CONGA™ ROVER

Unstoppable explorer. A spotless home.

Conga revolutionises autonomous cleaning with its adaptive Conga Rover™ system. Liquid spills, high-pile carpets, dirty corners, large obstacles... No matter the challenge, Conga deploys its technologies for spotless cleaning.

Corners and skirting boards?

DuoXtend[2]: extendable mop and brush

Obstacles?

HopWheel™[3]: liftable wheel

Liquid spills?

BrushUp™[1]: liftable central brush

1. Available for the Conga X100 model.
2. Available for the Conga X80 model.
3. Available on Conga X100 models.

Cleans without limits

ARTIFICIAL INTELLIGENCE + CAMERA[1]

Analyses the surroundings and adapts the cleaning.

The robot cleans just like you would, making decisions and adapting the cleaning to each situation. Thanks to its Artificial Intelligence and LaserEye, it navigates with precision even in cluttered environments, recognising small objects, floors, dirt, and liquids, avoiding hazards and providing a thorough clean.

BRUSHUP™[2]

Lifts the brush, boosts the mop

In mopping mode, this technology is activated to raise the main brush, preventing it from coming into contact with liquid stains to protect the brush and continue mopping with maximum efficiency.

1. The combination of navigation types available in the Conga X100 model.
2. Available for the Conga X100 model.

Cleans without limits

HOPWHEEL™²

Climbs up to 30 mm

This system lifts the omnidirectional wheel to effortlessly climb over rails, uneven surfaces, or small steps, preventing the robot from getting stuck and ensuring it reaches every room in your home.

DUOXTEND³

Deep cleans corners and edges

Conquers corners, cleans edges and hard-to-reach areas thanks to its Spin mop and extendable brush. A duo that allows you to vacuum thoroughly and mop even the most hidden areas.

OBJECT**RECOGNITION**

They vacuum well, and mop even better.

AQUACYCLE™

Always uses clean water

The innovative design of the dual-material mop provides impeccable cleaning in three steps: dampens the mop with clean water, scrubs thoroughly, and wrings out the mop in the dirty water tank. An innovative process the robot repeats tirelessly at full speed for an impeccable mopping.

XXL DUAL-MATERIAL MOP

Efficient and deep scrubbing

Its large, bi-material cyclical mop with a super-absorbent texture ensures impeccable cleaning, covering more area in each pass without losing effectiveness, leaving the floor shiny in less time.

WET&PROTECT

Adapts the mop, takes care of carpets

Its intelligent mopping adapts its bi-material mop according to the surface. Deep cleans with its super-absorbent side and, when detecting a carpet, activates CarpetCare mode and selects the smooth side of the mop that hasn't been dampened to protect it.
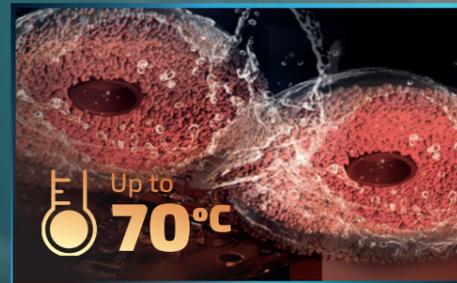

1. Compared to Conga robots on the market until October 2025.

Complete hands-free maintenance.

Cleaning has never been easier. Forget about maintenance tasks for weeks[1] thanks to the new Conga Base, which takes care of everything so you can simply enjoy a clean home without problems.

Empties the dust for you

Forget about maintenance; the base empties the solid waste tank, providing up to 100 days[1] of independence.

WETCARE

Cleans with 70°C water[2]

It wrings out waste water from the mops and cleans them with hot water, leaving their fibres like new.

Up to
70°C

THERMAL CLEAN

Disinfects with soap

Now its Station adds soap[5] to the hot water cleaning, a powerful combination that eliminates up to 99.9% of germs, leaving the mops pristine.

DRYCARE

Dries and prevents odours

After washing the mops, the base dries them quickly with hot air[3] to prevent unpleasant odours and germs.

SPINOFF

Self-removing mops

Conga automatically detaches the mops[4] and leaves them in the base when mopping mode is not selected, thus protecting carpets and maximising suction power.

OBJECTDETECTION

AI

cecotec

1. The time lapse between autocleans will depend on the environmental conditions and usage habits.
2. Hot water cleaning available for the Conga X100 and Conga X80 models.

3. Hot air drying available for the Conga X70, X80, and X100 models.
4. Available for the Conga X100 model.
5. Available for the Conga X80 model.

Technologies

Self-emptying, goodbye allergies.

Forget about touching dust

Say goodbye to dust and allergies for up to 12 weeks![1]
The Dust-in Home™ station self-empties the dust, so you only need to change the hygienic dust bag.

More compact, same capacity

Space is no longer an issue; the base is now more compact.
Save space and time, thanks to self-emptying.

Smart cleaning

AI + CAMERA[1]

Analyses, processes and acts

Enjoy thorough, ultra-precise cleaning, even in cluttered rooms. Thanks to its camera[1] and Artificial Intelligence[2], a combination that allows the robot to analyse the environment, it recognises objects, avoids them and makes decisions on the spot. What's more, thanks to its camera, it identifies all types of objects (large and small) and allows you to track cleaning in real time.

LASER EYE™

Accurate navigation, even with no light

Not only does the robot feature AI and a camera, but it also includes built-in laser[3] technology to clean with the same precision in both bright and dark environments. So no matter if it's night time or if you're on vacation and you left the blinds down; the Conga will continue to clean with the utmost precision.

25000Pa

cecotec

1. Available for the Conga X100 model.
2. Available for the Conga models: M100, Y80, Y100, X70, X100 and Z100.

3. Laser navigation not available for the M10 and M20 models.

25.000 Pa. 0 dirt

Go from powerful to ultra-powerful with up to 25 000 Pa[1] of suction – extreme power that effortlessly sweeps away dirt. Forget even about micro-dirt, Conga vacuums thoroughly even in the most difficult areas such as tile joints or thick carpets.

Pascales (Pa): 'negative' pressure or force exerted by the vacuum cleaner through the combination of its motor and brush to suck dirt from the floor. Suction level varies according to the number of pascals, i.e., the higher the pascals, the more dirt will be vacuumed.

Model	Power
CONGA X100	25.000 Pa
CONGA X80	25.000 Pa
CONGA Y100	25.000 Pa
CONGA Y90	25.000 Pa
CONGA Y80	25.000 Pa
CONGA M100	25.000 Pa
CONGA M90	25.000 Pa
CONGA M80	25.000 Pa
CONGA Z100	20.000 Pa
CONGA X70	20.000 Pa
CONGA X50	20.000 Pa
CONGA Y60	13,000 Pa
CONGA M60	13,000 Pa
CONGA M10	3.000 Pa

1. Power varies depending on the model.

Reaches all corners

Take your home cleaning to a new level with Conga's advanced technology, which allows to avoid obstacles and reach the most difficult corners effectively.

BRUSHXTEND™

Detailed vacuuming for every corner

It reaches places other vacuum cleaners cannot thanks to its extendable side brush[1], which allows Conga to clean even the tightest corners effectively.

SPINXTEND™

Thorough mopping
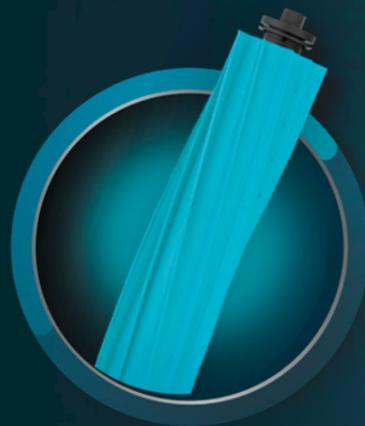

Its extendable right mop[2] allows it to reach edges and clean under furniture, ensuring a thorough mopping where no other mop can reach.

cecotec

1. Available for the Conga X100 model
2. Available for the Conga X70 and Conga X100 models

Cleaning stars

HAIRCUT BRUSH™[5]

Cuts hair, eliminates manual maintenance

Tangled hair[1] from long or pet hair is definitively a thing of the past, thanks to integrated blades inside the brush that cut potential tangles and prevent manual maintenance.

SILICONE BRUSH[2]

The brush your floors need

Forget about changing brushes to adapt to different cleaning needs. Its silicone design makes it highly versatile and also traps long and pet hair without tangles.

HAIRLESS BRUSH™[3]

An anti-tangle whirlwind[1]

Anti-tangle brush with a single-axis, conical design makes the hair accumulate on one side to be vacuumed up, preventing tangles and reducing maintenance.

2. Available in the M80, M90, M100, Y70, Y80, Y 90, Y100 and Z100.
3. Available for the Conga X70 model.
5. Available on the Conga X100 model.

Smart scrubbing

The revolutionary Spin[1] mopping system is now even more advanced: not only does it effortlessly remove dirt, but it also adapts the mops to different cleaning needs.

Cleans edges and corners

Conga extends cleaning to hard-to-reach areas, such as under furniture or skirting boards, thanks to its extendable mop[2] design, which broadens its reach and improves results.

Knows what to mop and what not to mop

Now, the robot has a system that automatically raises the mops[2] up to 10 mm when it detects carpets, thus protecting them from getting wet and allowing the robot to vacuum thoroughly.

SPINX-TEND

SPIN MOPS™

Tackles ingrained stains

Forget the mop and enjoy sparkling floors thanks to its high-speed rotating mop system, which effortlessly removes even the toughest stains. Furthermore, it allows for customisable water flow to adapt mopping to the needs of different floor types and dirt levels.

1. Not available for models: M10, M20, M50 and M70.
Available for the Conga models: M100, Y100, X50, X70 and X100.

A new concept of connectivity

Plan and schedule the cleaning quickly and in a fully customised way from anywhere. You decide from the app, the laser maps and Conga cleans rooms to your preference.

SHORTCUTS[1]

The app saves the most used settings so you don't have to waste time selecting the type of cleaning. One click and you're done!

VIDEOMANAGER[2]

Monitor your home in real time and keep an eye on your pet.

ROOM PLAN[1]

Decide on a room-by-room cleaning mode so that Conga cleans just as you would.

cecotec

1. Feature available for selected models.
2. Available for the Conga X100 model.

Self-sufficiency that handles anything

The Conga battery is designed to clean your entire home thoroughly without stopping, covering up to 240 m² on a single charge.

LARGE HOUSEHOLDS

Total cleaning without interruptions

Enjoy extreme cleaning all over your home thanks to a battery of up to 5200 mAh, which allows you to cover up to 240 m² to remove dirt from every last corner.

SMALL HOUSEHOLDS

Quick and thorough cleaning

Activate the Turbo mode and the robot will deep clean your entire house in no time. This way, Conga cleans while you are away, so that when you get home your floors are spotless.

TOTAL SURFACE 3.0

Never leaves the job half done

If the robot detects that it does not have enough battery power to complete the task, it returns to its base to charge only as much as necessary. Then, it resumes cleaning from the exact point where it left off, completing the task quickly and efficiently.

Conga M10 Advance

Conga M10 Advance robot vacuum cleaner.
Gyroscopic ordered navigation. 3000 Pa suction pressure. 150-minute runtime. Anti-fall sensors and dual side brushes.

FEATURES:
Orderly cleaning. Gyroscopic navigation: allows the robot to clean all rooms efficiently.
Vacuums dust, hair and all types of dirt. 3000 Pa motor suction for effortless cleaning.
Covers up to 150 m² without interruptions. Lithium-ion battery with up to 150 minutes of uninterrupted suction performance in ECO mode.
*Based on laboratory tests. Actual performance varies according to home layout.
Traps dirt without tangles. Suction nozzle: directly removes dirt, reducing maintenance.
Customised cleaning. App Control: plan and schedule each cleaning routine from your mobile phone, select vacuum and mopping mode.
Cleans narrow and low areas. 300 mm diameter and 80 mm height: allows the robot to move easily through hard-to-reach spaces.
Safe navigation in dual-height areas. Anti-fall sensors that allow the robot to reverse when it detects a step.
Increases the operating range. Dual side brush: enables effective cleaning with each pass.

COMPOSITION:
Robot vacuum cleaner, charging base

40.5 x 12.9 x 34.6 cm 3.58 kg
42.5 x 14.5 x 36 cm 3.93 kg

7.8 x 30 x 30 cm 2.22 kg

Conga M10 Advance Aqua

Conga M10 robot vacuum cleaner. Gyroscopic ordered navigation. 2000 Pa suction pressure. 120-minute runtime. Anti-fall sensors and dual side brushes.

FEATURES:
Orderly cleaning. Gyroscopic navigation for an orderly and efficient cleaning of all rooms.
Sweeps away dust, hair, and all types of dirt. 3000 Pa: motor suction that enables detailed vacuuming.
Vacuums up to 150 m². 2000 mAh battery: clean without interruptions for 120 minutes, runtime that allows the robot to cover up to 120 m².
*Based on laboratory tests. Actual performance varies according to home layout.
Vacuums everything without tangles. Suction mouth: effectively removes dirt, prevents tangles and reduces brush maintenance needs.
Total cleaning in one pass. Vacuums, sweeps, mops and wipes, achieving spotless results in less time.
Cleans narrow and low areas. 300 mm diameter and 80 mm height: allows the robot to move easily through hard-to-reach spaces.
Customised cleaning plan. App: set vacuum and mopping modes, and schedule the cleaning plan from your mobile.
Mops and vacuums simultaneously. Water tank and mop.
Safe navigation. 3 anti-fall sensors that allow the robot to immediately reverse when detecting a step.
Increases the operating range. Dual side brush: enables effective cleaning with each pass.

COMPOSITION:
Robot vacuum cleaner, mop, charging base

40.3 x 12.7 x 34.5 cm 3.79 kg

Conga M60 Dark

Conga M60 Dark robot vacuum cleaner. Laser navigation. 13,000 Pa motor suction. Up to 200 minutes of runtime in ECO mode. Multifunction brush, suitable for all types of surfaces. Compatible with Bluetooth and 2.4GHz Wi-Fi networks.

FEATURES:
Precise cleaning with interactive map. Laser navigation: creates a quick and precise mapping of the entire home, generating an interactive map to clean each room in a personalised way.
Vacuums deeply without effort. 13,000 Pa: gets rid of dust, hair and all types of dirt thanks to its ultra-powerful suction, leaving floors spotless.
Covers up to 200 m² without interruptions. 3200 mAh battery that delivers efficient and continuous cleaning, ensuring complete coverage without needing to recharge.
*Based on laboratory tests. Actual performance varies according to home layout.
Effective cleaning of floors and carpets. Multi-function brush with bristles and silicone, all-terrain design that achieves effective cleaning on both floors and carpets.
Reaches hard-to-reach areas. Compact design (320 mm diameter and 100 mm height): allows the robot to move easily through reduced spaces, reaching even the most difficult corners.
Continuous and independent cleaning. 460 ml water tank and 350 ml dust tank that allow frequent cleaning without having to constantly empty and refill.
Personalise cleaning from your smartphone. Cecotec App: define, plan and schedule cleaning to achieve tailor-made results for each room in the most comfortable way.
Total cleaning in one pass. Vacuums, sweeps, scrubs and mops.
Always completes the cleaning plan. Total Surface: allows the robot to return to its base when it's low on battery to recharge and resume cleaning from the same point where it left off.
Adapts the water level to every surface. Smart mopping with 3 flow levels to adapt to the needs of each floor.
Quick and easy pairing. Bluetooth and Wi-Fi for 2.4 GHz networks.

COMPOSITION:
Robot vacuum cleaner, charging base, mop pad

Conga M100 X-Treme

Conga M100 robot vacuum cleaner with liftable rotating mops. Artificial Intelligence and 25000 Pa suction. Anti-tangle silicone brush. Up to 220 m² runtime. App 3.0 Control.

FEATURES:
Smart navigation that avoids objects and prevents risks. Artificial Intelligence and Laser Eye: the robot maps your home and cleans intelligently, avoiding even small objects to prevent accidents and achieve maximum precision.
Sweeps away dirt, even on high-pile carpets. 25,000 Pa: ultra-powerful suction that delivers a deep clean on any surface, including the most difficult-to-reach areas.
Quick and deep-cleaning mopping. Spin mops: two high-speed rotating mops that remove even the toughest stains effortlessly.
Lifts mops and protects carpets from moisture. Spin Up: liftable mops designed to prevent moisture from contacting carpets while ensuring deep vacuum cleaning.
Cleans large floors without interruption. Covers up to 220 m² (4500 mAh battery)*: designed to provide efficient and continuous cleaning, ensuring complete coverage without needing to stop for recharging.
*Based on laboratory tests. Actual performance varies according to home layout.
All-round cleaning without tangles. Silicone brush: ideal for homes with pets thanks to its tangle-free design, which allows you to clean all types of dirt from various surfaces effectively and without hassle.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Define, plan and schedule cleaning by zones. APP 3.0: customise the cleaning of each room from anywhere. Choose the cleaning order, restrict areas and achieve tailored cleaning from your smartphone.
Always completes the cleaning plan. Total Surface 3.0: if the robot runs out of battery power, it automatically returns to the charging base and then resumes cleaning to complete the scheduled cleaning once the battery is charged.
Customised mopping for every floor. Three flow levels that allow to adapt the mopping water flow to each floor's needs.
Quick and easy pairing. Bluetooth and 2.4 and 5 GHz WiFi allowing easy connection to your networks and devices.

COMPOSITION:
Robot, charging base, mop pads.

35.2 x 13 x 40.6 cm 4.48 kg
36.5 x 14.3 x 43.5 cm 4.88 kg

31 x 31 x 12.5 cm 3.45 kg

Conga Y60 Dark

Conga Y60 Dark robot vacuum cleaner with self-emptying base. Laser navigation. 13,000 Pa motor suction. Up to 200 minutes of runtime in ECO mode. Multifunction brush, suitable for all types of surfaces. 3 L dust bag. Compatible with Bluetooth and 2.4GHz Wi-Fi networks.

FEATURES:
Maps your home and cleans with precision, even in low light. Laser navigation: creates a quick and precise mapping of the entire home, generating an interactive map to clean each room in a personalised way.
Vacuums deeply without effort. 13,000 Pa: gets rid of dust, hair and all types of dirt thanks to its high power, leaving floors free from dirt.
Forget about touching dust and allergies. Self-emptying base: the most hygienic solution, avoiding direct contact with dust and retaining dust and allergens to keep the environment clean and help prevent allergies.
Up to 100 days of hands-free cleaning. 3 L capacity base that enables the robot to empty its tank automatically for weeks, achieving completely independent cleaning.
*Range varies according to environmental conditions and usage habits.
Covers up to 200 m² without interruptions. 3200 mAh battery: provides the robot with high autonomy for cleaning large houses without interruption or medium-sized homes in Turbo mode.
*Based on laboratory tests. Actual performance varies according to home layout.
Effective vacuuming on hard floors and carpets. Multifunctional brush designed with bristles and silicone to offer all-terrain cleaning, effective on both hard floors and carpets.
Cleans narrow and low spaces. Compact design (320 mm diameter and 100 mm height): allows the robot to move easily through hard-to-reach areas, such as the gap between narrow chair feet or under furniture.
Continuous and independent cleaning. 460 ml water tank and 350 ml dirt tank, capacity that enables the robot to clean effectively without needing to empty or refill its tanks frequently.
Personalise cleaning from your smartphone. Cecotec App: define, plan and schedule cleaning to achieve tailor-made results for each room in the most comfortable way.
Total cleaning in one pass. Vacuums, sweeps, mops and scrubs achieving complete cleaning quickly.
Always completes the cleaning plan. Total Surface: allows the robot to return to its base when it's low on battery to recharge and resume cleaning from the same point where it left off.
Tailored mopping for each floor type. 3 flow levels to adapt mopping to the needs of each moment and floor type.
Quick and easy pairing. Bluetooth and Wi-Fi for 2.4 GHz networks.

Conga Y100 Spin AI

Conga Y100 robot vacuum cleaner. Laser navigation. 20000 Pa suction pressure. Covers up to 220 m². Special silicone brush for homes with pets. Self-emptying base with dust bag.

FEATURES:

Smart navigation that avoids objects and prevents risks. Artificial Intelligence: the robot cleans intelligently and can avoid objects, even small ones, to prevent risks and clean with maximum precision. AI LaserEye.
Sweeps away dirt, even on high-pile carpets. 20,000 Pa: ultra-power that achieves deep cleaning on any surface, even in the most challenging areas without effort.
Forget about cleaning and your robot for weeks*. 2.8 L base with automatic solids tank emptying to eliminate contact with dust and allergens, enabling fully autonomous cleaning for weeks.
*Range varies according to environmental conditions and usage habits.
Quick and deep-cleaning mopping. Spin mops: two high-speed rotating mops that remove even the toughest stains effortlessly.
Lifts mops and protects carpets from moisture. Spin Up: liftable mops, designed to prevent moisture from contacting carpets or to clean rooms where you only want to use the vacuum function.
Cleans large floors without interruption. Covers up to 220 m² (3200 mAh battery)*: designed to provide efficient and continuous cleaning, ensuring complete coverage without needing to stop for recharging.
*Based on laboratory tests. Actual performance varies according to home layout.
All-round cleaning without tangles. Silicone brush: ideal for homes with pets thanks to its anti-tangle design, which allows you to clean all types of dirt effectively without hassle.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Define, plan and schedule cleaning by zones. APP 3.0: customise the cleaning of each room from anywhere. Choose the cleaning order, restrict areas and achieve tailored cleaning from your smartphone.
Always completes the cleaning plan. Total Surface 3.0: if the robot runs out of battery power, it automatically returns to the charging base and then resumes cleaning to complete the scheduled cleaning once the battery is charged.
Customised mopping for every floor. Three flow levels that allow to adapt the mopping water flow to each floor's needs.
Quick and easy pairing. Bluetooth and 2.4 and 5 GHz WiFi allowing easy connection to your networks and devices.

Conga X50

Conga X50 robot vacuum cleaner. 20.000 Pa suction motor. 4-in-1 base, laser navigation, spin mops, side brush. Total self-emptying base for dust, water and mop cleaning. App and Bluetooth and WiFi connectivity for 2.4 GHz networks.

FEATURES:
Laser navigation. Precise cleaning with laser navigation and interactive map. Creates a detailed map of your home to clean every corner with accuracy, regardless of lighting conditions. Its advanced technology ensures quick and error-free path planning.
Spin mopping. Quick and deep-cleaning mopping. With its Spin mops, it removes even the toughest stains effortlessly. Forget traditional mops and enjoy brilliantly clean floors.
Ultra Power 20.000 Pa. 20.000 Pa power thanks to its Ungravity motor. Great suction power to clean even hidden dirt in high-pile carpets or deep tile joints.
All-in Home base. Complete maintenance for impeccable cleaning. The base wrings out dirty water, washes the mops and dries them with air. Moreover, forget about dust and allergies thanks to its self-emptying system that automatically empties the hygienic bag for up to 12 weeks*.
*Self-maintenance time may vary depending on environmental conditions and usage habits.
SpinUp technology. Vacuums with precision and cares for delicate surfaces. Thanks to SpinUp technology, its mops rise up to 8 mm, preventing moisture from contacting carpets or allowing vacuum-only operation in rooms or surfaces where mopping isn't needed.
All-terrain brush. Multifunction brush ideal for all surface types. Designed with two materials, featuring bristles and rubber silicone for hard floors and carpets.
Carpet Care. Protects and deep cleans your carpets. Thanks to its detection sensors, it lifts the mops to protect them from moisture while focusing on maximum suction power.
Long Range. No floor stands in its way. Vacuums up to 240 m² for 240 minutes without interruptions. Its 5200 mAh battery offers up to 240 minutes of continuous use, perfect for covering areas up to 240 m²*.
*Based on laboratory tests. Actual performance varies according to home layout.
App 3.0. With App 3.0 enjoy a personalised and always updated experience. Plan and schedule vacuuming and mopping of your rooms on the map.
Total Surface 4.0. Ensures complete cleaning with Total Surface 4.0. Features a 180-minute runtime and if not sufficient, returns to the base, recharges the necessary battery and continues from the exact point where it stopped.

COMPOSITION:
Robot vacuum cleaner, self-emptying base with 2 tanks (clean and waste water), dust bag, side brush, 2 spinning mops, power cable, brush, instruction manual

Conga X50 X-Treme

Conga X50X-Treme robot vacuum cleaner. 20.000 Pa suction motor. 4-in-1 base, laser navigation, spin mops, side brush. Total self-emptying base for dust, water and mop cleaning. App and Bluetooth and WiFi connectivity for 2.4 GHz networks.

FEATURES:
Maps your home and cleans with precision. Laser navigation: creates an interactive map of your home, allowing you to clean every corner in a personalised and precise manner.
Adaptive cleaning. Home Rover: improves cleaning performance thanks to its adaptive technology, which raises its mops when it detects carpets to protect them from moisture and vacuum them thoroughly.
Sweeps away dirt, even on high-pile carpets. 20,000 Pa: ultra-power that achieves deep cleaning on any surface, even in the most challenging areas.
Quick and deep-cleaning mopping. Spin Mops: a mopping system that effortlessly removes even the toughest stains. Forget traditional mops and enjoy brilliantly clean floors.
Complete hands-free maintenance. All-in Home Station: say goodbye to dust and allergies thanks to its self-emptying system, which provides up to 12 weeks of independent functioning. It also wrings out the dirty water from the mops, cleans them and air-dries them, leaving them pristine.
*Self-maintenance time may vary depending on environmental conditions and usage habits.
Lifts up the mops, protects carpets and boosts suction. Spin Up: mops, which lift up to 8 mm, are designed to prevent moisture from contacting carpets while ensuring deep vacuum cleaning.
Effective cleaning on a variety of surfaces. Multifunction brush: made from two materials – bristles and silicone rubber – ideal for effectively vacuuming both hard floors and carpets.
Looks after your carpets and vacuums them thoroughly. Carpet Care: detects carpets, raises the mops and boosts suction, protecting fabrics from moisture and thoroughly vacuuming between the fibres.
Covers up to 240 m² without interruptions. 5200 mAh battery*: designed to deliver efficient, uninterrupted cleaning, ensuring thorough coverage without the need to stop to recharge.
*Based on laboratory tests. Actual performance varies according to home layout.
Define, plan and schedule cleaning by zones. APP 3.0: customise the cleaning of each room from anywhere. Choose the cleaning order, restrict areas and achieve tailored cleaning from your smartphone.
Always completes the cleaning plan. Total Surface 4.0: if the robot runs out of battery, it returns to the charging base and resumes cleaning from the exact point where it left off, completing the scheduled cleaning cycle once the battery is fully charged.

COMPOSITION:
Robot vacuum cleaner, self-emptying base with 2 tanks (clean and waste water), dust bag, side brush, 2 spinning mops, power cable, brush, instruction manual

53.7 x 40.8 x 40 cm 13 kg
53.7 x 40.8 x 40 cm 13 kg

Conga X70

Conga X70 Spin robot vacuum cleaner. 20.000 Pa suction motor. 4-in-1 base. Laser technology and Artificial Intelligence. Spinning mops. Side brush. App and Bluetooth and WiFi connectivity for 2.4 GHz networks.

FEATURES:
Smart navigation: avoids obstacles and cleans with precision. Artificial Intelligence and Laser Eye: the robot maps your home and cleans intelligently, avoiding even small objects to prevent accidents and achieve maximum precision
Adaptive cleaning. Home Rover: takes cleaning to the next level thanks to its adaptive technology, which optimises scraping performance and protects delicate surfaces.
Sweeps away dirt, even on high-pile carpets. 20,000 Pa: ultra-power that achieves deep cleaning on any surface, even in the most challenging areas.
Quick and deep-cleaning mopping. Spin Mops: a mopping system that effortlessly removes even the toughest stains. Forget traditional mops and enjoy brilliantly clean floors.
Lifts up the mops, protects carpets and boosts suction. Spin Up: mops, which lift up to 8 mm, are designed to prevent moisture from contacting carpets while ensuring deep vacuum cleaning.
Thorough mopping of edges and low-lying areas. SpinXtend: an extendable right-side mop for cleaning hard-to-reach areas that a conventional mop cannot reach, such as skirting boards or the undersides of furniture.
Vacuums thoroughly and without tangling. Hairless Brush: a brush designed in a "V" shape, featuring a system that captures all types of dirt and hair tangles, improving cleaning performance and reducing maintenance.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Complete hands-free maintenance. All-in Home Station: say goodbye to dust and allergies thanks to its self-emptying system, which provides up to 12 weeks of independent functioning. It also wrings out the dirty water from the mops, cleans them and air-dries them quickly with hot air, leaving them pristine.
*Self-maintenance time may vary depending on environmental conditions and usage habits.
Takes care of and vacuums your carpets thoroughly. Carpet Care: detects carpets, raises the mops and boosts suction, protecting fabrics from moisture and thoroughly vacuuming between the fibres.
Covers up to 240 m² without interruptions. 5200 mAh battery*: designed to deliver efficient, uninterrupted cleaning, ensuring thorough coverage without the need to stop to recharge.
*Based on laboratory tests. Actual performance varies according to home layout.
Define, plan and schedule cleaning by zones. App 3.0: customise the cleaning of each room from anywhere. Choose the cleaning order, restrict areas and achieve tailored cleaning from your smartphone.

Conga X80 Pro

Conga X80 Robot Vacuum with Self-Emptying and Water Docking Station. 25,000 Pa. Artificial Intelligence. Extendable and liftable rotating mops. Battery life covering up to 240 m². Hot water disinfection and hot air drying of mops. Detergent dispenser. App.

FEATURES:
Smart navigation that avoids objects and prevents risks. Artificial Intelligence and Laser Eye: the robot cleans intelligently and can avoid objects, even small ones, to prevent risks and clean with maximum precision.
Adaptive technology for precision cleaning to every corner. Home Rover 2.0: conquers any environment with the Home Rover adaptive cleaning system. Conga extends its side brush and Spin mops to reach cleaning in the most difficult areas and also raises the mops to protect carpets or delicate surfaces while enhancing vacuuming.
Sweeps away dirt, even on high-pile carpets. 25,000 Pa: ultra-power that achieves deep cleaning on any surface, even in the most challenging areas.
Mops from start to finish with clean water. Perfect Wash: excellent mopping thanks to the Spin mop system with super-absorbent texture, which cleans at full speed with mops always damp to eliminate even the most stubborn ingrained stains.
Complete maintenance with mop disinfection. All-in Home Soap Disinfection station: empties the solids tank, drains dirty water, disinfects mops with soap and water at 70°C, dries them with hot air and auto-refills the robot's water tank. Enjoy contact-free maintenance for up to 100 days* and forget about allergies.
*Time may vary according to environmental conditions and usage habits.
Disinfects mops with hot water and soap. Thermal Clean: dispenses soap onto the mops to eliminate bacteria and germs, then dries them with hot water to prevent possible odours, enabling the robot to start its next cleaning plan in perfect condition.
Vacuums thoroughly in corners and finishes mopping at edges and low areas. DuoXtend: takes cleaning to every corner, even those with difficult access. Master corners, edges and hard-to-reach areas like chair legs with BrushXtend. And achieve thorough mopping under furniture with SpinXtend.
Vacuums thoroughly and eliminates tangles*. HairLess Brush: brush designed with a revolutionary system that traps all types of dirt, eliminating hair tangles for easier maintenance.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Lifts mops and protects carpets. Spin Up: system that raises the mops when its ultrasonic sensors detect carpets, protecting them from mop moisture while boosting suction power to eliminate even dirt hidden between fibres.
Vacuums up to 240 m². 5200 mAh battery.

COMPOSITION:
Product, self-emptying base, mop pads, dust bag, instruction manual

Conga X100

Conga X100 robot vacuum cleaner with adaptive cleaning system. 25 000 Pa suction power, 4-in-1 base with disinfection. Artificial Intelligence with camera. Liftable spinning mops. Side brush and extendable mop. App with video manager.

FEATURES:
All-terrain adaptive navigation for unstoppable cleaning. Home Rover: a system of adaptive technologies that ensures unstoppable navigation, conquering new spaces and cleaning every nook and cranny. Liquid spills, thick carpets, dirty corners, large obstacles... Whatever the challenge, Conga puts its technology to work and cleans where other robots can't reach.
Identifies small objects, liquids, floors and dirt. AI Pro: artificial intelligence combined with laser technology – a powerful combination that enables the robot to analyse every cleaning situation in real time, adapt its technologies and deliver precise, unstoppable cleaning performance.
Deep mopping with clean water from start to finish. Spin mopping with Perfect Wash: a mop system that is constantly moistened with clean water and spins at high speed to effortlessly remove all kinds of stains (grease, oil, liquids or dried-on stains).
Ultra-power for extreme cleaning. Ungravity motor with 25 000 Pa: suction power that removes even the most stubborn dirt from difficult surfaces such as thick carpets or deep grouting between tiles.
Complete hands-free maintenance. All-in Home base with mop disinfection. Its SpinCare technology: wrings out dirty water, disinfects mops with hot water (70°C), dries them with hot air and refills the robot's water tank. And forget about dust and allergies: its self-emptying feature gives you up to 12 weeks* of complete independence.
*Time may vary according to environmental conditions and usage habits.
Avoids vacuuming liquids and protects the brush. BrushUp: an adaptive cleaning system that raises the central brush when the robot is in mopping mode and detects liquid stains, preventing it from getting wet and ensuring cleaning performance remains unaffected. In combined mode (vacuuming and mopping), the brush moves up or down depending on the cleaning situation.
Lifts mops and protects carpets. SpinUp: a system that raises the brushes when it detects carpets to protect them from moisture and improve suction.
Precise cleaning in corners and along skirting boards. DuoXtend: an extendable brush and mop for cleaning hard-to-reach areas. Reach every corner with BrushXtend technology and get a thorough cleaning of the skirting boards and low-lying areas with the SpinXtend system.
Traps hair, cuts tangles and avoids maintenance. HairCut Brush: the first Conga brush that cuts and vacuums up hair. Forget about tangles* from long hair or pets and simplify maintenance.
*Anti-tangle effectiveness varies depending on the hair type and its length.

# Discover the Conga Z100

AquaCycle™
Wet Protect
XXL dual-material mop
Artificial Intelligence
All-In Home™
Up to 25.000 Pa

Conga Z100

Robot vacuum cleaner specialized in scrubbing with AI LaserEye technology. Professional mopping with XXL dual-material mop. Total self-emptying base for dust, water and mop cleaning. 20000 Pa suction pressure. APP and Bluetooth connectivity with 2.4 and 5 GHz networks.

FEATURES:
AI with LaserEye. Its Artificial Intelligence and LaserEye navigate precisely even in cluttered spaces. Identifies small objects, floors and dirt. Conga makes the right decisions so you don't have to worry about anything.
Professional AquaCycle mopping. Mops with clean water from start to finish. The innovative system continuously moistens the mop with clean water and wrings it into the dirty water tank. This ensures optimal mopping in less time, without having to return to the base.
Ultra Power 20,000 Pa. 20,000 Pa power thanks to its Ungravity motor. Great suction power to clean even hidden dirt in high-pile carpets or deep tile joints.
Wet&Protect technology. Its intelligent mopping adapts its bi-material mop according to the surface.
Deep cleans with its super-absorbent side and, when detecting a carpet, activates CarpetCare mode and selects the smooth side of the mop to protect them.
XXL dual-material mop. More surface area in less time. Its large dual-material cyclical mop with super-absorbent texture achieves more efficient mopping by covering more surface in each pass.
All-in Home base with quick drying: Complete maintenance for impeccable cleaning. The base drains off waste water, washes the mop and dries it with hot air. Moreover, forget about dust and allergies thanks to its self-emptying system that automatically empties the hygienic bag for up to 12 weeks*.
*Time may vary according to environmental conditions and usage habits.
3 L dust bag, 3 L clean water tank and 3 L dirty water tank.
Anti-tangle brush. Its anti-tangle brush is ideal for pets and long hair. Enjoy deep cleaning on multiple surfaces thanks to its silicone anti-tangle brush*, specially designed for living with your furry friends.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Long Range. No floor stands in its way. Vacuums up to 240 m² for 240 minutes without interruptions. Its 5200 mAh battery offers up to 240 minutes of continuous use, perfect for covering areas up to 240 m²*.
*Based on laboratory tests. Actual performance varies according to home layout.
Up to 12 weeks with Self-emptying. The robot cleans repeatedly autonomously and empties its tank into its 3 L self-emptying base for up to 12 weeks of hands-free cleaning*.
*Range varies according to environmental conditions and usage habits.

COMPOSITION:
Robot vacuum cleaner, self-emptying base, dust bag, side brush, mopping roller, power cord, brush, instruction manual

48.1 x 45.3 x 50 cm 14.78 kg
51.4 x 46.8 x 50 cm 16 kg

10.5 x 35.2 x 35.2 cm 4.92 kg
