Flatbed microwave oven

No more turning it over, better without a turntable!

Higher capacity

With its up to 25 L flatbed design, this microwave fits all types of cookware, from plates to large trays, offering versatility and convenience without the limitations of a turntable.

Enveloping cooking

Its technology ensures 800 W¹ of power is evenly distributed throughout the cavity, unlike conventional microwaves that concentrate heat in the turntable area.

Clean in one pass

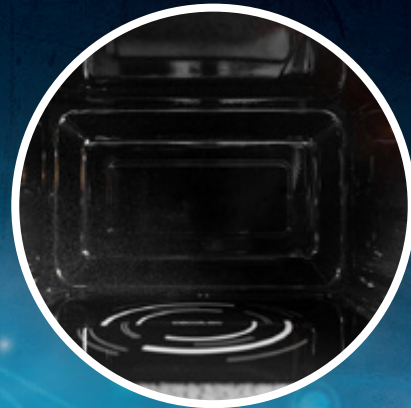

No need to remove the turntable for cleaning. Thanks to the flatbed design with ceramic coating, leaving the microwave spotless is as easy as wiping it once.

GrandHeat 2500 Flatbed Touch

More space for your recipes

Its flatbed design is perfect for maximising the 25 L capacity and cooking larger recipes. Furthermore, its flat surface makes cleaning easier.

Defrost with maximum precision

With Defrost Mode, you can choose whether to defrost your food by time or by weight, quickly and uniformly, preserving its original texture and freshness.

Total control in one click

Manage and configure the microwave easily and intuitively thanks to its touch panel that allows you to control everything with a touch.

Quick cooking

Its 800 W of power and 5 levels allows you to cook or heat any food quickly. It also features a timer of up to 60 minutes.

Cook with total ease

It features 8 pre-set functions: potatoes, vegetables, pizza, meat, popcorn, fish, defrost, and reheat function.

Proclean Flatbed Inverter Pro

More space for your recipes

Flatbed design that allows you to make the most of the 20 L interior capacity and use larger containers. Furthermore, its flat base makes cleaning easier.

Uniform and efficient cooking

Thanks to its Inverter technology, you can cook, heat, and defrost with continuous and precise power, avoiding heat peaks and achieving more homogeneous results with lower energy consumption.

Heats rapidly

Its 800 W of power allows you to heat and cook any recipe quickly and efficiently. Thanks to its timer of up to 95 minutes, you can adjust the time according to the dish.

Set and forget

It incorporates an acoustic alert that notifies you when the selected operating time has finished.

Inverter microwave oven

Power and efficiency for your kitchen

Two-stage cooking

Cook your recipes with two cooking times and two different power levels to defrost, heat, and cook your recipes, achieving perfect results.

Maximum performance

Its Inverter motor and 700 W of power allow you to cook all types of recipes with results to your liking and perfect textures, whether cooking or defrosting.

Recipes to your taste

Choose the cooking time and power or select one of its 8 pre-set menus¹, which provide perfect results without complications. One touch and done!

Retro microwave oven

Cook with great style

Design that captivates

Personalise your kitchen with a touch of colour and elegance thanks to the retro microwave range, designed to simplify cooking and bring life to your home.

With grill, perfect browning!

Cook more and better with its 800 W max. grill, which provides perfect browning to leave your recipes ideally cooked and with a crispy touch.

Digital or mechanical

Every detail of its design has been carefully considered, and it offers two control options: mechanical or digital. Choose the one that best suits your kitchen and cook to your liking without complications.

Built in microwave oven

Fits in your kitchen,
improves your recipes

Customised design

They fit perfectly in your kitchen, freeing up space on the worktop. Furthermore, their multiple styles adapt to different decors, remaining perfectly aligned with the kitchen.

Defrost by weight

Forget long waits and defrost your food quickly and uniformly thanks to its defrost mode, which preserves the original texture and freshness.

Automatic functions

Cook all types of recipes with a single touch thanks to its up to 9 pre-set functions: milk/coffee, rice, pasta, meat, potatoes, fish, chicken, skewers, and automatic reheating.

Commercial microwave oven

High-performance cooking

Large capacity

Discover the flexibility of this flatbed range with up to 34 L of capacity. Make the most of all its usable space to insert large containers, save time and energy by cooking in a single batch with perfect results.

Uniform cooking

With a double magnetron that guarantees uniform heat distribution and ensures homogeneous cooking of food.

Programmes for all foods

Includes up to 100 programmes for heating and cooking simply, without inconveniences.

FlatPro 3400

Cook in a single batch

34 L capacity for cooking large recipes in a single batch, saving time and energy without sacrificing perfect results.

More space and flexibility

Flat interior without a plate that increases usable space, allowing the use of containers of different sizes and shapes. This design with a flat base facilitates cleaning after each use.

Cook rapidly

Enjoy perfect results without waiting thanks to its 2100 W of power, to cook any food quickly and uniformly. Adapt the intensity to the needs of each recipe with its adjustable levels.

Prepare all kinds of recipes

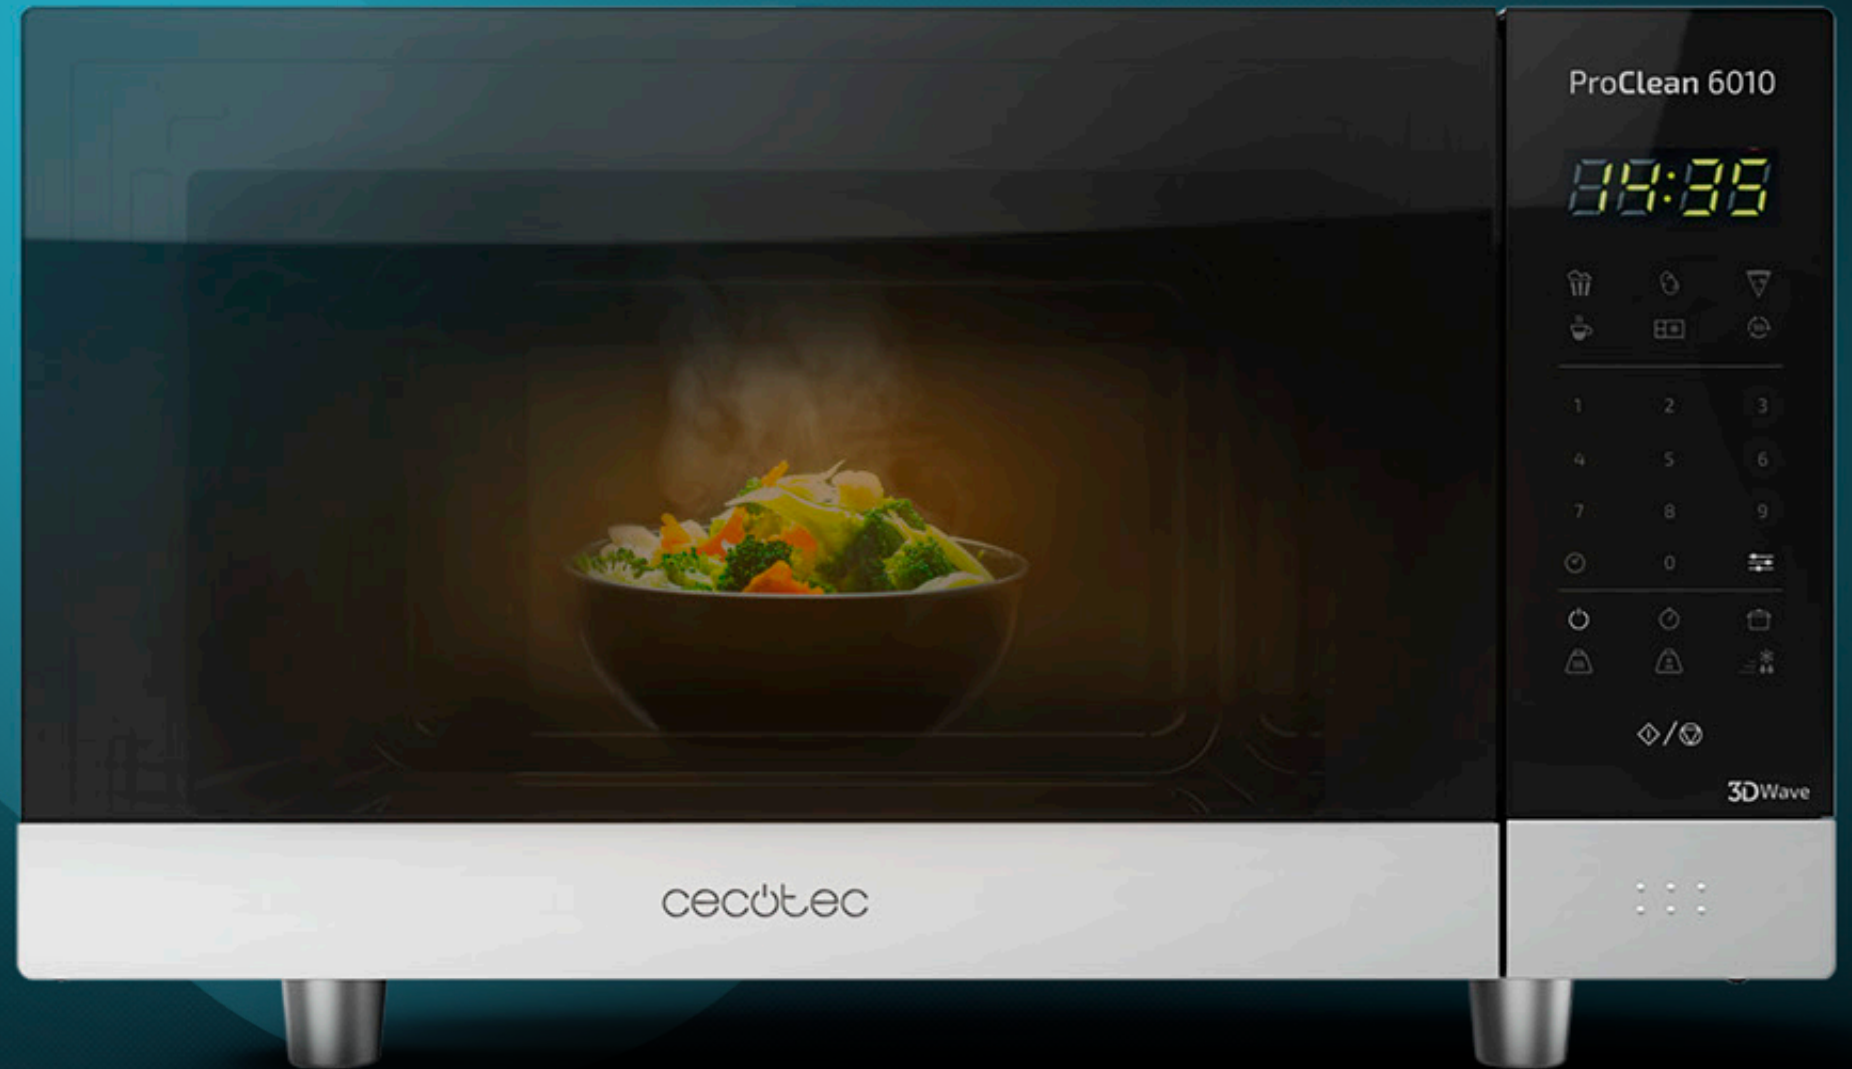

Includes more than 100 programmes to prepare all types of dishes comfortably and quickly.

Easy to use

Digital control that facilitates and speeds up the control of each dish, in a simple way. Ideal for commercial spaces.

Enveloping cooking

Designed with a double magnetron that ensures uniform heat distribution, improving the efficiency and cooking quality of food.

FlatPro 3400

34 L and 2100 W commercial microwave with touch buttons.

FEATURES:

34 l capacity. Cook large recipes in a single batch, saving time and energy without compromising perfect results.
Fast and even cooking. 2100 W power that allows you to cook all types of food, achieving perfectly cooked recipes without long waits, increasing productivity.
More space and flexibility. Flat interior without turntable that increases the useful interior space, allowing you to use containers of different sizes and shapes.
Wrap-around cooking. Dual magnetron: ensures uniform heat distribution, improving cooking efficiency and food quality.
Prepare all types of recipes. 100 programmes to prepare all kinds of dishes comfortably and quickly.
Cook every dish to your taste. Adjustable power settings to tailor cooking to each food type and recipe.
Uniform defrosting. Achieve fast, even defrosting with no cold spots.
Clean in a single pass. Its flatbed design means you don't have to clean in sections, making the cleaning process easier and faster.
Easy to use. Digital controls that make operation easier and faster, ideal for commercial spaces.
60-minute timer. Controls the process precisely without needing to monitor the switch-off.
