FREEGO L200 STEAM

The power of mopping in its purest form

SMART DOSE

Dispenses just the right amount of detergent

It automatically mixes water and detergent in just the right proportions to clean effectively, effortlessly and without waste with every pass.

80°C to tackle stubborn stains

It softens ingrained dirt with hot water at 80°C before vacuuming, ensuring flawless cleaning.

SMART TRACTION

Move around with complete control

FreeGo adapts to your pace to offer a smoother, more stable and effortless experience.

STEAM POWER

Scrapes away grime and sanitises with steam

Unleash the power of steam to eliminate germs and bacteria, sanitise every nook and cranny, and tackle stubborn grease. A deep clean without chemicals, leaving your floors sparkling and creating a healthy environment.

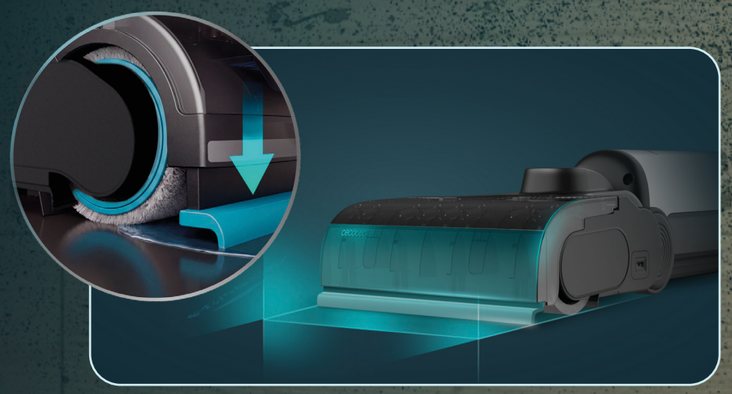

FREEGO L100

Give dirt the slip

ROBOTIC ARM

Clean corners – mission complete

Its AI-powered robotic arm reacts in under 0.2 seconds to automatically reach and clean skirting boards and corners. Also, it removes excess water to protect even wooden floors.

ALWAYS CLEAN

Water that’s always clean, results that are spotless

The roller is constantly rinsed with clean water to remove dirt without spreading it around. It rotates at a speed of 480 rpm and applies a constant pressure of 25 N, ensuring a consistently even finish every time.

ANTI-TANGLE BRUSH

No tangles, no fuss

Its anti-tangle system automatically trims long hair to keep the roller clear at all times, preventing blockages and interruptions.

350 W UNGRAVITY MOTOR

Maximum cleaning power

With 28,000 Pa of suction power, it picks up liquids and solids instantly, leaving the floor practically dry and free of any trace of dirt.

1. Power varies by model.
1. Check features according to model.

INTELLIGENT AUTO MODE

Detects, adjusts and cleans thoroughly

It detects dirt in real time and automatically adjusts the suction power and water flow according to the needs of each area. This way, it concentrates more power where it's needed and optimises cleaning in less demanding areas.

1. Automatic mode is only available on some models.

UP TO 60 MINUTES OF RUNTIME

Clean your house non-stop

No matter if it’s a very localised stain or if you have to scrub several rooms, with its battery life of up to 60 minutes you can leave the floor of your home perfect without having to stop to recharge the battery.

1. Runtime varies by model.

DOUBLE WATER TANK

Forget the mop bucket

Its design incorporates a clean water tank of up to 800 ml and a dirty water tank of up to 850 ml so you can clean the floor of your home without having to change the water or carry the bucket back and forth.

1. Tank capacity may vary by model.

FLEX 180°

It gets where others can’t

Its 180° reclining design glides under furniture up to 9.7 cm high, reaching places others can’t, while maintaining full suction power even in the lowest spaces.

AUTOCLEAN STATION

Even more convenient

Your FreeGo will always be as good as new thanks to its fully automatic maintenance system. Place it on its base and it will wash the roller with hot water at 100°C and dry it with hot air, also at 100°C, to keep it clean, dry and ready for the next use.

1. Automatic maintenance may vary by model.

LED LIGHT

Brings dirt into the light

Thanks to its LED light, it illuminates the floor to reveal dust and debris, even under furniture and in dark areas, so that not a single speck escapes and the floor is left spotlessly clean.

LED DISPLAY

Cleaning always under control

Check the device's status and each cleaning session in real time on its LED display. Additionally, the voice assistant will keep you informed at all times.

Discover the FreeGo range

Freego L50

Electric mop that reaches 180°C, detects dirt and automatically adjusts power for precise cleaning right up to the edges.
Its self-cleaning base washes the brush with water at 70°C and dries it at 60°C, offering maximum hygiene, great runtime and a fully customisable experience thank to its LED display.

FEATURES:

Reaches a 180° completely flat angle that allows effortless access to dirt in any corner.
The brush automatically cleans itself in its base with hot water at 70°C, effectively eliminating dirt and bacteria for total hygiene.
Thanks to a constant 60°C airflow, the brush dries automatically, eliminating moisture, protecting fibres, and keeping it like new for longer.
Enjoy total control and personalised experience: easily select the ideal cleaning mode from its practical LED display.
Detects the dirt level and automatically adjusts the suction power for more efficient and precise cleaning.
Designed for thorough cleaning right up to the edges, leaving no dirt in corners or difficult areas.
With 23 kPa suction power, it easily gets rid of dust, crumbs and dirt on all types of floor.
Choose between 3 suction levels and 2 water flow levels, adapting the cleaning to your needs at all times.
Enjoy up to 45 minutes of continuous cleaning in Eco mode or 30 minutes in Turbo mode, ideal for covering large areas.
Features a 700 ml clean water tank and an 800 ml dirty water tank for longer cleaning without interruptions.

Freego L100

Freego L100 electric mop with AlwaysClean system that always uses clean water, 21,000 Pa suction power, AI-powered RoboticArm for precise cleaning of edges and corners, Auto mode that adapts cleaning to the level of dirt, self-cleaning base with washing at 100°C and drying at 120°C, 180° tilting design for cleaning under furniture, LED display and up to 40 minutes' runtime.

FEATURES:

AlwaysClean: always uses clean water. The roller is continuously rinsed with fresh water with every pass, scrubs at 480 rpm while applying a constant pressure of 17 N to the floor, and instantly collects waste water to achieve a deep clean without spreading the dirt around.
21,000 Pa suction power. The Ungravity motor picks up liquids and solids in a single pass, leaving the floor practically dry.
Assisted traction. The rotation of the roller gently propels the mop forwards to reduce effort and improve manoeuvrability.
Triple-edge cleaning with RoboticArm. The AI-powered robotic arm reacts in less than 0.2 seconds to automatically clean along skirting boards and in corners, reaching areas other mops cannot access and removing excess water to protect even wooden floors.
No more tangled hair. The anti-tangle system features a blade-equipped scraper that automatically cuts long strands of hair to prevent blockages in the roller.
Intelligent Auto mode. It analyses the dirt collected in real time and automatically adjusts the suction power and water flow to optimise cleaning performance and battery life.
Fully hands-free self-cleaning. The base washes the roller with hot water at 100°C and dries it with hot air at 120°C, preventing unpleasant odours and keeping the brush ready for use at all times. It also features a handy access ramp for sliding the mop on and off, without having to lift it.
It fits under furniture without losing power. Its 180° tilting design allows you to clean under beds and sofas up to 12.5 cm high.
All information at a glance. The LED display and voice assistant provide real-time information on the cleaning status and the device's condition.
Up to 40 minutes of runtime. Clean large areas thanks to its 4,000 mAh battery and its independent 700 ml clean water and 700 ml waste water tanks.

Freego L200 Steam

Freego L200 Steam electric mop with SteamPower technology for cleaning with steam at 160°C and hot water at 80°C, 28,000 Pa suction power, AlwaysClean system, SmartDose automatic detergent dispensing, electrolysis for chemical-free disinfection, AutoClean base with washing and drying at 100°C, SmartTraction motorised wheels, 180° tilting design, LED light and up to 60 minutes' runtime.

FEATURES:

AlwaysClean: always uses clean water. The roller is continuously rinsed with clean water during each pass, rotates at 480 rpm and applies a constant pressure of 25 N to remove dirt without spreading it around.
SteamPower: deep disinfection with steam. Steam at 160°C removes ingrained grease, disinfects the floor and helps to eliminate germs and bacteria effortlessly.
Hot water at 80°C for the toughest stains. It softens ingrained dirt before vacuuming it up for a much more effective clean.
28.000 Pa suction power. The Ungravity motor picks up liquids and solids in a single pass and leaves the floor practically dry.
SmartTraction: the mop moves with you. Its motorised wheels automatically propel the machine to reduce the effort required when pushing or pulling, making cleaning much more comfortable.
Edge-to-edge cleaning. The dual-edge roller cleans right up against skirting boards and corners, while the squeegee minimises water marks for a flawless finish.
No more tangled hair. The anti-tangle system automatically cuts long strands of hair to prevent blockages in the roller.
SmartDose: always the exact amount of detergent. It automatically mixes water and detergent during cleaning to achieve maximum performance without wasting product.
Intelligent Auto mode. It detects dirt in real time and automatically adjusts the suction power and water flow to optimise cleaning performance and battery life.
Electrolysis: disinfects without chemicals. Converts tap water into a disinfectant solution that helps eliminate bacteria and germs.
AutoClean Station: fully automatic maintenance. It washes the roller with hot water at 100°C and dries it with hot air at 100°C to keep it clean, dry and ready for the next use.
Reaches places others can't. Its 180° tilting design makes it easy to clean under furniture up to 9.7 cm high without losing suction power.
Not a single speck of dirt will escape your notice. The LED light illuminates the floor to detect dust and debris even in the darkest areas.
Total cleaning control. LED display and voice assistant to check the status of the device and the cleaning process in real time.
Up to 60-minute runtime. Clean large areas thanks to its high-capacity battery and its 800 ml clean water and 850 ml waste water tanks.
