The images shown in this publication are for advertising and promotional purposes only and may differ from the final product appearance. The technologies listed in the following catalogue may vary depending on the model. The availability and technical specifications of each model are detailed in the individual product page.

The adaptive cleaning revolution

P

Autonomous cleaning – say goodbye to allergies.

M

Reaches further, cleans better.

Q

Thorough mopping with disinfection.

R

Reaches every nook and cranny.

CONGA™ ROVER

Understands your home, cleans with intent

Conga™ revolutionises autonomous cleaning with its adaptive Conga Rover™ system. Liquid spills, thick carpets, dirty corners, skirting boards, low-lying areas, small and large obstacles... Whatever the challenge, Conga deploys its technologies to reach every nook and cranny and achieve a spotless clean.

LIQUID SPILLS?

BrushUp™: liftable central brush.

PRECISION CLEANING?

DuoXTEND: extendable mop or roller + extendable brush.

ONLY VACUUMING?

Roller/Spin Up: liftable roller or mop, depending on the model.

OBSTACLES?

HopWheel™: liftable wheel.

CORNERS?

Brush XTEND/Reverse XTEND XL: extendable brush, depending on the model.

CARPETS?

CarpetCare: avoids, crosses without vacuuming, or boosts suction.

SKIRTING BOARDS AND LOW-LYING AREAS?

Roller/Spin XTEND: adaptive roller or mop, depending on the model.

CONGA R SERIES

Reaches further, cleans better

AI PRO WITH CAMERA + LASE EYE™

Adapts its cleaning in real-time

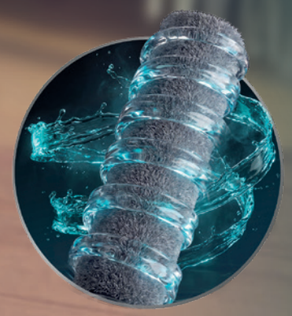

Its navigation system recognises different floor types, stains, dirt and liquids to adapt its technology to each situation. It also avoids objects, even the smallest ones, to prevent risks and clean with maximum precision, even in the dark.

AQUAJETS

Constant clean water

Its 16 AquaJets spray clean water onto the 26 cm roller to achieve extensive cleaning coverage and a uniform finish, without streaks or missed spots.

ROLLER UP&XTEND

Smart mopping that reaches further

Its liftable and extendable roller adapts the mopping action to every surface and type of dirt, protects delicate areas from moisture and ensures thorough cleaning of difficult areas such as edges, skirting boards and lower areas.

BRUSHUP™

Lifts the brush, protects the vacuuming

In mopping mode, the central brush lifts up and the extendable side brush retracts to protect them from liquid stains. In combined mode (vacuuming and mopping), it adjusts the brushes according to cleaning requirements.

ALWAYS CLEAN

Professional mopping

It continuously rinses the roller with clean water while squeezing out the dirt, keeping the fibres spotless at all times. Its rotation speed of 280 rpm and pressure of 8 N remove stubborn stains in a single pass.

CONGA Q SERIES

All-terrain robots, unstoppable cleaning

PERFECT WASH

Mops from start to finish with clean water

The robot's clean water tank keeps the Spin Mops damp throughout the entire cleaning process, ensuring a thorough mopping without any missed areas. Keeps the mops clean at all times for a spotless result.

REVERSE XTEND XL

Not a single corner escapes it

Its side brush combines bidirectional rotation with XL bristles to cover 100 per cent of the area in corners and leave no trace of dirt behind.

SPIN MOPPING

Power that scrapes away dirt

The Spin Mops spin at full power, up to 170 rpm, and apply 6 N of pressure to the floor, scrubbing away everything from liquid stains to the most persistent dirt with every rotation.

ALL-IN HOME BASE

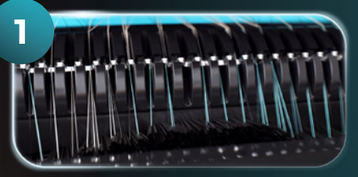

Automates maintenance

Up to 100 days of runtime

Cleaning has never been easier. Forget about maintenance tasks for weeks thanks to the Conga Stations, which take care of everything so you can simply enjoy a clean home with no worries.

1

HAIRCUT

Eliminates tangles

2

SELF-EMPTYING

No dust or solid residue

3

ROLLER WRINGING

Drains waste water

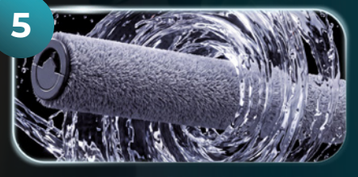

4

THERMAL CLEAN

Soap disinfection

5

WATER CLEANING

Cleaning with water

6

HOT WATER CLEANING

Cleaning with hot water at 70°C

7

DRYCARE

Dries with hot air, leaving no unpleasant odours

8

AUTO-REFILL

Fill up the water tank

LIGHT SENSOR

Detects dirt, cleans the roller and mops more effectively

Its light sensor accurately detects the level of dirt collected on the roller and, if it needs cleaning, automatically returns to the base before resuming mopping.

CONGA P SERIES

Goodbye allergies!

More compact, same capacity

Space is no longer an issue; the base is now more compact. Save space and time, thanks to self-emptying.

Self-emptying of dust

Say goodbye to dust and allergies for up to 12 weeks! The Dust-in Home™ station self-empties the dust, so you only need to change the hygienic dust bag.

CONGA M SERIES

Adaptive cleaning for everyone

Conga™ revolutionises the Entry range of robots with its side brush that remains extended at all times, reaching into corners and hard-to-reach areas, ensuring thorough vacuuming and leaving no corner uncleaned.

Smart cleaning

LASER EYE™

Accurate navigation, even with no light

Not only does the robot feature AI and a camera, but it also includes built-in laser technology to clean with the same precision in both bright and dark environments. So no matter if it's night time or if you're on vacation and you left the blinds down; the Conga will continue to clean with the utmost precision.

AI + CAMERA

Analyses, processes and acts

Enjoy thorough, ultra-precise cleaning, even in cluttered rooms. Thanks to its camera and Artificial Intelligence, a combination that allows the robot to analyse the environment, it recognises objects, avoids them and makes decisions on the spot. What's more, thanks to its camera, it identifies all types of objects (large and small) and allows you to track cleaning in real time.

ULTRAPOWER

45.000 Pa. 0 dirt

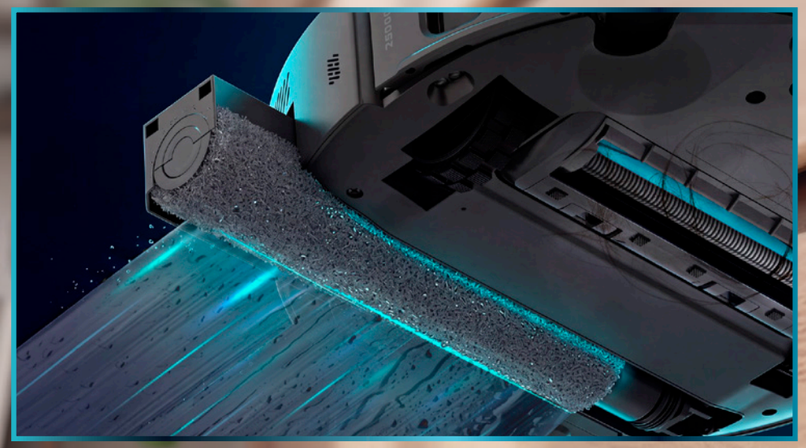

Go from powerful to ultra-powerful with up to 35.000 Pa of suction, extreme power that effortlessly sweeps away dirt. Forget even about micro-dirt, Conga™ vacuums thoroughly even in the most difficult areas such as tile joints or thick carpets.

Pascales (Pa): 'negative' pressure or force exerted by the vacuum cleaner through the combination of its motor and brush to suck dirt from the floor. Suction level varies according to the number of pascals, i.e., the higher the pascals, the more dirt will be vacuumed.

CONGA R500	35.000 Pa

Hidden dirt? Adaptive cleaning

DUOXTEND™

Greater reach, better cleaning

Take your home cleaning to a whole new level with Conga's™ high-reach technology, which thoroughly cleans skirting boards and hard-to-reach areas and effectively reaches right into the corners.

BRUSHXTEND™

Detailed vacuuming for every corner

It reaches places other vacuum cleaners cannot thanks to its extendable side brush, which allows Conga™ to clean even the tightest corners effectively.

ROLLERXTEND™

Thorough mopping

Its extendable rolling brush allows reaching edges and cleaning under furniture, ensuring thorough mopping where others can't reach.

A brush for every home type.

SILICONE BRUSH

Versatility reimagined as a brush

Forget about changing brushes to adapt to different cleaning needs. Its silicone design makes it highly versatile and also traps long and pet hair without tangles.

HAIRLESS BRUSH™

An anti-tangle hurricane

Anti-tangle brush with a single-axis, conical design makes the hair accumulate on one side to be vacuumed up, preventing tangles and reducing maintenance.

HAIRCUT BRUSH™[5]

Cuts hair, eliminates manual maintenance

No more tangles caused by long hair or pet hair thanks to the blades built into the brush, which cut through any tangles and eliminate the need for manual maintenance.

HAIRLESS DUO BRUSH

2 brushes, 0 tangles

Hair? Carpets? Extreme dirt? No problem: the HairLess Duo brush delivers fast and deep cleaning, even for the most challenging cleaning tasks.

HOPWHEEL™

Climbs obstacles up to 50 mm high

Conga™ lifts itself to overcome obstacles of up to 50 mm*. Its lifting system enables the omnidirectional wheel to climb rails, uneven surfaces or small steps, allowing it to clean in places other robots cannot reach.

*50 mm double-level obstacles. Single-level obstacles must not exceed 30 mm.

Takes care of your carpets just the way you like it

ROLLER/SPIN UP

Detects and protects carpets

Conga™ automatically raises the brush or mops, depending on the model, when its ultrasonic sensors detect carpets, protecting them from moisture with the same care you would take.

Boosts suction power:

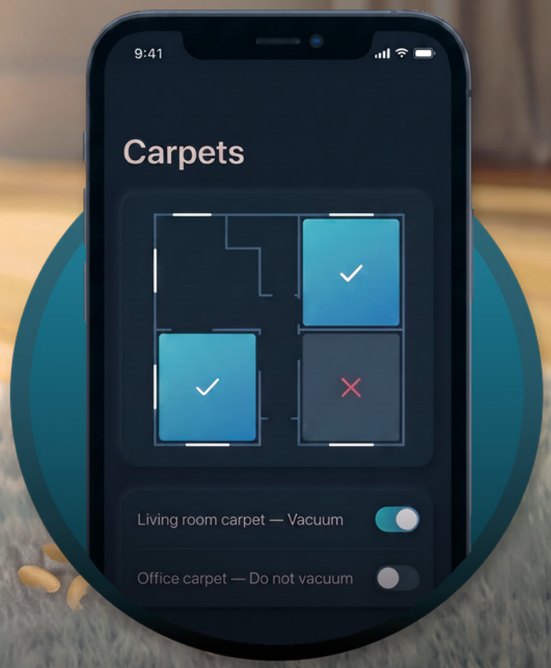

It automatically increases power to trap the deep-seated dirt between the fibres and leave them spotless.

Carpet avoidance:

It avoids the carpets you choose, so you don't have to worry.

Crosses over carpets without vacuuming:

It moves over your carpets to continue cleaning, connecting your rooms, without any actions or vacuuming.

A new concept of connectivity

Plan and schedule the cleaning quickly and in a fully customised way from anywhere. You decide from the app, the laser maps and Conga cleans rooms to your preference.

SHORTCUTS

The app saves the most used settings so you don't have to waste time selecting the type of cleaning. One click and you're done!

ROOM PLAN

Decide on a room-by-room cleaning mode so that Conga cleans just as you would.

VIDEOMANAGER

Monitor your home in real time and keep an eye on your pet.

Self-sufficiency that handles anything

The Conga battery is designed to clean your entire home thoroughly without stopping, covering up to 240 m² on a single charge.

LARGE HOUSEHOLDS

Total cleaning without interruptions

Enjoy extreme cleaning all over your home thanks to a battery of up to 5200 mAh, which allows you to cover up to 240 m² to remove dirt from every last corner.

SMALL HOUSEHOLDS

Quick and thorough cleaning

Activate the Turbo mode and the robot will deep clean your entire house in no time. This way, Conga cleans while you are away, so that when you get home your floors are spotless.

TOTAL SURFACE 4.0

Never leaves the job half done

If the robot detects that it does not have enough battery power to complete the task, it returns to its base to charge only as much as necessary. Then, it resumes cleaning from the exact point where it left off, completing the task quickly and efficiently.

Conga P120 Arm

Robot vacuum cleaner with self-emptying dust base. 25 000 Pa. Hairless Duo brush. AI and laser navigation. Extendable side brush.

FEATURES:

Artificial Intelligence. Conga cleans smartly and with maximum precision, avoiding even the smallest objects to prevent risks and tangles.
25000 Pa: ultra-powerful. Its Ungravity motor delivers 25,000 Pa suction, a power capable of vacuuming even extreme dirt on any surface, including high-pile carpets.
Its self-emptying base is ideal for people with allergies, as it traps dust and allergens without releasing them into the air, while effectively collecting pet hair, keeping your home cleaner and healthier with less effort.
With self-emptying, up to 100 days. The robot cleans time and again completely autonomously and empties the tank into its 3 L self-emptying base for up to 100 days of hands-free cleaning*.
*Range varies according to environmental conditions and usage habits.
Laser navigation for precise cleaning. It uses advanced technology to create an interactive map of your home, enabling exact and personalised cleaning of all spaces, regardless of the ambient light. Its fast and precise mapping, combined with exact positioning, reduces navigation errors and ensures perfect area identification.
HairLess Duo Brush. An anti-tangle brush featuring a revolutionary system that allows for deep cleaning and removes all types of tangles.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Perfect for large homes, it vacuums up to 240 m²* without interruptions thanks to its powerful 4500 mAh battery, ensuring efficient and continuous cleaning. Size doesn't matter, enjoy complete coverage without the need for frequent recharges.
*Based on laboratory tests. Actual performance varies according to home layout.
With a diameter of 320 mm, its compact design allows the robot to move easily through small spaces, reaching even the most difficult corners. Additionally, its height of 100 mm allows it to pass under furniture without problems, ensuring thorough and efficient cleaning.
Features a 460 ml water tank and 350 ml dirt tank, allowing you to enjoy continuous cleaning without having to empty or refill the tanks frequently. This way, you can maintain cleaning for longer in a comfortable and efficient way.
APP CECOTEC: Customised cleaning. Define, plan and schedule the cleaning of the entire house or by rooms, all from your app. Thanks to OTA updates, you'll always have access to the latest features. Choose the cleaning order, restrict the areas you want and enjoy a customised cleaning.
Total cleaning in one pass. Vacuums, sweeps, scrubs and mops for spotless results.
Cleanliness is never half done. With Total Surface cleaning is never half done. If the robot runs out of battery power, it automatically returns to the charging base and resumes cleaning to complete the scheduled cleaning once the battery is charged.
Get the most out of its smart scrubbing function with 3 levels of water flow and adjust the water level from the app to adapt to the different floors in your home.
OutSide Brush. Conga extends its side brush to reach corners and hard-to-reach areas.

COMPOSITION:

Product, self-emptying base

Conga P140 Arm

Robot vacuum cleaner with self-emptying dust base. 25 000 Pa. Hairless Duo brush. AI and laser navigation. Liftable spinning mops. Extendable side brush.

FEATURES:

Artificial Intelligence. Conga cleans smartly and with maximum precision, avoiding even the smallest objects to prevent risks and tangles.
25000 Pa: ultra-powerful. Its Ungravity motor delivers 25,000 Pa suction, a power capable of vacuuming even extreme dirt on any surface, including high-pile carpets.
Its self-emptying base is ideal for people with allergies, as it traps dust and allergens without releasing them into the air, while effectively collecting pet hair, keeping your home cleaner and healthier with less effort.
With self-emptying, up to 100 days. The robot cleans time and again completely autonomously and empties the tank into its 3 L self-emptying base for up to 100 days of hands-free cleaning*.
*Range varies according to environmental conditions and usage habits.
Perfect scrubbing. Innovative mopping system with dual mops that spin at full speed, constantly moistening and removing even the most stubborn stains. Connect with Conga, forget about mopping and enjoy a shiny floor.
Lifts mops and protects carpets from moisture. Spin Up: liftable mops designed to prevent moisture from contacting carpets while ensuring deep vacuum cleaning.
HairLess Duo Brush. An anti-tangle brush featuring a revolutionary system that allows for deep cleaning and removes all types of tangles.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Perfect for large homes, it vacuums up to 240 m²* without interruptions thanks to its powerful 4500 mAh battery, ensuring efficient and continuous cleaning. Size doesn't matter, enjoy complete coverage without the need for frequent recharges.
*Based on laboratory tests. Actual performance varies according to home layout.
Ultrasonic carpet detection. The robot detects when there is a carpet and automatically boosts power to clean with maximum precision. In addition, if it is in scrubbing mode, it dodges the carpet so as not to wet the carpet fabric.
Adapts the water level to every surface. Get the most out of its smart scrubbing function with 3 levels of water flow and adjust the water level from the app to adapt to the different floors in your home.
APP CECOTEC: Customised cleaning. Define, plan and schedule the cleaning of the entire house or by rooms, all from your app. Thanks to OTA updates, you'll always have access to the latest features. Choose the cleaning order, restrict the areas you want and enjoy a customised cleaning.
Water sensor. In mopping mode, Conga alerts you through its APP when the water tank is empty to maintain mopping efficiency throughout the entire cleaning task.
OutSide Brush. As well as its extendable rotating mop, the Conga extends its side brush to reach corners and hard-to-reach areas.

Conga M10 Advance

Conga M10 Advance robot vacuum cleaner.
Gyroscopic ordered navigation. 3000 Pa suction pressure. 150-minute runtime. Anti-fall sensors and dual side brushes.

FEATURES:

Orderly cleaning. Gyroscopic navigation: allows the robot to clean all rooms efficiently.
Vacuums dust, hair and all types of dirt. 3000 Pa motor suction for effortless cleaning.
Covers up to 150 m² without interruptions. Lithium-ion battery with up to 150 minutes of uninterrupted suction performance in ECO mode.
*Based on laboratory tests. Actual performance varies according to home layout.
Traps dirt without tangles. Suction nozzle: directly removes dirt, reducing maintenance.
Customised cleaning. App Control: plan and schedule each cleaning routine from your mobile phone, select vacuum and mopping mode.
Cleans narrow and low areas. 300 mm diameter and 80 mm height: allows the robot to move easily through hard-to-reach spaces.
Safe navigation in dual-height areas. Anti-fall sensors that allow the robot to reverse when it detects a step.
Increases the operating range. Dual side brush: enables effective cleaning with each pass.

COMPOSITION:

Robot vacuum cleaner, charging base

40.5 x 12.9 x 34.6 cm 3.58 kg

Conga M10 Advance Aqua

Conga M10 robot vacuum cleaner. Gyroscopic ordered navigation. 2000 Pa suction pressure. 120-minute runtime. Anti-fall sensors and dual side brushes.

FEATURES:

Orderly cleaning. Gyroscopic navigation for an orderly and efficient cleaning of all rooms.
Sweeps away dust, hair, and all types of dirt. 3000 Pa: motor suction that enables detailed vacuuming.
Vacuums up to 150 m². 2000 mAh battery: clean without interruptions for 120 minutes, runtime that allows the robot to cover up to 120 m².
*Based on laboratory tests. Actual performance varies according to home layout.
Vacuums everything without tangles. Suction mouth: effectively removes dirt, prevents tangles and reduces brush maintenance needs.
Total cleaning in one pass. Vacuums, sweeps, mops and wipes, achieving spotless results in less time.
Cleans narrow and low areas. 300 mm diameter and 80 mm height: allows the robot to move easily through hard-to-reach spaces.
Customised cleaning plan. App: set vacuum and mopping modes, and schedule the cleaning plan from your mobile.
Mops and vacuums simultaneously. Water tank and mop.
Safe navigation. 3 anti-fall sensors that allow the robot to immediately reverse when detecting a step.
Increases the operating range. Dual side brush: enables effective cleaning with each pass.

Conga M60 Dark

Conga M60 Dark robot vacuum cleaner. Laser navigation. 13,000 Pa motor suction. Up to 200 minutes of runtime in ECO mode. Multifunction brush, suitable for all types of surfaces. Compatible with Bluetooth and 2.4GHz Wi-Fi networks.

FEATURES:

Precise cleaning with interactive map. Laser navigation: creates a quick and precise mapping of the entire home, generating an interactive map to clean each room in a personalised way.
Vacuums deeply without effort. 13,000 Pa: gets rid of dust, hair and all types of dirt thanks to its ultra-powerful suction, leaving floors spotless.
Covers up to 200 m² without interruptions. 3200 mAh battery that delivers efficient and continuous cleaning, ensuring complete coverage without needing to recharge.
*Based on laboratory tests. Actual performance varies according to home layout.
Effective cleaning of floors and carpets. Multi-function brush with bristles and silicone, all-terrain design that achieves effective cleaning on both floors and carpets.
Reaches hard-to-reach areas. Compact design (320 mm diameter and 100 mm height): allows the robot to move easily through reduced spaces, reaching even the most difficult corners.
Continuous and independent cleaning. 460 ml water tank and 350 ml dust tank that allow frequent cleaning without having to constantly empty and refill.
Personalise cleaning from your smartphone. Cecotec App: define, plan and schedule cleaning to achieve tailor-made results for each room in the most comfortable way.
Total cleaning in one pass. Vacuums, sweeps, scrubs and mops.
Always completes the cleaning plan. Total Surface: allows the robot to return to its base when it's low on battery to recharge and resume cleaning from the same point where it left off.
Adapts the water level to every surface. Smart mopping with 3 flow levels to adapt to the needs of each floor.
Quick and easy pairing. Bluetooth and Wi-Fi for 2.4 GHz networks.

Conga M80 Dark

Conga M80 Dark robot vacuum cleaner. Laser navigation. 25,000 Pa motor suction. Up to 240 minutes of runtime in ECO mode. Silicone brush, perfect for homes with pets. Compatible with Bluetooth and 2.4GHz Wi-Fi networks.

FEATURES:

Precise cleaning with interactive map. Laser navigation: creates a quick and precise mapping of the entire home, generating an interactive map to clean each room in a personalised way.
Extreme power for total cleaning. 25,000 Pa: gets rid of dust, hair and all types of dirt thanks to its ultra-powerful suction, leaving floors spotless.
Vacuum hair without tangles. Silicone brush: achieves deep cleaning on multiple surfaces, trapping pet hair and long hair without tangles.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Covers up to 240 m² without interruptions. 4500 mAh battery that delivers efficient and continuous cleaning, ensuring complete coverage without needing to recharge.
*Based on laboratory tests. Actual performance varies according to home layout.
Reaches hard-to-reach areas. Compact design (320 mm diameter and 100 mm height): allows the robot to move easily through reduced spaces, reaching even the most difficult corners.
Continuous and independent cleaning. 460 ml water tank and 350 ml dust tank that allow frequent cleaning without having to constantly empty and refill.
Personalise cleaning from your smartphone. Cecotec App: define, plan and schedule cleaning to achieve tailor-made results for each room in the most comfortable way.
Total cleaning in one pass. Vacuums, sweeps, scrubs and mops.
Always completes the cleaning plan. Total Surface: allows the robot to return to its base when it's low on battery to recharge and resume cleaning from the same point where it left off.
Adapts the water level to every surface. Smart mopping with 3 flow levels to adapt to the needs of each floor.
Quick and easy pairing. Bluetooth and Wi-Fi for 2.4 GHz networks.

COMPOSITION:

Robot vacuum cleaner, charging base, mop pad

35 x 13 x 40.5 cm 3.72 kg
36 x 42 x 14 cm 4.07 kg

Conga M100 X-Treme

Conga M100 robot vacuum cleaner with liftable rotating mops. Artificial Intelligence and 25000 Pa suction. Anti-tangle silicone brush. Up to 220 m² runtime. App 3.0 Control.

FEATURES:

Smart navigation that avoids objects and prevents risks. Artificial Intelligence and Laser Eye: the robot maps your home and cleans intelligently, avoiding even small objects to prevent accidents and achieve maximum precision.
Sweeps away dirt, even on high-pile carpets. 25,000 Pa: ultra-powerful suction that delivers a deep clean on any surface, including the most difficult-to-reach areas.
Quick and deep-cleaning mopping. Spin mops: two high-speed rotating mops that remove even the toughest stains effortlessly.
Lifts mops and protects carpets from moisture. Spin Up: liftable mops designed to prevent moisture from contacting carpets while ensuring deep vacuum cleaning.
Cleans large floors without interruption. Covers up to 220 m² (4500 mAh battery)*: designed to provide efficient and continuous cleaning, ensuring complete coverage without needing to stop for recharging.
*Based on laboratory tests. Actual performance varies according to home layout.
All-round cleaning without tangles. Silicone brush: ideal for homes with pets thanks to its tangle-free design, which allows you to clean all types of dirt from various surfaces effectively and without hassle.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Define, plan and schedule cleaning by zones. APP 3.0: customise the cleaning of each room from anywhere. Choose the cleaning order, restrict areas and achieve tailored cleaning from your smartphone.
Always completes the cleaning plan. Total Surface 3.0: if the robot runs out of battery power, it automatically returns to the charging base and then resumes cleaning to complete the scheduled cleaning once the battery is charged.
Customised mopping for every floor. Three flow levels that allow to adapt the mopping water flow to each floor's needs.
Quick and easy pairing. Bluetooth and 2.4 and 5 GHz WiFi allowing easy connection to your networks and devices.

COMPOSITION:

Robot, charging base, mop pads.

Conga M90 Arm

Robot vacuum cleaner. 25 000 Pa. Hairless Duo brush. AI and laser navigation. Extendable side brush.

FEATURES:

Artificial Intelligence. Conga cleans smartly and with maximum precision, avoiding even the smallest objects to prevent risks and tangles.
25000 Pa: ultra-powerful. Its Ungravity motor delivers 25,000 Pa suction, a power capable of vacuuming even extreme dirt on any surface, including high-pile carpets.
Laser navigation for precise cleaning. It uses advanced technology to create an interactive map of your home, enabling exact and personalised cleaning of all spaces, regardless of the ambient light. Its fast and precise mapping, combined with exact positioning, reduces navigation errors and ensures perfect *area ident*ification.
HairLess Duo Brush. An anti-tangle brush featuring a revolutionary system that allows for deep cleaning and removes all types of tangles.
*Anti-t*angle effectiveness varies depend*ing on the hair type and its length.
Perfect for large homes, it vacuums up to 240 m²* without interruptions thanks to its powerful 4500 mAh battery, ensuring efficient and continuous cleaning. Size doesn't matter, enjoy complete coverage without the need for frequent recharges.
**Based on laboratory tests. Actual performance varies according* to *home layout.*
With a diameter of 320 mm, its compact design allows the robot to move easily through small spaces, reaching even the most difficult corners. Additionally, its height of 100 mm allows it to pass under furniture without problems, ensuring thorough and efficient cleaning.
Features a 460 ml water tank and 350 ml dirt tank, allowing you to enjoy continuous cleaning without having to empty or refill the tanks frequently. This way, you can maintain cleaning for longer in a comfortable and efficient way.
APP CECOTEC: Customised cleaning. Define, plan and schedule the cleaning of the entire house or by rooms, all from your app. Thanks to OTA updates, you'll always have access to the latest features. Choose the cleaning order, restrict the areas you want and enjoy a customised cleaning.
Total cleaning in one pass. Vacuums, sweeps, scrubs and mops for spotless results.
Cleanliness is never half done. With Total Surface cleaning is never half done. If the robot runs out of battery power, it automatically returns to the charging base and resumes cleaning to complete the scheduled cleaning once the battery is charged.
Adapts the water level to every surface. Get the most out of its smart scrubbing function with 3 levels of water flow and adjust the water level from the app to adapt to the different floors in your home.
Quick and easy pairing. Features Bluetooth and WiFi for 2.4 GHz networks, allowing easy connection to your networks and devices.
OutSide Brush. Conga extends its side brush to reach corners and hard-to-reach areas.

COMPOSITION:

Conga M120 Arm

Robot vacuum cleaner. 25 000 Pa. Hairless Duo brush. AI and laser navigation. Liftable spinning mops. Extendable side brush.

FEATURES:

Artificial Intelligence. Conga cleans smartly and with maximum precision, avoiding even the smallest objects to prevent risks and tangles.
25000 Pa: ultra-powerful. Its Ungravity motor delivers 25,000 Pa suction, a power capable of vacuuming even extreme dirt on any surface, including high-pile carpets.
Perfect scrubbing. Innovative mopping system with dual mops that spin at full speed, constantly moistening and removing even the most stubborn stains. Connect with Conga, forget about mopping and enjoy a shiny floor.
Lifts mops and protects carpets from moisture. Spin Up: liftable mops designed to prevent moisture from contacting carpets while ensuring deep vacuum clea*ning.*
HairLess Duo Brush. An anti-tangle brush featuring a revolutionary system that allows for deep cleaning and removes all types of tangles.
*Anti-t*a*ngle effectiveness varies depend*ing on the hair type and its length.
Perfect for large homes, it vacuums up to 240 m²* without interruptions thanks to its powerful 4500 mAh battery, ensuring efficient and continuous cleaning. Size doesn't matter, enjoy complete coverage without the need for frequent recharges.
**Based on laboratory tests. Actual performance varies according to home layout.*
*Ultrasonic carpet detection. The r*obot detects when there is a carpet and automatically boosts power to clean with maximum precision. In addition, if it is in scrubbing mode, it dodges the carpet so as not to wet the carpet fabric.
Adapts the water level to every surface. Get the most out of its smart scrubbing function with 3 levels of water flow and adjust the water level from the app to adapt to the different floors in your home.
APP CECOTEC: Customised cleaning. Define, plan and schedule the cleaning of the entire house or by rooms, all from your app. Thanks to OTA updates, you'll always have access to the latest features. Choose the cleaning order, restrict the areas you want and enjoy a customised cleaning.
Water sensor. In mopping mode, Conga alerts you through its APP when the water tank is empty to maintain mopping efficiency throughout the entire cleaning task.
Total cleaning in one pass. Vacuums, sweeps, scrubs and mops for spotless results.
Cleanliness is never half done. With Total Surface cleaning is never half done. If the robot runs out of battery power, it automatically returns to the charging base and resumes cleaning to complete the scheduled cleaning once the battery is charged.
Quick and easy pairing. Features Bluetooth and WiFi for 2.4 GHz networks, allowing easy connection to your networks and devices.

Conga Q200

Conga Q200. Robot vacuum cleaner and floor mop with liftable rotating mops. 55 mm extendable right-hand mop. 25,000 Pa suction power and advanced obstacle detection. Automatic cleaning at the base with hot-air drying. 100% corner coverage system. Hairless anti-tangle brush. 280-minute runtime.

FEATURES:

Smart navigation that avoids objects and prevents risks. Artificial Intelligence and Laser Eye: the robot cleans intelligently and can avoid objects, even small ones, to prevent risks and clean with maximum precision.
Adaptive technology for precision cleaning to every corner. Home Rover 2.0: conquers any environment with the Home Rover adaptive cleaning system. Conga extends its Spin mops to ensure thorough cleaning in the most difficult areas and also features ultrasonic detection to lift the mops and protect carpets or delicate surfaces. Also, it has sensors to detect small objects.
Sweeps away dirt, even on high-pile carpets. 25,000 Pa: ultra-power that achieves deep cleaning on any surface, even in the most challenging areas.
Mops from start to finish with clean water. Perfect Wash: excellent mopping thanks to the robot's water-refill system, which moistens the Spin mops. With its absorbent texture, it cleans at full speed and keeps them constantly damp to remove even the most stubborn ingrained stains.
Complete hands-free maintenance. All-in Home base with hot air drying: say goodbye to dust and allergies thanks to its self-emptying system with a 3.5 L bag, providing up to 120 days of independent functioning. It also wrings out the dirty water from the mops, cleans them and air-dries them quickly with hot air, leaving them pristine. It refills the robot's tank and cleans the mops using its 4 L clean water tank. Once the cleaning process is complete, it collects the water in its 3.5 L waste water tank.
*Self-maintenance time may vary depending on environmental conditions and usage habits.
Lifts up the mops by 15 mm, protects carpets and boosts suction. Spin Up: system that raises the mops by 15 mm when its ultrasonic sensors detect carpets, protecting them from mop moisture while boosting suction power to eliminate even dirt hidden between fibres.
Thorough mopping of edges and low-lying areas. SpinXtend: an extendable right-side mop of 55 mm for cleaning hard-to-reach areas that a conventional mop cannot reach, such as skirting boards or the undersides of furniture.
Vacuums thoroughly and eliminates tangles*. HairLess Brush: brush designed with a revolutionary system that traps all types of dirt, eliminating hair tangles for easier maintenance.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Covers 100% of the area in corners. Reverse XTend XL: side brush with bidirectional rotation technology and XL bristle design, covering 100% of the corners. Furthermore, thanks to its V-shaped design, it prevents hair from getting tangled and makes maintenance easier.

Conga Q300

Conga Q300. Robot vacuum cleaner and floor mop with liftable rotating mops. 55 mm extendable right-hand mop. 25,000 Pa suction power and advanced obstacle detection. Automatic cleaning at the base using hot water, detergent and hot air drying. 100% corner coverage system. Hairless anti-tangle brush. 280-minute runtime.

FEATURES:

Smart navigation that avoids objects and prevents risks. Artificial Intelligence and Laser Eye: the robot cleans intelligently and can avoid objects, even small ones, to prevent risks and clean with maximum precision.
Adaptive technology for precision cleaning to every corner. Home Rover 2.0: conquers any environment with the Home Rover adaptive cleaning system. Conga extends its Spin mops to ensure thorough cleaning in the most difficult areas and also features ultrasonic detection to lift the mops and protect carpets or delicate surfaces. It also has sensors to detect small objects.
Sweeps away dirt, even on high-pile carpets. 25,000 Pa: ultra-power that achieves deep cleaning on any surface, even in the most challenging areas.
Mops from start to finish with clean water. Perfect Wash: excellent mopping thanks to the robot's water-refill system, which moistens the Spin mops. With their super-absorbent texture, they clean at full speed and remain constantly damp to remove even the most stubborn, ingrained stains.
Complete hands-free maintenance. All-in Home base with disinfection: say goodbye to dust and allergies thanks to its self-emptying system with a 3.5-litre bag, which provides up to 120 days of independent functioning. It also wrings out the dirty water from the mops, cleans them with hot water at 70°C and detergent, and dries them quickly with hot air, leaving them pristine. It refills the robot's tank and cleans the mops using its 4 L clean water tank. Once the cleaning process is complete, it collects the water in its 3.5 L waste water tank.
*Self-maintenance time may vary depending on environmental conditions and usage habits. Disinfects the mops with soap and hot water at 70°C. Thermal Clean: dispenses soap onto the mops to eliminate bacteria and germs, then dries them with hot water to prevent possible odours, enabling the robot to start its next cleaning plan in perfect condition.
Lifts mops and protects carpets. Spin Up: system that raises the mops by 15 mm when its ultrasonic sensors detect carpets, protecting them from mop moisture while boosting suction power to eliminate even dirt hidden between fibres.
Thorough mopping of edges and low-lying areas. SpinXtend: an extendable right-side mop of 55 mm for cleaning hard-to-reach areas that a conventional mop cannot reach, such as skirting boards or the undersides of furniture.

Conga R400

Robot vacuum cleaner with dust and water station. 25 000 Pa. Mop roller. HairLess brush. AI and Laser Navigation.

FEATURES:

Artificial Intelligence. Conga cleans smartly and with maximum precision, avoiding even the smallest objects to prevent risks and tangles.
Perfect scrubbing. Mop roller.
25000 Pa: ultra-powerful. Its Ungravity motor delivers 25,000 Pa suction, a power capable of vacuuming even extreme dirt on any surface, including high-pile carpets.
Spin UP&XTend roller for professional floor cleaning. It effectively cleans the edges and undersides of furniture thanks to its extendable and adjustable roller.
Home&Wash base. 2.5 l capacity of the dirt-disposal bag, 4 l capacity of the clean water tank and 3.5 l capacity of the waste water tank.
Complete maintenance, total peace of mind. The Home&Wash station independently monitors and manages the robot's maintenance. Thanks to its self-emptying system, which wets the mops during the cleaning cycle and cleans and dries them with hot air, the robot stays as good as new, preventing the build-up of unpleasant odours and germs and ensuring it starts every cleaning session in the best possible condition.
HairLess Brush. An anti-tangle brush featuring a revolutionary system that allows for deep cleaning and removes all types of tangles.
*Anti-tangle effectiveness varies depending on the hair type and its length.
Up to 12 weeks with Self-emptying. The robot cleans repeatedly autonomously and empties its tank into its 2.5 L self-emptying base for up to 12 weeks of hands-free cleaning*.
*Range varies according to environmental conditions and usage habits.
Its self-emptying base is ideal for people with allergies, as it traps dust and allergens without releasing them into the air, while effectively collecting pet hair, keeping your home cleaner and healthier with less effort.
Ultrasonic carpet detection. The robot detects when it encounters a carpet and automatically increases its power to clean with maximum precision; if it is in mopping mode, it raises the central brush.
No floor stands in its way. Vacuums up to 240 m² for 240 minutes without interruptions. Its 5200 mAh battery offers up to 240 minutes of continuous use, perfect for covering areas up to 240 m²*. **Based on laboratory tests. Actual performance varies according to home layout.*
APP 3.0: Customised cleaning. Define, plan and schedule the cleaning of the entire house or by rooms, all from your app. Thanks to OTA updates, you'll always have access to the latest features. Choose the cleaning order, restrict the areas you want and enjoy a customised cleaning.
Quick and easy pairing. Features Bluetooth and WiFi for 2.4 GHz networks, allowing easy connection to your networks and devices.
Cleanliness is never half done. With Total Surface 3.0. cleaning is never half done. If the robot runs out of battery power, it automatically returns to the charging base and resumes cleaning to complete the scheduled cleaning once the battery is charged.

Conga R500

Robot vacuum cleaner with dust and water station. 25 000 Pa. Mop roller. HairCut brush. Extendable side brush. Camera, AI and Laser Navigation.

FEATURES:

Artificial Intelligence. Conga cleans smartly and with maximum precision, avoiding even the smallest objects to prevent risks and tangles.
Recognizes and dodges objects for problem-free cleaning. The robot detects objects such as cables, socks, shoes, and avoids them, allowing it to clean even in a cluttered environment. This way, you don't have to worry about anything.
Intelligent floor and dirt analysis. The robot recognizes different types of floors, stains, dirt and liquids. When it detects liquids, the central brush automatically lifts, leaving the mops to scrub and clean thoroughly, ensuring a perfect job.
Perfect scrubbing. Mop roller.
25000 Pa: ultra-powerful. Its Ungravity motor delivers 25,000 Pa suction, a power capable of vacuuming even extreme dirt on any surface, including high-pile carpets.
Home&Wash base. 2.5 l capacity of the dirt-disposal bag, 4 l capacity of the clean water tank and 3.5 l capacity of the waste water tank.
Perfect Wash. Automatic water tank refill: consistent moisture for a perfect scrub. The base automatically refills the robot's water tank, ensuring the mops remain consistently damp to give you the best possible cleaning every time.
Complete maintenance, total peace of mind. The Home&Wash station takes care of the robot's maintenance entirely on its own. Thanks to its self-emptying system, mop wetting during the cleaning cycle, and cleaning with hot water followed by hot-air drying, the robot comes out looking as good as new. This prevents the build-up of unpleasant odours and germs, ensuring it's always ready to deliver the best results. What's more, with self-emptying for up to 12 weeks, the robot cleans repeatedly without any intervention, automatically emptying its tank into its self-emptying base.
UP&XTend roller for professional floor cleaning. It effectively cleans the edges and undersides of furniture thanks to its extendable and adjustable roller.
OutSide Brush. As well as its extendable rotating mop, the Conga extends its side brush to reach corners and hard-to-reach areas.
HairCut Brush. An anti-tangle brush that cuts hair whilst cleaning and vacuums it up at the same time, to prevent any kind of tangles. **Anti-tangle effectiveness varies depending on the hair type and its length.*
Ultrasonic carpet detection. The robot detects when it encounters a carpet and automatically increases its power to clean with maximum precision; if it is in mopping mode, it raises the central brush.
SpinOff. Self-detaching mops to keep your carpets clean. Conga leaves the mops in the docking station to help protect your carpets when you're not using the mopping mode.
Up&Go. Liftable omnidirectional wheel. Conga lifts up to 30 mm so it can enter any room without any hindrance or obstruction.
APP 3.0: Customised cleaning. Define, plan and schedule the cleaning of the entire house or by rooms, all from your app. Thanks to OTA updates, you'll always have access to the latest features. Choose the cleaning order, restrict the areas you want and enjoy a customised cleaning.
