# Washing machines

*Discover the Bolero™ DressCode range*

## ULTRA-CAPACITY

# Ultra-capacity is here

With a capacity of up to 15 kg, get the most out of the drum's interior space and wash more clothes in one go, even large loads. Clothes of the whole family, towels, sheets or bulky items: everything fits in with greater ease to reduce the number of loads, save time and simplify your routine. Because with more capacity, every wash goes much further.

# 15 Kg

# Takes care of your clothes and the planet

## ENERGY CLASS A-30%

### Save on every wash

Enjoy high quality performance with maximum energy savings thanks to its Class A-30%<sup>1</sup> certification, which allows you to save energy to take care of your laundry and the planet.

## DIRECT DRIVE MOTOR

### High efficiency, superior durability

This innovative motor dispenses with the pulley used in inverter models and attaches directly to the drum, which not only offers superior performance<sup>2</sup>, but also reduces maintenance. In addition, it provides greater energy savings and more stable operation<sup>2</sup>, without vibrations and disturbing noises.

## STEAM MAX PROGRAMMES

### Steam washing

Take the best care of your clothes with the steam programmes<sup>3</sup>, which penetrate the fabrics to remove the most stubborn stains. They also sterilise all your laundry, making your clothes and washing machine germ-free.

## 980 DIRECT DRIVE SERIES

# Elevate your home

The Bolero™ Dresscode 980 series fuses sleek design with advanced functionality, all powered by its Direct Drive motor, which ensures exceptional performance. Discover the latest technology with our appliances and take care of your clothes with maximum savings.

### LEATHER FINISHES

Premium design with leatherette finish on the lower area of the display and on the door grip.

### XXL DOOR

Convenient access to the drum thanks to its 52 cm diameter design.

### DIRECT DRIVE MOTOR

Connected directly to the component that drives it, it offers maximum efficiency, as well as quiet and efficient operation.

### LED KNOB

Select customised options on the control panel to make laundry even easier.

### 14 PROGRAMMES

A programme for every occasion and every fabric.

### INTERIOR UV LIGHT

Disinfects the drum while illuminating it, ensuring hygienic cleaning and making it easier to see the laundry.

# Steam cleaning for your garments

## STEAM MAX<sup>1</sup>

### Wraps the laundry in steam

Removes stains, germs and any odours thanks to this function, which steams the laundry and effectively penetrates each garment to sterilise it.

## SPA CARE<sup>2</sup>

### Protects your clothes

This programme removes 99.9% of bacteria before each wash, since a clean interior means a perfect wash.

## SANITIZE<sup>3</sup>

### Clothes always like new

Sterilises your clothes during washing at over 65 °C for 30 minutes so that all your garments are clean and bacteria-free. Perfect for underwear, delicate skin or baby clothes.

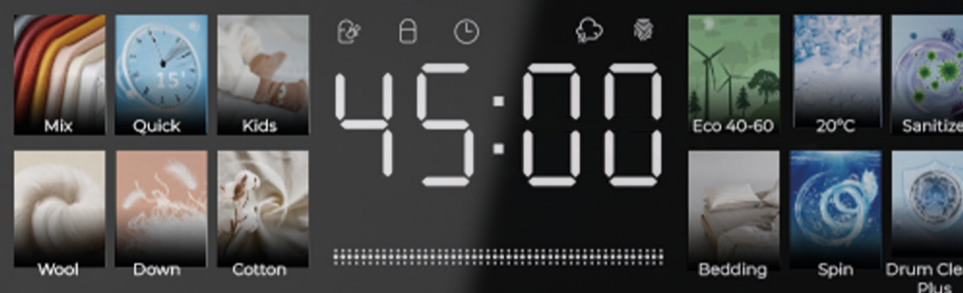

## Autodose washing machines

Doing the laundry has never been so easy

### DOUBLE AUTODOSE

## Forget about detergent and fabric softener for up to 20 washes<sup>1</sup>

Thanks to this feature, the washing machine dispenses the correct amount of detergent and fabric softener for every wash, so you don't have to worry about a thing. This saves you time and resources, allowing you to enjoy what really matters while caring for the planet.

### CORE MATRIX SCREEN

## Full colour display

Control your washing machine in the most simple and intuitive way thanks to its innovative 9.2''<sup>2</sup> Core Matrix Screen XXL touch display with colour design. Choose the ideal programme for each laundry with just one touch and give your clothes a tailor-made wash in the easiest and quickest way.

# Designed to stand out

## PEARL DRUM

### Protects your clothes

The drum has a special snowflake texture<sup>1</sup> that improves the glide of each garment, making it easier to clean and care for.

## DRUM CLEAN

### Keeps your drum spotless

Forget about drum cleaning. The Drum Clean system<sup>2</sup> automatically clears the inside of the washing machine to prevent dirt, odours and bacteria build-up.

## SPACE PRO

### More capacity in the same space

Wash more laundry in one go thanks to the extra-flat drum<sup>3</sup>. This design increases the machine capacity without increasing the outside space, so it doesn't take up space in your home.

## Adapts to you and your clothes

### STOP & GO

## Add or dry clothes

This technology allows you to stop the washing cycle to remove items that have been put in by mistake or to add items that have been forgotten. Easy, convenient and practical.

### DELAY START

## Adapt the laundry to your schedule

With Delay Start you can schedule the start of each wash so that your laundry is ready to hang at a time that suits your schedule.

### SMOOTH WASH

## Silent washing

Thanks to this technology and the ESC system<sup>2</sup>, the washer is able to set the washing and spinning to an ultra-quiet mode so that you can use it even at night.

# Bolero DressCode 520 Inverter

Washing machine with 5 kg of load capacity, 1000 rpm, Inverter Plus motor, energy class A, 16 programmes, SteamMax, Spa Care, Drum Clean, Delay Start, KidLock functions, prewash and quick 15' programme.

## FEATURES:

Wash what you need without waiting: 5 kg capacity designed for agile daily use, optimising time and resources in every cycle.

Efficient energy consumption, reducing electricity costs and minimising environmental impact. Class A.

Inverter Plus motor: Optimises washing with lower energy consumption and reduced noise, guaranteeing durability and garment care.

Customise your wash by programming the spin speed up to a maximum of 1000 rpm.

Programmable spin speed

You will have at your disposal a programme for every moment and every fabric, and it will always offer you washes with perfect results. 16 programmes.

Wash your clothes with added steam. Wraps laundry with steam to effectively penetrate each garment for sterilisation and odour removal. SteamMax.

Programme that uses water at 90 °C to sterilise your laundry. Spa Care.

Keep your drum always spotless and achieve total hygiene for your garments. Drum Clean

It allows you to programme the start of the washing cycle up to 18 hours in advance, adapting to your schedule and optimising energy use. Delay Start.

Safety system that locks all buttons except the Stop button, preventing children from tampering with the washing machine and avoiding accidents. KidLock.

Tackle your toughest laundry with prewash and combat even the most stubborn stains. Pre-Wash.

Get your laundry clean in record time. Quick 15' programme.

# Bolero DressCode 6110 Inverter Max

White washing machine with 6 kg capacity and 1200 rpm, 11 programmes, Class A-10%, Inverter Plus motor, Steam Max, Drum Clean, Quick 15' programme, Delay Start and KidLock.

## FEATURES:

Washing machine with 6 kg load capacity.

Programmable revolutions. Enjoy its programmable spin speeds up to 1.200 rpm.

A-10% energy efficiency, superior to Class A, with up to 10% less power consumption while maintaining the same washing power.

Inverter Plus motor: High-efficiency motor that reduces consumption compared to a universal motor and works with less vibration and noise, especially during washing and spinning.

Deep cleaning with steam that penetrates clothing. The SteamMax function removes stubborn stains and sterilises every garment.

With 11 programmes. A programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

The drum cleans itself to prevent bacteria build-up. The Drum Clean function eliminates dirt and bad odours.

Quick 15' programme. Perfect for rapidly cleaning lightly soiled garments, optimising time and energy consumption.

Programme the start of each wash up to 24 hours in advance. DelayStart.

Stop the washing machine during operation to open the drum. Its Stop&Go function allows you to open the drum if you've forgotten to add a garment or wish to remove one.

Extra rinse. Allows to remove detergent residue and dirt, ensuring cleaner and fresher laundry.

Child safety lock. KidLock

# Bolero DressCode 8800 Inverter Ice Blue A

8-kg capacity front-loading washing machine, Class A, 1400 rpm, 16 programmes, Inverter Plus Motor, SteamMax, smart wash and load detector.

## FEATURES:

Large capacity: do the laundry for the whole family thanks to its large load capacity of 8 kg.  
Save on every use: with the Class A label, it achieves the maximum energy efficiency allowing great energy savings on every wash.  
Efficiency wash after wash: its Inverter Plus motor ensures efficient operation wash after wash, saving<sup>1</sup> more than 70 % compared to a universal motor.  
Regulate its revolutions: you can programme the washing machine's revolutions up to 1400 rpm, thus adapting it to your fabrics and needs.  
Tailor-made washes: a programme for every moment and every fabric to always offer made-to-measure washes. Its 16 programmes offer a wide variety of options to suit all your needs and all your garments.  
Intelligence at your service: its OnSmart function selects the ideal programme automatically at the touch of a button.  
Optimises water and time: its Fuzzy Logic function detects the wash load and optimises the water level and wash time.  
Steam wash: SteamMax function is added before the main programme which washes the laundry by steam. Wrap the laundry with steam to effectively penetrate each garment to sterilise it and eliminate any odours.  
Sterilise your laundry: with the SpaCare function, the washing machine will perform a pre-wash steam sterilisation that leaves your laundry 100% free of germs and bacteria.  
Better drying and gliding: with the Pearl Drum, the drum with snowflake texture, drying and gliding of garments is improved.  
More capacity, same space: Space Care technology offers more capacity in the same space thanks to the extra-flat drum design.  
Touch display: control the washing machine conveniently thanks to the XXL touch display, and see all the information about each wash at a glance (wash time, selected options, programme stage, etc.).

# Bolero DressCode 8970 Direct Drive

8 kg washing machine, white colour design, class A, with Direct Drive motor and 1400 rpm, 11 programmes, FullColor display, XXL door and SteamMax function, Spa Care, Soil Level, Delay End, My Fav, interior light, Drum Clean Plus and Stop&Go.

## FEATURES:

With 8 kg capacity, it is perfect for families, allowing large loads of laundry to be washed in a single cycle.  
Its energy class A ensures efficient consumption, reducing electricity bill costs and protecting the environment.  
Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move!  
With 1400 programmable rpm, you can adjust the spin speed to suit different types of fabrics, ensuring more efficient drying.  
It features 11 washing programmes that adapt to different types of fabrics and needs, ensuring optimal care for each garment.  
Its FullColor display provides an intuitive and modern interface, making it easy to set up and monitor each washing cycle.  
The XXL door makes loading and unloading the washing machine easier and more convenient, even with bulky items.  
SteamMax: power your wash with steam for thorough cleaning.  
The Spa Care programme uses steam to sterilise laundry before washing, killing germs and bacteria and providing a fluffier texture.  
Soil Level: Select your laundry's soiling level and forget about the rest. The washing machine will automatically<sup>1</sup> programme the time to make your clothes as good as new.  
Delay End: Programme the delayed finish with the Delay End function, adjusting the washing cycle to your schedule.  
My Fav: Save your most used washing programme with the My Fav function, which allows you to quickly access your preferred settings with just one touch.  
Thanks to the interior light in the washing machine, visibility is improved when loading and unloading laundry, helping to prevent forgotten clothes from being left behind.  
The Drum Clean Plus programme keeps the drum clean and free of debris, extending the washing machine's service life.

# Bolero DressCode 9970 Direct Drive

9 kg washing machine, white colour design, class A, with Direct Drive motor and 1400 rpm, 11 programmes, FullColor display, XXL door and SteamMax function, Spa Care, Soil Level, Delay End, My Fav, interior light, Drum Clean Plus and Stop&Go.

## FEATURES:

This 9 kg washing machine allows large loads of laundry to be washed in a single cycle, saving time and energy while making it perfect for families or households with high laundry demands.  
Its energy class A ensures efficient consumption, reducing electricity bill costs and protecting the environment.  
Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move!  
With 1400 programmable rpm, you can adjust the spin speed to suit different types of fabrics, ensuring more efficient drying.  
It features 11 washing programmes that adapt to different types of fabrics and needs, ensuring optimal care for each garment.  
Its FullColor display provides an intuitive and modern interface, making it easy to set up and monitor each washing cycle.  
The XXL door makes loading and unloading the washing machine easier and more convenient, even with bulky items.  
SteamMax: power your wash with steam for thorough cleaning.  
The Spa Care programme uses steam to sterilise laundry before washing, killing germs and bacteria and providing a fluffier texture.  
Soil Level: Select your laundry's soiling level and forget about the rest. The washing machine will automatically<sup>1</sup> programme the time to make your clothes as good as new.  
Delay End: Programme the delayed finish with the Delay End function, adjusting the washing cycle to your schedule.  
My Fav: Save your most used washing programme with the My Fav function, which allows you to quickly access your preferred settings with just one touch.  
Thanks to the interior light in the washing machine, visibility is improved when loading and unloading laundry, helping to prevent forgotten clothes from being left behind.

# Bolero DressCode 10180 Inverter

10 kg white washing machine, Class A-30%, 1400 rpm, Inverter Plus motor, 15 programmes, SteamMax, My Fav, Drum Clean, Delay Start, PreWash, KidLock, designed to match the Bolero DressCode 8/9/10180 tumble dryer.

### FEATURES:

Large 10 kg capacity: Large drum for washing more laundry in each cycle, ideal for family-use, duvets and large loads of 10 kg.

Class A-30%: High energy efficiency with up to 30% lower consumption compared to the Class A threshold reference value.

1400 rpm: A powerful spin cycle that removes more water from your laundry, helping to reduce drying time and moisture levels when the cycle ends.

Inverter Plus motor: An inverter-technology motor for more efficient, quieter and longer-lasting operation, with improved speed and vibration control.

15 programmes: wide selection of cycles to adapt the wash to every fabric and need (daily, delicates, quick, intensive, etc.).

SteamMax: Steam function to sanitise, reduce odours and help reduce creases, improving the result.

My Fav: Allows you to save a favourite programme with your usual settings for quick access.

Drum Clean: Drum self-cleaning programme to keep the washing machine clean, reduce residue and odours, and maintain performance.

Delay Start: Delayed start to schedule your wash so it finishes when it suits you best.

PreWash: Pre-wash for heavy soiling, helps soften and remove stains before the main wash.

KidLock: Child safety lock to prevent accidental changes to the control panel during operation.

The ultimate design duo: This washing machine is the perfect complement to our Bolero DressCode Dry 8/9/10180 tumble dryer, with which it shares the same aesthetic. Available separately, it allows you to create a high-end laundry stack that optimises your space and elevates the style of your home.

## Inverter

Washing machine, white, 10 kg capacity and 1400 rpm, 16 programmes, Class A-10 %, Inverter Plus motor, elegant stainless steel panel, SteamMax, Drum Clean, AllergyCare, Pearl Drum, Delay Start, Silence Function, Stop&Go and Kid Lock.

### FEATURES:

10 kg capacity: designed for those who need to wash large loads in one go.  
Adjustable spin speed: programme the washing machine from 0 up to 1400 rpm, adapting to your fabrics and needs.  
Class A-10%: exceeds Class A efficiency thanks to innovative technology that optimises each cycle to deliver perfect, fast washes with even lower energy consumption. The ideal choice for those who want to take care of their home and the environment.  
Inverter Plus Motor: high quality performance and maximum durability. Energy efficient with reduced vibration and noise. Thanks to the Inverter motor, the washing machine will make less noise during operation. It also promotes energy savings.  
16 programmes: select the perfect cycle for each type of fabric and always get the best care and results of washing.  
Enhance your washing experience thanks to the stainless steel control panel, which adds a modern, elegant and resistant touch to your washing machine, and incorporates a side LED display for intuitive and convenient control.  
SteamMax: wraps laundry with steam to effectively penetrate each garment, sterilise it and remove any stains and odours.  
Drum Clean: specific programme that cleans the drum in depth, eliminates bacteria and prevents dirt and unpleasant odours in your washing machine.  
Allergy Care: selectable programme that sterilises laundry by steam in addition to using water at high temperatures.  
Pearl Drum: Special snowflake texture of the drum facilitates and improves the drying and sliding of garments.  
Delay Start: Schedule the end time of the cycle. Plan your washing to start at the time that best suits your schedule.

# Bolero DressCode 10610 Inverter Ice Blue A

Front-load washing machine, 10 kg capacity, ice blue colour, 1400 RPM, Class A, Steam Max, Inverter plus motor, 15 programmes, OnSmart, Fuzzy Logic, Smooth Wash, Stop&Go, antibacterial rubber and Drum Clean.

### FEATURES:

Wash all your clothes at once thanks to the large 10 kg drum capacity. Make your washes more efficient by not leaving anything behind.

Thanks to its class A energy label get maximum savings on every wash.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

Get a deep washing every day with the added Steam Max function, as it envelops the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Programmable revolutions: enjoy up to a maximum of 1400 rpm.

15 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy Logic: detects the wash load and optimises the water level and wash time.

Smooth Wash: intelligent wash stabilisation that makes your washing machine efficient and quiet.

Stop&Go: stop the washing machine during operation to reload it. If you forgot to put something in the washing machine or you want to take something out, pause it and open it without problems.

Drum Clean: the drum cleans itself to prevent bacteria build-up. Free of dirt and bad smells.

KidLock: child safety lock to prevent children from controlling the washing machine.

Antibacterial rubber: prevents the formation of germs inside the washing machine so that your laundry always comes out perfect.

Pearl Drum: drum with snowflake texture that improves drying and sliding of garments.

Space Pro: more capacity in the same space thanks to the drum design.

# Bolero DressCode 10970 Direct Drive Steel

10 kg washing machine, stainless steel design, class A, with Direct Drive motor and 1400 rpm, 11 programmes, FullColor display, XXL door and SteamMax function, Spa Care, Soil Level, Delay End, My Fav, interior light, Drum Clean Plus and Stop&Go.

### FEATURES:

This 10 kg washing machine allows large loads of laundry to be washed in a single cycle, saving time and energy while making it perfect for families or households with high laundry demands.

Its energy class A ensures efficient consumption, reducing electricity bill costs and protecting the environment.

Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move!

With 1400 programmable rpm, you can adjust the spin speed to suit different types of fabrics, ensuring more efficient drying.

It features 11 washing programmes that adapt to different types of fabrics and needs, ensuring optimal care for each garment.

Its FullColor display provides an intuitive and modern interface, making it easy to set up and monitor each washing cycle.

The XXL door makes loading and unloading the washing machine easier and more convenient, even with bulky items.

SteamMax: power your wash with steam for thorough cleaning.

The Spa Care programme uses steam to sterilise laundry before washing, killing germs and bacteria and providing a fluffier texture.

Soil Level: Select your laundry's soiling level and forget about the rest. The washing machine will automatically<sup>1</sup> programme the time to make your clothes as good as new.

Delay End: Programme the delayed finish with the Delay End function, adjusting the washing cycle to your schedule.

My Fav: Save your most used washing programme with the My Fav function, which allows you to quickly access your preferred settings with just one touch.

Thanks to the interior light in the washing machine, visibility is improved when loading and unloading laundry, helping to prevent forgotten clothes from being left behind.

# Bolero DressCode 10980 Direct Drive Steel A

10 kg washing machine Steel colour and class A, with Direct Drive motor and 1400 rpm. With FullColor display and faux leather finishes, XXL door, interior and exterior UV light, SteamMax, Spa Care, Delay End, Favourites, Drum Clean Plus, Stop&Go and door lock/unlock functions.

## FEATURES:

10 kg washing machine with A energy classification: allows you to wash large quantities of laundry in a single cycle, saving time and energy.

Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move! Programmable revolutions: Adjust the spin speed to suit your needs, with the option to programme up to 1400 revolutions per minute for personalised and efficient performance. With 14 programmes at your disposal, you can customise each wash to your specific needs, from delicates to heavy loads.

Its FullColor control panel with a TFT knob provides an intuitive and modern interface that makes it easy to set up and monitor each washing cycle.

Artificial leather finishes add a luxurious touch, elevating the design of your home while respecting the environment.

XXL door: the extra large door makes loading and unloading the washing machine easier and more convenient, even with bulky items.

The UV interior light disinfects the drum while illuminating, ensuring deeper hygienic cleaning and facilitating visibility during operations.

Steam Max: The Steam Max programme washes laundry with added steam, eliminating germs and deep-seated odours, leaving clothes fresh and disinfected.

The Spa Care Plus function uses steam to sterilise laundry before washing, killing germs and bacteria and providing a fluffier texture.

Stop&Go Pro: this function allows you to pause the washing machine during operation to add or remove items, as well as giving you the possibility to change the programme once it has started.

With Drum Clean Plus, you can wash the inside of your washing machine with the drum empty, keeping it clean and free of residue at all times.

1400 rpm: A powerful spin cycle that removes more water from your laundry, helping to reduce drying time and moisture levels when the cycle ends.  
Inverter Plus motor: An inverter-technology motor for more efficient, quieter and longer-lasting operation, with improved speed and vibration control.  
15 programmes: wide selection of cycles to adapt the wash to every fabric and need (daily, delicates, quick, intensive, etc.).  
SteamMax: Steam function to sanitise, reduce odours and help reduce creases, improving the result.  
My Fav: Allows you to save a favourite programme with your usual settings for quick access.  
Drum Clean: Drum self-cleaning programme to keep the washing machine clean, reduce residue and odours, and maintain performance.  
Delay Start: Delayed start to schedule your wash so it finishes when it suits you best.  
PreWash: Pre-wash for heavy soiling, helps soften and remove stains before the main wash.  
KidLock: Child safety lock to prevent accidental changes to the control panel during operation.  
The ultimate design duo: This washing machine is the perfect complement to our Bolero DressCode Dry tumble dryer (180 series), with which it shares the same aesthetic. Available separately, it allows you to create a high-end laundry stack that optimises your space and elevates the style of your home.

## Inverter

Washing machine, white, 12 kg capacity and 1400 rpm, 16 programmes, Class A-20 %, Inverter Plus motor, elegant stainless steel panel, SteamMax, Drum Clean, AllergyCare, Pearl Drum, Delay Start, Silence Function, Stop&Go and Kid Lock.

### FEATURES:

12 kg capacity: maximum capacity for washing large quantities of laundry efficiently.  
Adjustable spin speed: programme the washing machine from 0 up to 1400 rpm, adapting to your fabrics and needs.  
Class A-20%: more efficient than Class A thanks to its innovative technology that optimises each cycle to deliver clean, fast washing with even lower energy consumption. Take care of your home and the environment with the state-of-the-art efficient technology.  
Inverter Plus Motor: high quality performance and maximum durability. Energy efficient with reduced vibration and noise. Thanks to the Inverter motor, the washing machine will make less noise during operation. It also promotes energy savings.  
16 programmes: select the perfect cycle for each type of fabric and always get the best care and results of washing.  
Enhance your washing experience thanks to the stainless steel control panel, which adds a modern, elegant and resistant touch to your washing machine, and incorporates a side LED display for intuitive and convenient control.  
SteamMax: wraps laundry with steam to effectively penetrate each garment, sterilise it and remove any stains and odours.  
Drum Clean: specific programme that cleans the drum in depth, eliminates bacteria and prevents dirt and unpleasant odours in your washing machine.  
Allergy Care: selectable programme that sterilises laundry by steam in addition to using water at high temperatures.  
Pearl Drum: Special snowflake texture of the drum facilitates and improves the drying and sliding of garments.  
Delay Start: Schedule the end time of the cycle. Plan your washing to start at the time that best suits your schedule.

## Inverter

Washing machine, 12 kg, white, 1400 rpm, Inverter Plus motor, Steam Max, and class A.

### FEATURES:

Capacity: 12 kg. Ideal for families.  
16 programmes. Mixed, Cotton, Superfast, Eco 40-60, Wool, Prewash, T-shirts, Sport, Intensive, Bedding, Anti-allergic, Spin/Drain, Tumble Dry, Drum Clean, Delicate, Cotton 20 °C.  
Energy class A. Save on your washing machine by having maximum energy efficiency.  
Inverter Plus motor. Energy saving, with minimum vibrations and noise. Thanks to the Inverter motor, the washing machine will operate more silently, especially when running the washing and spinning cycle. It also favours energy saving.  
SteamMax. Ensures cleaning by steam, reaching even the toughest stains and leaving your clothes looking as good as new.  
Pearl Drum. Special snowflake texture of the drum facilitates and improves the drying and sliding of garments.  
Delay End. Schedule the end time of the cycle. Plan your washing to start at the time that best suits your schedule.  
Drum Clean. The drum cleans itself to prevent bacteria accumulation. Free of dirt and bad smells.  
Display. Handle and control your washing machine.  
Allergy care. Before every wash, your laundry is sterilised with steam at 99.9% especially on cold water wash cycles. Leaves your clothes 100% germ and bacteria free and keep them looking as good as the first day.  
Stop&Go function. Stop the washing machine during operation to recharge it. If you forgot to put something in the washing machine or you want to take something out, pause it and open it without problems.

# Bolero DressCode 12960 Direct Drive

Bolero DressCode 12960 Direct Drive, large 12 kg drum (duvet), class A-20%, 1400 rpm, Direct Drive motor, 11 programmes, full-colour display with knob, SteamMax, Soil Level, Spa Care, My Fav, Drum Clean, interior light, Delay Start, Stop&Go.

### FEATURES:

Large 12 kg drum (duvet): extra-wide drum ideal for large loads and very bulky items such as duvets and towels.  
Class A-20%: energy efficiency with consumption up to 20% lower than the class A threshold reference value (according to the applicable labelling methodology).  
1400 rpm: powerful spin cycle to extract more water and help reduce drying time.  
Direct Drive motor: direct drive motor for precise drum control and more efficient operation (depending on design).  
It features 11 washing programmes that adapt to different types of fabrics and needs, ensuring optimal care for each garment.  
Full-colour display and a knob: colour display + knob for more intuitive navigation and programme selection.  
SteamMax: steam function to enhance hygiene, reduce odours and help minimise creases.  
Soil Level: technology that allows you to adjust the 'soil level' to intensify or soften the wash cycle depending on the load.  
Spa Care: programme/function designed to provide extra care for garments and a gentler washing experience.  
My Fav: Allows you to save a favourite programme with your usual settings for quick access.  
Drum Clean: Drum self-cleaning programme to keep the washing machine clean, reduce residue and odours, and maintain performance.  
Interior light: drum lighting to improve visibility when loading and unloading.  
Delay Start: delayed start to programme your wash and adapt it to your schedule.  
Stop&Go: allows you to pause the wash to add any forgotten items and resume the cycle later (where the programme and safety conditions permit).

# Bolero DressCode 12980 Direct Drive Steel A

12 kg washing machine Steel colour and class A, with Direct Drive motor and 1400 rpm. With FullColor display and faux leather finishes, XXL door, interior and exterior UV light, SteamMax, Spa Care, Delay End, Favourites, Drum Clean Plus, Stop&Go and door lock/unlock functions.

## FEATURES:

12 kg washing machine with A energy classification: allows you to wash large quantities of laundry in a single cycle, saving time and energy.  
Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move!  
Programmable revolutions: Adjust the spin speed to suit your needs, with the option to programme up to 1400 revolutions per minute for personalised and efficient performance.  
With 14 programmes at your disposal, you can customise each wash to your specific needs, from delicates to heavy loads.  
Its FullColor control panel with a TFT knob provides an intuitive and modern interface that makes it easy to set up and monitor each washing cycle.  
Artificial leather finishes add a luxurious touch, elevating the design of your home while respecting the environment.  
XXL door: the extra large door makes loading and unloading the washing machine easier and more convenient, even with bulky items.  
The UV interior light disinfects the drum while illuminating, ensuring deeper hygienic cleaning and facilitating visibility during operations.  
Steam Max: The Steam Max programme washes laundry with added steam, eliminating germs and deep-seated odours, leaving clothes fresh and disinfected.  
The Spa Care Plus function uses steam to sterilise laundry before washing, killing germs and bacteria and providing a fluffier texture.  
Stop&Go Pro: this function allows you to pause the washing machine during operation to add or remove items, as well as giving you the possibility to change the programme once it has started.  
With Drum Clean Plus, you can wash the inside of your washing machine with the drum empty, keeping it clean and free of residue at all times.  
Delay Start: schedule a delayed start with the Delay Start function, adjusting the washing cycle to your schedule and saving energy.

## Autodose Inverter 3D Steel A

9 kg capacity, 1400 rpm, class A, steel front-loading Autodose washing machine with Core Matrix Screen 9.2" and Core Body design, 13 programmes, Inverter Plus Motor, SteamMax, Sanitize, OnSmart, Fuzzy Logic, Smooth Wash, XXL door and interior light.

### FEATURES:

Auto-dosing function: self-doses detergent. No need to worry again about whether you have put in enough detergent. In addition, it also allows you to choose the dosing level with up to three levels.

Load capacity of 9 kg, programmable speed max 1400 rpm, and energy class A.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

16 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

9.2" Core Matrix Screen display: easily and intuitively control the washing machine with its innovative 9.2" XXL full touch colour display design.

XXL door: 52 cm door for easy access to the drum.

Core Body: washing machine designed in one piece with a sleeker and slimmer appearance, leaving behind the typical design of a washing machine with different parts.

SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Sanitize: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy Logic: detects the wash load by means of its sensors and optimises the water level and wash time.

Smooth Wash: thanks to the ESC system, it automatically adjusts the drum calibration to bring the wash and spin to an ultra-quiet mode so that it can be used even at night.

Autodose function: self-doses the detergent. No need to worry again about whether you have put in enough detergent. In addition, it also allows you to choose the dosing level with up to 5 levels.

Load capacity of 12 kg, programmable speed max 1400 rpm, and energy class A.

Its Direct Drive motor, directly connected to the component that drives it, offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move!

13 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

9.2" Core Matrix Screen: easily and intuitively control the washing machine with its innovative 9.2" FullTouch XXL colour display design.

XXL door: 52 cm door for easy access to the drum.

Core Body: washing machine designed in one piece with a sleeker and slimmer appearance, leaving behind the typical design of a washing machine with different parts.

SteamMax: programme that washes laundry using added steam. Wraps laundry with steam to effectively penetrate each garment for sterilisation and odour removal.

Sanitize: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture.

The OnSmart and Fuzzy Logic functions optimise the washing process. OnSmart automatically selects the ideal programme by simply pressing a button, while Fuzzy Logic adjusts the water level and washing time by detecting the weight of the laundry load using its sensors.

Smooth Wash: thanks to the ESC system, it automatically adjusts the drum calibration to bring the wash and spin to an ultra-quiet mode so that it can be used even at night.

# Bolero DressCode 3300

Compact 2 kg washing machine with 10 programmes, 6 water levels, antibacterial BlueLight function, stainless steel drum, Delay Start, Stop&Go, KidLock, quick programme and end-of-cycle alarm.

#### FEATURES:

Compact and efficient: perfect for small households, it washes up to 2 kg of laundry and fits into any corner thanks to its small design.

Personalise your fabric care: 10 programmes tailored to the needs of every wash.

Versatility with every wash: adjust the washing machine thanks to 6 water levels to suit your needs.

Antibacterial BlueLight: helps maintain superior hygiene thanks to its antibacterial function.

Stainless steel drum: stain-resistant and uncoated, ensuring it will not chip. Its smooth and soft surface is ideal for all types of garments.

Delay Start: allows you to schedule the start of the cycle and have your laundry ready exactly when you need it.

Stop&Go: pause the cycle to add or remove clothes without any hassle, and resume the wash with ease.

KidLock: lock the washing machine control panel and protect the youngest members of the household.

Rapid 20': a fast and efficient cleaning programme in just 20 minutes.

# Bolero DressCode 850 BI Inverter Steel A

Built-in washing machine, stainless steel finish, 8 kg capacity, 1400 rpm, Class A, Inverter Plus motor, 15 programmes, SteamMax, Stain Match Pro, Allergy Care, Delay Start, Extra Rinse, KidLock and efficiency indicator.

## FEATURES:

Large capacity: take advantage of its 8 kg load capacity and save energy with every wash.  
Class A: maximum energy efficiency\* to optimise your energy savings.

\*In accordance with the energy efficiency class A obtained according to the energy labelling regulations.  
Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.  
Programmable revolutions: enjoy up to a maximum of 1400 rpm.  
15 programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.  
SteamMax: programme that washes laundry using added steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.  
Stain Match: select the type of stain already preset so that the wash is matched to it.  
Allergy Care: Before every wash, your laundry is sterilised with steam at 99.9% especially on cold water wash cycles. Leaves your clothes 100% germ and bacteria free and keep them looking as good as the first day.  
Delay End. Schedule the end time of the cycle. Plan your washing to start at the time that best suits your schedule.  
Easy iron: programme that reduces the number of creases to a minimum, thus facilitating the ironing of garments.  
Extra rinse: the laundry will perform a second rinse after the cycle is finished to avoid stain and detergent residues.  
Safety lock: do not worry about the little ones in the house thanks to the KidLock child safety lock.

# Washer-dryers

*Discover the Bolero™ Wash&Dry range*

## Every way to look after your laundry.

Whatever your needs, there's a Bolero™ solution for you. Drying cabinets, washer-dryer towers and washer-dryers to tailor the care of your clothes, the space in your home and your time to a more convenient and efficient laundry routine.

# Smart washing

## ON SMART

### Custom washing with a single touch

No more worries! Just press the OnSmart button<sup>2</sup> and the washer will automatically activate the ideal programme to make your laundry perfect.

## SOIL LEVEL

### You select, it decides

Select the level of soiling of your laundry and forget about the rest. The washing machine will automatically<sup>1</sup> programme the time and rhythm to make your clothes as good as new.

## FUZZY LOGIC<sup>2</sup>

### Maximum efficiency, minimum consumption

Thanks to this function, the washer detects the wash load to adapt the water level and washing time to the needs of your laundry.

## AUTO OPEN

### Opens automatically, prevents unpleasant odours

At the end of the cycle, the door opens automatically to allow the drum to air and help prevent moisture build-up. This keeps your clothes fresher until you take them out.

## A programme for every circumstance:

### 16 PROGRAMMES

Special care for each fabric.

### ON SMART

Intelligent one-click washing.

### FUZZY LOGIC

Water and energy consumption depending on the load.

### SPA CARE

Eliminates 99.9% of the bacteria inside.

### 1500 RPM

Higher spin speeds, shorter drying times

### HEAT PUMP

Efficient drying that cares for every fibre.

### STAIN MATCH

Automatic washing according to the stain type you select.

### SMOOTH WASH

Ultra-quiet mode.

### STEAM MAX

Steam cleaning.

### FOAM WASH TECHNOLOGY

Foam that penetrates every fibre more effectively.

# Bolero™ Wash&Dry Tower Nexus 4D

## 4 INDEPENDENT DRUMS

Up to 15 kg washing capacity and a total drying capacity of up to 22 kg to maximise your options.

## TFT AND REMOVABLE SMART TFT RING

Control all programmes from a single control panel.

## A/B CLASS

Optimises energy consumption with every load, featuring energy class A for washing and B for drying.

## INTELLIGENT, COORDINATED OPERATION.

SmartQuad Core, with 76 smart chips, synchronises the four drums to optimise the performance of the entire tower.

## TRIPLE DIRECT DRIVE MOTOR AND INVERTER COMPRESSOR

Maximum efficiency in every cycle. Heat pump drying technology in all four drums, managed by a central system with an inverter compressor.

# Bolero DressCode Wash&Dry 85610

2-in-1 washer dryer in white colour, 8/5 kg, A/D class, 1400 rpm and Inverter Plus Motor: 15 programmes with OnSmart and Fuzzy Logic intelligent systems, automatic drying, SteamMax steam programmes and Smooth Wash intelligent stabilisation, Space Pro drum with Pearl Drum design, antibacterial rubber seal and Drum Clean, Stop&Go, Delay Start and KidLock functions.

### FEATURES:

2-in-1 washer dryer: The ideal combination for those seeking practicality. Enjoy the versatility of having washer and dryer in one high-capacity product —with 8 kg for washing and 5 kg for drying—, completely simplifying your laundry routine by being able to wash and dry all your garments without changing machines.

A/D energy efficiency: reduces power consumption and saves on your bill thanks to its high performance, with the maximum A rating for the washing cycle and D class for the complete drying cycle.

Absolute silence in your home. Enjoy peace and quiet thanks to the brushless technology of the Inverter Plus Motor. It reduces vibrations and noise to a minimum, so you can do your laundry at any time of day, even at night.

Powerful 1400 rpm: Adjustable spin speed of up to 1400 revolutions per minute that effectively removes moisture and drastically reduces subsequent drying time.

15 programmes: Offers a tailored cycle for every fabric type, ensuring the highest level of care and cleanliness with every wash.

Smart programme for customised washing with a single click. The OnSmart programme automatically selects the ideal cycle to ensure perfect laundry results in the most convenient way.

Fuzzy Logic: Smart load sensor that detects the exact weight of the laundry and adjusts the water level and cycle duration to save energy and water.

Automatic drying: features a sensor system that measures the internal humidity to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

### COMPOSITION:

Washer-dryer, water inlet hose, fixed spanner, 4 decorative caps, instruction manual

# Bolero Wash&Dry 85900 Inverter

Washer-dryer, white, 8/5 kg capacity, A class, Inverter Plus motor and 1400 rpm, 11 programmes, FullColor 10,3" display, SteamMax, automatic drying, Sanitize, intelligent functions OnSmart and Fuzzy Logic, Smooth Wash, Stop&Go, Delay Start, Drum Clean Plus and antibacterial rubber

### FEATURES:

Washer-dryer with a capacity of 8 kg for washing and 5 kg for drying, with A/D efficiency class for optimum performance in each cycle.

Efficiency and silence in every cycle: Discover the power of our washer-dryer with Inverter Plus motor, which offers superior performance and ultra-quiet operation, taking care of your clothes and saving energy.

Reduces moisture in clothes while protecting them. Its programmable spin speed of up to 1400 rpm adapt each washing cycle to the fabrics, offering a tailored-made wash that protects each garment and reduces clothing moisture.

Tailor-made care for each fabric. 11 programmes that adapt every washing cycle to the needs of each moment and laundry.

Comfortable and intuitive control. Its innovative 10.3" FullColor display simplifies washing machine control and makes each laundry cycle easier.

Easier drum access. The 52 cm XXL door provides great convenience when loading and unloading laundry.

Wraps laundry with steam, eliminating germs and stains. The SteamMax programme provides a steam bath for all garments, effectively penetrating each fabric to remove stubborn stains and bad odours, leaving clothes completely sterilised.

Automatic drying: the washer-dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

Eliminates 99.9% of germs with steam before washing. The Sanitize function sterilises the washing machine interior with steam, because a clean interior means perfect laundry. In addition, the added steam achieves a fluffier texture in garments.

## Inverter Titanium

Washer-dryer, titanium colour, 8/5 kg capacity, A class, Inverter Plus motor and 1400 rpm, 11 programmes, FullColor 10,3" display, SteamMax, automatic drying, Sanitize, intelligent functions OnSmart and Fuzzy Logic, Smooth Wash, Stop&Go, Delay Start, Drum Clean Plus and antibacterial rubber

### FEATURES:

Washer-dryer with a capacity of 8 kg for washing and 5 kg for drying, with A/D efficiency class for optimum performance in each cycle.

Efficiency and silence in every cycle: Discover the power of our washer-dryer with Inverter Plus motor, which offers superior performance and ultra-quiet operation, taking care of your clothes and saving energy.

Reduces moisture in clothes while protecting them. Its programmable spin speed of up to 1400 rpm adapt each washing cycle to the fabrics, offering a tailored-made wash that protects each garment and reduces clothing moisture.

Tailor-made care for each fabric. 11 programmes that adapt every washing cycle to the needs of each moment and laundry.

Comfortable and intuitive control. Its innovative 10.3" FullColor display simplifies washing machine control and makes each laundry cycle easier.

Easier drum access. The 52 cm XXL door provides great convenience when loading and unloading laundry.

Wraps laundry with steam, eliminating germs and stains. The SteamMax programme provides a steam bath for all garments, effectively penetrating each fabric to remove stubborn stains and bad odours, leaving clothes completely sterilised.

Automatic drying: the washer-dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

Eliminates 99.9% of germs with steam before washing. The Sanitize function sterilises the washing machine interior with steam, because a clean interior means perfect laundry. In addition, the added steam achieves a fluffier texture in garments.

Smart programme for customised washing with a single click. The OnSmart programme automatically selects the ideal cycle to ensure perfect laundry results in the most convenient way.

## 106610

2-in-1 washer dryer in white colour, 10/6 kg, A/D class, 1400 rpm and Inverter Plus Motor: 15 programmes with OnSmart and Fuzzy Logic intelligent systems, automatic drying, SteamMax steam programmes and Smooth Wash intelligent stabilisation, Space Pro drum with Pearl Drum design, antibacterial rubber seal and Drum Clean, Stop&Go, Delay Start and KidLock functions.

### FEATURES:

Large capacity 2-in-1 washer dryer: Optimise your space and time by combining washing and drying in one appliance. With its 10 kg drum for washing and 6 kg for drying, you can manage your entire wash in one go with maximum efficiency, forgetting about hanging wet clothes or changing machines.

A/D energy efficiency: reduces power consumption and saves on your bill thanks to its high performance, with the maximum A rating for the washing cycle and D class for the complete drying cycle.

Absolute silence in your home. Enjoy peace and quiet thanks to the brushless technology of the Inverter Plus Motor. It reduces vibrations and noise to a minimum, so you can do your laundry at any time of day, even at night.

Powerful 1400 rpm: Adjustable spin speed of up to 1400 revolutions per minute that effectively removes moisture and drastically reduces subsequent drying time.

15 programmes: Offers a tailored cycle for every fabric type, ensuring the highest level of care and cleanliness with every wash.

Smart programme for customised washing with a single click. The OnSmart programme automatically selects the ideal cycle to ensure perfect laundry results in the most convenient way.

Fuzzy Logic: Smart load sensor that detects the exact weight of the laundry and adjusts the water level and cycle duration to save energy and water.

Automatic drying: features a sensor system that measures the internal humidity to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

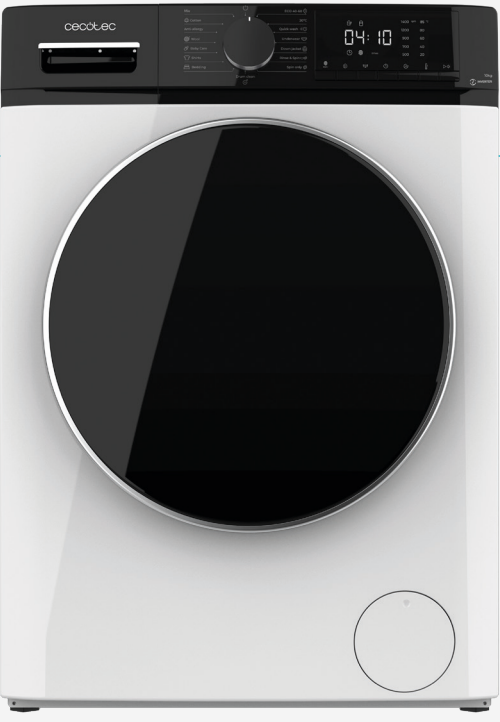

SteamMax function: Deep steam bath that penetrates fabrics before washing to sterilise garments, eliminating 99.9% of bacteria and unpleasant odours.

Smooth Wash: intelligent wash stabilisation that makes your washing machine efficient and quiet.

# Bolero Wash&Dry 10680 Inverter

Washer-dryer combo with 10 kg and 6 kg of load capacity, 1400 rpm, 16 programmes, Inverter Plus motor, energy class A, SteamMax, OnSmart, Fuzzy Logic, SpaCare and load sensor.

## FEATURES:

Load capacity 10 - 6 kg

Energy class A ensures efficient energy consumption, which significantly reduces electricity bills and minimises environmental impact.

Inverter Plus motor: ensures efficient operation wash after wash, saving more than 70% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.

Programmable spin speed: max. 1400 rpm.

16 programmes: a programme for every moment and every fabric to offer the best washing and drying every time.

OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.

Fuzzy logic: detects drum load and optimises water level and running time.

SteamMax: function added before the main programme that washes the laundry by steam.

Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.

Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free.

Pearl Drum: drum with snowflake texture that improves drying and sliding of garments.

Space Pro: more capacity in the same space thanks to the extra-flat drum design.

Touch display: control the washing machine conveniently thanks to the XXL touch display and get all the information about each wash at a glance (wash time, selected options, programme stage, etc.).

DelayStart: programmes the start of the wash between 0 and 24 h in advance.

Comfort Mode: thanks to the ESC system it adjusts the wash and spin to an ultra-quiet mode so that it can be used even at night.

KidLock: safety child lock.

## Inverter Steel

Stainless steel washer-dryer combo with 10 kg and 6 kg of load capacity, 1400 rpm, 16 programmes, Inverter Plus motor, energy class A, SteamMax, OnSmart, Fuzzy Logic, Smooth Wash, SpaCare, Stain Match and antibacterial rubber.

### FEATURES:

Load capacity 10 - 6 kg  
Energy class A ensures efficient energy consumption, which significantly reduces electricity bills and minimises environmental impact.  
Inverter Plus motor: ensures efficient operation wash after wash, saving more than 50% compared to a universal motor. In addition, it reduces noise during operation, especially during the spin and wash phases.  
Programmable spin speed: max. 1400 rpm.  
16 programmes: a programme for every moment and every fabric to offer the best washing and drying every time.  
OnSmart: smart wash that selects the ideal programme automatically at the touch of a button.  
Fuzzy logic: detects drum load and optimises water level and running time.  
SteamMax: function added before the main programme that washes the laundry by steam. Wraps the laundry with steam to effectively penetrate each garment to sterilise it and remove any odours.  
Spa Care: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free.  
Pearl Drum: drum with snowflake texture that improves drying and sliding of garments.  
Smooth Wash: thanks to the ESC system it adjusts the wash and spin to an ultra-quiet mode so that it can be used even at night.  
Antibacterial rubber: prevents the formation of germs inside the washing machine so that your laundry always comes out perfect.  
Keep your drum always spotless and achieve total hygiene of your garments thanks to its DrumClean system.  
Stain Match: Select the type of stain already preset so that the wash is matched to it.  
Space Pro: more capacity in the same space thanks to the extra-flat drum design.

## Autodose Inverter 3D Steel

Front-loading washer-dryer, Autodose, titanium colour, 10/6 kg capacity, 1400 rpm and A class, Core Matrix Screen 9,2" and Core Body design, 13 programmes and Inverter Plus motor, SteamMax, automatic drying, Sanitize, OnSmart, Fuzzy Logic, Smooth Wash, XXL door and interior light.

### FEATURES:

Autodose function: self-doses the detergent. No need to worry again about whether you have put in enough detergent. In addition, it also allows you to choose the dosing level with up to 5 levels.

Washer-dryer, 10 kg capacity for washing and 6 kg for drying, programmable speed: max 1400 rpm and energy class A.

Efficiency and silence in every cycle: Discover the power of our washer-dryer with inverter motor, which offers superior performance and ultra-quiet operation, taking care of your clothes and saving energy.

13 washing programmes: a programme for every moment and every fabric to always offer tailor-made washes. Great variety of programmes to adjust to all your needs and garments.

9.2" Core Matrix Screen: easily and intuitively control the washing machine with its innovative 9.2" FullTouch XXL colour display design.

XXL door: 52 cm door for easy access to the drum.

Core Body: washing machine designed in one piece with a sleeker and slimmer appearance, leaving behind the typical design of a washing machine with different parts.

SteamMax: programme that washes laundry using added steam. Wraps laundry with steam to effectively penetrate each garment for sterilisation and odour removal.

Automatic drying: the washer-dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

Sanitise: pre-wash steam sterilisation function that leaves laundry 100% germ and bacteria free and with a fluffier texture.

The OnSmart and Fuzzy Logic functions optimise the washing process. OnSmart automatically selects the ideal programme by simply pressing a button, while Fuzzy Logic adjusts the water level and washing time by detecting the weight of the laundry load using its sensors.

## Autodose Direct Drive

12/7 kg capacity white washer-dryer, automatic detergent and fabric softener dispensing, 14 programmes, full-colour display and XXL door, smart wash and dry, SteamMax function, anti-crease function and Delay Start.

### FEATURES:

12/8 kg capacity: 12 kg wash capacity and 8 kg dry capacity, allowing you to do full loads and dry a large proportion of the load without switching machines.

Autodose (detergent and fabric softener): automatic dispensing of detergent and fabric softener for greater convenience and to ensure the correct amount is used in each cycle.

It offers high efficiency, quiet operation and durability with almost no maintenance compared to other motors on the market. Discover maximum precision and performance in every move.

Direct Drive motor.

14 programmes: a variety of cycles to suit different fabrics, levels of soiling and washing/drying requirements.

Full-colour display: a colour display showing programmes, times and options clearly and intuitively.

Smart Wash (weight sensor, Fuzzy Logic): detects the load (weight) and automatically adjusts parameters such as time, water and/or intensity to optimise the wash.

SteamMax: steam function to enhance hygiene, reduce odours and help minimise creases.

UV light: UV light designed to enhance hygiene during the process (depending on the programme/function).

XXL door: large opening for easier loading and unloading of bulky items.

Anti-crease function: helps reduce creasing, improving the final finish and making ironing easier.

Delay Start: delays the start of the cycle so you can programme it to suit your schedule.

Stop&Go: allows you to pause the cycle to add items and resume it (where the programme and conditions allow).

AutoOpen: Automatic door opening at the end of the cycle. Naturally ventilates the drum to prevent the build-up of moisture, unpleasant odours and the growth of bacteria.

# Bolero Wash&Dry Tower 98500 SmartLink Washer

9 kg washing and 8 kg drying integrated tower in white colour, with A-10% washing efficiency, Inverter motor and 1200 rpm: 14 expert programmes managed from a single Fulltouch Display panel with SmartLink synchronisation, XXL door design with interior light, automatic drying and 3 drying finish levels, stainless steel drums with Drum Clean function and Delay Start and Control Lock functions.

## FEATURES:

Wash&Dry Tower: Integral design controlled from a single display. Redefine your space with a unique structure that fuses washer and dryer in one block managed by a central panel. Forget about taking up two spaces in your home or using connection kits. This vertical tower will save you space and provide a modern, professional and sophisticated aesthetic.

9 kg + 8 kg: Large capacity in a vertical format. Maximise your productivity by handling large loads in one go. With a 9 kg wash and 8 kg dry capacity, you can tackle everything from bulky textiles to your entire weekly laundry load quickly and efficiently.

A-10% maximum efficiency wash: Low-consumption technology. Look after your budget and the environment with engineering designed to optimise every drop of water and every kW. Its washing technology performs 10% above the maximum efficiency benchmark (Class A), guaranteeing consistent savings during the most frequent use of the appliance.

Inverter motor: Guaranteed silence and durability. Enjoy extreme washing power without disruptive noise. The Brushless Inverter motor reduces friction and vibrations, ensuring whisper-quiet operation at any time of the day and a significantly longer lifespan for your appliance.

1200 rpm spin cycle: Less moisture, faster drying. The spinning power needed to prepare your garments. Its 1200 revolutions effectively extract water from the fibres, allowing clothes to go into the tumble dryer much lighter, facilitating a smoother drying process and protecting fabrics.

14 expert programmes: Comprehensive care when washing and drying. Professional results for every type of laundry load. Choose from 14 specific cycles designed for both washing and drying your garments, automatically adjusting time and temperature so every item receives the precise treatment it deserves.

Fulltouch Display Superior: Unified control at the perfect height.

# Tumble dryers

*Discover the Bolero™ DressCode Dry range*

# Save time for what really matters

The perfect combination of design and technology to offer a high performance for all your garments to come out dry and ready to wear, making your day-to-day life easier and more comfortable.

B

## ENERGY CLASS

### Savings all around

Thanks to its B<sup>1</sup> certification, it guarantees maximum energy savings while keeping your clothes looking as good as new. Enjoy great performance while taking care of the planet.

## CAPACITY

### Dries everything at once

The tumble dryers have a load capacity of up to 12 kg to meet any need without having space problems. That way they fully optimise time while saving energy.

## EASY IRONING

### Ironing has come to an end

It reduces creases to a minimum, making it easier to iron your garments so that you can enjoy your time and avoid long ironing sessions after each wash.

## 15 PROGRAMMES

### No garment can resist it

Adjust each drying to the clothes needs with its 15 programmes. Forget about worries and offer your clothes the best care in each drying cycle.

## AUTOMATIC DRYING

### Dries only as long as necessary

Its automatic drying system measures the humidity inside and adapts the cycle to the actual needs of the load. If the clothes are still damp, it adjusts the time to achieve optimal drying; if they're already dry, it avoids unnecessarily prolonging the cycle. This way, you save energy, time and effort with every use.

## STAINLESS STEEL DRUM

### Stainless steel that cares for every garment

Designed to look after your clothes for years to come. Sturdy, durable and gentle on fabrics, it offers the space and care your clothes need with every wash.

**BOLERO™ DRESS&FRESH**

## Care you can see, garment by garment

Look after the garments you care about most with a gentle, even dry. Ideal for delicate items, coats or fabrics that need special care, they help preserve their shape, texture and appearance so they look as good as new. Dry, remove moisture, refresh, deodorise and sanitise your clothes with Bolero™ Dress&Fresh fabric care cabinets.

## HEAT PUMP

# Air, air, and more air

Its heat pump achieves perfect drying through a process that fully optimises the generated air. The air is heated and reaches the drum where the clothes are dried, and then travels to the condenser where it is cooled. When it is cool and dry, it is ready to restart the process.

## WASH-AND-DRY KIT

# Washing and drying in perfect synchronisation

The ultimate duo. The 970 series is the perfect complement to our Bolero™ DressCode 8/9/10970 Direct Drive washing machine.

A connection kit is available so you can create a washing and drying tower that fits perfectly in your utility room.

# Bolero DressCode Dry 8180

Heat pump tumble dryer, white colour design, 8 kg load capacity, energy class E (equivalent to former A++), 15 programmes with automatic drying and Spa Care, Anti-crease functions, 3 drying intensity levels, interior light, Delay Start, Stop&Go, KidLock and shoe rack accessory.

## FEATURES:

8 kg load capacity: Perfect for your daily washing, allowing you to dry large loads and optimise your time.

Heat pump technology: Dries your clothes efficiently, cares for garments and minimises your electricity bill.

This tumble dryer has an energy class E rating, under the new regulation, equivalent to the former A++, ensuring energy savings and eco-friendly, economical performance.

15 drying programmes: Find the perfect option for each fabric type and achieve impeccable results with every use.

Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

The SpaCare function sterilises clothes with steam during the drying cycle. Thanks to the steam function, your garments will be bacteria-free, providing a deep cleaning for your clothes.

Anti-crease function: Can't take the laundry out immediately? The tumble dryer gently moves the drum after drying so your clothes stay fresh and crease-free. Activate it when you need it or let it start automatically to give you total flexibility.

3 intensity levels: Adapt drying to your needs and achieve the perfect result for each garment, providing maximum protection for your fabrics.

Interior light: For your maximum comfort, the drum automatically lights up to facilitate loading and unloading and ensure you don't forget any garments.

Delay Start: programme the start of operation and have your laundry dry just when you need it.

Stop&Go function. Stop the tumble dryer during operation. If you forgot to put something in the drum or you want to take something out, stop it and open it without problems.

Lock the control panel. KidLock: prevents unwanted use and protects programmed operation, stopping children from modifying settings.

Includes a shoe rack accessory. Facilitates quick footwear drying, helping to extend durability while keeping them fresh and ready to use.

# Bolero DressCode Dry 8400 Max+

Heat pump tumble dryer, white colour design, 8 kg load capacity, energy class E (equivalent to A++), Full Touch control, 15 programmes, automatic drying, Easy Iron, Stop&Go, stainless steel drum, Silence, Delay Start and KidLock functions.

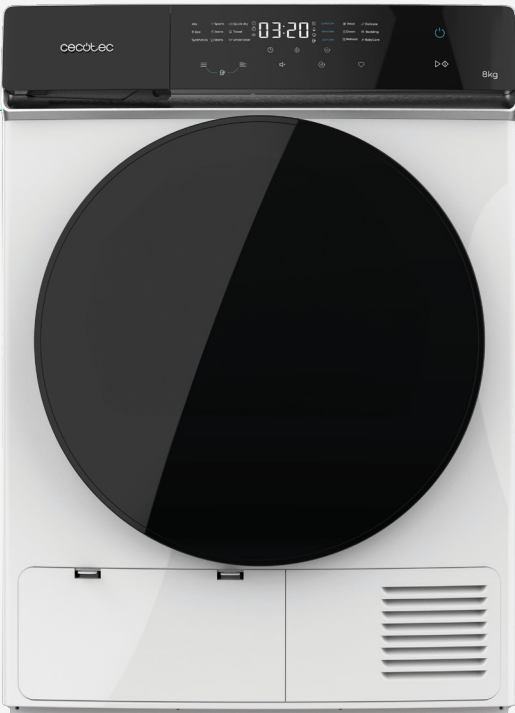

## FEATURES:

- 8 kg load capacity: dries up to 8 kg of laundry at once.
- This tumble dryer has an energy class E rating, under the new regulation, equivalent to the former A++, ensuring energy savings and eco-friendly, economical performance.
- Heat Pump: thanks to the heat pump, the air is heated by a liquid and reaches the drum where the laundry is dried. The air is then directed to the condenser where it is cooled, and the resulting condensed water is stored in a tank. The air leaving the condenser is cold and dry, ready to start the process again.
- FullTouch Control: Configure your tumble dryer in a simple and user-friendly way.
- 15 programmes: Choose the programme that best suits your drying needs from a wide range of options.
- Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.
- Easy Iron: programme designed to reduce the number of creases to a minimum, making garment ironing easier.
- Stop&Go function: allows you to stop the tumble dryer during operation to add or remove items while the programme is running.
- Stainless steel drum: stainless steel drum surface, stain-resistant, uncoated and splinter-proof. It is wear-resistant, providing a smooth surface suitable for all types of clothing.
- Silence function: reduces tumble dryer noise, including operating sounds and end-of-cycle warning, for quieter use, ideal at night.
- Delay Start: programme the start of operation and have your laundry dry just when you need it.
- KidLock: lock the tumble dryer control panel and protect the youngest members of the household.

# Bolero DressCode Dry 8400 Steel

Heat pump tumble dryer, stainless steel design, 8 kg load capacity, energy class E (equivalent to A++), Full Touch control, 15 programmes, automatic drying, Easy Iron, Stop&Go, stainless steel drum, Silence, Delay Start and KidLock functions.

## FEATURES:

- 8 kg load capacity: dries up to 8 kg of laundry at once.
- This tumble dryer has an energy class E rating, under the new regulation, equivalent to the former A++, ensuring energy savings and eco-friendly, economical performance.
- Heat Pump: thanks to the heat pump, the air is heated by a liquid and reaches the drum where the laundry is dried. Then, it reaches the condenser where it is cooled down, the resulting condensation is stored in a tank and the air released from the condenser is cold and dry, ready to restart the process.
- FullTouch control: programme your tumble dryer more comfortably and intuitively.
- 15 programmes: choose the most suitable programme for your laundry from a wide range of possibilities.
- Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.
- Easy iron: programme designed to reduce the number of creases to a minimum, making garment ironing easier.
- Stop&Go function. Stop the tumble dryer during operation. If you forgot to put something in the drum or you want to take something out, stop it and open it without problems.
- Stainless steel drum: stain resistant, uncoated as it does not splinter. It is resistant to wear and tear, which allows a smooth and soft surface for all types of clothing.
- Silence function: reduces tumble dryer noise, including operating sounds and end-of-cycle warning. If you prefer the tumble dryer not to beep when it finishes, especially if you are resting, you can activate this mode for silent operation.
- Delay Start: programme the start of operation and have your laundry dry just when you need it.
- KidLock: lock the tumble dryer control panel and protect the youngest members of the household.

## Inverter Steel

Heat pump tumble dryer, stainless steel design, 9 kg load capacity, energy class C (equivalent to A+++), Inverter Plus motor, Full Touch control, 15 programmes, automatic drying, Easy Iron, Stop&Go, stainless steel drum, Silence, Delay Start and KidLock functions.

### FEATURES:

9 kg load capacity. Dry all your clothes at once, saving time and reducing energy consumption. This tumble dryer has an energy class C rating, under the new regulation, equivalent to the former A+++, ensuring energy savings and eco-friendly, economical performance.

Efficient drying system. Heat pump: thanks to the Heat Pump system, the dryer heats the air with a liquid and reaches the drum where the laundry is dried. Then, it reaches the condenser where it is cooled down, the resulting condensation is stored in a tank and the air released from the condenser is cold and dry, ready to restart the process.

The Inverter Plus Motor in this tumble dryer ensures efficient operation and significant energy savings, while reducing noise during the drying cycle, providing a quieter and more comfortable environment.

Full control with just one click. FullTouch control: programme your tumble dryer in a more comfortable and intuitive way.

Tailor-made drying for each type of fabric. 15 programmes designed to offer specific care for each type of garment, achieving optimal drying.

Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

Reduces creases in clothes to a minimum. Easy Iron: this function not only removes moisture, but also reduces creases, making ironing easier.

Add or remove items during the drying cycle. Stop&Go function: add or remove items during the cycle without interrupting the programme.

Protects clothes and is wear-resistant. Inox drum: stain-resistant, without coating as it does not crack. It is wear-resistant, providing a smooth surface suitable for all types of clothing.

Eliminates operating noises. Silence function: enjoy drying without annoying noises thanks to this function, which eliminates dryer sounds.

## Steel

Heat pump tumble dryer, stainless steel design, 10 kg capacity, energy class E (equivalent to A++), 14 programmes with automatic drying and Spa Care, Easy Iron, Pro Care functions, 4 drying intensity levels, stainless steel drum and Diamond Care, Delay Start, Stop&Go, KidLock and shoe rack accessory.

### FEATURES:

10 kg load capacity: Allows large quantities of laundry to be dried in a single cycle, saving time and energy.

Heat pump technology ensures efficient and gentle drying with lower energy consumption, protecting your garments while reducing electricity bills.

This tumble dryer has an energy class E rating, under the new regulation, equivalent to the former A++, ensuring energy savings and eco-friendly, economical performance.

The 14 drying programmes offer versatile options for all types of fabrics and humidity levels, ensuring perfect results every time.

Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.

The SpaCare function sterilises clothes with steam during the drying cycle. Thanks to the steam function, your garments will be bacteria-free, providing a deep cleaning for your clothes.

Reduces creases in clothes to a minimum. Easy Iron: this function not only removes moisture, but also reduces creases, making ironing easier.

Pro Care programme: designed to provide a unique and personalised treatment, with a different operation from conventional programmes, adapting to the specific needs of each user. It offers four exclusive treatments: warming clothes (Warm Clothes), removing hair (Hair Removal), refreshing garments by eliminating odours (Refresh), and restoring fluffiness to down jackets or similar (Fluffy).

Up to 4 drying intensity levels: It allows you to adjust the drying intensity according to the specific needs of each type of fabric, guaranteeing optimal results and protecting your garments.

Heat pump tumble dryer, stainless steel design, 10 kg load capacity, energy class E (equivalent to former A++), 15 programmes with automatic drying and Spa Care, Anti-crease functions, 3 drying intensity levels, interior light, Delay Start, Stop&Go, KidLock and shoe rack accessory.

### FEATURES:

Large 10 kg capacity: Dry all your laundry in a single cycle and save on every use.  
Heat pump technology: Dries your clothes efficiently, cares for garments and minimises your electricity bill.  
This tumble dryer has an energy class E rating, under the new regulation, equivalent to the former A++, ensuring energy savings and eco-friendly, economical performance.  
15 drying programmes: Find the perfect option for each fabric type and achieve impeccable results with every use.  
Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.  
The SpaCare function sterilises clothes with steam during the drying cycle. Thanks to the steam function, your garments will be bacteria-free, providing a deep cleaning for your clothes.  
Anti-crease function: Can't take the laundry out immediately? The tumble dryer gently moves the drum after drying so your clothes stay fresh and crease-free. Activate it when you need it or let it start automatically to give you total flexibility.  
3 drying intensity levels: Adapt drying to your needs and achieve the perfect result for each garment, providing maximum protection for your fabrics.  
Interior light: For your maximum comfort, the drum automatically lights up to facilitate loading and unloading and ensure you don't forget any garments.  
Delay Start: programme the start of operation and have your laundry dry just when you need it.  
Stop&Go function. Stop the tumble dryer during operation. If you forgot to put something in the drum or you want to take something out, stop it and open it without problems.  
Lock the control panel. KidLock: prevents unwanted use and protects programmed operation, stopping children from modifying settings.  
Includes a shoe rack accessory. Facilitates quick footwear drying, helping to extend durability while keeping them fresh and ready to use.

# Bolero DressCode Dry 10355

Heat pump tumble dryer, white colour design, 10 kg capacity, energy class E (equivalent to A++), 14 programmes with automatic drying and Spa Care, Easy Iron, Pro Care functions, 4 drying intensity levels, stainless steel drum and Diamond Care, Delay Start, Stop&Go, KidLock and shoe rack accessory.

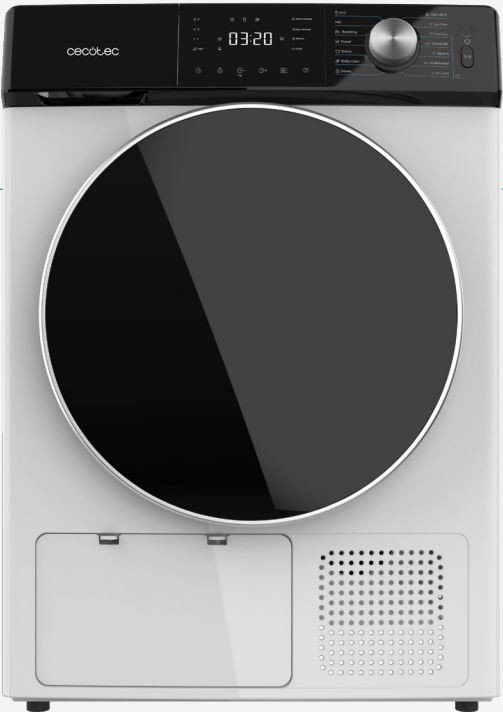

### FEATURES:

10 kg load capacity: Allows large quantities of laundry to be dried in a single cycle, saving time and energy.  
Heat pump technology ensures efficient and gentle drying with lower energy consumption, protecting your garments and saving on energy bills.  
This tumble dryer has an energy class E rating, under the new regulation, equivalent to the former A++, ensuring energy savings and eco-friendly, economical performance.  
The 14 drying programmes offer versatile options for all types of fabrics and humidity levels, ensuring perfect results every time.  
Automatic drying: the dryer is equipped with a system of sensors that measure the humidity of the interior to manage the drying cycle. If the sensors detect that the laundry is still damp, it automatically adjusts the time for optimal and efficient drying.  
The SpaCare function sterilises clothes with steam during the drying cycle. Thanks to the steam function, your garments will be bacteria-free, providing a deep cleaning for your clothes.  
Reduces creases in clothes to a minimum. Easy Iron: this function not only removes moisture, but also reduces creases, making ironing easier.  
Pro Care programme: designed to provide a unique and personalised treatment, with a different operation from conventional programmes, adapting to the specific needs of each user. It offers four exclusive treatments: warming clothes (Warm Clothes), removing hair (Hair Removal), refreshing garments by eliminating odours (Refresh), and restoring fluffiness to down jackets or similar (Fluffy).  
Up to 4 drying intensity levels: It allows you to adjust the drying intensity according to the specific needs of each type of fabric, guaranteeing optimal results and protecting your garments.  
The stainless steel drum offers durability and corrosion resistance, while its diamond-shaped Diamond Care design ensures gentle care of your garments and lasting performance.  
Delay Start: programme the start of operation and have your laundry dry just when you need it.

# Bolero DressCode Dry 3400V

Compact vented tumble dryer, 3 kg capacity, white design, FullColor display, 8 programmes, intelligent automatic drying, stainless steel drum with bidirectional rotation, UV Care function, Dry Shoe Pro, anti-crease function, Delay Start, KidLock.

## FEATURES:

Compact, but powerful: Perfect for homes with limited space, it dries up to 3 kg of laundry efficiently and fits anywhere thanks to its compact design.

Quick and efficient drying. Thanks to its vent system, it removes moisture to the outside to dry clothes in less time and with optimal results.

Intuitive and convenient control. Its FullColor display makes it easy to use and simplifies each drying cycle.

Customised care for every fabric. 8 programmes to adapt each drying to the needs of the moment.

Intelligent automatic drying system: thanks to its temperature and humidity sensors, it evaluates the amount of laundry and automatically adjusts drying time, stopping when clothes are dry. Smart programme.

Sterilises clothes with ultraviolet light technology, ensuring sanitised garments and superior cleaning. UV Care.

Anti-crease system with bidirectional rotation: prevents tangles, distributes clothes evenly, and achieves more uniform drying with fewer creases.

Dries shoes efficiently and carefully with its special shoe accessory. Dry Shoe Pro.

Protects clothes and is wear-resistant. Its smooth and durable stainless steel drum doesn't chip or stain, withstands wear and cares for all types of garments with a smooth surface.

Reduces creases to a minimum, making ironing easier. Anti-crease function.

The Delay Start function allows you to programme the start of the cycle and have your laundry dry just when you need it.

Lock the tumble dryer control panel and protect the youngest members of the household. KidLock.

# Bolero DressCode Dry 3600V Silver

Compact vented tumble dryer, 3 kg capacity, white design, grey chrome details, colour icon display, 12 programmes, automatic drying, steam function and UV Care, stainless steel drum with bidirectional rotation and Anti-Wrinkle Motion system, shoe rack accessory, Delay Start function, KidLock and Refresh Mode.

## FEATURES:

Compact but powerful: perfect for homes with limited space, it efficiently dries up to 3 kg of laundry and fits in any corner thanks to its small design.

Fast and efficient drying: thanks to its vent system, it removes moisture to the outside to dry clothes in less time and with optimal results.

Silver Design: this tumble dryer stands out with an exclusive grey chrome-plated rim, adding luxury and sophistication. A touch of glamour that transforms any space

Convenient and intuitive control: its innovative FullColor display makes it easy to operate and simplifies each drying cycle.

Customised care for every fabric. 12 programmes to adapt each drying to the needs of the moment.

Smart programme: automatic drying that uses temperature and humidity sensors to assess the condition of clothes and automatically adjust the drying time. Stops automatically when the laundry is dry

SteamMax Dry: generates steam during the drying process from its upper water tank to relax fibres and minimise wrinkles; smoother clothes, less ironing and more time for you.

UV Care: Take advantage of ultraviolet light technology to effectively sterilise clothes, ensuring sanitised garments and superior cleanliness.

Anti-Wrinkle Motion: anti-wrinkle system. The bi-directional rotating drum prevents clothes from tangling and improves the drying performance by distributing garments more evenly during the cycle, reducing wrinkles and achieving more consistent results.

Dry Shoe Rack: the dryer has a rack specifically designed to dry shoes efficiently and gently. Protects clothes and is wear-resistant. Inox drum: stain-resistant, without coating as it does not crack. It is wear-resistant, providing a smooth surface suitable for all types of clothing.

# Bolero stacking kit with tray

Universal stacking kit with Bolero tray to unify washing machine and tumble dryer in a single block, optimising space. Removable tray, Easy installation.

## FEATURES:

Thanks to this system you can have your washing machine and dryer in the same place, one on top of the other, without having to occupy a large space across the width. You can have two appliances in the space of one.

Perfect for putting clothes in when you have finished washing and have to put them in the dryer, or when you have finished drying them and want to fold them and put them away. Thanks to this, laundry will be easier and more convenient.

Applicable to all brands on the market; standard size (60 cm). By the use of straps for a perfect hold. Don't worry if it moves with other appliances' vibrations.

It reduces the vibrations of household appliances and thus the noise produced. No specialised personnel are needed to assemble the product.

Unhindered use of both tumble dryer and washing machine drawers without the kit interfering with their operation. The tray acts as support for your laundry before each cycle, allowing you to fold it in the most comfortable way once your laundry is ready.
