The images shown on this document have been created for advertising and promotional purposes and may differ from the final product appearance.

A close-up photograph of a hand holding a sleek, black hair straightener. The device is oriented diagonally from the top-left towards the bottom-right. On the handle, there is a temperature control dial with five settings: 220°, 200°, 180°, 160°, and 140°. Below the dial is a circular power button with a standard power symbol. The brand name 'cec' is printed in a light color on the handle. The background is a soft-focus indoor setting with a light-colored wall and some blurred objects. A large, semi-transparent teal shape is overlaid on the left side of the image, partially covering the straightener's body.

Hair straighteners

Discover the range

Perfect hair in one pass

CERAMIC

Protects your hair

Our straighteners are designed with titanium plates, ultra-smooth advanced ceramic with micro-conditioners, and tourmaline ceramic to protect your hair in every pass.

IONISER

Glossy finishes

Through the negatively charged ions, the straighteners eliminate static electricity, conditioning the hair and eliminating frizz.

KERATIN COATING

Ultra-smooth glide

Thanks to the keratin and argan oil coatings¹, you'll enjoy a glide that minimises friction on the hair, protecting its health.

XL PLATES

Wide format

Straighten a larger amount hair with our wide plate straighteners². Reduce straightening time and achieve perfect, hair-friendly results.

WET&DRY

Wet straightening

Our hair straighteners are designed for both wet and dry straightening³. Enjoy stunning results in the comfort of your own home.

¹Coating types vary according to the model.

²Only available for the RitualCare Wet&Dry, RitualCare 900 Wet&Dry, RitualCare 950 Wet&Dry Max, Lisse i-Tech, and RitualCare Sphere Max models.

³Only available on RitualCare Wet&Dry, RitualCare 950 Wet&Dry Max and RitualCare 950 Wet&Dry Max Care models.

Lisse Plasma

*Corded narrow-plate hair
straightener*

LISSE PLASMA

Steam hair straightener

With our Lisse Plasma, you can straighten your hair gently and without getting caught, reducing frizz and increasing shine and softness thanks to its plasma technology that helps seal the hair cuticles.

FLOATING PLATES

Avoid burns

Thanks to its floating plates, the straightener adapts to the movement of the hair, minimising damage and distributing heat evenly to prevent burns, thus ensuring safe and effective styling. What's more, with its 3D plate design, you'll get optimal contact with your hair, allowing for smooth straightening without getting your hair caught.

CERAMIC COATING

Protects your hair

With its ceramic coating, it glides smoothly, reducing the risk of pulling and breakage. Additionally, ceramic helps distribute heat evenly, protecting your hair from thermal damage.

ADJUSTABLE TEMPERATURE

Customised heat

Select the temperature between 170°-230°C and customise the heat according to your hair type, getting optimal results without compromising the health of your hair.

Lisse iSteamy

Steam and infrared hair straightener

LISSE ISTEAMY

Take care of your hair, define your style

Enjoy frizz-free hair thanks to our Lisse iSteamy, which combines steam and infrared technology to seal the hair cuticle, reducing frizz and static electricity. Achieve salon-quality results at home: ultra-shiny, smooth and silky finish all day long.

ISTEAM FUNCTION

Say goodbye to dry, dull hair

With the iSteam function, the straightener retains your hair's natural moisture, protecting it from excessive heat and providing natural hydration with each pass for shiny, soft and visibly healthy hair.

INFRARED TECHNOLOGY

Heat that protects your hair

Effectively straightens hair at lower temperatures, caring for the cuticle and maintaining moisture thanks to the Infrared Technology. Ideal for coloured, fragile or chemically treated hair.

CERAMIC COATING WITH KERATIN

Less friction, more smoothness

Nourishes and protects hair with every pass thanks to its keratin ceramic coating.

RITUALCARE LISSE I-TECH

Lisse i-Tech

Corded wide-plate hair straightener

LISSE I-TECH

Healthy and silky hair

Lisse i-Tech is perfect for instantly straightening your hair and providing a longer-lasting smooth finish, without static electricity and with less frizz.

NEGATIVE ION TECHNOLOGY

Goodbye static electricity

Negative ion technology eliminates static electricity and reduces frizz, leaving your hair soft, manageable and with a natural shine. Enjoy silkier, more controlled hair, even on the most humid days.

INFRARED TECHNOLOGY

Healthier and silkier hair

Infrared technology penetrates deep into each individual hair, heating it from the inside out. This not only reduces heat exposure time and minimises damage, but also provides longer-lasting, shinier straightening, leaving your hair looking healthier and silkier with every use.

LED DISPLAY

Total control

Stay in full control of your styling routine with the integrated LED display that shows the temperature in real time. This clever design allows you to quickly adjust the temperature to suit your specific needs, always ensuring the right heat level for your hair type.

Lisse Keratin Essence Olive

RitualCare Keratin Essence: Corded slim hair straightener with HeatMax function, 130-230 °C, ceramic coating with keratin and argan oil, plate lock, automatic shut-off and travel pouch included.

FEATURES:

Fast and perfect straightening. HeatMax function: allows you to reach the maximum temperature quickly, saving time and ensuring perfect straightening, even on the most unruly hair.

Protects and nourishes the hair. Ceramic coating with keratin and argan oil to leave hair soft, shiny and frizz-free.

Suitable for all hair types. Adjustable temperature from 130-230 °C allowing effective straightening from the finest to the thickest hair.

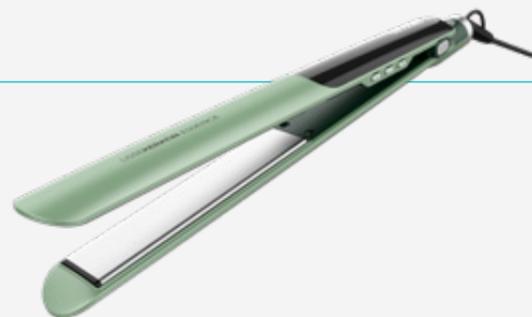

Avoid risks. Automatic shut-off after a period of inactivity to avoid risks and increase safety.

Easy storage and transport. The plate locking system ensures the hair straightener remains closed and secure when not in use.

Protects the hair straightener and makes it easy to transport. Travel pouch that allows you to store the hair straightener safely and also makes it easy to transport.

RitualCare Twerk

Hair straightener with vibration to improve the strand distribution all over the plate and thus be more efficient in a single pass, with 360° cable, temperature up to 230 °C and keratin coating.

FEATURES:

iMotion: this hair straightener revolutionises the market with its vibrating plates, an innovative technology that ensures even distribution of the hair all across the plate for perfect straightening in a single pass.

Automatic activation of vibration: The vibration of the plates is automatically activated when the plates come together, ensuring intuitive and efficient operation without the need for additional user adjustments.

Efficiency and time reduction in straightening: Thanks to the vibration of the plates, this hair straightener offers exceptional efficiency and significantly reduces the time needed to straighten hair.

Hair protection in a single pass: This hair straightener cares for and protects the hair by reducing the need to repeatedly pass it over each strand, thus minimising heat damage and maintaining the health of the hair.

Slim and lightweight design: With this design, the hair straightener is easy to transport and store, ideal for everyday use at home.

Adjustable temperature up to 230 °C: with the capacity to reach a maximum temperature of 230 °C, this hair straightener offers precise heat control to suit different hair types and styling needs, starting from 160 °C.

Ceramic coating: Its plates are coated with high quality ceramic, which ensures a smooth and even glide over the hair, minimising damage and providing long-lasting, professional results. LED display: it clearly shows the selected temperature, allowing you to adjust it precisely to your hair's needs, giving you total control over the straightening process.

360° rotating cable: Equipped with a 360-degree swivel cord, this hair straightener offers total freedom of movement during use, making it easy to style at any angle and in any direction.

Plate lock: The plate locking system ensures safe and compact storage as well as easy and convenient handling of the hair straightener when not in use.

Lisse Plasma

Slim hair straightener with floating plates and Plasma technology for frizz-free hair

FEATURES:

Reduces frizz through the emission of negative and positive ions, increasing shine and smoothness by sealing hair cuticles. Additionally, it protects against heat damage by locking in natural moisture and providing long-lasting straightening even in humid conditions. Significantly reduces styling time, ensuring a faster and more effective finish. Plasma technology.

Adapts to hair movement, minimising damage and distributing heat evenly to prevent burns, ensuring safe and effective styling. Floating plates.

The 3D plate design ensures optimal contact with hair, allowing smooth straightening without snagging, for a perfect finish every time.

Customise heat according to your hair type, ensuring optimal results without compromising hair health. Adjustable temperature range from 170°C-230°C.

Smooth gliding, reducing the risk of pulling and breakage. Additionally, ceramic helps distribute heat evenly, protecting your hair from thermal damage. Adjustable temperature range 170°C-230°C.

Turns off the straightener after a period of inactivity for greater safety and energy savings.

Automatic shut-off.

Allows safe handling, minimising burn risk during use. Cool tip.

Ready to use in seconds, ideal for quick and efficient styling. Quick heating.

For safe storage, easy transport and to protect the plates and increase their durability. Plate lock.

Lisse iSteamy

Lisse iSteamy – Steam and infrared hair straightener | Perfect damage-free straightening, deep hydration and glossy finish | Straightens and curls | Adjustable temperature | Premium design + Luxury case

FEATURES:

Say goodbye to dry, dull hair. Retains your hair's natural moisture, protecting it from excessive heat and providing natural hydration with each pass for shiny, soft and visibly healthy hair. iSteam function.
Heat that protects your hair. Effectively straightens hair at lower temperatures. Thus, it cares for the cuticle, maintains hydration and is ideal for dyed, fragile or chemically treated hair. Infrared technology.
Salon results at home. Hair treatment while styling, offering a polished finish that revitalises your hair.
Perfect straightening. Precise steam in each pass that applies the right amount, ensuring uniform and long-lasting straightening without wetting the hair or compromising results. Controlled steam release technology.
Less friction, greater smoothness. Nourishes and protects hair with every pass. Ceramic coating with keratin.
Straighten or curl effortlessly. Curved design for creating waves, defined curls or impeccable straight hair without complications.
Frizz-free hair. Seals the hair cuticle, reduces frizz and static electricity. The result is an ultra-glossy, straight and silky finish that lasts all day. Steam and infrared combination.
Ideal for all hair types. Adjustable temperature from 150°C to 210°C according to your needs without damaging hair fibre.
Control at your fingertips. Always check the exact temperature you're using and adjust it to your needs. Digital display.
Take it anywhere. Includes thermal cover and leather case for safe transport.
Innovation and comfort. Ergonomic and elegant design.

RitualCare 2000 Summer Waves

Ceramic hair waver with tourmaline coating.

FEATURES:

Ceramic wave iron, with minimal friction and hair breakage. It has 2 25-mm barrels to create perfect waves in a single movement and a surf look in an easy and quick way. Thanks to its ionizing function you will get a shiny and silky hairstyle. Features 3 temperatures from 160° to 200° in 20° intervals, adapting perfectly to your hair. The wave iron has a cold tip and safety auto shutdown after 30 minutes of inactivity to avoid accidents and overheating. Includes a hanging ring and travel pouch, perfect to take the wave iron wherever you need it. 1.8-metre and 360° cord, so you can freely move while preparing your surfer look. Quick warm-up, so you can achieve your best look quickly. Thanks to the plate lock, you can store it conveniently.

Hair straightening brushes

Discover the range

**Straight yet
voluminous hair**

UP TO 11 TEMPERATURE LEVELS

Power for every hair type

Our brushes have up to 11 temperature levels to perfectly straighten your hair.

CERAMIC COATING

Protective ceramics

The ceramic coating of the brushes distributes the heat evenly across the plaque, reducing reducing straightening time and, therefore, hair damage.

COATINGS

Coatings designed for your hair

Coatings with avocado extract, keratin and argan oil add shine and moisturise the hair without reducing volume, promoting glide and preventing tugging and breakage.

IONREAL

Say goodbye to frizz

Ion technology makes hair shinier and frizz-free, as well as offering greater protection and care.

INSTANTCARE LISSE

Ideal for all types of curls, including afro hair

25 PINS, 24 HEATERS AND 2 HEATING PLATES

Total coverage and quick styling

Its 25 pins, 24 heaters and 2 heating plates distribute heat evenly and allow large sections of hair to be straightened in less time. Fewer passes, less damage, and uniform styling from root to tip. Save time and effort.

BRUSH + STRAIGHTENER

The best of both worlds

InstantCare combines the best of both worlds: the control of a brush and the smoothing power of a straightener in one pass. With a single tool you can detangle, straighten and style effortlessly, simplifying your daily routine.

CERAMIC AND KERATIN COATING

Protect your hair from excessive heat

Its ceramic and keratin coating ensures even heat distribution, preventing hot spots and reducing thermal damage. Your hair is softer, shinier and healthier after each use. Ceramic and keratin coating.

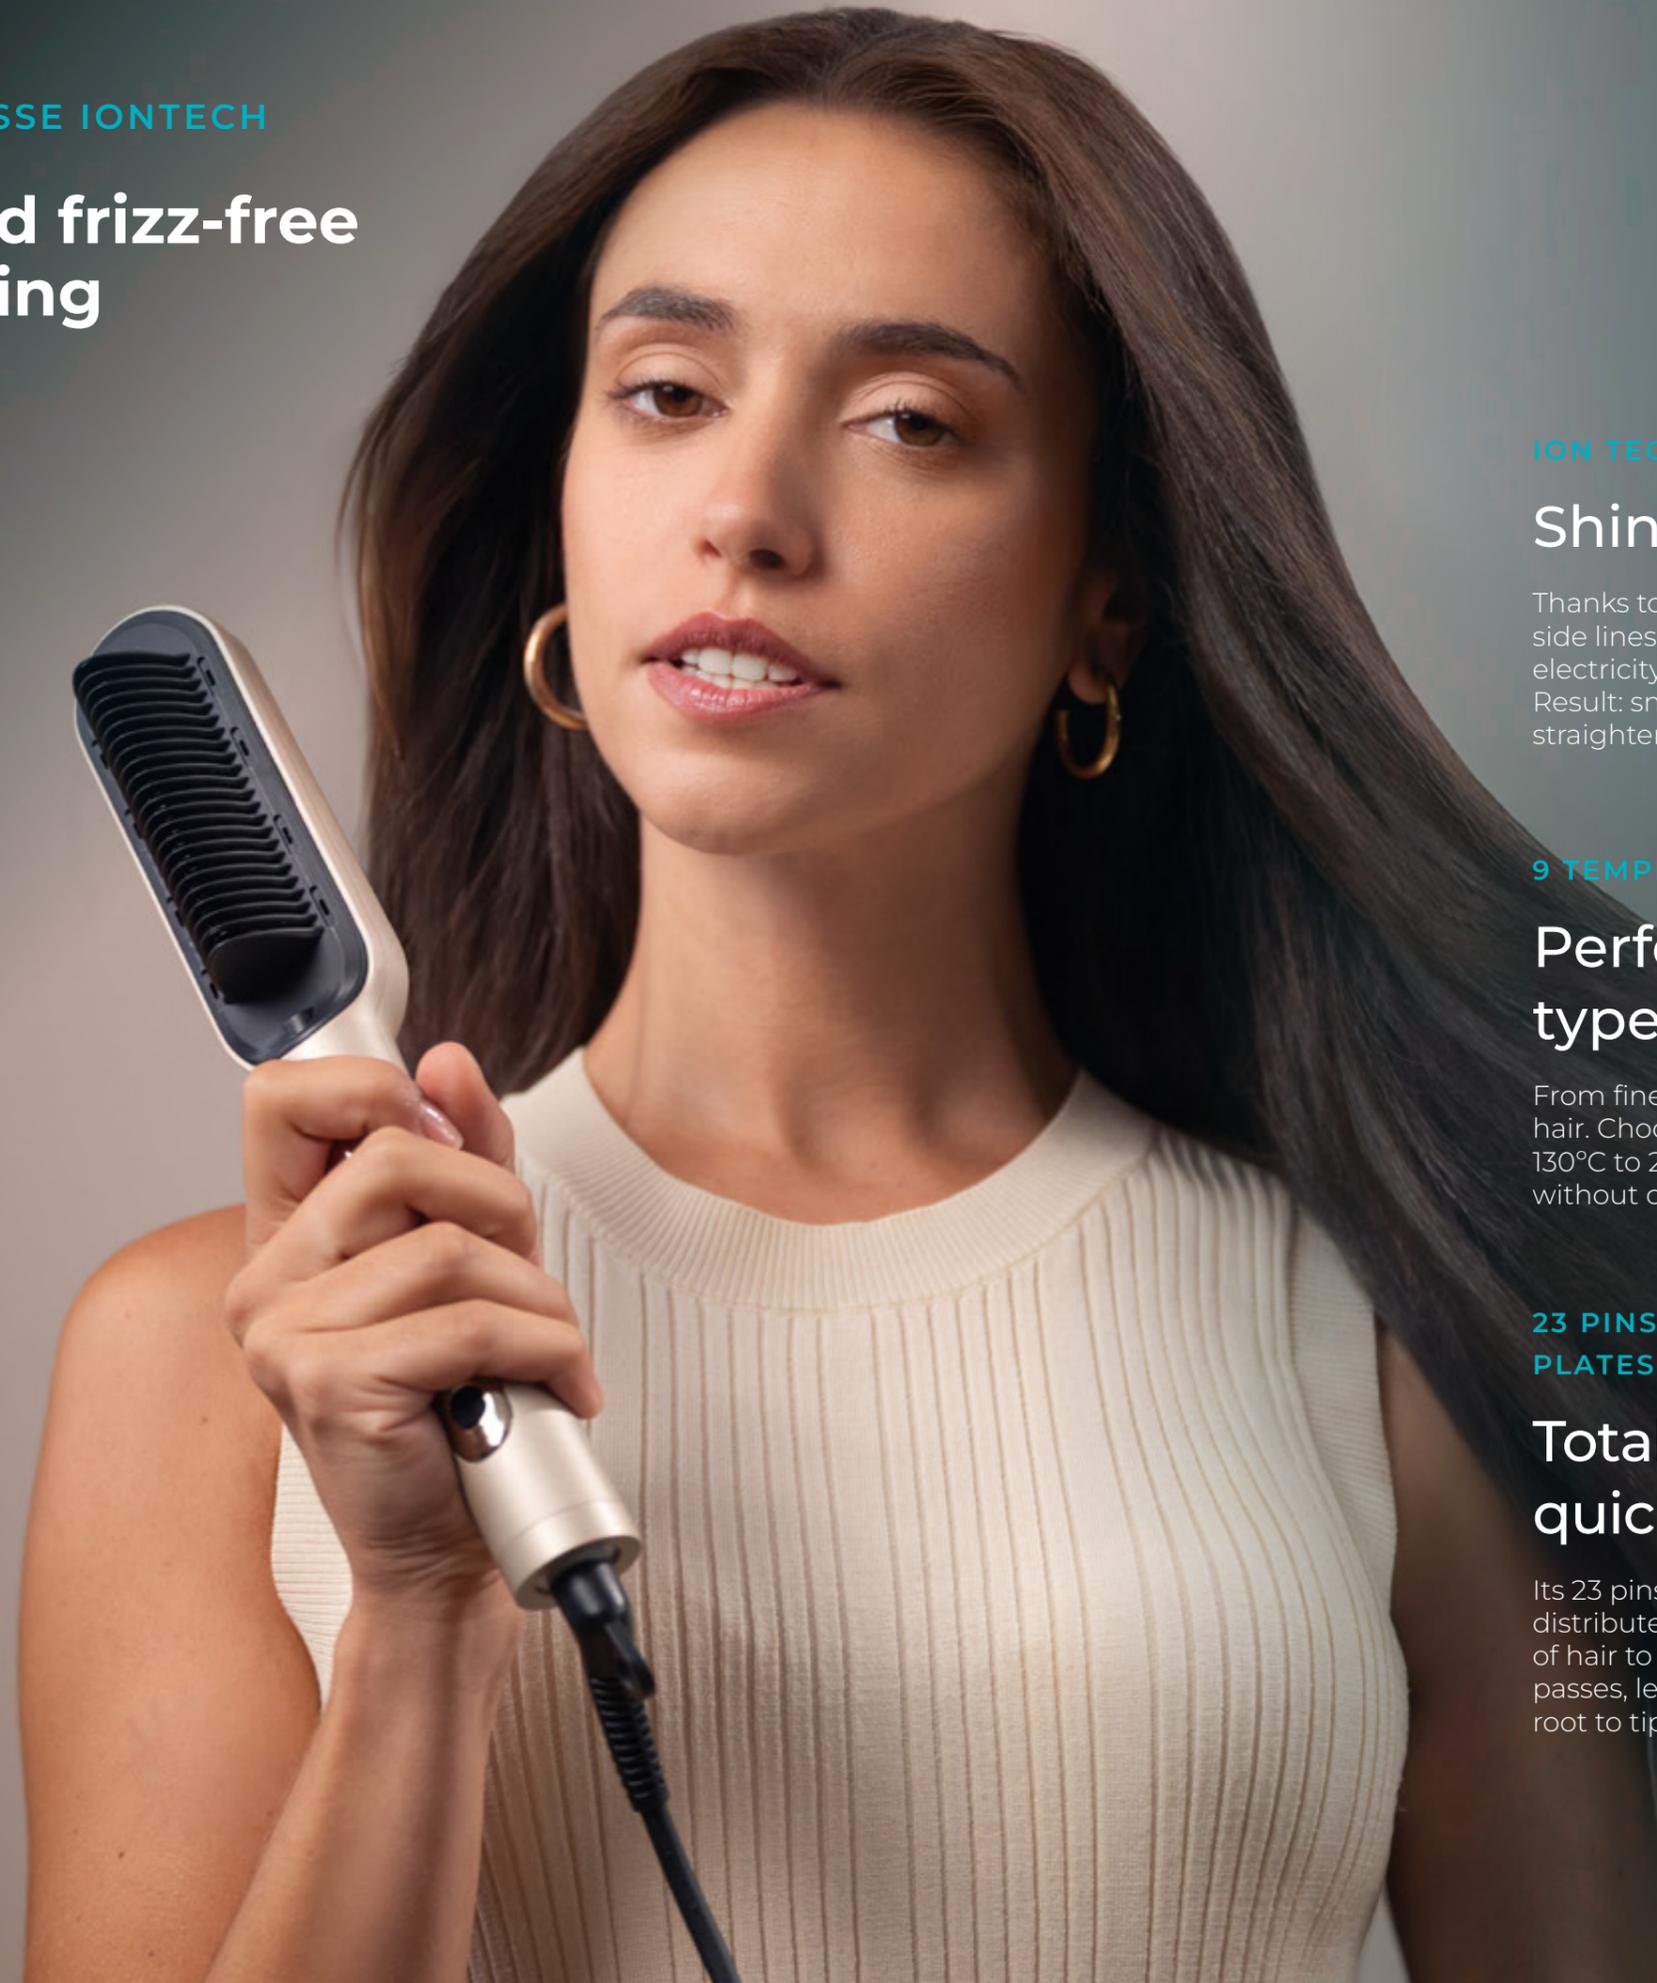

SMART THERMAL CONTROL TECHNOLOGY

Precise heat, uniform results

Thanks to its intelligent thermal control technology, it maintains constant temperature across the entire brush surface. This prevents heat variations and allows for uniform finishing on each strand, from root to tip.

INSTANTCARE LISSE IONTECH

Perfect and frizz-free straightening

ION TECHNOLOGY

Shiny, frizz-free hair

Thanks to its more than 40 million ion-emitting side lines, the ion generator balances static electricity, fights frizz and seals the hair cuticle. Result: smoother, shinier and longer-lasting straightening with anti-frizz effect.

9 TEMPERATURE SETTINGS

Perfect for all hair types

From fine and delicate to thick and rebellious hair. Choose from 9 temperature levels from 130°C to 210°C for personalised straightening without compromising hair health.

23 PINS, 22 HEATERS AND 2 HEATING PLATES

Total coverage and quick styling

Its 23 pins, 22 heaters and 2 heating plates distribute heat evenly and allow large sections of hair to be straightened in less time. Fewer passes, less damage, and uniform styling from root to tip.

InstantCare ThermoGlow

Brush with infrared and ionic technology, 5 temperature settings, 38 mm, Memory function, display, automatic shut-off and swivel cord.

FEATURES:

Minimises heat damage. Infrared technology gently penetrates the hair, reducing styling time and leaving hair soft and silky.
Less frizz and greater shine. Fight frizz and enhance your hair's natural shine with ionic technology for a smooth, polished finish that lasts all day.
The ceramic coating enriched with keratin and argan oil nourishes and protects the hair, leaving it soft, shiny and healthy after each use.
Customise the heat. With five temperature settings, from 140 to 210°C, depending on the needs of your hair, from fine to coarse, ensuring effective styling without compromising hair health.
Creates soft, voluminous waves. The 38 mm barrel provides a professional and natural finish to your hairstyle.
Save time and effort with every use. The Memory function remembers your last temperature setting so you can enjoy perfect styling quickly and easily.
Precise temperature control. The built-in display allows you to always choose the right setting for your hair type.
Automatic device shut-off. The automatic shut-off function after a period of inactivity provides additional safety. In addition, the 360° swivel cord provides freedom of movement, avoiding tangles.

InstantCare Lisse

InstantCare Lisse – Straightening brush with 25 teeth | 5 temperature settings for all hair types | Ceramic coating | Smart chips | 30s heat-up | Includes thermal glove and clips | Auto shut-off

FEATURES:

Total coverage and quick styling.
Distributes heat evenly and allows straightening of large sections of hair in less time. Fewer passes, less damage, and uniform styling from root to tip. 25 teeth, 24 heating elements and 2 heating plates.
Save time and effort.
InstantCare combines the best of both worlds: the control of a brush and the smoothing power of a straightener. With a single tool you can detangle, straighten and style effortlessly, simplifying your daily routine. Brush + straightener in one step.
Adapt heat to your hair type.
From 130°C to 210°C, each level is designed for a specific hair type. Whether fine, dyed, wavy or very curly, you can select the ideal temperature for perfect results without damaging your hair. 5 customised temperatures.
Protect your hair from excessive heat.
Its ceramic and keratin coating ensures even heat distribution, preventing hot spots and reducing thermal damage. Your hair is softer, shinier and healthier after each use. Ceramic and keratin coating.
Total safety for you and your scalp.
Designed with your safety in mind, the brush features an insulating housing that prevents accidental burns, allowing you to straighten near the roots without risk. Anti-burn housing. Ideal for quick routines
Ready in half a minute! InstantCare reaches 130°C in just 30 seconds, saving you time on busy mornings. 30-second heat-up.
Style like a professional.
The set includes a protective glove and two clips for sectioning hair, facilitating section-by-section styling and improving straightening control. Includes heat-resistant glove and clips.
Precise heat, uniform results.
Thanks to its intelligent thermal control technology, it maintains constant temperature across the entire brush surface. This prevents heat variations and allows for uniform finishing on each strand, from root to tip. Smart chips.
Guaranteed safety

InstantCare Lisse IonTech

InstantCare Lisse IonTech – Straightening brush with Ion Technology | 9 temperature settings (130°C–210°C) | Ceramic coating | 23 teeth | 30s heat-up | Smart chips | Anti-burn protection | Includes heat-resistant glove and clips

FEATURES:

Shiny, frizz-free hair.

Thanks to its ion-emitting side lines, the ion generator balances static electricity, fights frizz and seals the hair cuticle. Result: smoother, shinier and longer-lasting straightening with anti-frizz effect. Ion technology, over 40 million ions.

Total coverage and quick styling.

Distributes heat evenly and allows straightening of large sections of hair in less time. Fewer passes, less damage, and uniform styling from root to tip. 23 teeth, 22 heating elements and 2 heating plates.

Simplify your daily routine.

Combines the structure of a brush with the power of a straightener. Detangles, straightens and styles in a single motion, saving time and eliminating the need for multiple tools. Brush + straightener, all-in-one.

Perfect for all hair types.

From fine and delicate to thick and rebellious hair. Choose from 9 temperature levels for personalised straightening without compromising hair health. 9 temperature settings (130°C to 210°C).

Protect your hair from excessive heat.

Its ceramic and keratin coating ensures even heat distribution, preventing hot spots and reducing thermal damage. Your hair is softer, shinier and healthier after each use. Ceramic and keratin coating.

Maximum safety during use.

Designed with heat-resistant insulating materials, this housing protects your hands and scalp. Style with complete confidence and peace of mind. Anti-burn housing.

Ready when you are.

Ideal for time-pressed routines. Reaches 130°C in just 30 seconds, allowing you to start styling almost immediately. 30-second heat-up.

Style like a professional.

Accessories designed to simplify your routine. The heat-resistant glove protects your dominant hand from heat. The clips help divide hair into sections, achieving uniform straightening.

Includes heat-resistant glove and 2 clips.

Automatic curling irons

Discover the range

**Effortlessly
fluffy curls**

KERATIN PROTECTIVE

Curls made easy

The curling wand automatic system allows you to enjoy comfortable curling with a vertical grip. All you have to do is insert the lock into the cylinder and the curling iron will do the rest.

PRO IONIZER

Say hi to ions. Say goodbye to frizz

Get your curls looking shiny and hydrated with negative ions that help keep hair frizz-free.

CERAMIC COATING

Protective coatings.

Automatic curling irons coated with keratin and argan oil that care for the hair by reducing heat damage.

RUNTIME

Cordless¹

Its lithium battery offers an up to 50-minute operation, allowing you to curl your hair anytime, anywhere.

¹Only available for the SurfCare 750 Travel Magic Wave model.

SurfCare 750 Travel Magic Wave

Automatic cordless ceramic curling iron with temperature and time setting, and LCD display.

FEATURES:

It features an advanced ceramic barrel that reaches temperature in very little time, avoiding overheating, taking care of the hair and ensuring smooth curls. This curling iron is cordless and includes a 5000-mAh lithium battery that provides it with an up to 50-minute battery life, for you to curl your hair anywhere you are. Curling hair vertically allows a much more comfortable use and results in symmetrical curls, as it prevents hair from tangling and from breaking. Much easier and safer use, avoiding contact with the heating element. Its LCD screen with indicators displays temperature and time, adjustable from 3 to 15 seconds. Adjustable temperature from 160 °C to 200 °C in 20-°C intervals. It adapts to any type of hair. It includes a heatproof travel pouch, for you to take your curling iron anywhere you go. Includes curl guide at the top of the curling barrel to ensure the size of the hair section and the position is correct. Professional curls every day in the easiest and fastest way. Its curling system allows creating 3 different curling styles: Towards your face, in opposite direction or alternating, resulting in more natural and amazing looks. It includes an adjustment dial, to adjust time and temperature simple and easily, avoiding the accidental modification of the parameters during its use. It features a sound indicator when the curl is ready, when the desired temperature is reached and when it turns on and off. It has a 5000-mAh lithium battery and has a 3 hrs 15 min charging time. This automatic curling iron designed by Cecotec is designed with a fast and efficient barrel heating system, for you to prepare your hairstyle whenever you want.

SurfCare 3200 PlasmaWaves

FEATURES:

Plasma technology (combines positive and negative ions to completely eradicate frizz). Eliminates frizz and improves hair softness, ensuring defined and shiny curls. This innovation helps close the hair cuticle, locking in moisture and reducing damage, giving a healthy, professional finish.

The ceramic coating provides even heat distribution and minimizes the risk of damage from excessive heat. This soft and efficient material allows easy gliding, leaving hair silky and protected while curling.

The integrated clip facilitates the curling process, providing a secure and manageable grip. This allows you to create defined, long-lasting curls with comfort and precision, ideal for beginners and experts.

Customise your curling experience with an adjustable temperature range from 130°C to 200°C. This feature allows to adapt the heat to the specific needs of your hair, ensuring optimal results and protecting the health of your hair.

SurfCare MultiWaves

Multi-head hair curler with 5 heads for different curls, with a 90 degree bend to ensure more comfortable use. It includes a heat resistant glove, case and 2 clips.

FEATURES:

Variety of heads: Comes with 5 different sized and shaped heads, allowing you to experiment with a wide range of curling styles, from soft waves to defined curls.

90°: It includes a special head with a 90° angle, designed to offer comfort during the curling process by not requiring the arms to be raised.

Accessories included: It includes a heat resistant glove to protect your hands from heat, a case for convenient storage and transport, as well as 2 clips to secure hair while working on curls.

25-13 mm conical head: The conical head, with a diameter of 25 mm at the base and 13 mm at the tip, creates natural, textured surfer waves for a casual, modern style.

25 mm head: The 25 mm diameter head produces more open and softer waves, perfect for a romantic and smart look.

19 mm head: If you prefer more classic, defined waves, the 19 mm head is ideal for creating compact, long-lasting curls.

Fine head for pronounced waves: With a diameter of 8 mm, the fine head produces fine, sharp waves, perfect for retro or vintage styling.

Spherical head: The spherical head allows you to create natural curls, adding texture and volume to your hair in a fun way.

Ceramic coating: All heads are coated with ceramic, which evenly distributes heat and protects the hair from heat damage, ensuring smooth and shiny results.

Adjustable temperature: With an adjustable temperature range from 140 to 200 °C, you can customise heat to suit your hair type and desired style, ensuring optimal and long-lasting results.

Hair care brushes

Discover the range

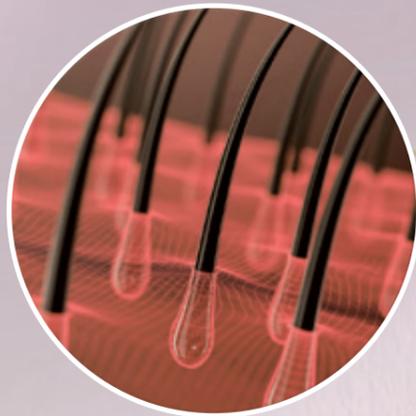

Repair your hair in every pass

Our repairing brushes not only detangle, but also repair and care for hair from root to tip. It combines the latest in hair technology to restore your hair's natural strength, shine and elasticity with every use.

EMS MICROCURRENTS

Stronger and healthier hair

Its EMS microcurrents deliver nutrients and stimulate hair follicles, strengthening hair roots. This technology improves circulation, strengthens scalp muscles and helps repair damage, promoting stronger and healthier hair.

HIGH-FREQUENCY VIBRATION

Revitalize your scalp

Enjoy a relaxing massage that soothes the scalp and relieves muscle tension thanks to its high-frequency vibration, which is perfect for revitalising your scalp and improving hair condition from the roots.

RED AND BLUE LED LIGHT

Improve your hair health

Thanks to its red LED light, which stimulates blood flow to the scalp and activates hair cells, it promotes hair growth and strengthens hair follicles, improving your hair health. Moreover, blue LED light balances oil levels, refreshing and revitalising the scalp. This technology is especially effective in preventing hair loss.

BUILT-IN SERUM APPLICATOR

100% customized routine

Includes a practical container where you can place your favourite hair product. The brush distributes serum uniformly while applying heat, vibration and light, multiplying your treatment's effect and allowing a 100% personalised hair care routine.

HairCare Revitalize Little

HairCare Revitalize Little – Restorative brush with LED light, serum applicator and vibratory massage | Treats, repairs and stimulates hair growth | 4 LED lights | At-home hair treatment

FEATURES:

The HairCare Revitalize Little not only detangles but repairs hair from root to tip. Its combined action of LED light, massage, and serum distribution transforms daily brushing into a complete hair treatment that enhances hair shine and strength. Hair repair brush that cares for and heals your hair.

Insert your trusted hair product and let the brush distribute it evenly throughout your hair, while enhancing its effect with LED light and massage for a perfect care routine. Built-in serum applicator.

Thanks to its advanced LED light therapy, this brush stimulates blood flow in the scalp and activates hair cells, providing density, strength and vitality naturally and progressively. Four types of LED light.

Regulates scalp oil secretion.

The blue LED light helps balance oil production, ideal for those with greasy hair or unbalanced scalp. Promotes a healthy environment for cleaner, longer-lasting hair growth. Blue light.

Improves vitality and nutrient absorption.

Red light deeply nourishes the scalp, stimulates blood circulation and enhances nutrient absorption, resulting in stronger, thicker hair that's more resistant to falling out. Red light.

Promotes liquid nutrient absorption.

Ideal for use with your favourite serum, pink light facilitates effective absorption of liquid hair products, helping actives penetrate better and act more intensively. Pink light.

All-in-one effect for hair.

The flashing mode combines all properties of previous lights, offering a complete hair treatment that stimulates growth, reduces oil and restores shine and elasticity. Flashing pink light.

This brush's vibration activates scalp circulation and stimulates hair follicles, helping to reinforce hair growth and relax tension. Ideal for complete care and a comforting sensory experience. Vibration mode for scalp massage.

Stay informed thanks to the display that shows revolutions per minute, remaining battery percentage, and selected side. This feature allows you to customise your user experience, ensuring accurate and efficient results.

HairCare SmoothEnds

HairCare SmoothEnds: Split-end trimmer for healthy and radiant hair anytime

FEATURES:

Split-end trimmer: HairCare SmoothEnds is the perfect ally to keep your hair healthy and radiant. Designed specifically for trimming split ends, this device helps you maintain healthier-looking hair anywhere, anytime.

Cordless operation: SmoothEnds offers complete styling freedom with battery-powered convenience. Forget about cables and experience ultimate convenience of use, allowing you to style your hair anywhere, anytime.

Autonomy and charging: With 140 minutes of autonomy and a charging time of only 3 hours, the HairCare SmoothEnds is always ready for you. Don't worry about running out of battery power in the middle of your beauty routine; this trimmer is designed to keep up with you.

Split-ends collection chamber: Built-in container that catches all trimmed ends for a clean, tidy styling space. This innovative design ensures that your beauty space is kept tidy and clean, facilitating the hair care process.

Cleaning brush included: The HairCare SmoothEnds includes a handy brush to clean the collection chamber after each use. This accessory ensures that your device is kept in optimal conditions, extending its service life and ensuring flawless performance.

Side selection: Take full control of your trim with customisable left or right side operation. This feature gives you complete control over the process, ensuring a professional and symmetrical finish.

Information display: Stay informed thanks to its display, which shows the real-time RPM, remaining battery percentage and selected side. This feature lets you customise your experience, ensuring precise and efficient results.

Safety lock: Safety comes first with the HairCare SmoothEnds. Its safety lock prevents accidental activation, protecting both the device and user during storage and transport.
