MEN CARE

2026

Unleash your best self

Your style evolves, but your grooming routine shouldn't get complicated. At Cecotec™, we've designed a men's personal care range to help you define your style and simplify your daily routine: shave, trim, and shape with precision, speed, and control. Versatile tools, with attachments for every area and finishes that stand up to continuous use, ensuring you always get the look you want: sharp lines, a shaped beard, or a comfortable close shave. Everything you need, from one brand.

Rotary shavers

SELF-CLEANING BASE¹

Precision and hygiene for your daily routine

With its self-cleaning charging base, achieve a precise, close, and more hygienic shave. After each use, the base cleans the cutting heads, ensuring they're in perfect condition for your next shave.

Rotary shavers

Achieve a close, skin-friendly shave every day. Our rotary shavers adapt to all facial contours, providing an effective and smooth shave.

BLDC MOTOR¹

Powerful and durable

Its Brushless motor delivers powerful, long-lasting performance for a smooth and efficient cut, with less noise and vibration in each pass.

IPX7²

Use wet or dry

Shave with total freedom: its IPX7 protection allows you to safely use it in the shower and clean it directly under the tap in seconds, for impeccable, hassle-free hygiene.

TITANIUM BLADES³

Precise, skin-friendly cut

Titanium blades offer a precise and consistent cut, designed to work gently and maintain performance use after use. The result: sharper lines, a more even cut, and a feeling of total control in each pass.

DISPLAY

All the information at a glance

Its display shows key information to adjust your routine on the spot: battery level, speed, alerts, and settings, so you always know where you stand and what you need before you start.

¹ BLDC motor available on various models in the range; see comparison sheet.

² IPX7 certification available on various models in the range; see comparison sheet.

³ Titanium blades available on PrecisionCare Sapphire Pro and PrecisionCare Sapphire Premium models.

⁴ Display available on various models in the range; see comparison sheet.

PrecisionCare Multigrooming 5in1

5-in-1 multigrooming trimmer with Li-Ion battery, stainless steel blades and waterproof design.

FEATURES:

Trim or shave your beard; shave your body or remove hair from your nose. Versatility at your service to make your grooming sessions easier. 5-in-1 multipurpose trimmer. Uninterrupted performance. Enjoy 60 minutes of continuous use with its 500 mAh Li-Ion battery, rechargeable in just 120 minutes, for non-stop operation. Smooth and precise shaving. The sharp, durable stainless steel blades ensure a close, smooth and precise shave, avoiding tugging and cuts. Quick and easy cleaning. Thanks to its IPX5 protection, you can easily clean your shaver under running water, keeping it always spotless. It adapts to your body's contours. Its rotary head with three floating blades adapts to every curve of your body, ensuring optimal results and providing a close, smooth shave, even on complex contours such as the jawline and neck. Trim and shape your beard. Its shaving head is excellent for trimming and shaping the beard, leaving stubble similar to one-day shaving. Smooth and even body shaving. Its body shaving head provides a smooth and even shave on every area of your body, effectively removing hair. The shaver also has a silicone grip for a more comfortable shaving experience and a better glide. Safely and efficiently removes visible nose and ear hair, providing a clean and well-groomed appearance. Nose and ear trimmer head. Accessories always at hand. Conveniently charge and organise your shaver and shaving heads with its practical storage base. Define your style. Includes a 1-10 mm adjustable comb, perfect for creating different styles and maintaining the desired length in different areas.

PrecisionCare One

PrecisionCare One: Rotary shaver with stainless steel blades, 75-minute battery life, IPX7, self-sharpening blades

FEATURES:

The stainless steel blades ensure a sharp and long-lasting cut, maintaining shaving quality over time. Offers up to 75 minutes of continuous use with a single charge, ideal for multiple shaving sessions without frequent recharging. With IPX7 rating, the shaver is water-resistant, allowing safe use underwater and easy cleaning. The dual-ring blades guarantee optimal skin contact for faster and closer shaving, even on the neck and jaw. The self-sharpening blades offer excellent performance and greater durability, maintaining effectiveness over time. The floating head adapts to your face's contour better, ensuring even and comfortable shaving. The charging reminder alerts you when the shaver needs to be recharged, ensuring it's always ready to use. The lock function prevents accidental switching on, ideal for safe transport and storage. The non-slip ergonomic handle design provides a secure grip, improving precision and control during shaving. Shaving blade for sideburns, allowing precise details and perfect finishes. Includes protective cap, lubricating oil bottle, cleaning brush and charging cable, providing everything needed to maintain the shaver in optimal condition.

PrecisionCare Sapphire Premium

Rotary shaver with self-cleaning base

FEATURES:

A self-cleaning base that helps keep the shaver in top condition with less manual maintenance.
Quick cleaning cycle (3–5 mins) for hygiene and readiness in just a few minutes for your next shave.
IPX7-rated motor, so you can use it in the shower or rinse it under the tap with ease.
An indicator light alerts you when it is time to start the self-cleaning cycle
90 minutes of runtime for multiple shaves without constant recharging, ideal for daily use and travel.
Charge it in the base and enjoy the flexibility to charge it wherever suits you best.
Titanium blades designed for a close shave and long-lasting performance.
3 adjustable speeds controlled by a button, allowing you to customise the power and speed to suit your beard type and personal preference.
It has a display, which makes the use more “guided”: the user can see key information at a glance
The magnetic head simplifies maintenance: it can be quickly removed and reattached, making it easy to clean and look after the head without any complicated procedures
A brushless motor that helps maintain consistent performance even when the beard is thicker, reducing tugging and making the shave quicker and smoother.
Travel lock to prevent accidental activation

Foil shavers

Your perfect daily grooming ally

Achieve a closer shave in fewer passes with a precise finish, thanks to our PrecisionCare X-Trim™ line.

6 BLADES¹

Shaves 6 times in one pass

Thanks to its six cutting elements, powered by a robust 8000 RPM motor, you'll get a uniform and smooth close shave, adapted to every facial contour.

LINEAR MOTOR²

Power to shave everything

With up to 13,000 rpm, the linear motor keeps pace even with the densest and thickest beards. The result: a firm, clean cut from the first pass, fewer tugs, and much less time in front of the mirror.

IPX7³

Use wet or dry

Shave with total freedom: its IPX7 protection allows you to safely use it in the shower and clean it directly under the tap in seconds, for impeccable, hassle-free hygiene.

EXTENDED BATTERY LIFE⁴

Up to 150 min of use

With its extended battery life, it provides more than enough power, so you no longer need to worry about the battery. Use it day after day and keep your routine going for weeks, even months, without needing to plug it in.

¹ 6 blades available on the PrecisionCare X-Trim™ ProElite 6000 model.

² Available on the PrecisionCare X-Trim™ ProElite Plus model.

³ IPX7 certification available on various models in the range; see comparison sheet.

⁴ Runtime available on the PrecisionCare X-Trim™ ProElite Plus model.

PrecisionCare X-Trimmm ProElite

PrecisionCare X-Trimmm Pro – Professional foil shaver in aluminium, 8500 RPM, 3 titanium blades, 2 speeds, 1300 mAh battery (2h), IPX7 waterproof, travel-friendly with safety lock

FEATURES:

Premium durability and design. Built to last, the PrecisionCare X-Trimmm Pro Elite features an aluminium body that combines elegance with robustness. Its metallic finish provides a professional feel while ensuring greater resistance to daily use and potential drops. Aluminium body.

Powerful and efficient shaving. Its high-performance motor reaches up to 8,500 revolutions per minute, enabling ultra-fast and precise shaving even on the densest beards. More power, fewer passes, zero irritation. Up to 8,500 rpm.

Cordless freedom. Thanks to its long-lasting battery, enjoy up to 120 minutes of continuous use on a single charge. Ideal for multiple shaves without worrying about constant recharging. 1300 mAh battery and up to 2 hours of runtime.

Maximum coverage in each pass. The three high-precision floating blades perfectly adapt to your face, neck or jaw contours, ensuring a uniform, quick and snag-free cut. 3 blades.

Shaving at your pace. Choose between two different speeds to personalise your shaving experience. Whether for a quick touch-up or a more thorough shave, X-Trimmm Pro adapts to you. 2 speeds.

Extreme durability and precision. The blades are titanium-coated, providing greater wear resistance and more precise cutting for longer. Less maintenance, more performance.

Titanium-coated blades.

Ideal for accident-free travel. Incorporates a safety lock system to prevent accidental activation, perfect for carrying in your travel pouch without worries during trips or travel. Safety lock.

Dry or wet shaving, even in the shower: With IPX7 rating, this shaver is 100% water-resistant.

Use it dry, with foam or directly in the shower: you choose how and when to shave. IPX7 Waterproof.

PrecisionCare X-Trimmm ProElite Plus

The PrecisionCare X-Trimmm ProElite Plus is a high-performance shaver featuring a 13,000 RPM linear motor and 5 cutting heads (4 for short hair + 1 for long hair) for an efficient shave.

FEATURES:

Designed so you don't have to go over the same area repeatedly: its 5-blade system (4 for short hair + 1 for long hair) helps capture hair of different lengths for a smoother, more efficient shave. Independent moving heads (front and rear) for greater control where it matters most: with independent moving heads (front and rear), it follows the contours of the face for more even contact on the jaw, chin and neck. Consistent performance for faster finishing, as the high-speed linear motor drives the entire machine at 13,000 rpm, maintaining a steady cutting speed even in areas with dense hair. Designed for everyday use: with IPX7 water resistance, you can use it in wet and dry conditions and rinse it under the tap for quick and easy cleaning. More use, fewer charges: it offers 150 minutes of runtime, ideal for keeping up with your daily routine or taking it on a trip without having to rely on a charger. Current standard to avoid relying on uncommon connectors: Type-C 60 cm cable, designed for easy connection at home or away. Simple planning: a 150-minute charge to have it back running, so you can keep your routine going without any interruptions. Ready to travel (Travel Lock) safe in your suitcase: activate Travel Lock to prevent it from turning on accidentally.

Beard trimmers

Keep your beard perfect

Our PrecisionCare trimmer range is designed with a precision dial that allows for greater precision in cutting length, ensuring total versatility for any look.

PRECISION DIAL

Adjust the cut to the millimetre

Change the length instantly for a precise, uninterrupted cut. And with two adjustable combs (1–8 mm and 9–16 mm)¹, you have the perfect versatility to shape, even out, or trim down, achieving a barber-quality finish at home.

STAINLESS STEEL BLADES

Clean and effortless cutting

Achieve a cleaner, faster cut thanks to its stainless steel blades: they trim with precision, stay sharp longer, and leave a smooth finish in each pass.

120 MIN RUNTIME²

Forget the charger

With its extended battery life, cut and trim without thinking about the charger. Plus, its smart display shows battery, speed, and alerts you when it's time to lubricate and recharge. And with the fast-charging function, you can get back to your routine in record time.

PrecisionCare Barber Pro

PrecisionCare Barber Pro: Japanese stainless steel blades, 90-minute runtime, adjustable guide combs (0.5–20 mm) with precision dial, display

FEATURES:

Enjoy up to 90 minutes of continuous use on a single charge. Perfect for complete personal care routines without interruptions, both at home and on the go. Battery with 90-minute runtime.

Precise, smooth and lasting cut. With high wear resistance, it maintains its edge longer for consistent performance. Stainless steel blades.

With just two guide combs, it covers various cutting lengths, from a very short look to a long, defined beard. Fewer accessories, more versatility and convenience. 2 adjustable guide combs (0.5-10 mm and 10.5-20 mm).

Thanks to its precision adjustment knob, you can easily choose the exact cutting measurement in 0.5 mm increments, achieving a personalised and uniform style with each pass. Millimetric adjustment knob (0.5 mm increments).

Activate the travel lock by holding the button for 3 seconds to prevent accidental activation in suitcases or bags. Ideal for those seeking a portable and secure personal care tool. Travel lock function.

Control your shaving session intelligently with its digital display, showing exact remaining battery percentage. Say goodbye to mid-shave surprises. LED display with battery percentage. Its fully waterproof design allows use in the shower or comfortable cleaning under the tap. Total hygiene without complications. Waterproof IPX7.

Keep the trimmer always ready for next use thanks to its cleaning brush, ideal for removing hair debris and maintaining the blades in perfect condition. Includes cleaning brush.

COMPOSITION:

Product, 2 adjustable guide combs (0.5-10 mm and 10.5-20 mm), cleaning brush, instruction manual

PrecisionCare Barber Elite

PrecisionCare Barber Elite: 120-minute battery life, stainless steel blades, display, 2 guide combs

FEATURES:

This versatile and advanced trimmer is designed for precise cutting and easy care. With a dial adjustment wheel.

Provides precise and efficient cutting, ensuring lasting performance and smooth finish.

Sharp-angled stainless steel blades.

Ideal for multiple cutting sessions without the need for frequent recharging. Enjoy up to 120 minutes of continuous use on a single charge.

This trimmer is water-resistant, allowing safe use in humid environments and making it easy to clean. IPX6 rating.

Ensures continuous and convenient operation. Offers the flexibility to use it on battery or connected to mains power.

The display shows the remaining battery, speed, and reminds you when to lubricate the blades. Includes a lock function for greater safety.

Includes two adjustable combs that allow you to customise the cut, adapting to different styles and preferences. Guide combs between 1-8 mm and 9-16 mm.

Ensures the trimmer is ready to use in little time, ideal for those with a busy lifestyle. Fast charging function.

Offers everything needed for its care. Includes a case, a cleaning brush, a lubricating oil bottle for blade maintenance and a USB charging cable.

COMPOSITION:

Product, 2 guide combs, case, lubricating oil bottle, cleaning brush, USB cable, instruction manual

Hair clippers

What haircut would you like today?

Cut your hair to your liking with our handy hair clippers.

HIGH QUALITY BLADES

Stays sharp for longer

The hair clippers are equipped with a fixed titanium-coated blade and a movable ceramic blade¹. These materials not only guarantee a precise and smooth cut, but also extend the lifespan of the device by keeping the blades sharp for longer.

ELECTRONIC LENGTH ADJUSTMENT²

More convenient, more precise

Thanks to its 4 electronic length adjustments (1/1.3/1.6/1.9 mm), achieve the exact length in seconds with just the press of a button.

BLDC MOTOR³

Superior power

The brushless motor³ offers greater durability and energy efficiency, providing powerful, consistent performance for smooth and effortless cutting.

LONG BATTERY LIFE.

Up to 180 mins of use⁴

Ideal for full sessions, frequent touch-ups, and for taking on your travels without relying on the plug.

¹ Blade type may vary by model; see comparison sheet.

² Available on the PrecisionCare Expert Motion model.

³ Available on various models in the range. See product sheet.

⁴ Runtime for the PrecisionCare Expert Motion model.

PrecisionCare Expert Ceramic

PrecisionCare Expert Ceramic: Hair clipper with Brushless motor, ceramic blades, 120-minute battery life, 6 guide combs

FEATURES:

Ceramic blades provide sharp and durable cutting, reducing heat and friction, resulting in smoother cutting and less skin irritation. The brushless motor offers greater durability and energy efficiency, providing powerful and consistent performance. This type of motor reduces noise and vibrations, improving comfort during use. Offers up to 120 minutes of continuous use with a single charge, ideal for multiple cutting sessions without frequent recharging. With 5 lever settings ranging from 0.8 to 2 mm, you can easily personalise the cut to your preferences and desired style. Includes six guide combs of different lengths, offering versatility to create a variety of styles and ensure a precise cut around the ears. The built-in display shows revolutions per minute (RPM) and battery level, providing complete control during use and keeping you fully informed of the hair clipper's status at all times. The perfect combination of advanced technology and ergonomic design for an efficient cut.

COMPOSITION:

PrecisionCare Expert

PrecisionCare Expert – Hair clipper with digital Brushless motor | 2 speeds | 6 guide combs | Aluminium body | 2-hour runtime | 0.8-2 mm length adjustment | 6700 RPM

FEATURES:

Offers superior power with reduced friction, increased durability, and ultra-quiet operation. Being Brushless, it reduces internal wear, improves performance, and significantly extends the clipper's service life. Ideal for prolonged use. Digital Brushless motor. Built to last, its robust and ergonomic aluminium body provides stability, balance and quality feel with each pass. Impact-resistant and designed for intensive sessions. Aluminium body. Adjust between two intensities according to hair type or desired precision. High speed (up to 6,700 rpm) allows working with thick hair, while low speed is perfect for touch-ups and sensitive areas. 2 speeds (up to 6,700 rpm). Thanks to its side lever, you can precisely adjust cutting length without changing guide combs. Perfect for fades, contours or technical work with smooth and uniform transitions. Length adjustment lever (0.8 mm to 2.0 mm). Achieve millimetric precision thanks to its 6 guide combs. With two special brushes for contours around the ears. Achieve any style easily and adapt the cut to each need, from fades to specific details. 6 guide combs included (3, 6, 9, 13 mm + right/left ear). Designed to offer total freedom of movement, its long-lasting battery guarantees up to 2 hours of continuous use on a single charge. Perfect for detailed cuts without interruptions or need to be near a power outlet. Up to 2 hours of battery life. Keep your hair clipper always like new thanks to included maintenance accessories. The oil extends the blade's service life and the brush ensures quick and effective cleaning after each use. Includes lubricating oil and cleaning brush. Thanks to its ceramic blades, you'll enjoy a comfortable and safe cutting experience, even for the most sensitive skin. Forget about wear and maintain your impeccable style with less maintenance.

PrecisionCare Expert Motion

PrecisionCare Expert Motion: Hair clipper with automatic blade movement, Brushless motor, ceramic blade, 10 guide combs, charging base, 180 min runtime

FEATURES:

Automatic blade movement. Automatic blade length adjustment without needing to use an adjustment lever, simply with a button.

The brushless motor offers greater durability and energy efficiency, providing powerful, consistent performance for smooth and effortless cutting.

The combination of stainless steel and ceramic in the blade ensures sharp and durable cutting, reducing wear and maintaining cutting quality over time.

Offers up to 180 minutes of continuous use with a single charge, ideal for multiple cutting sessions without frequent recharging.

With 4 blade length settings (1 / 1.3 / 1.6 / 1.9 mm) controlled by a button on the product itself, you can easily customise the cut according to your preferences.

Features five adjustable speeds, allowing you to adapt the cutting power to suit the hair type and desired style.

The integrated display shows key information such as speed and battery life, providing total control during use.

Includes a charging base that offers a convenient and tidy way to store and recharge the hair clipper.

Comes with 10 guide combs of different lengths (1.5 / 3 / 4.5 / 6 / 9 / 12 / 15 / 18 / 21 / 25 mm), providing versatility to create a variety of styles.

The hair clipper's premium finish is not only elegant but also durable, ensuring the product maintains its appearance and functionality over time.

PrecisionCare Expert Diamond

Battery-powered brushless hair and beard clipper and trimmer with 7200 rpm and black diamond DLC blade

FEATURES:

Optimal and prolonged performance. Its Brushless motor delivers superior performance and a long service life. This type of motor reduces wear and noise, providing a smoother and more efficient shaving experience. Ideal for those seeking precision and durability in their beard trimming.

Enjoy smooth and precise cuts. The DLC (Diamond-Like Carbon) coated blade ensures precise and smooth cuts, minimising friction. This high quality material ensures that the blade stays sharp for longer, delivering a professional cut with every use.

Save time, increase efficiency. With a speed of up to 7200 rpm, this trimmer allows quick and efficient cuts, perfect for those wanting quality results in less time, without compromising precision.

Customise each cut with ease. The metal guide combs included allow you to customise the cut with lengths of 1.5, 3 and 6 mm. These combs are sturdy and easy to use, providing versatility and control to achieve the desired style.

Uninterrupted use. Enjoy up to 2.5 hours of runtime on a single charge, which allows multiple cutting sessions without interruptions, ensuring you're always ready for any styling challenge.

Charge it quickly. With just a 3-hour charging time, the PrecisionCare Diamond is quickly ready for use, perfect for those who value efficiency and don't want to wait long between uses.

Reliable and long-lasting. The powerful 2000 mAh lithium battery provides constant and long-lasting power. This type of battery is known for its reliability and ability to maintain the performance of the hair clipper throughout its lifetime.

COMPOSITION:
