CREMMAET™ LUNGO LATTE AND LUNGO STEAM

A universe of intensity

While other super-automatic machines typically process an average of 13 g, Cremamet™ Lungo uses up to 20 g of coffee per cup, delivering more potent, aromatic espressos brimming with nuanced flavours.

The result: café-quality taste, all from the comfort of your home.

Lungo

vs otros

20 G

The only one with 20 g of coffee¹.

MILK CONTAINER OR STEAMER

Prepare cappuccinos and lattes with perfect foam at the touch of a button.

TOUCH DISPLAY

Choose from up to 7 recipes with modern, intuitive control.

¹Compared to the Cremamet™ range of super-automatic machines.

CREMMAET™ CUBE

Goodbye capsules, hello freshly ground coffee!

Pure coffee, nothing else

If you're looking for the ultimate hassle-free coffee experience, Cremmaet™ Cube is for you. Your espresso exactly as you like it, straight from the bean at the touch of a button. You need nothing more, settle for nothing less.

Minimalist and compact design

Fits perfectly on any worktop while adding a touch of design and distinction to your kitchen with its three available colours.

Favourite function

Save your settings for each coffee so you can enjoy your last used customisation without having to reconfigure the machine.

Unique crema and aroma

Its Thermoblock system heats water uniformly and, once reaching the perfect temperature, extracts at 19 bars of pressure to enhance the flavour and aroma of every bean.

CREMMAET™ TEMPO AND CREMMAET™ TOUCH OCS

More screen, more recipes

Your own personal barista

Select your ideal beverage from its recipe book and customise it to your liking via its full-colour TFT screen; experiment and personalise every setting of your recipe like a true barista.

Up to 15 beverages¹

Immerse yourself in the most authentic coffee experience and prepare up to 30 beverage varieties with freshly ground coffee in the most convenient way, one touch and ready!

Save your favourite coffees

Create up to 8 user profiles², choose your profile and save your favourite recipes with your personalisation to prepare your favourite beverages quickly.

Custom Coffee

Total customisation. Choose the ideal beverage through its recipe menu and customise it to your taste by controlling the bean quantity, coffee intensity, temperature and foam level.

¹In the Cremmaet™ Touch OCS model

²Up to 8 users in the Cremmaet™ Touch OCS model

CREMMAET™ COMPACTCCINO CONNECTED

Connect with your inner barista

Prepare up to 30 varieties of beverages with freshly ground coffee, both hot and cold, and enjoy the most authentic flavour in every cup in the most convenient way. Moreover, with its DIY mode, you can configure each parameter of your recipe from its TFT display or app, just like a professional barista.

App

Prepare coffee from anywhere. Connect to your coffee machine via the app, choose the ideal recipe or prepare a fully customised coffee so it's freshly brewed right when you need it.

Milk container

With its 400 ml milk container, delight in fine, smooth and rich foam prepared at the perfect temperature.

Better from bean to cup

Elevate your ritual to the next level

Discover the authentic coffee taste and indulge in an unparalleled sensory experience. Fill every cup with a richness of nuances that only freshly ground coffee can offer. Cremmaet™ super-automatic machines grind beans directly and allow you to adjust the grinding level to enhance the qualities of each variety, bean type and recipe.

Adjustable grinding

Achieve uniform and precise grinding for each coffee bean variety thanks to its stainless steel conical burrs and 5 adjustment levels.

Coffee bean container

Preserve the properties of each bean and keep it as fresh as the first day.

STEAM WAND

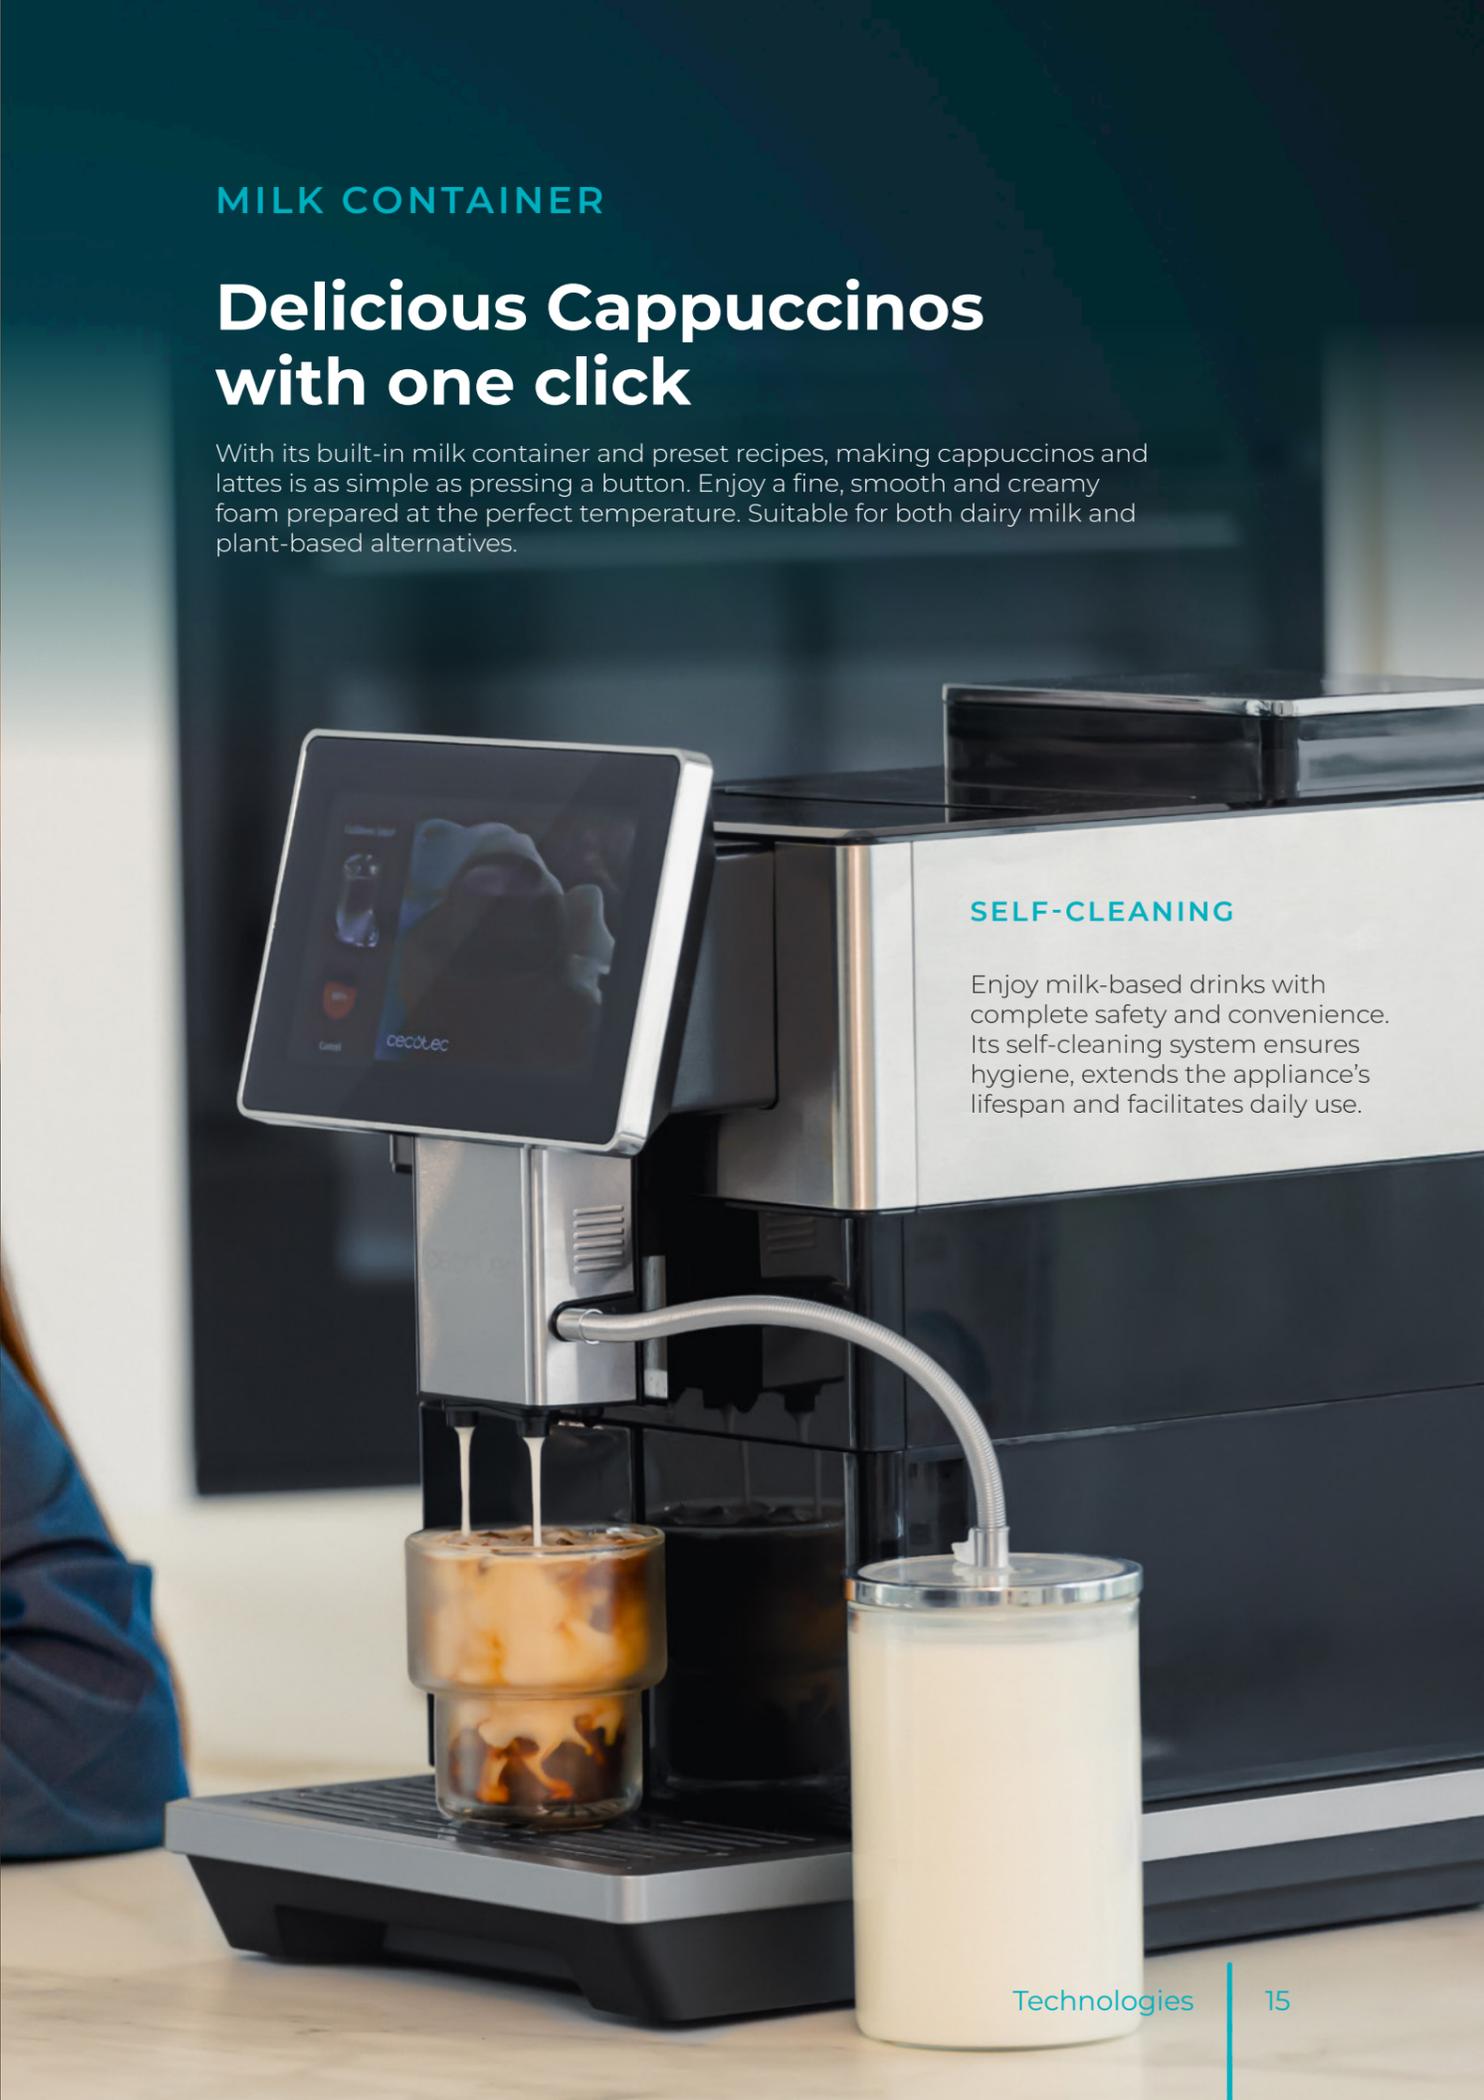

Create barista-quality milk foam

Its professional steam wand allows you to create milk-based coffees and cappuccinos with perfect foam texture, rivalling the finest specialty coffee shops. Elevate your at-home coffee experience and feel like a true barista.

MILK CONTAINER

Delicious Cappuccinos with one click

With its built-in milk container and preset recipes, making cappuccinos and lattes is as simple as pressing a button. Enjoy a fine, smooth and creamy foam prepared at the perfect temperature. Suitable for both dairy milk and plant-based alternatives.

SELF-CLEANING

Enjoy milk-based drinks with complete safety and convenience. Its self-cleaning system ensures hygiene, extends the appliance's lifespan and facilitates daily use.

A design for every kitchen

Beyond its compact and minimalist design, you can choose the colour version of Cremmaet™ Cube and Cremmaet™ Compaccino that best suits your kitchen and style. Discover all its colours and select the design that will stand out in your coffee corner.

Technologies for an unbeatable coffee experience

19 BAR

Unique crema and aroma

The coffee machines feature a pump with up to 19 bars of pressure that extracts every nuance from each bean, achieving unique aroma and crema.

THERMOBLOCK

Coffee ready in seconds

Thanks to its Thermoblock rapid heating technology, you can quickly brew coffee at the perfect temperature.

COLD BREW

Cold coffees

Its cold brew function allows you to prepare cold extraction coffees while preserving the qualities of each bean. Dare to explore beyond the classic Frappé.

PRESET RECIPES

Hassle-free coffee

Thanks to its preset recipes, your perfect coffee is just one touch away.

GRINDER

Freshly ground coffee, second to none

Select your favourite bean and savour all the nuances of freshly ground coffee thanks to the airtight coffee container with built-in grinder, which features up to 9 grinding levels to achieve a tailored texture for each coffee bean variety.

FAVOURITE

Your favourite coffee one click away

Save your favourite coffees: choose your profile and store your preferred recipes with your personal touches for quick preparation.

CUSTOM COFFEE

Full personalisation

Choose the beverage and customise it to your taste by controlling the grinding level, coffee intensity, temperature and amount of foam.

Super-automatic coffee machines for office use

Superautomatic Coffee Machines

Discover the Cremmaet™ range

Cremmaet Cube

It combines compact design with professional performance, perfect for enjoying high quality coffee. With a single touch, brew coffee like a professional barista.

FEATURES:

Intense and balanced coffee. 10 g brewing system: ensures optimal extraction, giving each cup a unique flavour.

Perfect extraction, excellent cream. Pre-infusion system: ensures every coffee particle is evenly moistened to achieve an extraction that brings out all the nuances of the coffee.

Unique cream, flavour and aroma. 19 bars of pressure to extract all coffee nuances, ensuring a perfect balance in every cup.

Fast heating. Thermoblock system: it achieves the perfect temperature to brew coffee quickly, reducing the waiting time for each cup.

Perfect coffee with no waiting time. 1350 W of power: allows you to brew all types of coffee quickly.

Preserves the properties of each coffee bean. 110 g coffee tank that allows you to brew one coffee after another without the need for constant refilling.

Customised grinding for each variety of bean. 5 grinding levels: allows you to adjust the grinding thickness to the needs of each variety of bean.

Even grinding. Stainless steel conical burrs that offer great resistance and precise grinding.

Intuitive and elegant design. Touch control panel that provides a comfortable user experience while giving a differential touch to the coffee machine.

Your favourite coffee with a single touch. Save the settings of each coffee so you can enjoy your last used customisation without having to reset the coffee machine.

Espresso or lungo with just one click. 2 types of coffee: choose the type of coffee quickly and enjoy a flavour to suit your taste. The coffee machine also dispenses hot water so you can conveniently prepare infusions without resorting to secondary appliances.

Maintains efficiency, reduces consumption. Eco mode: allows you to brew perfect coffees with less energy consumption.

More coffee, fewer refills. 1.1 L water tank that allows you to brew multiple cups without the need for constant refilling.

Maximum cup height: 90 mm/180 mm. Brew your favourite coffee in its perfect cup thanks to the coffee machine design that allows you to prepare everything from espressos in small cups to lungos in a larger glass.

Removes limescale build-up. Descaling function: offers easy maintenance, ensuring the washing machine's performance remains as good as new for longer.
