A bike for every occasion

URBAN

URBAN BIKES

Take over the city

Our city bikes are ideal for your daily commute. Switch to sustainable driving.

MOUNTAIN BIKES

Overcome the mountain

Discover the freedom of exploring nature with our mountain bikes designed to conquer any surface.

MOUNTAIN

UP TO 120 KM RANGE

Explore the world

Travel distances of up to 120 km¹ in comfort. Go further with Cecotec electric bikes.

ASSISTANCE

The boost you need

Thanks to the speed-sensing motor of our e-bikes, the pedalling assistance of up to 25 km/h makes it possible to overcome hills without overexertion.

SIMPLEX SPROCKET

Extra lightness

Thanks to the single simplex sprocket, the weight of the bike is reduced to the maximum, resulting in a much cleaner and lighter bike. In addition, a perfect alignment of the chain is achieved, avoiding any crossover risk.

SHIMANO REAR DERAILLEUR

The market-leading brand

Our bikes are equipped with Shimano derailleur, a guarantee of quality that makes the cycle suitable to every terrain and route.

UP TO 29-INCH WHEELS

Move across any terrain

Our e-bikes are provided with wheels of up to 29 inches¹ in diameter that improve the stability and rolling of the bike. In addition, the bike is more stable and offers a smoother ride at higher speeds.

HYDRAULIC BRAKE

Advanced braking

The hydraulic braking system² provides excellent, consistent stopping power and improved braking feel for an unparalleled driving experience.

DISC BRAKE

Braking control

Our bikes are equipped with a front and rear disc brake system that provides perfect braking power, resulting in a more homogeneous and smoother deceleration.

SUSPENSIONS

Double comfort Double security

Enjoy total cushioning thanks to the dual front and rear suspension³ of our bikes and overcome all kinds of obstacles without even realising it.

DISPLAY

Everything at a glance

Check your bike's settings quickly thanks to its on-board computer that displays the battery level, range, speed and selected assistance mode, among others.

ALUMINIUM FRAME

Lightweight and resistant

The aluminium frame¹ of our bikes is ideal to guarantee great strength and solidity combined with maximum lightness so that you can take your bike with you wherever you go.

FRONT AND REAR LIGHT

Don't let the night ruin your ride

Enjoy safe riding at any time of the day with our electric bikes front and rear lights².

Urban bikes

Discover the range

Relive your day-to-day life

Elegant, light and functional. Discover your new daily partner.

REAR RACK

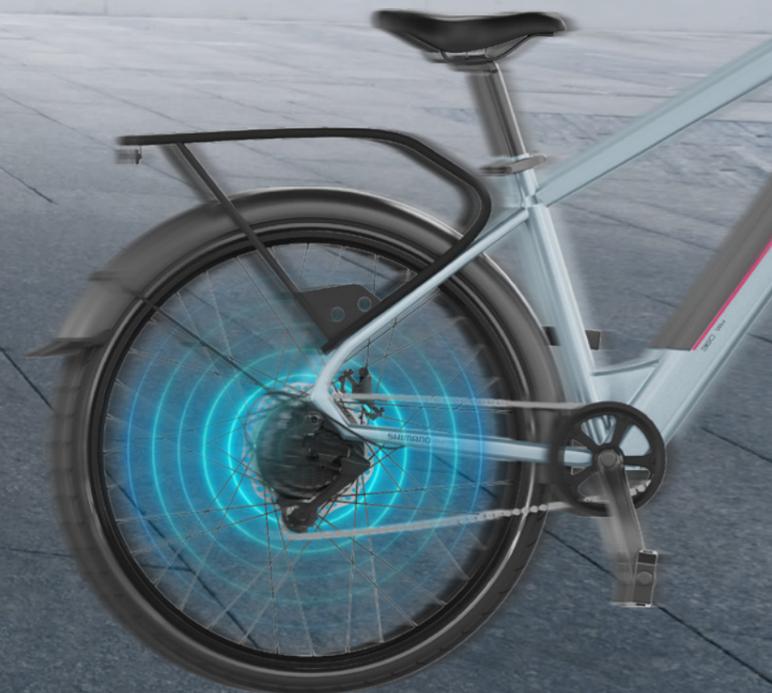

For everyday getaways

The metal bracket on the back allows you to carry loads of up to 25 kg in the most comfortable way.

SPEED SENSOR ASSISTANCE

Optimise your energy

The bike's motor will assist you depending on the pedalling speed, regardless of the force applied.

POLISHED WELDED FRAME

Beauty is in the details

Prior to painting the frame, the welds have been polished so that the bonding is not visible¹, giving way to a sleek finish similar to that of carbon frames.

Flexy e-bike

Folding e-bike with 35Km of autonomy, 20" and double disc brakes.

FEATURES:

Electric bike with 250 W power.
7500 mAh battery capacity for a maximum range of up to 35 km.
20" wheels to overcome any challenge and provide great grip.
Disc brake system.
Foldable design for maximum comfort.
Removable battery.

COMPOSITION:

Bike, charger, instruction manual, assembly tools

07217

Sprint Silver E-Bike

28" city e-bike with 70 km of autonomy, Shimano 8-speed derailleur and double hydraulic brake discs.

FEATURES:

Enjoy long distances in style without worrying about the battery, thanks to its 70 km range. Go as far as you want to go, thanks to the powerful 360 Wh (36 V 10 Ah) battery that allows you to travel long kilometres on every charge. Its 28" wheels provide the grip and adherence you need to ride comfortably in urban environments. Double hydraulic brake system for greater safety and control in every movement. Control your bike from the LCD display: Speed, kilometres, assistance level and lights, all from the display at your fingertips. Its aluminium frame has the light weight and resistance needed for an incredible experience on your bike. Precise gear shifting: its Shimano Altus 8-speed derailleur ensures precise and efficient gear shifting.

Mountain bikes

Discover the range

Make the mountains your comfort zone

Let no path be too far

LOCKING SYSTEM FORK

Suspension or rigid? It's up to you.

Locks the front suspension¹ to climb hills and minimise effort without any sway.

SINGLE-GEAR SHIFT SYSTEM

Less is more

Enjoy a simplified system with a single chainring to avoid misalignment, noise or any other inconvenience. With no shifter on the handlebars, it also brings lightness to each of your adventures.

TORQUE SENSOR ASSISTANCE

Whenever and wherever you need it

This type of motor assists you depending on the force applied when pedalling to make hills less tiring.

e-Xplore e-bike

Mountain e-bike with removable battery, 55Km of autonomy, 27.5", front suspension, Shimano 7-speed derailleur and double disc brakes.

FEATURES:

Electric bike with 250 W power.
10000 mAh battery capacity for a maximum range of up to 55 km.

XC bikes

Discover the range

2-wheeled adventures

Cross trails, ride all kinds of landscapes and climb challenging mountain passes.

MAXXIS TUBELESS READY TYRES

Goodbye punctures

Our bikes are equipped with the renowned tyre brand Maxxis. As they are mounted without an inner tube (Tubeless system), they contain a liquid that rolls around the inside of the tyre, sealing any possible punctures.

ROCKSHOX FORKS

Absorption guarantee

RockShox forks guarantee optimal absorption and feel in every terrain. Create tailor-made adventures.

ANANDA CENTRAL ENGINE

Balances the centre of gravity

Optimise the performance of your bike with Cecotec, the leading brand in electric motors. In addition, its location in the centre of the bike balances the weight on the cycle for greater stability.

CECOTEC XC Eros E-Bike

Discover the XC Charge, the electric mountain bike designed for adventurers. With 29" wheels, an autonomy of up to 120 km, dual suspension and Shimano MT200 hydraulic brakes, this bike is your perfect ally to conquer any terrain.

FEATURES:

Explore your limits: With its powerful 540 Wh Samsung removable battery, the XC Charge allows you to ride up to 120 km of uninterrupted adventures. The convenience of a removable battery makes it easy to charge and maintain, so you're always ready for the next adventure.

Unstoppable power: The BoostToGlory system and the 80 Nm Cecotec motor give you powerful and adaptive assistance with every pedal stroke.

Dominate any terrain: The 29" off-road wheels ensure the grip and stability needed to enjoy every ride.

Safe and reliable braking: Shimano MT200 hydraulic disc brakes guarantee precise and safe braking in any situation.

Technology within reach: Monitor your route with the colour LCD display and control speed, kilometers and assistance at a glance.

Lightness and resistance: The 6061 hydroformed aluminium frame offers the perfect combination of light weight and durability for your most demanding adventures.

Perfect derailleur: With Shimano Cues 10-speed derailleur, enjoy a smooth and precise transition, ideal for mountain challenges.

Unlimited adventures: Tackle any obstacle with the Rockshox Judy Silver TK fork, with air suspension and lockout, designed to absorb every impact and give you an unparalleled riding experience.

CECOTEC XC ErosPro E-Bike

The XC ChargePro is the ultimate electric mountain bike for the most demanding riders. With 29" wheels, an excellent autonomy of up to 120 km thanks to its integrated 540 Wh Samsung battery, advanced dual suspension and Shimano MT200 hydraulic brakes, the XC ChargePro is designed to dominate any terrain and offer you the best riding experience.

FEATURES:

Explore your limits: With its powerful 540 Wh Samsung removable battery, the XC ChargePro allows you to ride up to 120 km of uninterrupted adventures.

Exceptional power and control: Cecotec's BoostToGlory 80 Nm motor system provides powerful and adaptable assistance with every pedal stroke, ensuring optimal performance in any situation.

Conquer all terrains: The 29" off-road wheels and 29" x 2.6" MAXXIS tubeless tires ensure unmatched grip and stability, allowing you to enjoy every trail with confidence.

Safe and precise braking: Shimano MT200 hydraulic disc brakes, with two pistons and 180 mm discs, provide reliable and safe braking in all conditions.

Technology within reach: Monitor your route with the colour LCD display, which allows you to control speed, kilometers, assistance level and light with ease.

Lightweight and resistant frame: The hydroformed 6061 aluminium frame with integrated battery offers a perfect combination of light weight, durability and riding dynamics, ideal for the most challenging adventures.

Precise derailleur: The Shimano CUES 11-speed transmission system ensures smooth and precise shifting, adapting to the demands of mountainous terrain.

Unlimited adventures: The Rockshox Reba RL fork, with air suspension and lockout, absorbs all impacts, while the remote-controlled KS telescopic seatpost gives you total control on your most technical descents.

For all-rounder souls

Bikes ready for any challenge

ROCKSHOX FORK AND SHOCK

Designed for your peace of mind

Our Trail bikes provide a front fork and rear shock, both from RockShox, to ensure a totally safe ride wherever you go.

ANANDA OR SHIMANO CENTRAL ENGINE

Balances the centre of gravity

Optimise the performance of your bike with Cecotec, the leading brand in electric motors. In addition, its location in the centre of the bike balances the weight on the cycle for greater stability.

MAXXIS TUBELESS READY TYRES

Let nothing interrupt your journey

Our bikes are equipped with the renowned tyre brand Maxxis. As they are mounted without an inner tube (Tubeless system), they contain a liquid that rolls around the inside of the tyre, sealing any possible punctures.

CECOTEC TR Atlas E-Bike

Discover the Trail Titan, the electric mountain bike that redefines the limits of adventure. With 29" wheels, amazing autonomy thanks to its 720 Wh Samsung battery, high-end dual suspension and Shimano MT200 hydraulic brakes, the Trail Titan is designed to conquer any terrain and take your cycling experience to new heights.

FEATURES:

Explore your limits: The Trail Titan allows you to travel up to 120 km with its powerful 720 Wh Samsung removable battery. The convenience of a removable battery makes it easy to charge and maintain, so you're always ready for the next adventure.

Exceptional power and control: Equipped with Cecotec's BoostToGlory 95 Nm motor system, this bike offers powerful and adaptable assistance with every pedal stroke, ensuring optimal performance in any situation.

Lightweight and resistant frame: The 6061 hydroformed aluminium frame with removable battery offers a perfect combination of light weight and durability. Its internal cabling system and Full Suspension system design ensure a sleek appearance and better protection against the elements.

Advanced suspension: The Rockshox 35 GOLD RL fork with 140 mm of travel and the highly adjustable DebonAir™ inner tube provide superior shock absorption. The Rockshox Deluxe Select shock with low-speed compression adjustment and lockout adds control and stability in the roughest terrain.

Perfect derailleur: The Shimano CUES 11-speed transmission system ensures smooth and precise gear changes, adapting to the demands of mountainous terrain.

Safe and precise braking: Shimano MT200 hydraulic disc brakes, with two pistons and 180 mm discs, provide reliable and safe braking in all conditions.

Technology within your reach: Monitor your route with the colour LCD display, which allows you to control speed, kilometers, assistance level and light with ease.
