FREEGO

2-IN-1

## Vacuums and mops at once

With FreeGo, cleaning is easier and faster. In a single pass, it will leave your floors sparkling clean, whether you are just mopping or also vacuuming up dirt. Thanks to its Wet Jalisco brush, you can clean dry floors, pick up any spilled liquids and even trap micro-dirt. In addition, thanks to the vacuuming, the floors are practically dry instantly.

POWER

## Scrapes away dirt effortlessly

Deep cleaning without effort thanks to its ultra-light brushless motor with up to 250 W and 17 kPa, powerful enough to remove all types of dirt without complications.

17 kPa

250W

## RUNTIME

# Cleans without stopping

Whether it's a small stain or you need to clean several rooms, with its battery life of up to 40 minutes, it will leave your floors spotless without having to stop to recharge.

## DOUBLE TANK

# Always mops with clean water.

Its design incorporates a clean water tank with a capacity of up to 700 ml and a dirty water tank with a capacity of up to 650 ml, so you can clean the floor of your home without having to change the water or carry the bucket around.

1. Disponible en el modelo FreeGo Wash y FreeGo Wash&Vacuum.  
2. Disponible en el modelo FreeGo Wash Twice Spray y FreeGo Wash&Vacuum Spray.

## WET JALISCO DOUBLE ROLLER

# Much more than a mop

Deep cleans in less time, effectively removing both solids and liquids. In addition, its absorbent design helps to dry the floor to perfection in a single pass.

## SELF-CLEANING BASE

# Cleans and disinfects the roller

Forget about having to wring or clean the roller. FreeGo has a self-cleaning base that removes dirt from the roller fibres and also dries them with hot air at 70°C to prevent unpleasant odours, leaving the roller as good as new for the next use.

## Freego S10 Nova

Electric mop that washes and vacuums simultaneously for fast and thorough cleaning. It has three modes of use and a quiet and powerful motor. Its self-cleaning base and long runtime facilitate maintenance and use.

### FEATURES:

Instant deep cleaning. Combines scrubbing and vacuuming simultaneously for deep, efficient cleaning in less time. Removes both solids and liquids.

Removes dirt effectively. 3 modes: quick scrub, scrub and vacuum at the same time for a complete clean in one pass, or scrub and vacuum with turbo power to clean the most difficult dirt deeply and effectively.

Powerful and quiet operation. Digital Brushless motor for more efficient, powerful and quieter operation, extending the lifespan of the device.

Clean brush without any effort. Self-cleaning base that automatically cleans the brush to keep it free of dirt and ready to use.

Ideal for areas of 150 m<sup>2</sup>. Autonomy of up to 35 minutes to clean up to 150 square metres without the need to recharge.

Scrubs without stopping. It has a tank for clean water (650 ml) and a tank for waste water (550 ml), which allow you to clean the entire house without having to empty the tank during cleaning.

Easy and fast maintenance. Its structure is designed to be easily disassembled, allowing access to all its parts and easy cleaning, thus ensuring quick and convenient maintenance after each use.

### COMPOSITION:

Product, base, charger, cleaning brush, Wet Jalisco brush, instruction manual
