# A safe space for your wines

SPACE FOR ALL YOUR BOTTLES

## The space your wines need

Keep your collection in the best possible condition without compromising on space. Its compact design integrates your favourite wine selection into the kitchen, the living room or any corner destined for enjoyment.

NO NOISE OR VIBRATIONS

## Silence for greater enjoyment

Its thermoelectric system operates at just 35 dB to preserve your wines with the utmost discretion. No vibrations to disturb the bottles' rest, ensuring each variety retains its essence intact.

THE IDEAL TEMPERATURE FOR EVERY WINE

## The best conditions for your collection

Adjust the temperature between 8 and 18°C<sup>1</sup> and create the perfect environment for every wine. Bespoke storage that cares for everything from the freshest whites to the reds that need time to reach their full potential.

#### METAL SHELVES: STYLISH AND STABLE

## Elegance that complements your home

The interior combines a refined aesthetic with the durability your bottles require. Its metal shelves provide a sophisticated finish and ensure stable support.

#### TOUCH DISPLAY FOR PRECISE ADJUSTMENT

## Total control at one click

Manage the temperature conveniently and intuitively thanks to its touchscreen display. All the control you need to tailor the storage of your wines, with a clear, user-friendly design.

#### BLACK METAL FINISH: STYLE WITHOUT LIMITS

## A design that suits you

Its black metal exterior adds a contemporary and elegant touch to any space. A versatile design intended to blend seamlessly into modern kitchens and wine-tasting areas.

#### AUTOMATIC LED LIGHTING

## Your collection on display

The LED light switches on automatically when the door is opened, allowing you to see all your bottles immediately. Practical and stylish lighting that enhances the interior without affecting the wine's preservation.

# Bolero GrandSommelier 600 CoolCrystal

Black thermoelectric wine cooler, 6-bottle capacity, quiet 35 dB operation, adjustable temperature from 8 to 18 °C and humidity 50%-80%, metal shelves, touch control, energy class E, LED light.

## FEATURES:

Noiseless and vibration-free operation. Thermoelectric system: delivers quieter performance than traditional compressor wine coolers, emitting only 35 dB while eliminating potential vibrations.

Adjustable temperature from 8 to 18 °C. Wide temperature range that allows you to adjust the settings for a customised preservation according to the variety stored inside.

Elegant and durable interior. Metal shelves that add a stylish touch while providing stability and impact resistance.

Easy and intuitive control. Touchscreen display: for hassle-free temperature control.

Black metallic exterior design. Style that fits any kitchen space.

Energy class E: efficient operation for low energy consumption.

LED lighting. It activates automatically when the door is opened for instant wine status monitoring.

## Compressor wine coolers

## MORE SPACE FOR YOUR WINES

### Your bottles always ready to enjoy

Organise and store your bottles in optimal conditions so you always have your favourite wines to hand. A capacity designed for those who own a wider collection and want to be prepared for every moment and every occasion.

## SILENT, HIGH-PERFORMANCE COMPRESSOR

### Preservation you can taste in every glass

Its compressor system delivers consistent performance to maintain a stable temperature inside. Reliable storage designed to preserve the qualities of each bottle so you can enjoy it at its very best.

## SILENT OPERATION

### Enjoy without noise or vibrations

Enjoy discreet storage thanks to its operating noise level of just 39 dB. Its low noise level and lack of vibrations allow it to blend seamlessly into any room, taking care of both your wines and your surroundings.

#### TAILORED PRESERVATION

## Every wine at its ideal temperature

Adjust the temperature between 5 and 18°C<sup>2</sup> to tailor storage to the needs of each variety. From whites and sparkling wines to reds, your bottles are kept in the ideal conditions to express their full character when served.

#### TOUCH DISPLAY FOR INTUITIVE CONTROL

## Full control at your fingertips

Control the wine cooler's main functions via its touch panel: adjust the temperature, switch the interior lighting on or off, select between °C and °F, and lock the controls. Maximum convenience to take care of every detail of your collection.

#### INTERIOR LED LIGHTING

## Your collection always visible

The interior LED light elegantly illuminates your bottles so you can see your entire collection at a glance. A practical solution that provides visibility and enhances the wine cooler's interior design.

# Bolero GrandSommelier 1250

## CoolCrystal Compressor

Free-standing wine cooler, 12-bottle capacity, temperature adjustment from 8-18 °C, 79.5 cm height x 25 cm width, wooden shelves, touch display and internal LED lighting.

### FEATURES:

12-bottle capacity: it offers you enough space for 12 bottles of 0.75 litres.  
Touch display: easily adjust the temperature using an extremely accurate touch display.  
Temperature setting: the temperature setting of 8 to 18 °C is optimal for white, red and rosé wines.  
LED lighting: dim interior LED lighting for a clear view of your wine collection.  
Class G: better energy efficiency than its previous model to help you reduce your household energy consumption.  
Wooden shelves, all-natural material.  
Wine cooler dimensions (W x D x H): 25.2 x 45 x 79.5 cm

# Dual-temperature wine coolers

#### DUAL ZONE

## Custom temperature

Store different types of wine and respect their individual requirements. Its two independent temperature zones, adjustable from 5 to 20°C, allow you to organise your collection with precision so that white, red and sparkling wines are always ready to be enjoyed as intended.

#### EVEN DISTRIBUTION OF TEMPERATURE AND HUMIDITY

## The perfect conditions

The internal fan ensures even circulation of cool air and humidity throughout the entire compartment. This means every bottle is kept in the most stable storage conditions, regardless of where it is placed, to better preserve its qualities.

#### STABLE AND EFFICIENT COOLING FOR YOUR WINES

## Savour the nuances of every flavour

Its built-in compressor provides constant and uniform cooling throughout the interior. An efficient solution for precisely adjusting the temperature and creating the right environment for each wine to retain its character.

# Bolero GrandSommelier 98000 Black

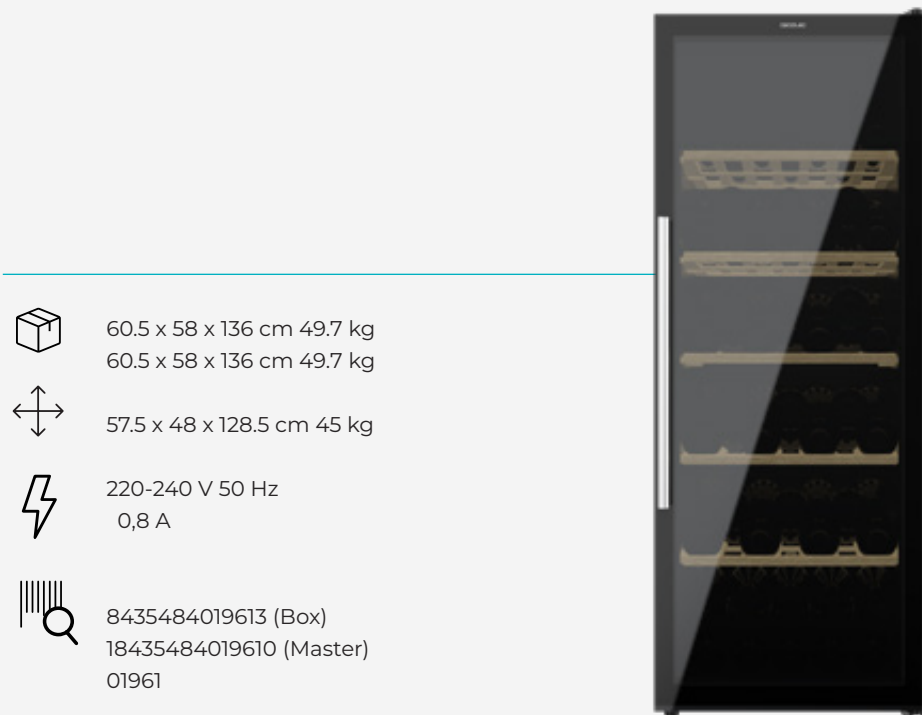

Wine cooler, 98-bottle capacity, quiet compressor 37 dB, dimensions 128.5 cm height x 48 cm width, touch control, adjustable temperature from 5 °C to 20 °C, Child Lock, Interior LED light.

## **Built-in column-style wine coolers**

#### HANDLE-FREE DESIGN TO SUIT YOUR STYLE

## A design that enhances your kitchen

Its clean, handle-free design, available in a matt or shiny finish, allows it to blend harmoniously with your home's furnishings. A design conceived to create more cohesive, elegant and functional spaces, where your wine collection is perfectly integrated into the décor.

#### OPENING SENSOR

## One-touch opening

Say goodbye to handles and enjoy a perfect integration thanks to its opening sensor, which will allow you to access each wine with just one touch.

#### LED LIGHTING THAT HIGHLIGHTS EACH BOTTLE

## A comprehensive view of your collection

The interior LED lighting provides soft, elegant illumination, allowing you to see every corner of the wine cooler with ease. Find your bottles instantly and enjoy a beautifully presented display of your collection.

#### DUAL ZONE<sup>3</sup>

## Two zones, two temperatures, tailor-made enjoyment

Set each zone independently between 5 and 20°C and store different varieties in the conditions they require. A dual-temperature zone that offers the perfect flexibility to have white, red or sparkling wines ready for every occasion.

# Bolero GrandSommelier BI 28000 Touch Black Compressor

Fully built-in wine cooler with black glass, touch opening by sensor, temperature range from 5 °C to 20 °C, capacity for 28 bottles, dimensions 45 x 60 cm, interior LED light, built-in compressor, interior LED display, silent operation and 2 wooden shelves

## FEATURES:

It fits in seamlessly. With exterior dimensions of 45 x 60 cm and black glass, it will fit perfectly into your kitchen. Moreover, its dimensions allow it to be installed on any piece of furniture, so that you can enjoy your wines without elements that break the harmony.

Store all your bottles. This wine cellar is capable of holding a wide selection of up to 28 bottles, so you can enjoy your favourite wines whenever you want.

One touch and that's it. With its touch opening, you only have to place your finger on the opening sensor to access your favourite wines.

For red, white and sparkling wines. Its temperature is adjustable from 5 °C to 20 °C, ideal for red, white and sparkling wines.

Optimum temperature, low consumption. It has a compressor that ensures the right power level to maintain a constant temperature with low consumption.

Tidiness and elegance. Its 2 natural wooden shelves allow you to store your bottles in a safe and tidy way while adding a touch of elegance.

See every corner. The LED light inside projects a dim interior illumination, just enough to give clarity and visibility so you can easily find the bottle you want.

Convenient temperature control. Control in simple steps the temperature of each zone through its interior LED display.

Ideal humidity and temperature. Thanks to the assistance of the internal fan, you can maintain an even temperature on all shelves and ensure an optimal humidity level.

Built-in compressor: efficient and totally reliable system to maintain a constant temperature.

**Large built-in  
wine coolers**

#### PREMIUM DESIGN

## A wine cooler with the soul of a wine cellar

Choose between a matt black or black glass finish, frameless and with a concealed handle, designed to blend naturally into your kitchen units and add a touch of sophistication to any space.

#### THREE ZONES, ENDLESS POSSIBILITIES

## Each wine variety at its ideal temperature

Its three independent temperature zones, adjustable from 5 to 20°C, allow you to store different wines according to the needs of each variety. Sparkling, white and red wines, always ready and at the right temperature to enjoy their full character.

#### MARIDAJE HUB: PREPARE, PRESENT AND PROPOSE A TOAST

## Select and create your finest experiences

A separate temperature and humidity zone designed to turn every selection into a complete experience. Its display shelves, glass holders and solid natural wood finishes allow you to organise, prepare and serve your wines with the elegance and care that every pairing deserves.

#### TWO PUSHOPEN DRAWERS FOR ACCESSORIES

## Easy access, perfect organisation

Its two wooden drawers with PushOpen functionality offer smooth and intuitive access with a simple touch. An elegant and practical space for storing corkscrews, capsule cutters and all the accessories needed to enjoy every bottle.

#### NATURAL WOOD SHELVES AND LED LIGHTING

## Attention to every detail

Its 9 removable natural wood shelves allow you to organise and access each bottle comfortably, providing stability and a sophisticated finish. The LED light illuminates the interior with a soft, warm glow, showcasing your collection without emitting heat that could affect its preservation.

#### UP TO 69 BOTTLES AND A 305-LITRE CAPACITY

## Space for the collection of your dreams

It allows you to organise different wines and always have the right one ready for every occasion, from a special event to everyday enjoyment, with no limits on your desires.

#### PERFECT TEMPERATURE, ABSOLUTE SERENITY

## Enjoy every toast

The compressor system maintains a stable and precise temperature in each zone to preserve the full character of your wines. Efficient and very quiet cooling that accompanies every moment without taking centre stage.

# Bolero GrandSommelier Duo BI 96000

Fully integrated wine cooler with 96 bottle capacity, dual temperature zones (upper 5-18 °C, lower 10-18 °C), electronic control, 12 wooden shelves, active carbon filter and LED light.

Wine cooler, 12 wooden shelves, instruction manual.

# Bolero GrandSommelier BI Triple Maestre Matt Black

Cecotec Bolero GrandSommelier BI Triple Maestre Matt Black: Built-in wine cooler with frameless matte black glass, triple zone 5-20°C, 69 bottle capacity 305 L, pairing HUB with humidifier, 9 removable wooden shelves, 2 PushOpen drawers, SoftLED interior, compressor system, interior TFT display, ultra silent, NoFrost and hidden handle.

## FEATURES:

Frameless matte black glass finish: The elegant frameless matte black glass finish adds a touch of sophistication and modernity, integrating perfectly into any kitchen with a minimalist and premium design.  
Triple zone 5-20°C: The three independent temperature zones (5-20°C) allow you to store different types of wines in their optimal conditions, from sparkling to reds, ensuring the perfect preservation of each variety.  
Stores up to 69 bottles, 305 L: With capacity for 69 bottles and 305 litres, this wine cooler offers ample storage space, ideal for collectors and wine lovers looking for a complete solution.  
Pairing HUB: This zone with independent temperature and humidity is perfect for wine pairing, equipped with wine display shelves, glass holders and more. All this in solid natural wood ensures that you can prepare and enjoy your wines optimally.  
2 wooden PushOpen drawers: The 2 wooden PushOpen drawers provide smooth and elegant access, allowing you to store the necessary accessories to enjoy your wines with a simple touch.  
9 removable wooden shelves: The 9 natural wooden removable shelves not only provide elegant and robust support for bottles but also facilitate access and organisation of your collection.  
SoftLED Interior: The interior SoftLED lighting provides soft, warm light that enhances wine presentation without generating heat that could affect preservation.  
Interior TFT display: The interior TFT display allows precise and intuitive control of all wine cooler functions, facilitating temperature and settings adjustment.  
Hidden handle: The concealed handle maintains clean design lines, adding elegance and sophistication while facilitating wine cooler opening.

# Bolero GrandSommelier Origin 18 Hit Red

Retro design wine cooler in red colour, capacity for 18 bottles, electronic temperature control by LED display, temperature range from 5 °C to 20 °C, built-in compressor, NoFrost technology, wooden shelves, interior light, fan assisted internal ventilation, dimensions 74.3 cm height, 36.6 cm width, 47.6 cm depth

## FEATURES:

Give a retro touch to your wines. The beautifully rounded, vintage-style design adds a distinguished decorative touch, allowing you to place the wine cooler in any room. Store all your bottles. With its compact size, it is capable of holding a wide selection of 18 bottles of your favourite wines without taking up much space in the room where you place it. Convenient and fast control. It features a digital LED display on the inside with which you can adjust the temperature settings quickly and conveniently. For red, white and sparkling wines. Its temperature is adjustable from 5 °C to 20 °C, ideal for red, white and sparkling wines. Optimum temperature, low consumption. It has a compressor that ensures the right power level to maintain a constant temperature with low consumption. Tidiness and elegance. Its natural wooden shelves allow you to store your bottles in a safe and tidy way while adding a touch of elegance. Prevents the ice formation. NoFrost cooling system that will prevent the formation of ice in the interior that could affect the performance or conservation of your wines. See every corner. The LED light inside projects a dim interior illumination, just enough to give clarity and visibility so you can easily find the bottle you want. Ideal humidity and temperature. Thanks to the assistance of the internal fan, you can maintain an even temperature on all shelves and ensure an optimal humidity level. Dimensions (W x D x H): 74.3 x 36.6 x 47.6 cm.

# Bolero GrandSommelier Origin Duo 30 Hit Green

Retro design wine cooler in green colour with two temperature zones, capacity for 30 bottles, electronic temperature control by LED display (temperature zone 1 from 5 °C to 12 °C, temperature zone 2 from 12° C to 20 °C), NoFrost technology, wooden shelves, interior light, fan assisted internal ventilation, dimensions 120.5 cm height, 36.6 cm width, 47.6 cm depth

## FEATURES:

Give a retro touch to your wines. The beautifully rounded, vintage-style design adds a distinguished decorative touch, allowing you to place the wine cooler in any room. Store all your bottles. This wine cooler is capable of storing up to 30 bottles in two different temperature zones so that you can separate and organise your wines in an optimal way. Convenient and fast control. It features a digital LED display on the inside with which you can adjust the temperature settings quickly and conveniently. It adapts to your wines. Its wide range of 5 °C to 20 °C allows the temperature of each zone to be adjusted according to the type of wine stored. Built-in compressor: this conservation system ensures the right power level to maintain a constant temperature with low consumption. Tidiness and elegance. Its 7 natural wooden shelves allow you to store your bottles in a safe and tidy way while adding a touch of elegance. Prevents the ice formation. NoFrost cooling system that will prevent the formation of ice in the interior that could affect the performance or conservation of your wines. See every corner. The LED light inside projects a dim interior illumination, just enough to give clarity and visibility so you can easily find the bottle you want. Ideal humidity and temperature. Thanks to the assistance of the internal fan, you can maintain an even temperature on all shelves and ensure an optimal humidity level. Dimensions (W x D x H): 120.5 x 36.6 x 47.6 cm.
