Intelligent robot, precise navigation

RTK

Satellite-guided

This navigation system allows the robot to receive satellite signals¹, providing ultra-precise positioning for millimetre-accurate cutting. It also ensures a stable connection, even in areas with interference such as under trees.

ARTIFICIAL INTELLIGENCE

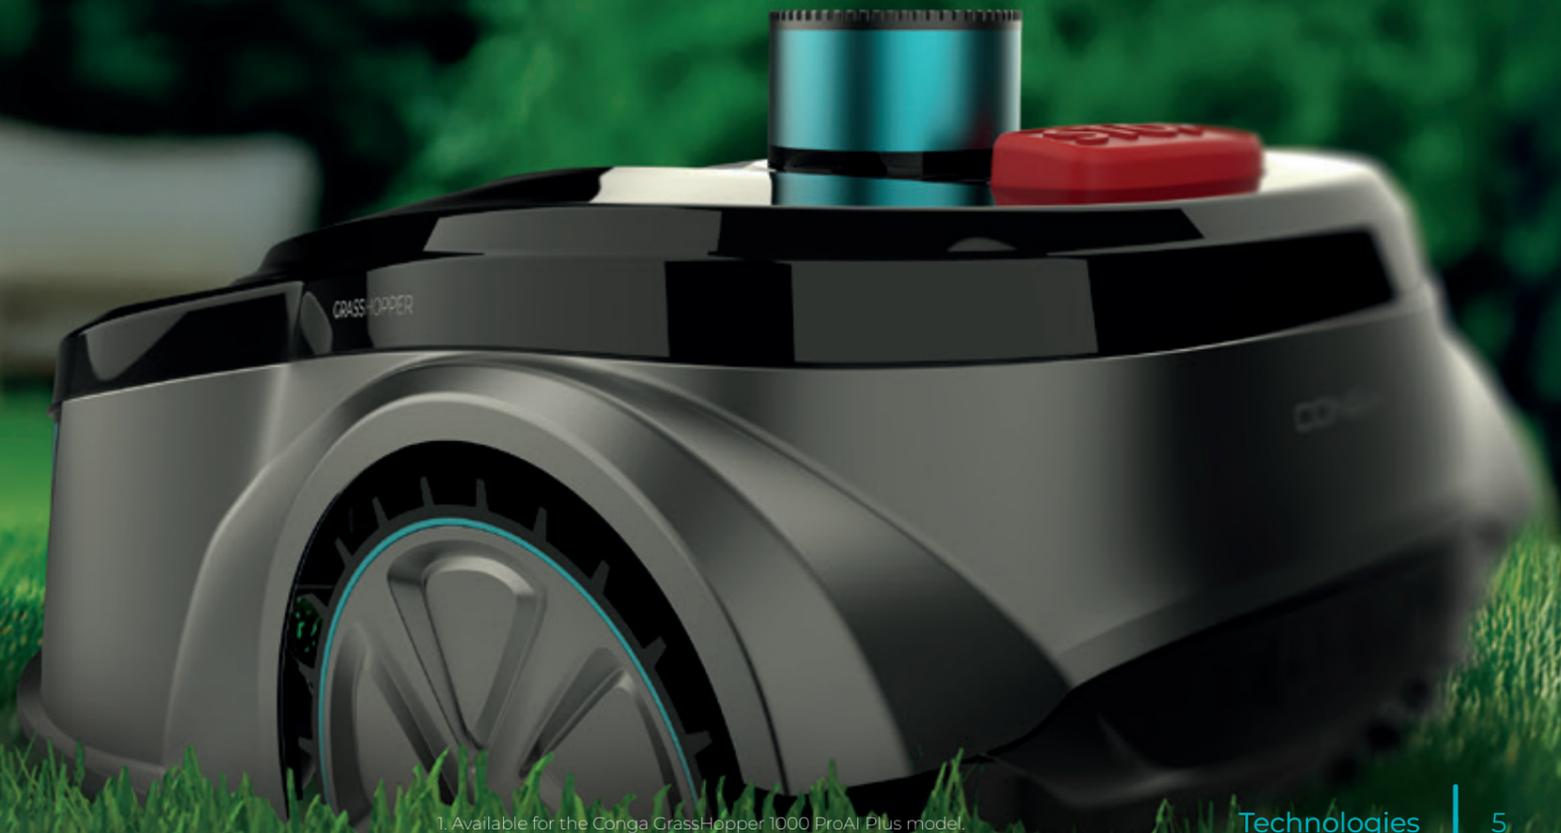

Detects zones and avoids objects

Switch on the robot and forget about worries. AI² enables the robot to differentiate between grass and non-grass areas. It also detects pets or objects, such as sprinklers, and avoids them to prevent risks.

RUNTIME

Covers up to 1000 m²

The robot covers large areas so that no part of the garden is left untouched. Create the area from your mobile phone or delimit the work zone with the perimeter cable and enjoy a range of up to 1000 m².

Perfect grass without any effort

BRUSHLESS MOTOR

Efficient and quiet

The robot has a state-of-the-art motor that guarantees perfect results. It operates silently, allowing you to enjoy your garden while Conga does the work.

TOTAL SURFACE

Always completes the mowing

Low battery? No problem: the robot features Total Surface technology, which allows it to return to its base, recharge and resume mowing right where it left off.

FLOATING CUTTING SYSTEM

Fits in your garden

The robot has adaptive blades that adjust the mowing height to the unevenness of the terrain. Also, the robot is able to overcome slopes of up to 45%.

Break with tradition, connect with Conga

Perfect lawn with one click

Program the robot and select the cutting height from the app¹. Connect from anywhere and keep your lawn looking perfect with a simple click on your mobile phone.

Customised cutting

Adjust the cutting height between 30 and 70 mm, with a cutting width of 200 mm², so that your lawn is just the way you like it, effortlessly.

Incident notification

If the boundary wire is damaged, you will receive a notification in the app³ with the exact location of the problem.

A large, abstract teal graphic on the left side of the page, consisting of several overlapping, rounded shapes that create a sense of depth and movement. The colors range from a light teal to a dark, almost black teal.

Discover Conga GrassHopper

Conga GrassHopper 300

Conga GrassHopper 300 robot lawn mower. Digital Brushless motor. For surfaces up to 300 m². Maximum slope of 27%. Cutting height adjustment. Rain sensor. Plug&Play technology.

FEATURES:

Smart robot lawn mower: keep your lawn neat every day automatically and worry-free. The robot mows the lawn within the area you delimit with the boundary wire.

Thanks to its 100 metre boundary wire, the robot covers a maximum surface area of 300 m².

Digital Brushless: state-of-the-art digital motor that allows an excellent lawn finish in an efficient and quiet way, emitting a noise level of only 61 dB.

Floating Cutting System: the blades adapt to the unevenness of the surface. The robot is able to overcome slopes of up to 27%.

Cutting height regulator: choose the cutting height between 20 and 50 mm. The cutting width is 160 mm.

Plug&Play technology: the robot is programmed to take care of your lawn from Monday to Friday, focusing on the edges two days a week. Switch it on and relax.

IPX5 protection, waterproof and UV protection.

Digital display and touch panel: control the robot thanks to its touch button panel and, if you prefer, you can lock the robot with the PIN code of your choice.

Rain sensor: the robot automatically returns to the charging station when it rains.

Large battery: 2000 mAh, 20 V lithium-ion battery.

COMPOSITION:

Robot lawn mower, 100 m boundary wire, 130 wire pegs, 9 blades, charging station, instruction manual

 62.5 x 25 x 42 cm 11.12 kg
62.5 x 25 x 42 cm 11.12 kg

Conga GrassHopper 500 Connected

Conga GrassHopper 500 robot lawn mower. Digital Brushless motor. For surfaces up to 500 m². Maximum slope of 27%. Cutting height adjustment. Rain sensor. APP control.

FEATURES:

Smart robot lawn mower: keep your lawn neat every day automatically and worry-free. The robot mows the lawn within the area you delimit with the boundary wire.

Thanks to its 130 metre boundary wire, the robot covers a maximum surface area of 500 m².

Digital Brushless: state-of-the-art digital motor that allows an excellent lawn finish in an efficient and quiet way, emitting a noise level of only 61 dB.

Floating Cutting System: the blades adapt to the unevenness of the surface. The robot is able to overcome slopes of up to 27%.

Adjustable cutting height: choose the cutting height between 20 and 50 mm, with a cutting width of 160 mm.

App control to programme and select the cutting height using the CECOTEC APP from any place.

IPX5 protection, waterproof and UV protection.

Digital display and touch panel: control the robot thanks to its touch button panel and, if you prefer, you can lock the robot with the PIN code of your choice.

Rain sensor: the robot automatically returns to the charging station when it rains.

Large battery: 2000 mAh, 20 V lithium-ion battery.

COMPOSITION:

Robot lawn mower, 130 m boundary wire, 180 wire pegs, 9 blades, charging station, instruction manual

Conga GrassHopper 800 Connected

Conga GrassHopper 800 Connected robot lawn mower. Digital Brushless motor. For surfaces up to 800 m². Maximum slope of 35%. Cutting height adjustment. Rain sensor. APP control.

FEATURES:

Smart robot lawn mower: keep your lawn neat every day automatically and worry-free. The robot mows the lawn within the area you delimit with the boundary wire. Thanks to its 170 metre boundary wire, the robot covers a maximum surface area of 800 m². Digital Brushless: state-of-the-art digital motor that allows an excellent lawn finish in an efficient and quiet way, emitting a noise level of only 55 dB. Floating Cutting System: the blades adapt to the unevenness of the surface. The robot is able to overcome slopes of up to 35%. Adjustable cutting height: choose the cutting height between 20 and 60 mm, with a cutting width of 180 mm. App control to programme and select the cutting height using the CECOTEC APP from any place. IPX5 protection, waterproof and UV protection. Digital display and touch panel: control the robot thanks to its touch button panel and, if you prefer, you can lock the robot with the PIN code of your choice. Rain sensor: the robot automatically returns to the charging station when it rains. Large battery: 2000 mAh, 20 V lithium-ion battery.

COMPOSITION:

Robot lawn mower, 170 m boundary wire, 230 wire pegs, 9 blades, charging station, instruction manual

-  72.5 x 29 x 44 cm 16.07 kg
72.5 x 29 x 44 cm 16.07 kg
-  61 x 42 x 25.5 cm 7.24 kg

Conga GrassHopper 500 Map Connected

Conga GrassHopper Map Connected robot lawn mower. Digital Brushless motor. Orderly mowing. For surfaces up to 500 m². Maximum slope of 45%. Cutting height adjustment. Rain sensor. APP control.

FEATURES:

Mows lawns of up to 500 m² automatically. Intelligent robot lawn mower that takes care of your lawn, covering up to 500 m² automatically. Define the cutting area with the boundary wire, forget about the robot and enjoy a perfect lawn. Complete lawn mowing planning that avoids missed spots. C-ToF technology: maps out your lawn and identifies the fastest and most efficient path to cut the entire surface evenly, avoiding missed spots. Achieve mowing precision thanks to its intelligent path planning technology. Intelligent path planning: navigates your lawn with precision, improving mowing efficiency. Silent robot (58 dB). State-of-the-art digital motor that provides high performance with low noise level. Adapts the blades to surface roughness. Floating Cutting System: adjusts the height of the blades to protect them against surface roughness. In addition, the robot is able to overcome slopes of up to 45%. Mow your lawn with just one click. Control App that allows you to mow your lawn from anywhere, one click and you're done! Perfect trim. Live monitoring of the boundary wire status. Boundary assistant: real-time monitoring of the boundary wire status to detect possible incidents. Adjustable cutting range: height of 30-70 mm and width of up to 200 m. Cleaning is never half done. 2500 mAh battery with Total Surface, which allows the robot to return to its base when it is low on battery to recharge and pick up where it left off. Leave grass clippings to nourish your lawn. Mulching system: mows the lawn without collecting grass clippings and distributes them on the lawn, thus using garden waste as a source of nutrients and fertilisers for your soil. Withstands adverse weather conditions. IPX6 and UV protection. It also has a rain sensor to prevent the robot from mowing the lawn while it is raining.

COMPOSITION:

Robot lawn mower, 120 m boundary wire, 180 wire pegs, 9 blades, 2 connectors, charging station, instruction manual

Conga GrassHopper 600 ProAI

Conga GrassHopper 600 ProAI cordless robot lawn mower. Camera. Digital Brushless motor. For surfaces up to 600 m². Maximum slope of 45%. Cutting height adjustment. Rain sensor. APP control.

FEATURES:

AI. With its Artificial Intelligence with camera, it detects the lawn and mows the entire desired area.

Mows lawns of up to 600 m² automatically. Smart robot lawn mower that takes care of your lawn, covering up to 600 m² automatically. Define the cutting area with the boundary wire, forget about the robot and enjoy a perfect lawn.

Adapts the blades to surface roughness. Floating Cutting System: adjusts the height of the blades to protect them against surface roughness. In addition, the robot is able to overcome slopes of up to 45%.

Mow your lawn with just one click. App control allows you to mow your home's lawn from anywhere—one click and it's done! Perfect, customised cutting.

Leave grass clippings to nourish your lawn. Mulching system: mows the lawn without collecting grass clippings and distributes them on the lawn, thus using garden waste as a source of nutrients and fertilisers for your soil.
