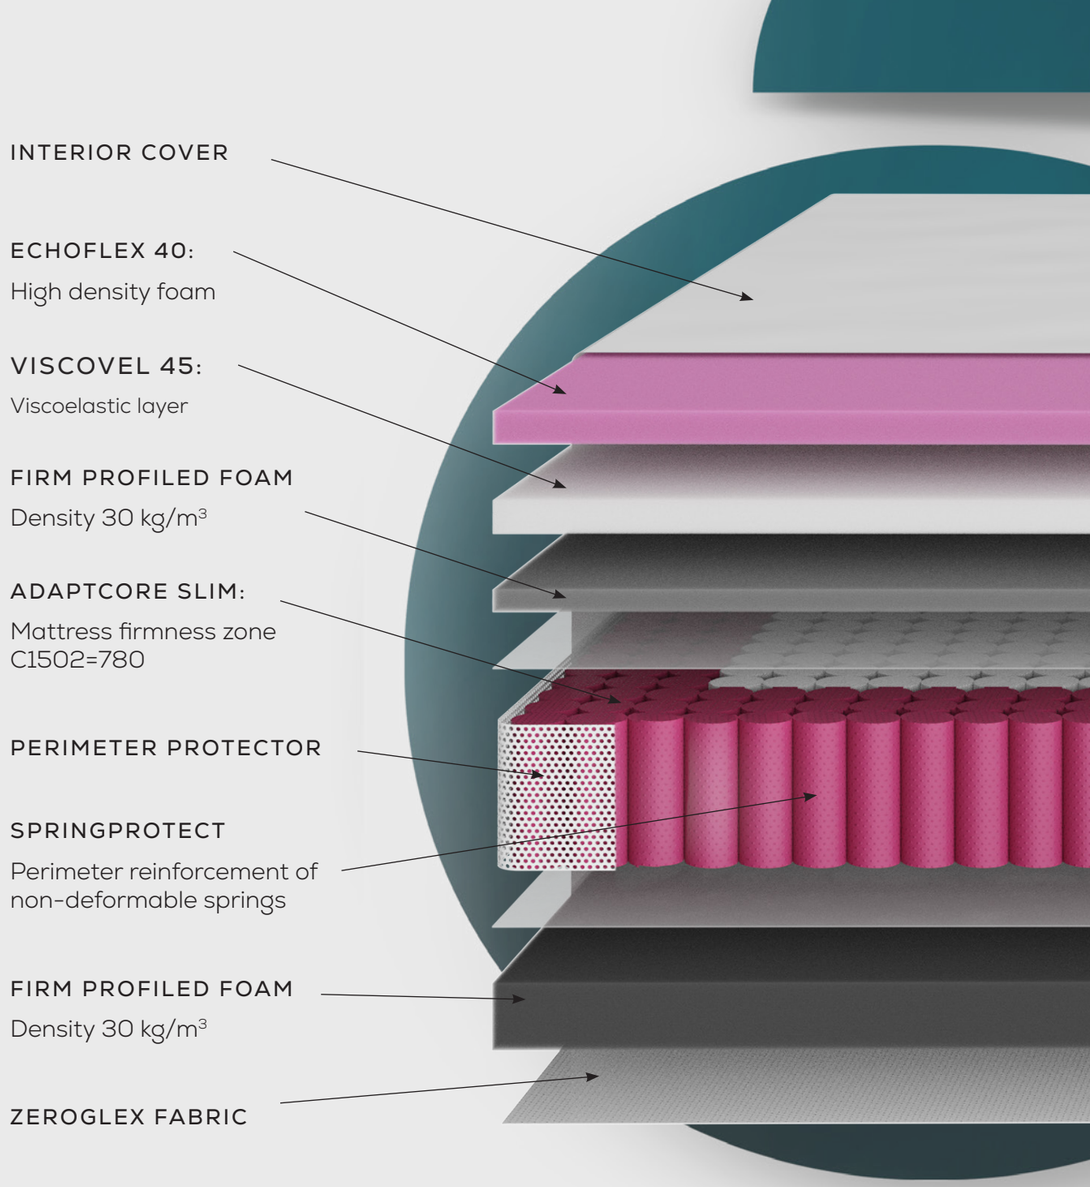

FEATURES:

Pocket spring core mattress with SpringProtect perimeter reinforcement of non-deformable springs that prevent deformation of the mattress.
Ceco2Pure treatment: reduces the concentration of CO2 and NOx gases on surfaces and helps to maintain a healthy environment by minimising the health effects of these gases.
Mattress perimeter protector: perimeter protector in the mattress border area that allows air to circulate freely inside the mattress, regulating its temperature while preventing moisture condensation.
Adaptability: 8
Firmness: 7
Breathability: 9
Height: 25 cm
AdaptCore Slim technology: a zone of firmness along the length of the mattress, with a thinner spring block. Number of springs C1502 = 780
Viscovel 45: it has a viscoelastic layer that returns very quickly to its original shape after pressure is released, providing continuous and comfortable support to the user. Its density is 45kg/m3.
EchoFlex 40: exclusive 40kg/m3 density foam that distributes pressure like viscoelastic but without memory effect.
ZeroGlex: fabric whose composition prevents the mattress from sliding on the support surface.
Removable cover: the mattress outer cover can be washed.
Knitted elastic cover with zip to pull up the mattress core, whose main function is to protect the mattress when the outer cover is removed for washing.
GermoTech control: treatment against mites, bacteria and fungi.

Technical foams

Flow Select Origins

H-Dense Foam 60 multilayer technical foam mattress with viscoelastic foam ViscoCalm 50.

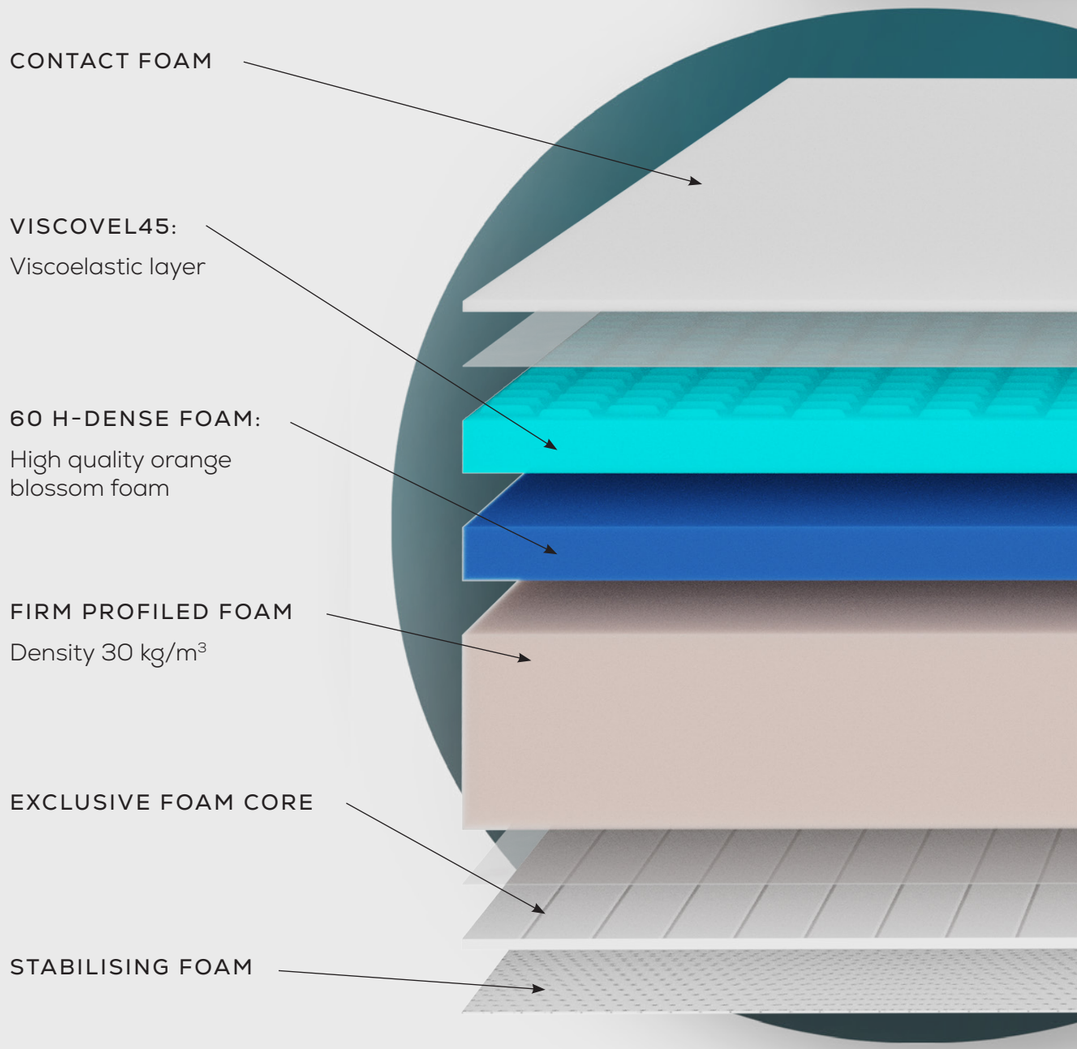

FEATURES:

Exclusive foam mattress.
Ceco2Pure treatment: reduces the concentration of CO2 and NOx gases on surfaces and helps to maintain a healthy environment by minimising the health effects of these gases.
Adaptability: 9
Firmness: 7
Breathability: 8
Height: 30 cm
ViscoCalm 50: it has a viscoelastic layer with a density of 50 kg/m^3 which, in addition to offering customised adaptability to the body, is formulated with orange blossom, which is said to have a great soothing power.
60 H-Dense Foam: high-density foam (60 kg/m^3) to prevent core deformation.
FlexinTex: fabric that provides comfort and flexibility due to its great capacity to adapt to different body shapes and return to its original position without deforming.
GermoTech control: treatment against mites, bacteria and fungi.

Flow pillows

Flow Select Sunset

Soft EchoFlex40 profiled core pillow with orange blossom essential oil.

FEATURES:

100% foam core. With orange blossom essential oil for a great soothing power.
Outer pillowcase with CO2Pure treatment. It reduces the concentration of CO2 and NOx gases on surfaces and helps to maintain a healthy environment.
Ventiluxe Tech. These pillows have a high degree of breathability thanks to the profiling of the cores, providing a cool rest.
Adaptability: 9
Firmness: 5
GermoTech control. Treatment against mites, bacteria and fungi.
Available in two sizes: 70 and 90 cm.
Vacuum-packed delivery. Folded and vacuum-packed pillow so that it arrives at your home in the best conditions.

COMPOSITION:

Pillow, instruction manual, warranty book

Flow Select Ocean

ViscoCalm50 viscoelastic profiled core pillow with orange blossom essential oil.

FEATURES:

100% viscoelastic core with orange blossom essential oil, which is said to have a great soothing power.
Outer pillowcase with CO2Pure treatment: reduces the concentration of CO2 and NOx gases on surfaces and helps to maintain a healthy environment by minimising the health effects of these gases.
Ventiluxe Tech: these pillows have a high degree of breathability thanks to the profiling of the cores.
Adaptability: 9
