All-terrain robot, cleaning without limits

TOTALCLEAN

Cleans in detail

Its all-terrain design allows to clean the entire pool: bottom, walls, waterline and surface. Obtain a thorough cleaning with a single click and enjoy your free time.

DOUBLE ROLLER BRUSH

Scrapes away dirt without effort

The robot removes even the most stubborn dirt from floors and walls with its double roller brush, which reaches even the most difficult areas.

LATERAL SCRUBBING

Cleans the waterline

The robot detects the waterline and moves back and forth to remove accumulated dirt, leaving the area spotless.

Spotless swimming pool without effort

SCUBADRIVING

Orderly navigation

Enjoy optimal cleaning. Thanks to its ScubaDriving¹ technology, it navigates orderly, ensuring complete and efficient cleaning across your entire pool surface.

RUNTIME

Covers up to 300 m²

Thorough cleaning in one go thanks to its 10.400 mAh battery, which offers up to 150 minutes of runtime and covers surfaces of up to 300 m².

ALLSURFACE

Suitable for all types of pools

The robot can be submerged in any type of water up to 3 metres deep and effectively cleans all types of floors, regardless of the shape of the pool.

APP CONTROL

- TOTAL CLEANLINESS:
- AREA²
 - WATERLINE¹
 - WALLS¹
 - BOTTOM³

AUTOPARKING

Take it out effortlessly

The robot features an auto-parking system to approach the pool edge once it has finished cleaning, and a hook, making it even easier to remove.

EASYSOON

Always like new

Get rid of all vacuumed dirt effortlessly: lift the lid, empty the tank, and you're done! The robot will be ready to resume cleaning whenever you need it.

A large, abstract teal graphic on the left side of the page, consisting of several overlapping, rounded shapes that create a sense of depth and movement. The colors range from a light teal to a dark, almost black teal.
