Washing machines

Discover the DressCode range

Take care of your clothes and the planet

ENERGY CLASS A

Save on every wash

Enjoy high quality performance with maximum energy savings thanks to its class A¹ certification, which allows you to save energy to take care of your laundry and the planet.

INVERTER PLUS MOTOR

Daily efficiency

Its Inverter Plus Motor² offers high performance and maximum durability wash after wash, thus saving energy. In addition, it reduces noise during operation, especially during the spinning and washing phases.

STEAM PROGRAMMES

Steam washing

Take the best care of your clothes with the steam programmes³, which penetrate the fabrics to remove the most stubborn stains. They also sterilise all your laundry, making your clothes and washing machine germ-free.

1. The energy class may vary depending on the model.

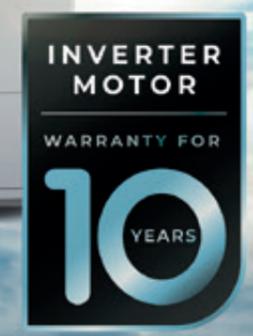

2. Not available on Bolero DressCode 6000 and 7000 series models.

3. Not available on 20 and 100 series models.

10 years warranty

What's more, we are committed to taking care of both your washing machine and the planet with the 10-year guarantee on its Inverter motor.

INVERTER **10** YEARS WARRANTY

SERIE 980 DIRECT DRIVE

Elevate your home

The Bolero Dresscode 980 series fuses sleek design with advanced functionality, all powered by its Direct Drive motor, which ensures exceptional performance. Discover the latest technology with our appliances and take care of your clothes with maximum savings.

LEATHER FINISHES

Premium design with leatherette finish on the lower area of the display and on the door grip.

XXL DOOR

Convenient access to the drum thanks to its 52 cm diameter design.

KNOB TFT

Select customised options on the control panel to make laundry even easier.

10.3" FULL COLOUR DISPLAY

Convenient and intuitive control thanks to the large, full-colour touch panel.

EXTERIOR LIGHT

The door area is illuminated so that you can easily see the state of the laundry.

INTERIOR UV LIGHT

Disinfects the drum while illuminating it, ensuring hygienic cleaning and making it easier to see the laundry.

Steam cleaning for your garments

STEAMMAX¹

Wraps the laundry with steam

It removes stains, germs and any odours when adding this function to the main programme, which steams the laundry and effectively penetrates each garment to sterilise them.

SPA CARE²

Protects your clothes

This programme removes 99.9% of bacteria before each wash, since a clean interior means a perfect wash.

STERILISATION

Keep your clothes always as good as new

Sterilises your clothes during washing at over 65 °C for 30 minutes so that all your garments are clean and bacteria-free. Perfect for underwear, delicate skin or baby clothes.

Smart washes

SOIL LEVEL

You choose, it decides

Select the level of soiling of your laundry and forget about the rest. The washing machine will automatically¹ programme the time and rhythm to make your clothes look as good as new.

FUZZY LOGIC

Maximum efficiency, minimum consumption

Thanks to this function, the washer detects the wash load to adapt the water level and washing time to your laundry needs.

ON SMART

Custom washes with a single touch

No more worries! Just press the OnSmart button³ and the washer will automatically activate the ideal programme to make your laundry perfect.

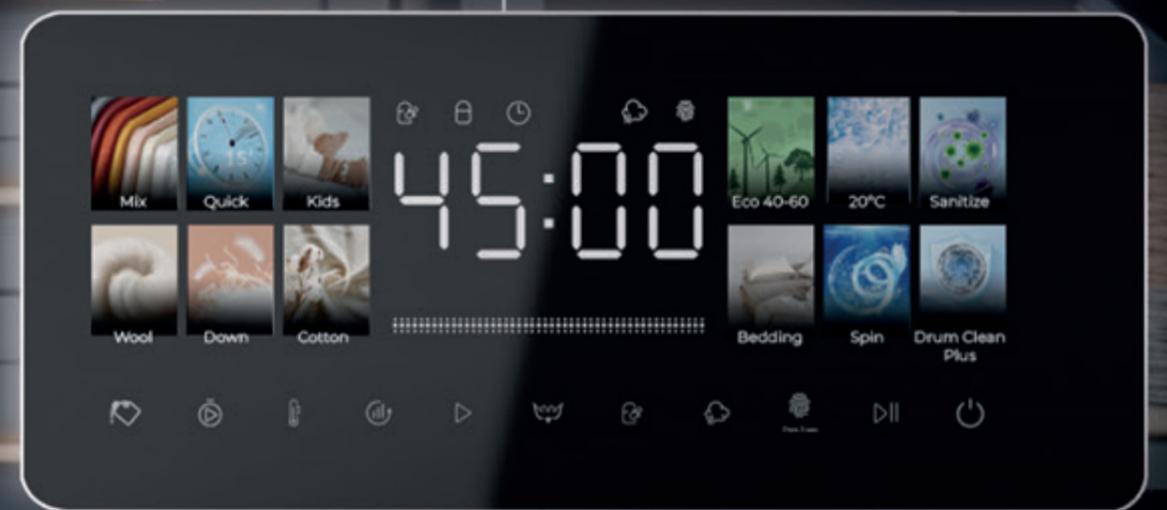

Autodose washing machines

AUTODOSE

Forget about detergent for up to 20 washes*.

The DressCode's auto-dosing function measures detergent, fabric softener and water for each wash so you don't have to worry about a thing. This saves time, detergent, water and energy to make a better use of resources.

CORE MATRIX SCREEN

Full colour display

Control your washing machine in the most simple and intuitive way thanks to its innovative 10.3" XXL touch screen with colour design. Choose the ideal programme for each laundry with just one touch and give your clothes a tailor-made wash in the easiest and quickest way.

The ideal wash for every fabric

PROGRAMMES

Enjoy tailor-made care in the most convenient way with up to 23 programmes¹ that adapt to all types of fabrics to ensure the durability of each of your garments.

BED LINEN

BABY CARE

WOOL

STERILISATION

BABY CARE

WOOLMARK²

Special wool care

Bolero washing machines own this unique certificate, which guarantees thorough care of all types of fabrics, especially those made of wool, so that they always look brand new.

Designed to stand out

PEARL DRUM

Protects your clothes

The drum has a special snowflake texture¹ that improves the glide of each garment, making it easier to clean and care for.

DRUM CLEAN

Keeps your drum spotless

Forget about drum cleaning. The Drum Clean system² automatically clears the inside of the washing machine to prevent dirt, odours and bacteria build-up.

SPACE PRO

More capacity in the same space

Wash more laundry in one go thanks to the extra-flat drum³. This design increases the machine capacity without enlarging the washing machine's size, so it doesn't take up space in your home.

Fits you and your clothes

STOP & GO

Nothing will be left out

Don't worry if you forgot to put a garment: with the Stop&Go function¹ you can now pause the washing machine without emptying the drum and put that forgotten piece in so that the cycle can resume.

1. Not available on Bolero DressCode 6000 and 7000 series models.

DELAY START

Adapt your laundry to your schedule

With the DelayStart option you can programme the start of each wash so that your laundry is ready to hang at a time that suits your schedule.

SMOOTH WASH

Silent washing

Thanks to this technology and the ESC system², the washer is able to set the washing and spinning to an ultra-quiet mode so that you can use it even at night.

2. Available on Bolero DressCode 610, 800, 900 and 12700 series models.

Top Max Series

Top-load

A Class

Inverter motor

Steam Max

Bolero DressCode Top Max 80 Inverter A

8-kg top-loading washing machine, programmable 1300 rpm, 16 programmes, Class A, Inverter plus motor, Steam Max, DrumClean, delay start, extra rinse, My Fav.

FEATURES:

Ideal for the family: 8 kg load capacity, ideal for washing the whole family's laundry.

Class A: maximum energy efficiency to save on every wash.

Its Inverter Plus motor delivers high quality performance and maximum durability while saving energy¹. It also reduces vibrations and noise so that you can use it at night and take advantage of the cheapest daylight hours.

¹33% reduction in electricity consumption based on energy label comparison between Bolero DressCode models with Inverter Plus motor and Bolero DressCode models without Inverter motor. Programme the revolutions: you can programme the revolutions per minute of your washing machine, up to 1300 rpm, according to your tastes and needs.

16 programmes: the washing machine has 16 different programmes to suit every fabric and every moment.

Steam wash: with the SteamMax function, your laundry is washed with steam that envelops and sterilises it.

DelayStart: programmes the start of the wash between 0 and 24 h in advance.

DrumClean: automatic drum cleaning for total hygiene.

Extra rinse: the machine will perform a second rinse after the cycle is finished.

MyFav: memorise your most used programme and settings.

KidLock: safety child lock.

Top loading: thanks to its top-loading system, this washing machine takes up less space than a conventional one, which is ideal for small, limited spaces.

COMPOSITION:

Washing machine, water supply hose, transport feet, instruction manual.

Bolero DressCode 6000 washing machine

6-kg washing machine, 1000 rpm, 23 programmes and control panel with LED display.

FEATURES:

Load capacity: 6 kg

Programmable revolutions: max 1000 rpm. Choose the RPMs that best suit your needs.

23 programmes: Synthetics, Cold Wash, Cotton, Cotton Intensive, (Rinse, Drain, Spin, Drum Cleaning), Delicate, Mixed and InstantWash (15', 30', 45'), with adjustable temperatures. Select the programme and temperature that best suits your laundry.

Control panel with LED display. Manage and control washing times.

DelayStart. Programme the washing machine between 0 and 24 h in advance, using the delayed start function. Choose the start time of the desired programme and adapt it to your schedule.

Extra rinse. The laundry will perform a second rinse after the cycle is finished. If your laundry is very dirty, you can give it one more rinse to finish rinsing.

KidLock. Safety child lock. It locks all the buttons on the washing machine, except for the stop button, so that children cannot control them.

Silence function. Silences the washing machine, both during operation and at the end of the washing cycle. Activate this mode during rest time to avoid the washing machine from emitting noises

Bolero Dresscode 8300 Inverter Maxx A

8-kg washing machine, 1400 rpm. 15 programmes, A class, Inverter Plus motor and SteamMax.

FEATURES:

Load capacity: 8 kg.

Class A: maximum energy efficiency that allows great energy savings in each wash.

Inverter plus motor: energy saving with reduced vibration and noise. Thanks to the Inverter motor, the washing machine will operate more silently, especially when running the washing and spinning cycle. It also favours energy saving.

Programmable revolutions: max 1400 rpm.

15 programmes to suit every fabric and every moment.

SteamMax: wraps the laundry with steam to effectively penetrate each garment, sterilise it and remove any stains and odours.

Extra rinse: the machine will perform a second rinse after the cycle is finished.

Drum Clean: the drum cleans itself to prevent bacteria build-up. Free of dirt and bad smells.

DelayStart: programmes the start of each wash up to 24 hours in advance.

Control panel with LED display.

KidLock: safety child lock.

Bolero DressCode 9300 Inverter A Washing machine

9-kg washing machine, 1400 rpm. 15 programmes, A class, Inverter Plus motor and SteamMax.

FEATURES:

Load capacity: 9 kg.

Class A: maximum energy efficiency to save on every wash.

Inverter Plus motor: guarantees efficient operation wash after wash. Savings of more than 70% compared to a universal motor.

Programmable revolutions: max 1400 rpm.

15 programmes to suit every fabric and every moment.

SteamMax: deep steam cleaning that penetrates clothes, removes stubborn stains and sterilises every garment.

DrumClean: automatic drum cleaning for total hygiene.

MyFav: memorise your most used programme and settings.

Control panel with LED display.

DelayStart: programmes the start of the wash between 0 and 24 h in advance.

KidLock: safety child lock.

Extra Rinse: the laundry will perform a second rinse after the cycle is finished to avoid stain and detergent residues.

COMPOSITION:

Washing machine, water supply hose, instruction manual, transport feet

-  65 x 57.5 x 88.5 cm 62.7 kg

Bolero Dresscode 9300 Inverter Maxx A

9-kg washing machine, 1400 rpm. 15 programmes, A class, Inverter Plus motor and SteamMax.

FEATURES:

Load capacity: 9 kg.

Class A: maximum energy efficiency that allows great energy savings in each wash.

Inverter plus motor: energy saving with reduced vibration and noise. Thanks to the Inverter motor, the washing machine will operate more silently, especially when running the washing and spinning cycle. It also favours energy saving.

Programmable revolutions: max 1400 rpm.

15 programmes to suit every fabric and every moment.

SteamMax: wraps the laundry with steam to effectively penetrate each garment, sterilise it and remove any stains and odours.

Extra rinse: the machine will perform a second rinse after the cycle is finished.

Drum Clean: the drum cleans itself to prevent bacteria build-up. Free of dirt and bad smells.

DelayStart: programmes the start of each wash up to 24 hours in advance.

MyFav: memorise your most used programme and settings.

Control panel with LED display.

KidLock: safety child lock.

Bolero Dresscode 7410 Inverter A

Front-loading washing machine, 7 kg capacity and 1200 rpm, Class A-10%, Inverter Plus motor, 16 programmes, SteamMax, Drum Clean, Allergy Care, Diamond Care, Delay Start, Stop&Go, ECO programme and KidLock.

FEATURES:

7 kg capacity: ideal for families.

Regulate its revolutions: you can programme the washing machine's revolutions up to 1200 rpm, thus adapting it to your fabrics and needs.

16 programmes: the one that best suits your needs within its wide range.

Class A: maximum energy efficiency that allows great energy savings in each wash.

Efficiency wash after wash: its Inverter Plus motor ensures efficient operation wash after wash, saving¹ more than 70 % compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

¹70% reduction in electricity consumption based on energy label comparison between Bolero DressCode models with Inverter Motor and Bolero DressCode models without Inverter Motor.

SteamMax: wraps the laundry with steam to effectively penetrate each garment, sterilise it and remove any stains and odours.

Drum Clean: the drum cleans itself to prevent bacteria build-up. Free of dirt and bad smells.

Allergy Care: selectable programme that sterilises laundry by steam in addition to using water at high temperatures.

Stop&Go function: stops the washing machine during operation to reload it. If you forgot to put something in the washing machine or you want to take something out, pause it and open it without problems.

Eco mode: programme that reduces consumption and noise by using a gentler washing power.

Programme your washes: with the DelayStart function, you can programme the start of the wash between 0 and 24 hours in advance.

Kid Lock: the child safety lock prevents children from controlling the washing machine to avoid accidents at home.

Diamond Care: care for your laundry in all your washes thanks to the diamond-shaped drum.

COMPOSITION:

Washing machine, water supply hose, transport feet, instruction manual.

Bolero DressCode 7500 Inverter A Washing machine

7-kg washing machine, white capacity and 1400 rpm, inverter plus motor, 16 programmes, class A and SteamMax.

FEATURES:

7 kg capacity. Ideal for families.

16 programmes. Mixed, Cotton, Superfast, Eco 40-60, Wool, Prewash, T-shirts, Sport, Intensive, Bedding, Anti-allergic, Spin/Drain, Tumble Dry, Drum Clean, Delicate, Cotton 20°C.

Class A. Save on your washing machine by having maximum energy efficiency.

Inverter Plus motor. Energy saving, with minimum vibrations and noise. Thanks to the Inverter motor, the washing machine will operate more silently, especially when running the washing and spinning cycle. It also favours energy saving.

SteamMax. Ensures cleaning by steam, reaching even the toughest stains and leaving your clothes looking as good as new.

Pearl Drum. Special snowflake texture of the drum facilitates and improves the drying and sliding of garments.

Delay Start. schedule the end time of the cycle. Plan your washing to start at the time that best suits your schedule.

Drum clean. The drum cleans itself to prevent bacteria accumulation. Free of dirt and bad smells.

Display. Handle and control your washing machine.

Allergy care. before every wash, your laundry is sterilised with steam at 99.9% especially on cold water wash cycles. Leaves your clothes 100% germ and bacteria free and keep them looking as good as the first day. Anti-crease. Select this option to wash clothes and reduce creases on your garments. You will find it easier to iron and you may not even have to iron at all.

Bolero DressCode 7610 Inverter A

Front-load washing machine, 7 kg capacity, white colour, 1400 RPM, Class A, Steam Max, Inverter plus motor, 15 programmes, OnSmart, Fuzzy Logic, Smooth Wash, Stop&Go, Antibacterial rubber and Drum Clean.

FEATURES:

Wash all your clothes at once thanks to the large 7 kg drum capacity. Make your washes more efficient by not leaving anything behind.

Thanks to its class A energy label get maximum savings on every wash.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

Get a deep washing every day with the added Steam Max function, as it envelops the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Programmable revolutions: enjoy up to a maximum of 1400 rpm.

15 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy Logic: detects the wash load and optimises the water level and wash time.

Smooth Wash: intelligent wash stabilisation that makes your washing machine efficient and quiet.

Stop&Go: stop the washing machine during operation to reload it. If you forgot to put something in the washing machine or you want to take something out, pause it and open it without problems.

Drum Clean: the drum cleans itself to prevent bacteria build-up. Free of dirt and bad smells.

KidLock: child safety lock to prevent children from controlling the washing machine.

Antibacterial rubber: prevents the formation of germs inside the washing machine so that your laundry always comes out perfect.

Pearl Drum: drum with snowflake texture that improves drying and sliding of garments.

Space Pro: more capacity in the same space thanks to the drum design.

COMPOSITION:

Washing machine, water supply hose, transport feet, instruction manual.

Bolero DressCode 8610 Inverter Steel A

Front-load washing machine, 8 kg capacity, steel, 1400 RPM, Class A, Steam Max, Inverter plus motor, 15 programmes, OnSmart, Fuzzy Logic, Smooth Wash, Stop&Go, antibacterial rubber and Drum Clean.

FEATURES:

Wash all your clothes at once thanks to the large 8 kg drum capacity. Make your washes more efficient by not leaving anything behind.

Thanks to its class A energy label get maximum savings on every wash.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

Get a deep washing every day with the added Steam Max function, as it envelops the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Programmable revolutions: enjoy up to a maximum of 1400 rpm.

15 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy Logic: detects the wash load and optimises the water level and wash time.

Smooth Wash: intelligent wash stabilisation that makes your washing machine efficient and quiet.

Stop&Go: stop the washing machine during operation to reload it. If you forgot to put something in the washing machine or you want to take something out, pause it and open it without problems.

Drum Clean: the drum cleans itself to prevent bacteria build-up. Free of dirt and bad smells.

KidLock: child safety lock to prevent children from controlling the washing machine.

Antibacterial rubber: prevents the formation of germs inside the washing machine so that your laundry always comes out perfect.

Pearl Drum: drum with snowflake texture that improves drying and sliding of garments.

Space Pro: more capacity in the same space thanks to the drum design.

FEATURES:

Large capacity: do the laundry for the whole family thanks to its large load capacity of 8 kg.
Save on every use: with the Class A label, it achieves the maximum energy efficiency allowing great energy savings on every wash.
Efficiency wash after wash: its Inverter Plus motor ensures efficient operation wash after wash, saving¹ more than 70 % compared to a universal motor.
Regulate its revolutions: you can programme the washing machine's revolutions up to 1400 rpm, thus adapting it to your fabrics and needs.
Tailor-made washes: a programme for every moment and every fabric to always offer made-to-measure washes. Its 16 programmes offer a wide variety of options to suit all your needs and all your garments.
Intelligence at your service: its OnSmart function selects the ideal programme automatically at the touch of a button.
Optimises water and time: its Fuzzy Logic function detects the wash load and optimises the water level and wash time.
Steam wash: SteamMax function is added before the main programme which washes the laundry by steam. Wrap the laundry with steam to effectively penetrate each garment to sterilise it and eliminate any odours.
Sterilise your laundry: with the SpaCare function, the washing machine will perform a pre-wash steam sterilisation that leaves your laundry 100% free of germs and bacteria.
Better drying and gliding: with the Pearl Drum, the drum with snowflake texture, drying and gliding of garments is improved.
More capacity, same space: Space Pro technology offers more capacity in the same space thanks to the extra-flat drum design.
Touch display: control the washing machine conveniently thanks to the XXL touch display, and see all the information about each wash at a glance (wash time, selected options, programme stage, etc.).

Programme your washes: with the DelayStart function, you can programme the start of the wash between 0 and 24 hours in advance.

Ultra-quiet: thanks to the ESC system, it adjusts the washing and spinning to an ultra-quiet mode so that it can be used even at night. Forget about noise with the Smooth Wash function.
Prevents accidents: its Kid Lock technology, the child safety lock, prevents children from controlling the washing machine and prevents accidents in your home.

Antibacterial rubber: prevents the formation of germs inside the washing machine so that your laundry always comes out perfect.

Automatic drum cleaning: keep your drum always spotless and achieve total hygiene of your garments thanks to the Drum Clean system.

Bolero DressCode 12800 Inverter A

Washing machine, 12 kg capacity, white colour, 1400 rpm, Class A, Steam Max, Inverter plus motor, 16 programmes, Stain Match, Spa Care, XXL hidden display, OnSmart, Fuzzy Logic, Smooth Wash and antibacterial rubber.

FEATURES:

Load capacity: 12 kg.

Class A: maximum energy efficiency that allows great energy savings in each wash.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

Programmable revolutions: max 1400 rpm.

16 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

XXL door: 52 cm door for easy access to the drum.

SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy Logic: detects the wash load by means of its sensors and optimises the water level and wash time.

Smooth Wash: thanks to the ESC system, it automatically adjusts the drum calibration to bring the wash and spin to an ultra-quiet mode so that it can be used even at night.

Antibacterial rubber: germs and bacteria in the rubber will never be a problem, as this type of rubber repels all of them.

Drum Clean. The drum cleans itself to prevent bacteria accumulation. Free of dirt and bad smells.

Stop&Go function. Stop the washing machine during operation to recharge it. If you have forgotten to put something in, or want to take out laundry once the programme has started, you can stop it and open it to do as you please.

XXL hidden display: programme the washing machine with its easy and intuitive touch control, which disappears when the appliance is switched off, leaving a very attractive design.

Bolero DressCode 8900 Inverter FullColor A

Front-load washing machine, 8 kg capacity, white colour design, 1400 rpm, 10.3" FullColour display, class A-10%, Inverter Plus motor, 11 programmes, SteamMax, Sanitize, OnSmart, Fuzzy Logic, Smooth Wash, Drum Clean Plus and antibacterial rubber.

FEATURES:

Wash all your laundry in one load. Its 8 kg capacity allows washing large amounts of clothing in a single load, saving energy and time.
 Maximum energy savings with every wash. Its maximum energy efficiency Class A-10% allows you to reduce energy consumption in every washing cycle to protect the planet while caring for your clothes.
 High performance, low consumption. With its Inverter Plus motor, the washing machine achieves efficient operation wash after wash, reducing consumption by up to 50% compared to a universal motor. In addition, it reduces noise and vibrations during each cycle.
 Reduces moisture in clothes while protecting them. Its programmable spin speed of up to 1400 rpm adapt each washing cycle to the fabrics, offering a tailored-made wash that protects each garment and reduces clothing moisture.
 Customised care for every fabric. 11 programmes to adapt each wash to the needs of every moment and load.
 Comfortable and intuitive control. Its innovative 10.3" FullColor display simplifies washing machine control and makes each laundry cycle easier.
 Easier drum access. The 52 cm XXL door provides great convenience when loading and unloading laundry.

Add or remove garments during the washing cycle without any hassle. Stop the washing machine whenever you want thanks to the Stop&Go function, which allows you to add forgotten items mid-cycle or remove those added by mistake.

Bolero DressCode 8900 Inverter FullColor Ice Blue A

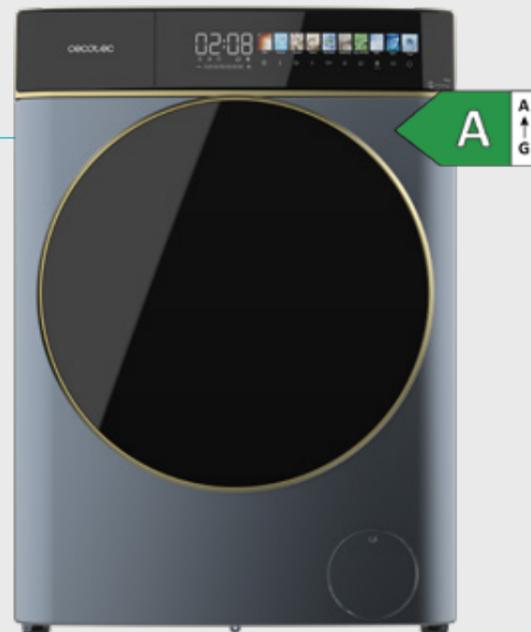

Front-load washing machine, ice blue colour design, 8 kg capacity, 1400 rpm, 10.3" FullColour display, Class A-10%, Inverter Plus motor, 11 programmes, SteamMax, Sanitize, OnSmart, Fuzzy Logic, Smooth Wash and antibacterial rubber.

FEATURES:

Load capacity: 8 kg. Class A-10%: maximum energy efficiency that allows great energy savings in each wash. Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases. Programmable revolutions: max 1400 rpm. 16 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments. 10.3" FullColour display: easily and intuitively control the washing machine with its innovative 10.3" FullTouch XXL colour display design. XXL door: 52 cm door for easy access to the drum. SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours. Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture. OnSmart: smart wash that selects the ideal programme automatically at the touch of a button. Fuzzy Logic: detects the wash load by means of its sensors and optimises the water level and wash time. Smooth Wash: thanks to the ESC system, it automatically adjusts the drum calibration to bring the wash and spin to an ultra-quiet mode so that it can be used even at night. Antibacterial rubber: germs and bacteria in the rubber will never be a problem, as this type of rubber repels all of them. Drum Clean. The drum cleans itself to prevent bacteria accumulation. Free of dirt and bad smells. Stop&Go function. Stop the washing machine during operation to recharge it. If you have forgotten to put something in, or want to take out laundry once the programme has started, you can stop it and open it to do as you please.

Bolero DressCode 9900 Inverter FullColor A

Front-load washing machine, 9 kg capacity, white colour, 1400 rpm, 10.3" FullColour display, class A, SteamMax, Inverter Plus motor, 11 programmes, Sanitize, OnSmart, Fuzzy Logic, Smooth Wash and antibacterial rubber.

FEATURES:

Wash all your laundry in one load. Its 9 kg capacity allows washing large amounts of clothing in a single load, saving energy and time. Maximum energy savings with every wash. Its maximum energy efficiency Class A allows you to reduce energy consumption in every washing cycle to protect the planet while caring for your clothes. High performance, low consumption. With its Inverter Plus motor, the washing machine achieves efficient operation wash after wash, reducing consumption by up to 50% compared to a universal motor. In addition, it reduces noise and vibrations during each washing cycle. Reduces moisture in clothes while protecting them. Its programmable spin speed of up to 1400 rpm adapt each washing cycle to the fabrics, offering a tailored-made wash that protects each garment and reduces clothing moisture. Customised care for every fabric. 11 programmes to adapt each wash to the needs of every moment and load. Comfortable and intuitive control. Its innovative 10.3" FullColor display simplifies washing machine control and makes each laundry cycle easier. Easier drum access. The 52 cm XXL door provides great convenience when loading and unloading laundry. Wraps laundry with steam, eliminating germs and stains. The SteamMax programme provides a steam bath for all garments, effectively penetrating each fabric to remove stubborn stains and bad odours, leaving clothes completely sterilised.

Bolero DressCode 9950 Autodose Inverter 3D Steel A

9 kg capacity, 1400 rpm, class A, steel front-loading Autodose washing machine with Core Matrix Screen 9.2" and Core Body design, 13 programmes, Inverter Plus Motor, SteamMax, Sanitize, OnSmart, Fuzzy Logic, Smooth Wash, XXL door and interior light.

FEATURES:

Auto-dosing function: self-doses detergent. No need to worry again about whether you have put in enough detergent. In addition, it also allows you to choose the dosing level with up to three levels. Load capacity of 9 kg, programmable speed max 1400 rpm, and energy class A.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

16 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

9.2" Core Matrix Screen display: easily and intuitively control the washing machine with its innovative 9.2" XXL full touch colour display design.

XXL door: 52 cm door for easy access to the drum.

Core Body: washing machine designed in one piece with a sleeker and slimmer appearance, leaving behind the typical design of a washing machine with different parts.

SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Sanitize: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy Logic: detects the wash load by means of its sensors and optimises the water level and wash time.

Autodose Inverter 3D Steel A

10 kg capacity, 1400 rpm, class A, steel front-loading Autodose washing machine with Core Matrix Screen 9.2" and Core Body design, 13 programmes, Inverter Plus Motor, SteamMax, Sanitize, OnSmart, Fuzzy Logic, Smooth Wash, XXL door and interior light.

FEATURES:

Auto-dosing function: self-doses detergent. No need to worry again about whether you have put in enough detergent. In addition, it also allows you to choose the dosing level with up to three levels. Load capacity of 10 kg, programmable speed max 1400 rpm, and energy class A.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

16 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

9.2" Core Matrix Screen display: easily and intuitively control the washing machine with its innovative 9.2" XXL full touch colour display design.

XXL door: 52 cm door for easy access to the drum.

Core Body: washing machine designed in one piece with a sleeker and slimmer appearance, leaving behind the typical design of a washing machine with different parts.

SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Sanitize: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy Logic: detects the wash load by means of its sensors and optimises the water level and wash time.

COMPOSITION:

Washing machine, water supply hose, transport feet, instruction manual.

Bolero DressCode 8900 Autodose Inverter FullColor A

Front-load Autodose washing machine, 8 kg capacity, white colour, 1400 rpm, 10.3" FullColour display, class A, SteamMax, Inverter Plus motor, 16 programmes, Spa Care, OnSmart, Fuzzy Logic, Smooth Wash, antibacterial rubber and Drum Clean.

FEATURES:

Autodose function: automatic dose for both detergent and softener. No need to worry again about whether you have put in enough detergent or fabric softener. In addition, it also allows you to choose the dosing level with up to three levels. Load capacity: 8 kg. Class A: maximum energy efficiency that allows great energy savings in each wash. Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases. Programmable revolutions: max 1400 rpm. 16 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments. 10.3" FullColour display: easily and intuitively control the washing machine with its innovative 10.3" FullTouch XXL colour display design. XXL door: 52 cm door for easy access to the drum. SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours. Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture. OnSmart: smart wash that selects the ideal programme automatically at the touch of a button. Fuzzy Logic: detects the wash load by means of its sensors and optimises the water level and wash time. Smooth Wash: thanks to the ESC system, it automatically adjusts the drum calibration to bring the wash and spin to an ultra-quiet mode so that it can be used even at night. Antibacterial rubber: germs and bacteria in the rubber will never be a problem, as this type of rubber repels all of them. Stop&Go function. Stop the washing machine during operation to recharge it. If you have forgotten to put something in, or want to take out laundry once the programme has started, you can stop it and open it to do as you please.

Autodose Inverter FullColor A

Front-load Autodose washing machine, 12 kg capacity, white colour, 1400 rpm, 10.3" FullColour display, class A, SteamMax, Inverter Plus motor, 16 programmes, Spa Care, OnSmart, Fuzzy Logic, Smooth Wash, antibacterial rubber and Drum Clean.

FEATURES:

Autodose function: automatic dose for both detergent and softener. No need to worry again about whether you have put in enough detergent or fabric softener. In addition, it also allows you to choose the dosing level with up to three levels. Load capacity: 12 kg. Class A: maximum energy efficiency that allows great energy savings in each wash. Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases. Programmable revolutions: max 1400 rpm. 16 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments. 10.3" FullColour display: easily and intuitively control the washing machine with its innovative 10.3" FullTouch XXL colour display design. XXL door: 52 cm door for easy access to the drum. SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours. Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture. OnSmart: smart wash that selects the ideal programme automatically at the touch of a button. Fuzzy Logic: detects the wash load by means of its sensors and optimises the water level and wash time. Smooth Wash: thanks to the ESC system, it automatically adjusts the drum calibration to bring the wash and spin to an ultra-quiet mode so that it can be used even at night. Antibacterial rubber: germs and bacteria in the rubber will never be a problem, as this type of rubber repels all of them. Stop&Go function: Stop the washing machine during operation to recharge it. If you have forgotten to put something in, or want to take out laundry once the programme has started, you can stop it and open it to do as you please.

COMPOSITION:

Washing machine, water supply hose, instruction manual, transport feet.

Bolero DressCode 2000 Autodosis washing machine

Washing machine with capacity for 10 kg and 1400 rpm, Inverter Plus motor with auto-dose function, Stop&Go and 15 programmes.

FEATURES:

Autodose function: automatic dose for both detergent and softener.

Load capacity: 10 kg.

Programmable revolutions: max 1400 rpm.

Inverter Plus Motor, high quality performance and maximum durability. Energy saving, with minimum vibrations and noise. Thanks to the Inverter Plus motor, the washing machine will make less noise during operation, especially in the spin and wash phase. It also favours energy saving.

Stop&Go function: stops the washing machine during operation to reload it.

MyFav. Memorises your most frequently used settings.

15 programmes for different fabrics

DelayEnd: programme the end of the washing cycle.

Snowflake Drum. Cares for clothes and removes dirt.

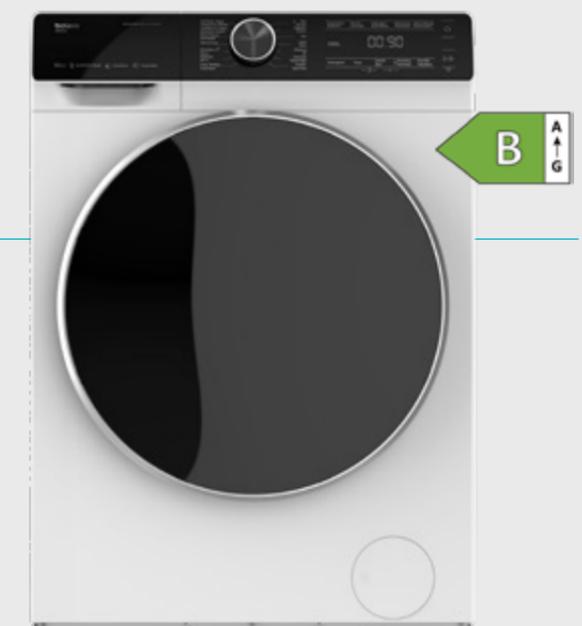

KidLock: safety child lock.

SteamMax programme. Steam Baby and Steam Allergy programmes.

Control panel with LED display and touch buttons.

COMPOSITION:

Washing machine, water supply hose, instruction manual, transport feet

Bolero DressCode 8970 Direct Drive

8 kg washing machine, white colour design, class A, with Direct Drive motor and 1400 rpm, 11 programmes, FullColor display, XXL door and SteamMax function, Spa Care, Soil Level, Delay End, My Fav, interior light, Drum Clean Plus and Stop&Go.

FEATURES:

With 8 kg capacity, it is perfect for families, allowing large loads of laundry to be washed in a single cycle.

Its energy class A ensures efficient consumption, reducing electricity bill costs and protecting the environment.

Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move!

With 1400 programmable rpm, you can adjust the spin speed to suit different types of fabrics, ensuring more efficient drying.

It features 11 washing programmes that adapt to different types of fabrics and needs, ensuring optimal care for each garment.

Its FullColor display provides an intuitive and modern interface, making it easy to set up and monitor each washing cycle.

The XXL door makes loading and unloading the washing machine easier and more convenient, even with bulky items.

SteamMax: power your wash with steam for thorough cleaning.

The Spa Care programme uses steam to sterilise laundry before washing, killing germs and bacteria and providing a fluffier texture.

Soil Level: Select your laundry's soiling level and forget about the rest. The washing machine will automatically¹ programme the time to make your clothes as good as new. pause the cycle to add or remove garments.

Bolero DressCode 12950 Autodose Direct Drive 3D Steel

Front-loading washing machine, Autodose, steel, 12 kg capacity, 1400 rpm, A class, Direct Drive motor, Core Matrix Screen 9.2" and Core Body design, 13 programmes, SteamMax, Sanitize, OnSmart and Fuzzy Logic intelligent functions, Smooth Wash, XXL door and interior light.

FEATURES:

Autodose function: self-doses the detergent. No need to worry again about whether you have put in enough detergent. In addition, it also allows you to choose the dosing level with up to 5 levels.

Load capacity of 12 kg, programmable speed max 1400 rpm, and energy class A.

Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move!

13 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

9.2" Core Matrix Screen: easily and intuitively control the washing machine with its innovative 9.2" FullTouch XXL colour display design.

XXL door: 52 cm door for easy access to the drum.

Core Body: washing machine designed in one piece with a sleeker and slimmer appearance, leaving behind the typical design of a washing machine with different parts.

SteamMax: programme that washes laundry using added steam. Wraps laundry with steam to effectively penetrate each garment for sterilisation and odour removal.

Sanitize: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture.

COMPOSITION:

Washing machine, water supply hose, transport feet, instruction manual.

Bolero DressCode 12700 Inverter A washing machine

12-kg washing machine, 1400 rpm. 15 programmes, A class, Inverter Plus motor, SteamMax and Jet Wash technology.

FEATURES:

12 kg capacity: large load capacity that allows you to wash all your laundry at once, thus reducing energy consumption.

Class A: maximum energy efficiency that allows great energy savings in each wash.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 70% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

15 programmes: a programme for every moment and every fabric to always offer tailor-made washes to suit all your needs.

SteamMax: function added before the main programme that washes the laundry by steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free.

Jet Wash Technology: dual detergent and water spray injection system for easier dirt removal.

DelayStart: programmes the start of the wash up to 24 hours in advance.

Stop&Go: stop the washing machine during operation to reload or remove items without any problems.

SmootWash: stabilises the load and allows for vibration-free washing.

DrumClean: automatic drum cleaning for total hygiene.

MyFav: memorise your most used programme and settings.

Rain Drum: takes care of your laundry thanks to the water drop-shaped drum.

COMPOSITION:

Washing machine, water supply hose, instruction manual, transport feet

Bolero DressCode 121000 A Washing machine

12-kg washing machine, 1400 rpm, WoolMark certification, Class A, Inverter plus motor, 14 programmes, Spa Care, My Fav programme, Comfort mode, Soil Level, Sterilisation, automatic drum cleaning and Delay Start.

FEATURES:

12 kg capacity: large load capacity that allows you to wash all your laundry at once, thus reducing energy consumption.

Class A: maximum energy efficiency that allows great energy savings in each wash.

Inverter plus motor: guarantees efficient operation wash after wash, saving you more than 70% compared to a universal motor.

14 programmes: a programme for every moment and every fabric to always offer tailor-made washes.

Spa Care: before each wash, it sterilises through steam at 99.9%, mainly in cold water washes.

WoolMark certification: takes care of all your garments and their fabrics, especially wool.

Sterilisation: this programme helps to sterilise laundry at over 65 °C for 30 minutes for total cleanliness.

Soil level: with this system the washing machine will automatically detect the soiling of the laundry and programme itself in time and rhythm for perfect results. Leaves clothes clean and ready, just like the first day.

Delay Start: set the time you want your washing machine to finish. Plan your washing to start at the time that best suits your schedule.

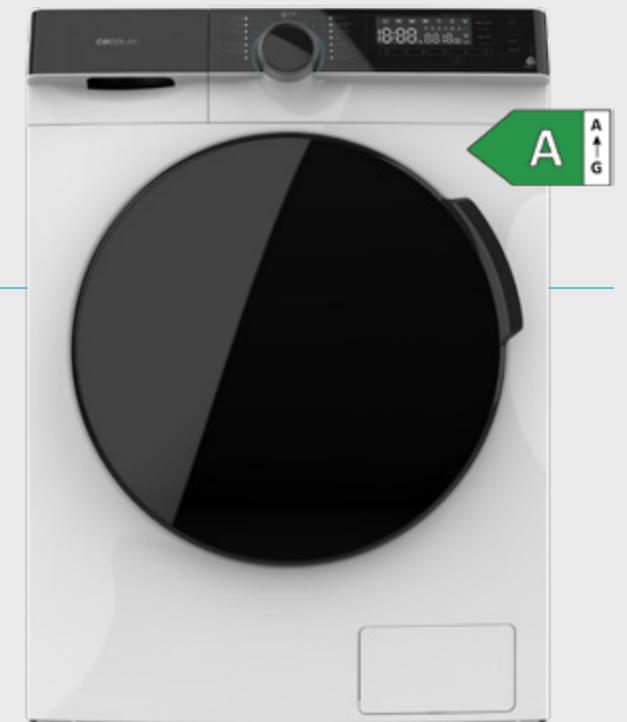

Comfort Mode: sets the wash and spin to an ultra-quiet mode so it can be used even at night without disturbing your sleep.

My Fav: memorise your most used programme and settings. Don't waste your time searching for your favourite programs.

Drum Clean: the drum cleans itself to prevent bacteria build-up. Free of dirt and bad smells.

Bolero DressCode 121000 Steel washing machine

12 kg washing machine with adjustable 1400 rpm. With Inverter Plus motor, it features 14 programmes, including spa care and soil level.

FEATURES:

14 programmes

Inverter motor: It guarantees an efficient operation with every washing, which will allow you to save more than 70% than with a universal motor. Thanks to the Inverter motor, the washing machine will operate more silently, especially when running the washing and spinning cycle.

Spa Care: before every wash, your laundry is sterilised with steam at 99.9% especially on cold water wash cycles.

Comfort mode: adjusting your wash and rinse to an ultra-silent mode so you can use it even at night while peacefully sleeping.

Soil level: with this system your washing machine will automatically detect the laundry soil level and programme the time and settings for perfect results.

My fav: it saves your most frequently used settings and programme.

Sterilisation

Delay start: schedule the end time of the cycle.

Drum clean: The drum cleans itself to prevent bacteria accumulation. Free of dirt and bad smells.

COMPOSITION:

Washing machine, water supply hose, instruction manual, transport feet

Bolero Wash&Dry 10680 Inverter Steel B washer dryer

10 kg - 6 kg capacity washer dryer, steel colour, 1400 rpm, 16 programmes, Inverter Plus motor, class B, smart wash and load detector.

FEATURES:

Load capacity 10 - 6 kg
Class B.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 70% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

Programmable revolutions: max 1400 rpm.

16 programmes: a programme for every moment and every fabric to offer the best washing and drying every time.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy logic: detects drum load and optimises water level and running time.

SteamMax: function added before the main programme that washes the laundry by steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free.

Pearl Drum: drum with snowflake texture that improves drying and sliding of garments.

Space Pro: more capacity in the same space thanks to the extra-flat drum design.

Touch display: control the washing machine conveniently thanks to the XXL touch display and get all the information about each wash at a glance (wash time, selected options, programme stage, etc.).

Dryers

Discover the DressCode range

Dryers

The perfect combination of design and technology to offer a high performance for all your garments to come out dry and ready to wear, making your day-to-day life easier and more comfortable.

A+++

ENERGY CLASS

All-round savings

Thanks to its A+++ certification¹, your dryers guarantee maximum energy savings while keeping your laundry looking brand new. Enjoy great performance while taking care of the planet.

CAPACITY

Dries everything at once

The tumble dryers have a load capacity of up to 9 kg to meet any need without having space problems. That way they fully optimise time while saving energy.

EASY IRONING

Ironing has come to an end

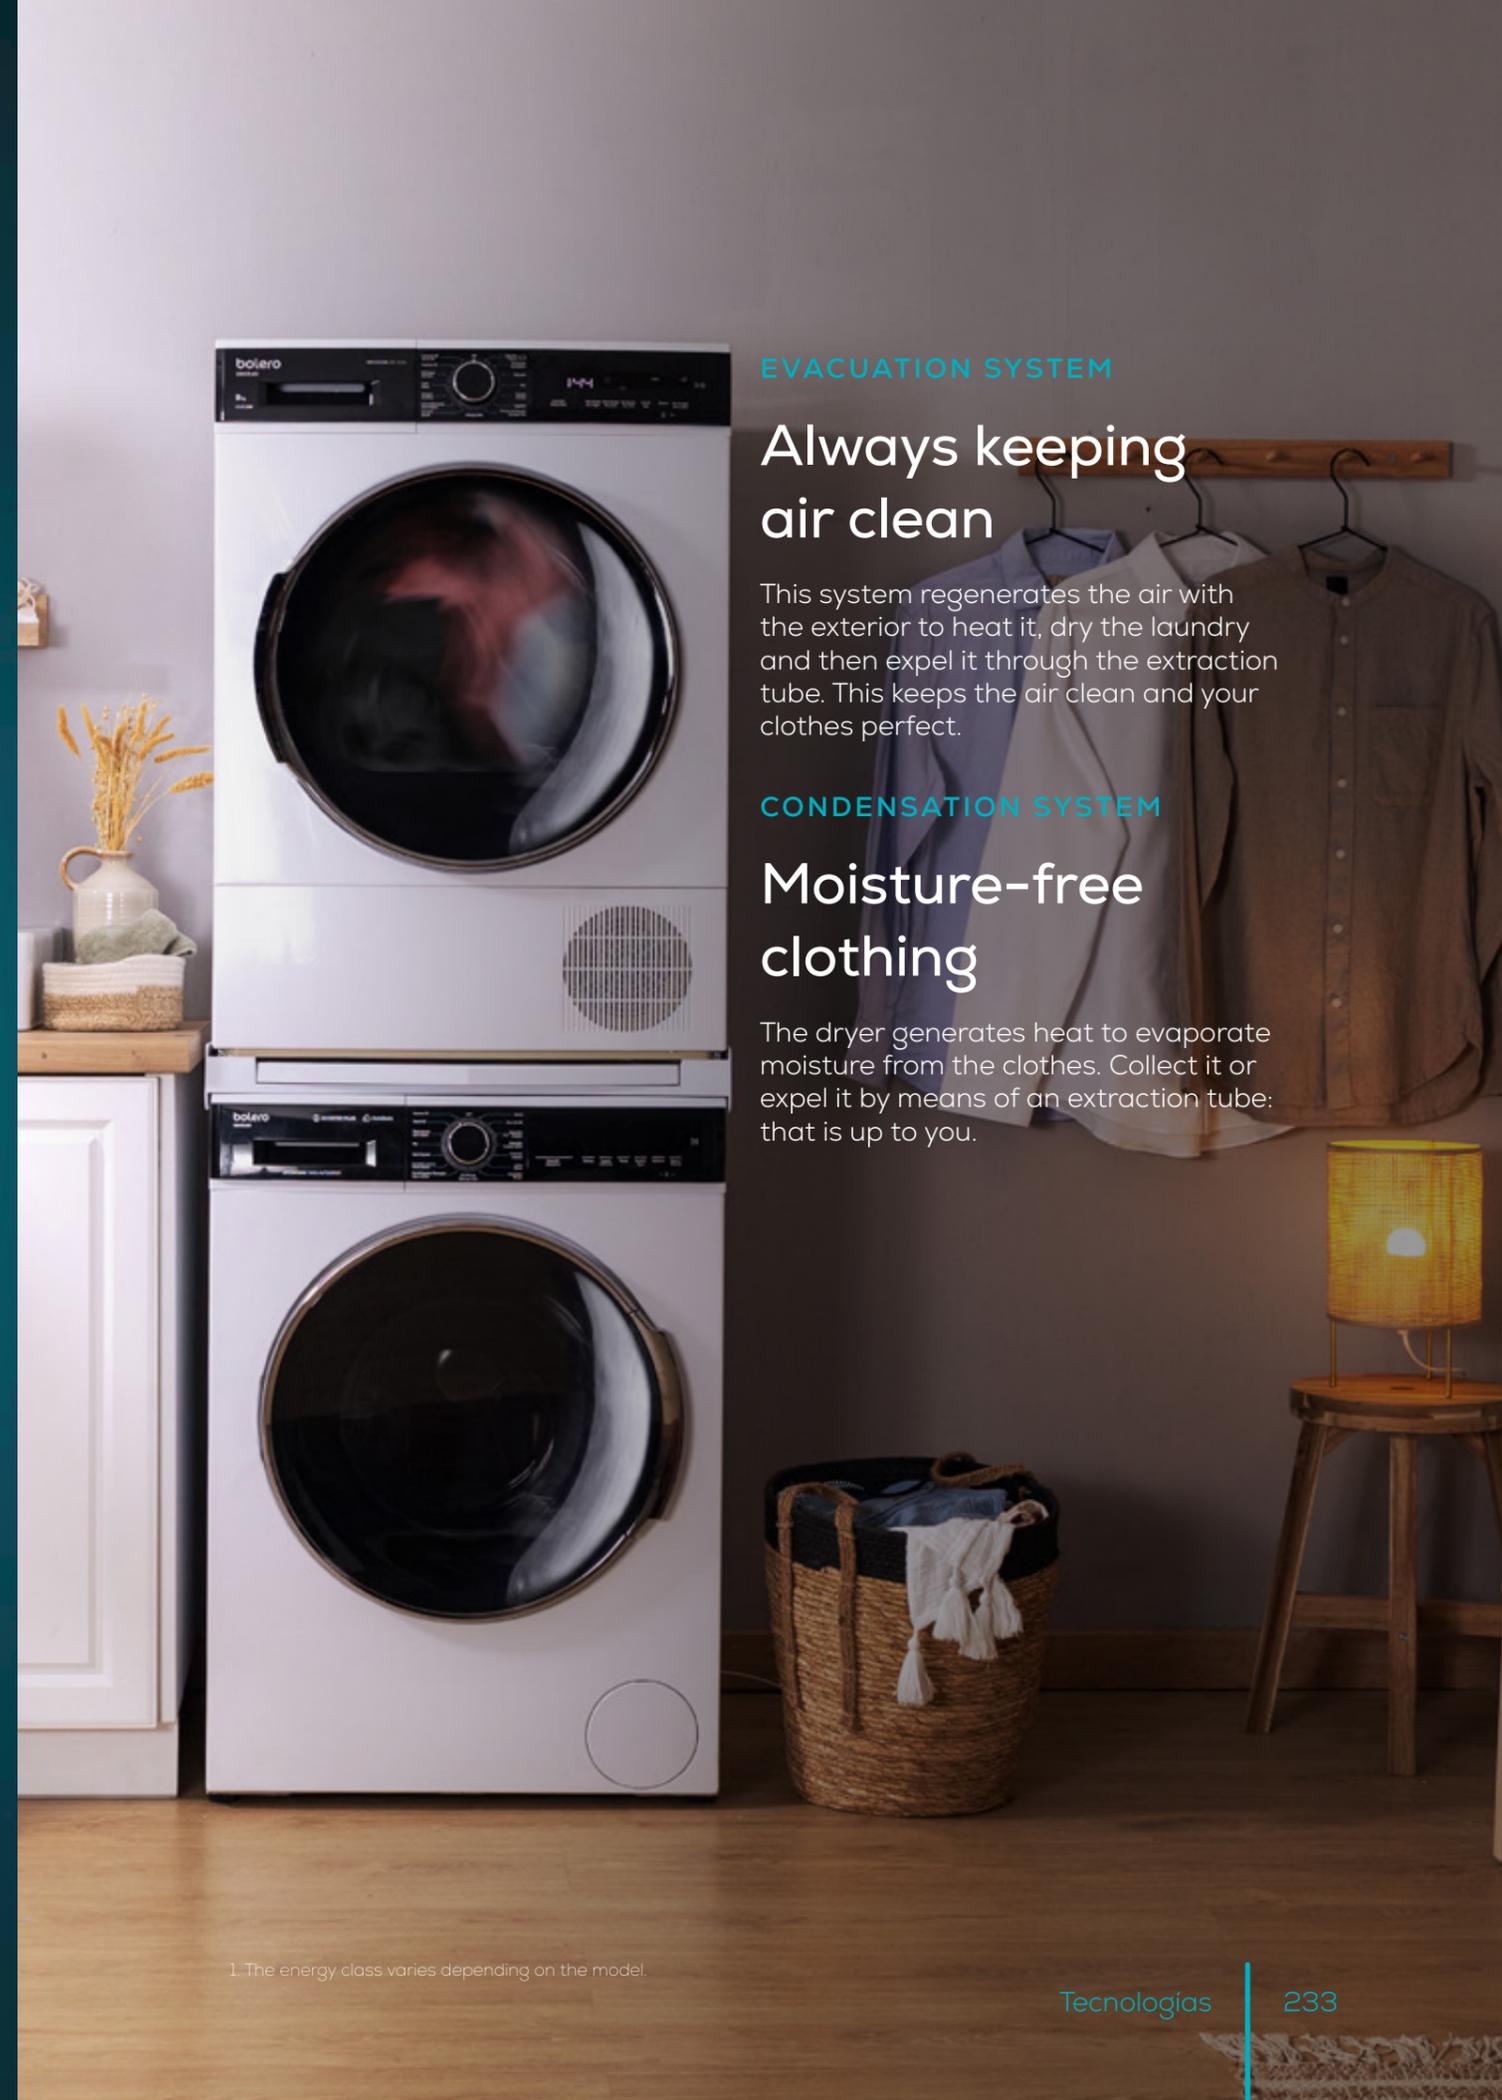

It reduces creases to a minimum, making it easier to iron your garments so that you can enjoy your time and avoid long ironing sessions after each wash.

HEAT PUMP

Dry to the maximum

The heat pump achieves perfect drying through a process that fully optimises the generated air. Air is heated and reaches the drum where the laundry is dried. Then it travels to the condenser where it is cooled down. When it is cool and dry, it is ready to restart the process.

EVACUATION SYSTEM

Always keeping air clean

This system regenerates the air with the exterior to heat it, dry the laundry and then expel it through the extraction tube. This keeps the air clean and your clothes perfect.

CONDENSATION SYSTEM

Moisture-free clothing

The dryer generates heat to evaporate moisture from the clothes. Collect it or expel it by means of an extraction tube: that is up to you.

No garment can resist it

Adjust each drying to the clothes needs with its 15 programmes. Forget about worries and offer your clothes the best care in each drying cycle.

Take care of all your textiles

The tumble dryers have different drums that facilitate and improve the drying and sliding of the garments, treating them with extreme care and delicacy.

970 SERIES

D class

Efficient energy consumption and more environmentally friendly and economical operation.

Automatic drying

Sensors measure the humidity inside to manage the drying cycle.

Diamond Care

Protects your garments in every drying cycle with its diamond-patterned drum design.

4 levels

Adjusts the drying intensity according to the specific needs of each type of fabric.

ION TECHNOLOGY

Your clothes always like new

The Ion Flow system releases negative ions that eliminate odours and allergens to keep clothes softer and cleaner. It also removes the electrostatic charge accumulated during the drying process, leaving the laundry fresh and ready for ironing.

Bolero DressCode Dry 7200V C

Vented tumble dryer with 7 kg of load capacity, energy class C, 15 programmes, Automatic drying, Easy iron, Stop&Go, KidLock, Anti-creases function, Silence function, bi-directional rotation, interior light and stainless steel drum.

FEATURES:

Vented system: a heating element raises the temperature of the air in the dryer and the moisture from the wet clothes is vented through aluminium ducts. 7-kg capacity: dries up to 7 kg of laundry at once. Class B: save money and take care of the planet while keeping your clothes as good as the first day. 15 programmes: choose the most suitable programme for your laundry from a wide range of possibilities. Automatic drying: dries your clothes to perfection thanks to the humidity sensors that adjust the drying time. Easy iron: programme that reduces the number of creases to a minimum, thus facilitating the ironing of garments. KidLock: lock the tumble dryer control panel and protect the youngest members of the household. Delay Start: programme the start of operation and have your laundry dry just when you need it. Anti-crease function: additional function compatible with different programmes that takes even more care of your laundry to prevent creases in your clothes. Bi-directional rotation: the drum rotates in both directions for better laundry removal and perfect drying. Interior light: check your clothes at a glance thanks to its interior light. Stainless steel drum: stainless steel surface and stain resistant drum. In addition, the stainless steel drum provides a smooth and soft surface for all types of laundry. Silence function that silences operating noises such as the end of the wash if you prefer not to be disturbed by the washing machine. Stop&Go function: pause the tumble dryer if you want to take out or put in some clothes without complications.

Bolero DressCode Dry 8200C B

Condenser tumble dryer with 8 kg load capacity, class B, 15 programmes, Automatic drying, Easy iron, Stop&Go, KidLock, Anti-creases function, Silence function, bi-directional rotation, interior light and stainless steel drum.

FEATURES:

Condensation system: the dryer pulls air from the exterior of the machine and passes it through a heating element that heats up the air and clothes. To remove the moisture, the condenser will cool the air and turn it into water. The dryer will then either collect or pump out the water to drain it before restarting the heating and cooling cycle again. 8-kg capacity: dries up to 8 kg of laundry at once. Class B: save money and take care of the planet while keeping your clothes as good as the first day. 15 programmes: choose the most suitable programme for your laundry from a wide range of possibilities. Automatic drying: dries your clothes to perfection thanks to the humidity sensors that adjust the drying time. Easy iron: programme that reduces the number of creases to a minimum, thus facilitating the ironing of garments. KidLock: lock the tumble dryer control panel and protect the youngest members of the household. Delay Start: programme the start of operation and have your laundry dry just when you need it. Anti-crease function: additional function compatible with different programmes that takes even more care of your laundry to prevent creases in your clothes. Bi-directional rotation: the drum rotates in both directions for better laundry removal and perfect drying. Interior light: check your clothes at a glance thanks to its interior light. Stainless steel drum: stainless steel surface and stain resistant drum. In addition, the stainless steel drum provides a smooth and soft surface for all types of laundry. Silence function that silences operating noises such as the end of the wash if you prefer not to be disturbed by the washing machine. DryLevel: select the desired heat intensity among its three options. Stop&Go function: pause the tumble dryer if you want to take out or put in some clothes without complications.

Bolero DressCode Dry 8400 A++

Heat pump tumble dryer with 8 kg load capacity, A++ class, Full Touch, Easy iron, 15 programmes and stainless steel drum.

FEATURES:

8-kg capacity: dries up to 8 kg of laundry at once. A++: saving energy and caring for the planet while keeping your clothes looking as good as the first day. Heat Pump: thanks to the heat pump, the air is heated by a liquid and reaches the drum where the laundry is dried. After, it reaches the condenser where it is cooled down, the resulting condensation is stored in a tank and the air released from the condenser is cold and dry, ready to restart the process. Full Touch control: programme your tumble dryer in a more comfortable and intuitive way. 15 programmes: choose the most suitable programme for your laundry from a wide range of possibilities. Automatic drying: dries your clothes to perfection thanks to the humidity sensors that adjust the drying time. Easy iron: programme that reduces the number of creases to a minimum, thus facilitating the ironing of garments. Stop&Go function. Stop the dryer during operation. If you forgot to put something in the washing machine or you want to take something out, pause it and open it without problems. Stainless steel drum: stain resistant, uncoated as it does not splinter. It is resistant to wear and tear, which allows a smooth and soft surface for all types of clothing. Interior light: check your clothes at a glance thanks to its interior light. KidLock: lock the tumble dryer control panel and protect the youngest members of the household. Silence function: silences the washing machine, both operating and end-of-wash noises. Activate this mode during rest time to avoid the washing machine from emitting noises. Delay Start: programme the start of operation and have your laundry dry just when you need it.

Bolero DressCode Dry 10970

Heat pump tumble dryer white, 10 kg capacity, class D (equivalent to A+++), 9 programmes, automatic drying, Pro Care programme, SpaCare, 4 intensity levels, anti-crease function, Delay Start, Stop&Go, KidLock, shoe accessory and Diamond Care drum.

FEATURES:

Extra 10 kg capacity: ideal for large quantities of laundry, optimises each cycle and saves drying time.

Heat pump technology ensures efficient and gentle drying with lower energy consumption, protecting your garments while reducing electricity bills.

This tumble dryer has a D energy classification according to the new standard, equivalent to the former A+++, which ensures efficient energy consumption and a more ecological and economical operation.

9 programmes: adapt the drying to each type of garment and need to obtain the best results every time.

Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

Pro Care programme: designed to provide a unique and personalised treatment, with a different operation from conventional programmes, adapting to the specific needs of each user. It offers three exclusive treatments: removing hair (Hair Removal), refreshing garments by eliminating odours (Refresh), and restoring fluffiness to down jackets or similar (Fluffy).

The SpaCare programme sterilises clothes with steam during the drying cycle. Thanks to the use of steam, clothes will be free of bacteria and a thoroughly cleaned.

Up to 4 drying intensity levels: It allows you to adjust the drying intensity according to the specific needs of each type of fabric, guaranteeing optimal results and protecting your garments.

Reduces creases in clothes to a minimum. Easy ironing: this level of drying intensity not only removes moisture, but also reduces creases, making ironing easier.

with its diamond-patterned drum design.

Bolero DressCode Dry 8400 A+++

Heat pump tumble dryer with 8 kg capacity, Class A+++, Inverter Plus motor, Full Touch, Easy Iron, 15 programmes and stainless steel drum.

FEATURES:

8-kg capacity: dries up to 8 kg of laundry at once.

A +++ : top energy saving and care for the planet while keeping your clothes looking as good as new.

Heat Pump: thanks to the heat pump, the air is heated by a liquid and reaches the drum where the laundry is dried. After, it reaches the condenser where it is cooled down, the resulting condensation is stored in a tank and the air released from the condenser is cold and dry, ready to restart the process.

FullTouch control: programme your tumble dryer in a more comfortable and intuitive way.

15 programmes: choose the most suitable programme for your laundry from a wide range of possibilities.

Automatic drying: dries your clothes to perfection thanks to the humidity sensors that adjust the drying time.

Easy iron: programme that reduces the number of creases to a minimum, thus facilitating the ironing of garments.

Stop&Go function. Stop the dryer during operation. If you forgot to put something in the washing machine or you want to take something out, pause it and open it without problems.

Stainless steel drum: stain resistant, uncoated as it does not splinter. It is resistant to wear and tear, which allows a smooth and soft surface for all types of clothing.

Interior light: check your clothes at a glance thanks to its interior light.

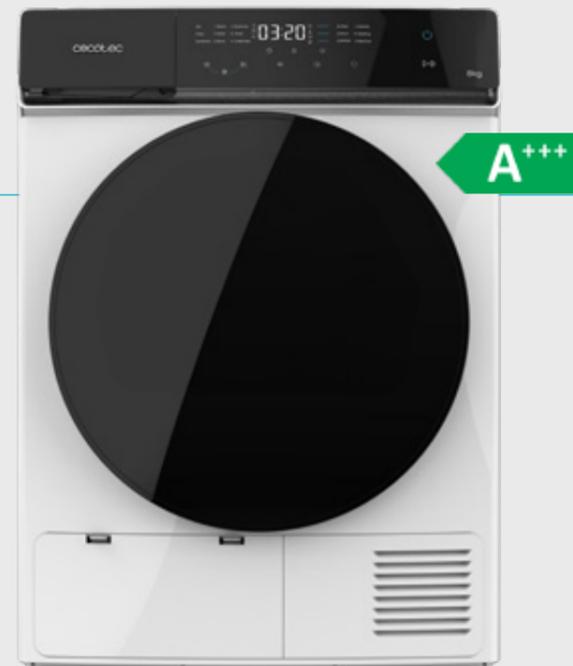

KidLock: lock the tumble dryer control panel and protect the youngest members of the household.

Silence function: silences the washing machine, both operating and end-of-wash noises. Activate this mode during rest time to avoid the washing machine from emitting noises.

Delay Start: programme the start of operation and have your laundry dry just when you need it.

COMPOSITION:

Tumble dryer, instruction manual.

 67.5 x 72 x 88 cm 51.9 kg

Bolero stacking kit with tray

Universal stacking kit with Bolero tray to unify washing machine and tumble dryer in a single block, optimising space. Removable tray, Easy installation.

FEATURES:

Thanks to this system you can have your washing machine and dryer in the same place, one on top of the other, without having to occupy a large space across the width. You can have two appliances in the space of one.

Perfect for putting clothes in when you have finished washing and have to put them in the dryer, or when you have finished drying them and want to fold them and put them away. Thanks to this, laundry will be easier and more convenient.

Applicable to all brands on the market; standard size (60 cm). By the use of straps for a perfect hold. Don't worry if it moves with other appliances' vibrations.

It reduces the vibrations of household appliances and thus the noise produced. No specialised personnel are needed to assemble the product.

Unhindered use of both tumble dryer and washing machine drawers without the kit interfering with their operation. The tray acts as support for your laundry before each cycle, allowing you to fold it in the most comfortable way once your laundry is ready.

Bolero DressCode Dry 3800C Dark

Compact condenser tumble dryer, 3 kg capacity, dark grey, FullColor display, 12 programmes, automatic drying, UV Care function, stainless steel drum with bidirectional rotation, Dry Shoe Rack, Delay Start function, KidLock, Refresh Mode.

FEATURES:

Compact but powerful: perfect for homes with limited space, it dries up to 3 kg of laundry efficiently and fits in any corner thanks to its small design.

Mini condensation dryer: dry your clothes in any place, with no need to go outside and with maximum comfort.

Convenient and intuitive control: its innovative FullColor display makes it easy to operate and simplifies each drying cycle.

Customised care for every fabric. 12 programmes to adapt each drying to the needs of the moment.

Smart programme: automatic drying that uses temperature and humidity sensors to calculate the amount of laundry and automatically adjust the drying time. Stops automatically when the laundry is dry

UV Care: Take advantage of ultraviolet light technology to effectively sterilise clothes, ensuring sanitised garments and superior cleanliness.

A bi-directional drum rotation prevents tangles and improves drying by distributing the laundry more evenly during the cycle. This results in fewer creases and more homogeneous results.

Dry Shoe Rack: the dryer has a rack specifically designed to dry shoes efficiently and gently.

Protects clothes and is wear-resistant. Inox drum: stain-resistant, without coating as it does not crack. It is wear-resistant, providing a smooth surface suitable for all types of clothing.

The Delay Start function allows you to programme the start of the cycle and have your laundry dry just when you need it.

The Delay Start function allows you to programme the start of the cycle and have your laundry dry just when you need it.

KidLock: lock the tumble dryer control panel and protect the youngest members of the household.

Refresh mode: Neutralises clothing odours without activating the heating function.
