Garment steamer

Ironing has never been easier

Discover light, fast and efficient ironing. Save time every morning and wear brand new clothes every day with little effort. It's so easy to use, you'll be ironing every day.

POWER UP TO 2100 W

Fast and precise ironing

Get rid of creases quickly and efficiently thanks to a high power of up to 2100 W, which allows steam to penetrate into the fabric, providing an instant ironing like no other.

POWER STEAM

Continuous steam

This technology generates an optimal and efficient continuous steam pressure of up to 40 g/min, with which you can easily remove creases as well as disinfect, clean and care for your garments.

3 MODES

An iron that fits you

Adapt your iron to every fabric with up to 3 different steam modes. Get faster ironing on creased areas or choose an overall ironing depending on the steam mode you choose.

CERAMIC SOLEPLATE

Removes wrinkles in one go

Thanks to the ultra-slippery ceramic soleplate, creases will be removed in a single stroke. And with the Turbo Slide technology, the soleplate will look like new for longer as it makes it scratch-resistant.

BRUSHES

No fabric can resist it

The irons are equipped with a brush to remove lint from your garments and make even the thickest and most delicate fabrics look impeccable.

VERSATILE IRONING

Comfortable ironing

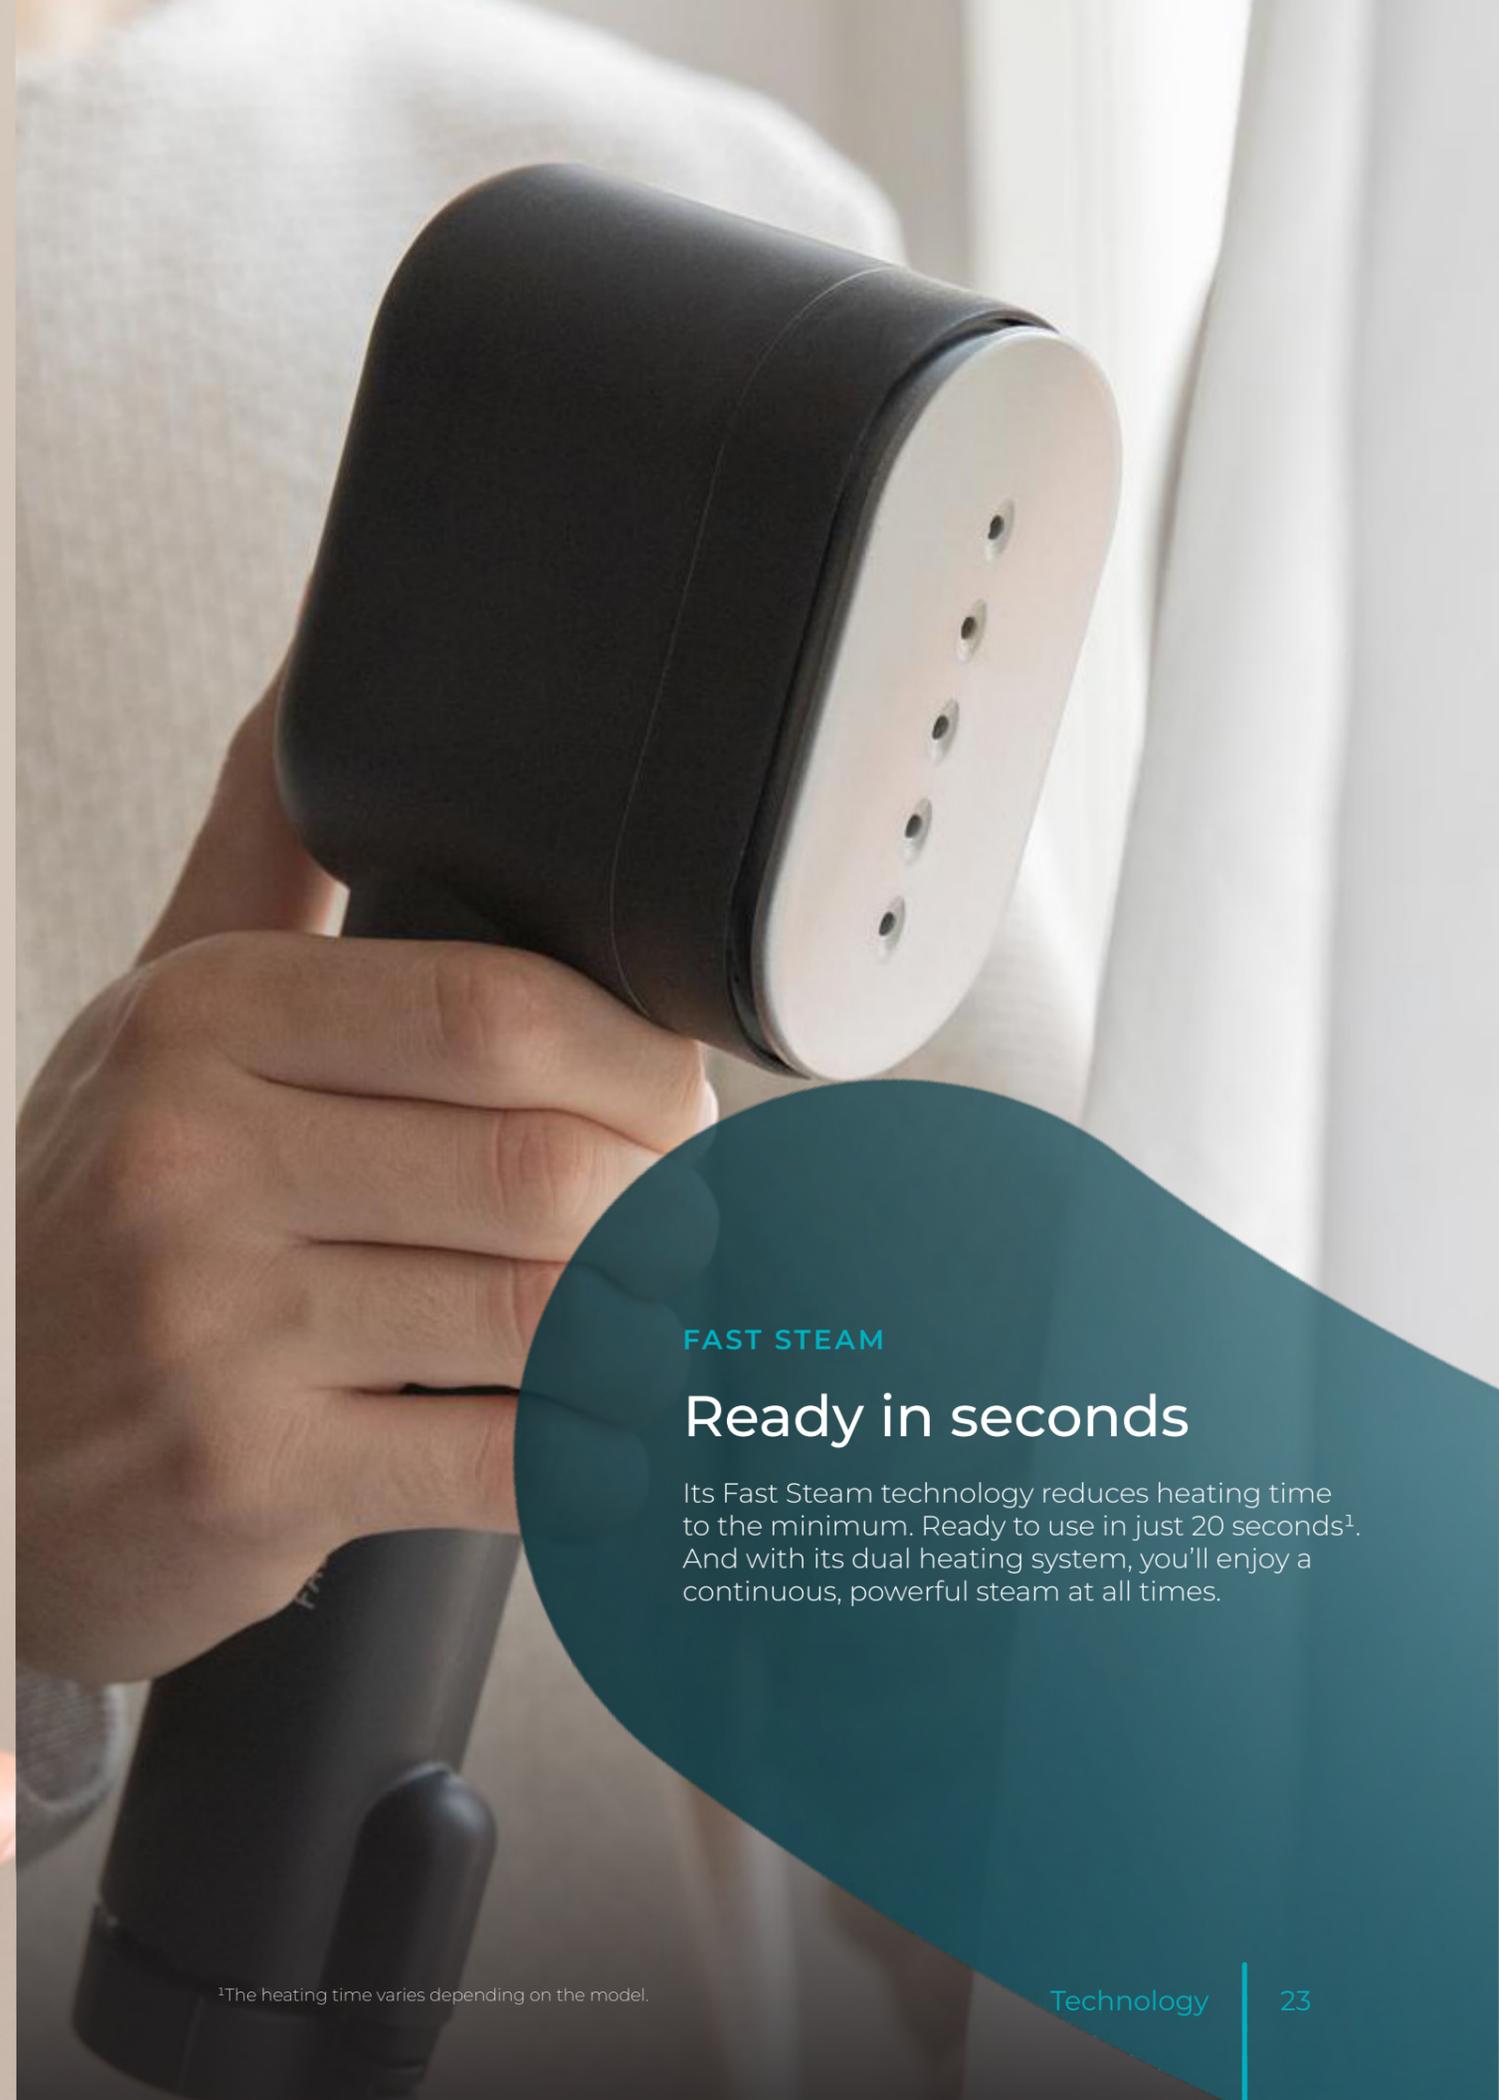

Iron both vertically and horizontally, turning your ironing into a comfortable and personalised experience.

WATER TANK

Forget about endless ironing sessions

It has been designed with a large tank so that you can iron all your garments without having to refill the deposit or stop unnecessarily.

FAST STEAM

Ready in seconds

Its Fast Steam technology reduces heating time to the minimum. Ready to use in just 20 seconds¹. And with its dual heating system, you'll enjoy a continuous, powerful steam at all times.

¹The heating time varies depending on the model.

Fast&Furious 4010 Vital garment steamer

1000-W garment steamer with ceramic soleplate. Handy and eye-catching design, for you to take it traveling. Ceramic soleplate and silicone brush accessory, to remove lint and threads. Fast heating: Ready in 30 seconds.

SmoothForce 2000 Smart garment steamer

1400-W garment steamer, 25-g/min continuous steam rate, 2 steam modes, Eco mode, anti-scale filter and 19-minute run time.

FEATURES:

Compact and powerful vertical steam iron that achieves excellent results with your clothes directly on the hanger. Exclusively designed for delicate clothes and difficult creases.

Power Technology: Great power, 1400 W, for easy and efficient ironing, crease removal, disinfecting and deodorizing.

PowerSteam: technology that produces an optimum and efficient continuous steam of 20-25 g/min. Includes 2Modes Steam as it counts on 2 steam modes: trigger to activate fast ironing on the most wrinkled zones and continuous mode for a longer ironing, without having to press the trigger.

Anti-Calc System: Filtering system that avoids scale from building up and ensures a high steam performance, lengthening its service life. You will be able to enjoy the best ironing just as efficient as the first day.

Fast Steam: technology that reduces the preheating time to minimum (35 seconds).

Great-capacity detachable tank, 280 ml, with transparent window that provides the iron with an excellent ironing autonomy. Iron all your clothes without having to stop to refill the tank.

Smart AutoOFF: safety system that turns the iron automatically off when it is left still for 8 minutes in an upright position.

TouchControl: touch display with LED technology for easy and intuitive usability, from which you can select the mode, turn it off and on.

Ergonomic Design: Modern and light design with ergonomic handle for you to use it in the easiest and most agile way.

2Modes Pro: two operating modes: normal mode for a fast and efficient ironing and eco mode that will allow you to save 40 % energy enjoying the same power and obtaining excellent results.

15-minute autonomy during normal mode and up to 19 minutes during Eco mode.

EasyPosition: press the button and set continuous steam function for the device to produce constant steam without pressing the button. This setting is the most comfortable for ironing multiple garments.

Multidirectional 1.90-metre cord for you to steam comfortably without unnecessary efforts.

Steam irons

Ultra-powerful ironing, extreme glide

Discover Cecotec's irons and remove wrinkles from your clothes while taking care of every garment. It irons with maximum efficiency thanks to its advanced technologies, high power and ultra-slippy soleplates that get rid of creases in a quickly and comfortable way.

STEAM

More steam, no more creases

Continuous steam

Effortless ironing

PowerSteam technology delivers a maximum continuous steam pressure of up to 80 g/min* so you can effortlessly remove all creases from your clothing items.

Steam burst

No crease can resist it

Its 300 g/min² super steam removes the most stubborn creases by penetrating into the fabric.

*The g/min of steam varies depending on the model.

**The g/min of steam varies depending on the model.

SOLEPLATES

Say goodbye to wrinkles in a single pass

Ceramic soleplate⁴

Toughness and effectiveness

High resistance and non-stick properties for a perfect sliding. These soleplates make it easier to move over the garments and allow a more agile and safe ironing.

Anodized soleplate⁵

Maximum efficiency in every pass

It is designed with an innovative anodised aluminium soleplate that generates an ultra-slip and anti-scratch movement and allows for greater durability, being up to three times more resistant than conventional soleplates.

⁴The soleplate type varies depending on the model.

⁵The soleplate type varies depending on the model.

Ironing and dry-cleaning at home

As convenient as an ironing station

Steam will rule your home with our Cecotec irons. Enjoy the efficiency of an ironing station with our horizontal iron and give perfect care to your clothes thanks to its 3200 W¹.

LCD

Fits you and your garments

Control your programmes with a simple glance at the LCD screen². Choose the ideal function for each fabric and give your garments a unique care with every stroke.

ANTI-DRIP AND ANTI-LIMESCALE SYSTEM.

Daily care of clothes

Iron again and again with maximum efficiency thanks to the anti-limescale system. In addition, the iron has an anti-drip system to avoid staining your clothes and to prevent unforeseen events.

SMART AUTOOFF

It's all about ease

Designed with the most advanced safety systems, such as the Smart AutoOFF system, which automatically switches the iron off when it detects no activity to avoid burning your clothes.

¹Power may vary depending on the model.

²Only available on the models: Fast&Furious 5050 X-Treme, IronHero 3200 Smart Absolute and 3D ForceAnodized 750 Smart.

³Not available on Fast&Furious 5010 Vital and Fast&Furious 5020 Force models.

Fast&Furious 5010 Vital iron

2600-W powerful steam iron, 55 g/min continuous steam and 200 g/min steam burst.

FEATURES:

Ultra Power Technology: Very powerful, 2600 W for fast, simple and efficient ironing.

Turbo Slide: Aluminium soleplate of maximum durability that performs ultra-sliding and anti-scratch movements. Up to 3 times more resistant than regular soleplates.

Power Steam: Technology that produces continuous steam of up to 55 g/min.

Burst Steam System: 200 g/min steam burst that penetrates fabric, removing the most stubborn wrinkles. You will obtain high-quality results and professional finishes.

Drip Block: System that avoids the iron from leaking condensed water drops and from staining clothes.

Precision Tip: helps removing the most inaccessible creases, offering agile and comfortable ironing.

iTemp: Temperature control. Thanks to its 4-position temperature regulator you will be able to adapt it in accordance with each fabric's requirements.

Cyclo Clean, anti-calc system: Filtering system that avoids scale from building up and ensures a high steam performance, lengthening its service life. You will be able to enjoy efficient ironing just as the first day thanks to its anti-scale system.

FEATURES:

Ultra Power Technology: Very powerful, 2600 W for fast, simple and efficient ironing.
 Turbo Slide: Aluminium soleplate of maximum durability that performs ultra-sliding and anti-scratch movements. Up to 3 times more resistant than regular soleplates.
 Power Steam: Technology that produces continuous steam of up to 60 g/min.
 Burst Steam System: 210 g/min steam burst that penetrates fabric, removing the most stubborn creases. You will obtain high-quality results and professional finishes.
 Drip Block: System that avoids the iron from leaking condensed water drops and from staining clothes.
 Precision Tip: helps removing the most inaccessible creases, offering agile and comfortable ironing.
 Auto Shut-off: Safety automatic shut-off system. Protects your home.
 Cyclo Clean, anti-calc system: Filtering system that avoids scale from building up and ensures a high steam performance, lengthening its service life. You will be able to enjoy efficient ironing just as the first day thanks to its anti-scale system.

Fast&Furious 5050 X-Treme horizontal iron

Steam iron. LCD display. 2720 W. Steam 55 g/min. Steam burst 200 g/min. Turbo Slide soleplate. ECO mode. Anti-calc. 0.3 litres. Safety system. Anti-drip.

FEATURES:

Intelligent Total Control: Intuitive and innovating temperature control through LCD display. Choose the fabric and enjoy maximum-precision ironing.
Great power, 2720 W, for a fast and efficient ironing.
Power Steam Control: Technology that produces a continuous steam rate of up to 55 g/min. Use the precision knob to set the appropriate steam level, depending on the case.
200 g/min super steam that penetrates fabric, removing the most stubborn wrinkles.
Ergonomic trigger located under the handle.
Titanium Slide soleplate: high resistance and non-stick properties, perfect sliding. Innovating technology that allows easier sliding on clothes and smoother and safer ironing.
Eco mode: Performs same results saving energy.
Anti-calc System: The Cyclo Clean filtering system avoids limescale from building up and ensures a long-term high steam performance.
Drip Block anti-drip system: Avoids the iron from leaking condensed water drops and from staining clothes.
Large 300-ml tank: Iron all your clothes without having to stop.
Precision tip to remove the most inaccessible creases.
Fast Steam: Technology that reduces preheating time to minimum.
SmartAutoOFF: Security system against overheating that turns the iron automatically off while it is not being used.
Vertical Steam: enables easier ironing of hung clothes such as jackets, ensuring perfect results.
Easy filled: easy and comfortable water filling.
Anti-drip system: Avoids the iron from leaking condensed water drops and from staining clothes.
Ergonomic, light and user-friendly iron.

3D ForceAnodized 750 Smart steam iron

3100 W steam iron with LCD display, 65 g/min continuous steam, 230 g/min steam burst, AnodizedSlide soleplate, and display.

FEATURES:

Smart and compact steam iron that achieves excellent results in just one go.
UltraPower Technology: Very powerful, 3100 W for fast, simple and efficient ironing.
AnodizedSlide: aluminium soleplate of maximum durability that performs ultra-sliding and anti-scratch movements. Up to 3 times more resistant than regular soleplates.
3D Steam System: Double-layer soleplate that doubles the heat-intensity capacity and helps spread and retain it homogeneously along the whole surface. Designed to be very light for maximum efficiency.
Intelligent Total Control: Intuitive and innovating temperature control through LCD display. It includes 4 different ironing programs that adjust temperature depending on the type of fabric.
PowerSteam: technology that produces a continuous maximum-pressure steam of up to 65 g/min.
BurstSteam System: 200 g/min steam burst that penetrates fabric, removing the most stubborn wrinkles. You will obtain high-quality results and professional finishes.
Anti-Drip System: avoids the iron from leaking condensed water drops and from staining clothes.
Smart AutoOFF: safety system that turns the iron automatically off when it is placed horizontally and not operated for 30 seconds, or 8 minutes upright.
400-ml large tank with transparent window. Iron all your clothes without having to stop to refill the tank.
Modo Eco: achieve the same results and enjoy the same power while you save 40 % energy.
Anti-Calc System: Filtering system that avoids scale from building up and ensures a high steam performance, lengthening its service life. You will be able to enjoy efficient ironing just as the first day thanks to its anti-calc system.
SelfClean System: autoclean function that removes dust rests and impurities built up inside the soleplate, avoiding possible blockages or leakages. Improves its performance and lengthens its service life.

**Steam irons with
water pump**

Faster ironing with better results

WATER PUMP

Continuous steam, full ironing

Enhance your ironing experience by generating continuous steam and water emission while getting faster, more efficient results.

POWER

One pass and done

Irons with a water pump achieve a great power up to 3200 W for a fast, simple and efficient ironing.

DOUBLE STEAM

Select the steam outlet

Revolutionise your ironing with its dual steam output¹. Concentrate it on the tip or make it come out all over the soleplate, so that you can adapt the ironing to the needs of each garment and fabric.

THERMOBLOCK

Instant heat

The iron's Thermoblock system* helps the iron to heat up quickly by ensuring that the temperature is always kept in the optimum range to generate steam for flawless results.

CORDLESS

Cordless maximum comfort

Enjoy the cordless IronHero 3100 Cordless steam iron with a 90-second autonomy for maximum convenience and perfect ironing.

IronHero 3200 i-Pump Steam iron with pump

Steam iron with 3200 W pump, 285 g/min steam stroke and ultra-slippery anodised soleplate for maximum durability.

FEATURES:

Iron with built-in automatic water pump with 3200 W, ensuring a fast heating of the iron and easy and efficient ironing.

Built-in automatic water pump, enhancing your ironing experience by generating continuous steam that normal irons do not have.

Power Steam technology that produces continuous steam of up to 75 g/min.

285 g/min super steam that penetrates fabric, removing the most stubborn wrinkles.

Turbo Slide soleplate, high resistance and non-stick properties, perfect gliding. Innovating technology that allows easier sliding on clothes and smoother and safer ironing.

Adjustable temperature by means of a knob to adapt to each fabric.

Drip Block anti-drip system. Takes care of your clothes, prevents staining and ensures correct operation of the product.

Cyclo Clean anti-limescale system, filtering process that prevents limescale from building up and ensures a high-quality use of the iron during longer time.

3D ForceAnodized 850 i-Pump steam iron

Compact and smart steam station with 3100 W, 65 g/min continuous steam, 230 g/min steam burst, and SensorTouch.

FEATURES:

Smart and compact steam iron that achieves excellent results in just one go.

UltraPower Technology: Very powerful, 3100 W for fast, simple and efficient ironing.

AnodizedSLide: aluminium soleplate of maximum durability that performs ultra-sliding and anti-scratch movements. Up to 3 times more resistant than regular soleplates.

3D Steam System: Double-layer soleplate that doubles the heat-intensity capacity and helps spread and retain it homogeneously along the whole surface. Designed to be very light for maximum efficiency.

Intelligent Pump: electric pump that produces a continuous maximum-pressure steam of up to 65 g/min.

SensorTouch: touch-control sensor with smart technology to activate steam only during the ironing process. Produces steam without having to press any buttons.

BurstSteam system: 230 g/min steam blast that penetrates the fabrics, eliminating the most stubborn creases. You will obtain high-quality results and professional finishes.

Anti-drip system: avoids the iron from leaking condensed water drops and from staining clothes.

Smart AutoOFF: safety system that turns the iron automatically off when it is placed

horizontally and not operated for 30 seconds, or 8 minutes upright.

400-ml large tank with transparent window. You will be able to iron all your clothes without having to stop to refill the tank.

iTemp: Automatic and smart control over temperature. Thanks to its 21-position temperature knob you will be able to adapt it in accordance with each fabric's requirements.

Eco Mode: achieve the same results and enjoy the same power while you save 40% energy.

Anti-Calc System: filtering system that avoids scale from building up and ensures a high steam performance, lengthening its lifespan. You will be able to enjoy efficient ironing just as the first day thanks to its anti-calc system.

SelfClean System: self-cleaning function that removes dust rests and impurities built up inside the soleplate, avoiding possible blockages or leakages. Improves its performance and lengthens its lifespan.

IronHero 3000 Sauna i-Pump

Horizontal steam iron with pump and thermoblock, 3000 W. Temperature knob depending on the fabric, double anodised soleplate with double heating element and LED function indicator light.

FEATURES:

Iron with double heating element, including thermoblock. This fast heating system ensures that temperature will remain within the optimum range in order to obtain the best result. Built-in automatic water pump, enhancing your ironing experience by generating continuous steam that normal irons do not have. High power with 3000 W, which ensures fast heating and easy and efficient ironing. Turbo Anodized Pro ultra-slippery double anodised soleplate to save time during your ironing sessions. Anodised aluminium is the most resistant material in the market used for iron soleplates. It also ensures a more even heat distribution with perfect results. Power Steam technology that generates continuous steam of up to 80 g/min and super steam of 300 g/min that removes the most stubborn creases by penetrating into the heart of the fabric. Comfortable temperature control thanks to its knob in which you can choose one of its 5 programmes depending on the type of fabric. Strong design: the weight of the iron rests on each garment, improves soleplate contact with creases and makes ironing easier. Drip Block anti-drip system. Takes care of your clothes, prevents staining and ensures correct operation of the product. Cyclo Clean anti-limescale system, filtering process that prevents limescale from building up and ensures a high-quality use of the iron during longer time. Smart Auto OFF security system against overheating that turns the iron automatically off while it is not being used.

Travel irons

Bring it wherever you go

Discover the Cecotec travel irons and take them with you wherever you go. Iron with maximum efficiency thanks to its advanced technologies, high power and ultra-slippery soleplates to get rid of creases quickly, reducing the time of your ironing sessions.

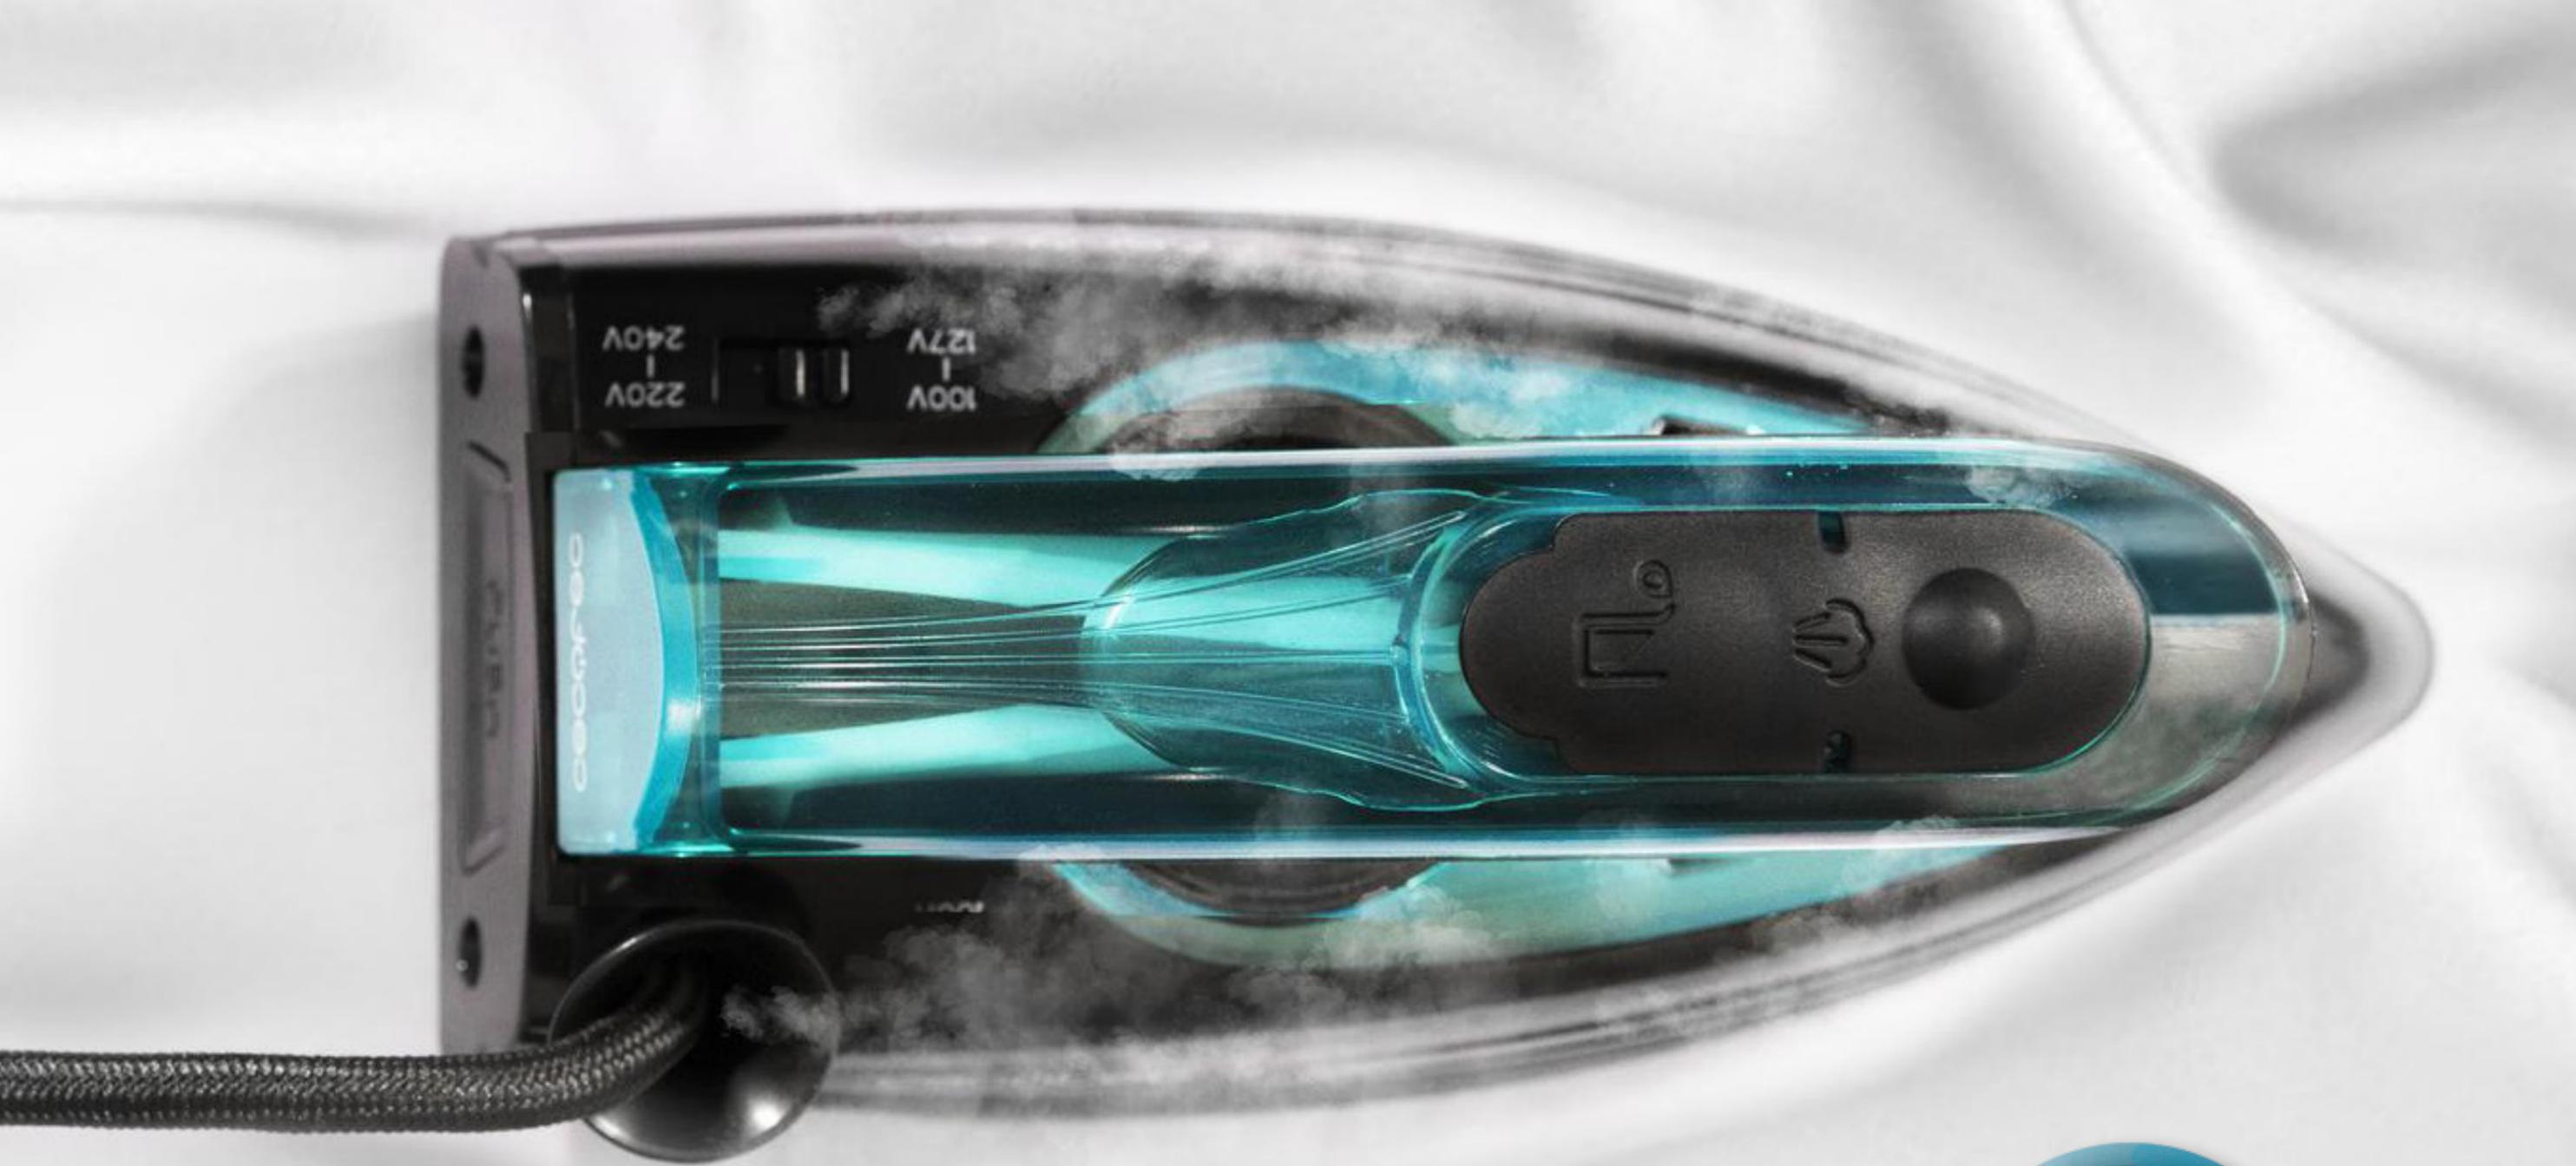

DOUBLE VOLTAGE

Iron wherever and whenever you like

With its dual voltage of 110-127 V and 220-240 V, you can iron anywhere in the world without the need for voltage converters or transformers.

TEMPERATURE ADJUSTMENT

Tailor-made for your garments

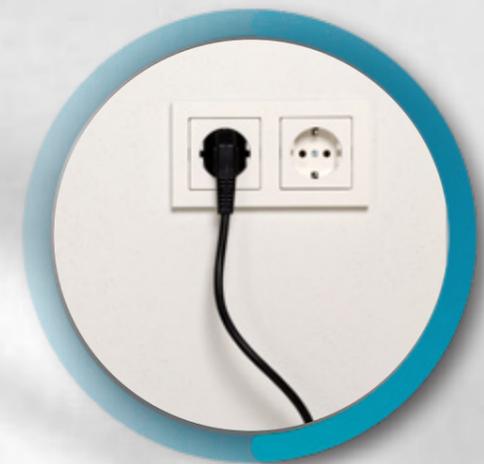

It allows you to control the temperature and adapt it to your clothes fabrics for tailor-made results.

EXTRA-LONG CORD

Reaches every corner

You can plug the iron into any socket and use it comfortably thanks to its extra-long cord¹.

¹The cable length may vary depending on the model.

FOLDABLE HANDLE

Maximum comfort

It includes an ergonomic handle that can be folded for easy storage, which takes up barely no space.

TRANSPORT POUCH

Wrinkles won't bother you anymore

Take your iron everywhere with the travel pouch* with a heat-resistant interior and velvet exterior. The iron perfectly fits any travel pouch, suitcase or toilet bag, so you can bring it everywhere.

*Only available on the Fast&Furious 4000 Travel model.

GoForce 8000 Folding Titanium travel iron

1200 W travel iron, 15 g/min continuous steam and 53 g/min steam burst. Dual voltage system.

FEATURES:

UltraPower Technology: Very powerful, 1200 W for fast, simple and efficient ironing.

TitaniumSlide: Anodized aluminium soleplate of maximum durability that performs ultra-sliding and anti-scratch movements. Up to 3 times more resistant than regular soleplates.

Power Steam: Technology that produces continuous steam of up to 15 g/min.

Burst Steam System: 53 g/min steam burst that penetrates fabric, removing the most stubborn wrinkles. You will obtain high-quality results and professional finishes.

Anti-Drip: System that avoids the iron from leaking condensed water drops and from staining clothes.

Smart Auto OFF: Safety system that turns the iron automatically off when it is placed horizontally and not operated for 30 seconds, or 8 minutes upright.

Water Tank: 400-ml large tank with transparent view window. You will be able to iron all your clothes without having to stop to refill the tank.

Double Voltage System: thanks to its double-voltage system, 110-127 V and 220-240 V you will be able to connect it in any country avoiding plug problems.

Fast&Furious 4000 Travel travel iron

Travel iron with temperature knob and handy design. Adaptable to different voltages and with resistant and ultra-gliding Titanium Slide soleplate. Includes useful travel pouch with heatproof coating and velvet casing.

FEATURES:

Power Technology: Great power, 1200 W, for easy and efficient ironing, crease removal, disinfecting and deodorizing.

Power Steam: Technology that produces an optimum and efficient continuous steam of 30 g/min.

2 Modes Steam: It counts on 2 continuous-steam modes, trigger to activate fast ironing on zones with more creases, and continuous mode for a longer ironing, without having to press the trigger.

Anti-Calc System: Filtering system that avoids scale from building up and ensures a high steam performance, lengthening its service life. You will be able to enjoy efficient ironing just as the first day thanks to its anti-calc system.

Fast Steam: technology that reduces the preheating time to minimum (30 seconds).

Water Tank: 700-ml tank for long-lasting ironing processes. 50-ml iron tank.

Extra Cord: 3-metre XL cable for an easy and comfortable ironing.

Clean Steam: disinfects, cleans and cares for your garments. It also takes care of your sofa, curtain, bed sheets and mattress.

Steam stations

Ironing perfection made real

With Cecotec ironing centres, your clothes will always look as good as the first day thanks to their great power that eliminates any creases while protecting any kind of garment.

HIGH POWER AND PRESSURE

More pressure, less creases

Say goodbye to stubborn creases and say hello to ultra power thanks to our iron's 15 bar pressure and up to 3200 W, ensuring a fast heat-up and easy, efficient ironing.

TANK

Everything you need

Enjoy the large tanks of the steam stations that will meet all your needs.

BOILER

Maximum power for professional results

The powerful semi-industrial boilers in our ironing centres generate a large volume of steam, giving you the most professional results.

CERAMIC SOLEPLATE

Toughness and effectiveness

Ultra-sliding, ceramic Turbo Slide Pro soleplates¹ with titanium oxide coating that will save you time when ironing thanks to an even steam and heat distribution.

ANODIZED SOLEPLATE

Maximum efficiency in every pass

The innovative anodised aluminium soles² generate an ultra-slip and anti-scratch movement for increased durability and are up to three times more durable than conventional soleplates.

MODES

Set the ideal temperature

You can change the temperature of your ironing centre in order to suit your fabrics and take care of your garments.

AUTO SHUTDOWN

No overheating

Protect your steam station against overheating thanks to its auto shutdown system, which will also help you save energy.

An ironing centre for every need

Vertical, horizontal or professional ironing? Choose your ideal steam station according to your needs. Take care of your clothes and get the best results to always wear your favourite outfits without any creases.

Horizontal steam stations

Choose the most classic ironing and forget about wrinkles in the most effective way..

Vertical steam stations

Vertical steam stations make ironing much easier by offering a fast and convenient process. Retouch your clothes before wearing them to avoid creases.

Professional steam stations

Smart and professional steam station that combines all ironing functions in a single appliance. It includes a tank and a vertical steam station. In addition, its suction and inflation board that concentrates steam will offer you the best results in each of your ironings.

Ironhero 3200 station steam station

3200 W steam station with 8 bar pressure, ceramic ultra-slip soleplate, Auto Shut Off safety system, anti-scale, anti-drip, and self-cleaning system. Two modes: 420 g/min steam shot and 150 g/min of continuous steam.

FEATURES:

Ultra-powerful steam station, 8 bars of pressure, capable of removing the most difficult creases.
Automatic water pump, enhancing experience compared to any upright iron on the market.
Powerful steam station with 3200 W that ensure fast heating of the iron and simple and effective ironing.
Ultra-sliding, ceramic Turbo Slide soleplate that will save you time when ironing thanks to an even steam and heat distribution.
Its 150 g/min continuous steam rate will allow you to obtain professional results, as with a professional steam station.
420 g/min steam burst that eliminates every single crease in just one pass.
Anti-drip system for clean results without water stains.
Forget about scale stains and enjoy your steam station at top performance thanks to its Cyclo Clean self-clean system and its anti-scale filter.
Auto shut-off safety system against overheating.

IronHero 2000 Vertical Station steam station

Vertical steam station with 2000 W power, 3-position ironing board, ready in 35 seconds and 1.7 L tank.

FEATURES:

Power of 2000 W with a continuous steam of 47 g/min.
Adjustable table, 3 positions 25°, 90°, 180°. Maximum adaptability for comfortable ironing.
Fast Steam: Fast heating, your garment steamer ready in 35 seconds.
Large removable 1.7 litre capacity tank offers excellent ironing time of up to 46 minutes. You will be able to iron all your clothes without having to stop to refill the tank.
5 programmes to adjust temperature to different fabrics.
Precision Tip: helps removing the most inaccessible creases, offering agile and comfortable ironing.
Its 360° multi-directional wheels allow carrying and moving the steam station from room to room easy and effortlessly.
Includes accessories such as a flame retardant glove and brush to remove lint, threads and brush your garments.

Total Iron 7000 SteamPro professional steam station

Smart steam stations.

FEATURES:

Smart steam station for professional results. It is 4 in 1, includes iron, steam station, 360° sleeves ironing board and garment steamer.
1200-W maximum power, for a fast, simple and efficient ironing.
Active board function, suction and blow, helps protect all types of materials. The blow system places and stretches fabrics automatically on the main board, simulating a hot-air cushion to avoid creases. The suction system allows the garment to remain flat on the board, eliminates steam condensation and offers a more comfortable ironing.
5 programmes to adjust temperature to different fabrics: Nylon, silk, wool, cotton and linen.
High steam pressure: 5 bars. Achieve professional results fast and efficiently.
Includes 360-degree ironing board to refine the smallest details.
Reduces preheating time to 3 minutes. Saves time.
Completely foldable thanks to its patented system. Just step on the pedal and the unit will take up minimum space.
220 g/min continuous steam to remove creases from all types of fabrics. Available with the steam station and the garment steamer.
3 smart water filtering systems: Anti-scale, purification and atomisation of particles through vibration. Achieves maximum steam pressure thanks to its 3-phase preheating. It counts on a steam heating system through its reboiler, located in its main body, and 2 heating and steam generation systems in the steam station and in the garment steamer.
Includes 1.2-litre re-boiler that allows producing more steam continuously. Avoid ironing several times the same crease thanks to its maximum pressure.
Voice guidance. The steam station will inform you through its voice commands of all functions you have selected from the control panel. This function can be turned off when desired.
Intuitive LED display. It also includes empty main tank indicator and full auto-cleaning tank indicator.
Steam-ready LED indicator that indicates when the smart steam station is ready to operate.

Lint remover

Gets rid of all the fluff

Discover how to remove the most annoying lint with the Cecotec Cut-X 4500 Lint Remover models, which will provide you with maximum convenience in every use. Fall in love with its up to 45-minute autonomy and extra-strong blades for exceptional results with every use.

BATTERY PRO

Maximum battery-powered convenience

The Cecotec lint removers eliminate all fluff with maximum cordless convenience thanks to their high-capacity battery that gives them 45 minutes of autonomy.

EXTREME BLADE

Take advantage of its up to 8800 rpm speed

Their extra strong blades are able to rotate at a speed of up to 8800 revolutions per minute and effectively remove all types of lint.

PROTECT HEAD

Suitable for all garments

Take gentle care of your clothes and get total control of lint removal with the head that adapts perfectly to all types of garments.

CLEAN BRUSH

Always clean head and blades.

The lint removers include a cleaning brush that removes threads and lint from the head and blades.

TANK

Easy emptying

It has a lint collection tank with a capacity of 45 ml which is also very easy to empty.

Cut-X 4500 Garment lint remover

Lint remover with rechargeable battery, up to 45-minute run time, safety system and 3 ultra-sharpened blades that reach up to 8800 rpm. Includes tank for threads.

FEATURES:
