Exercise and indoor bicycles

Indoor and exercise bicycles

Pedal towards your goals

MAGNETIC RESISTANCE

Maximum fluidity

Magnetic resistance system using magnets that provide a fluid and natural pedalling sensation, minimising maintenance.[1]

APP

Connect your bike

Connect your bike to the Kinomap App and enjoy its advantages. Automatically adjusts the resistance level and detects slopes or gradients on the selected route. Plus, you can compete online with other users and track your workouts for a unique experience.[2]

FOLDABLE

Don’t let it take up space

Once you’ve finished cycling, simply fold the bike so you can store it in any corner without it getting in the way.[3]

24 KG FLYWHEEL

Smooth and quiet pedalling

It provides stable resistance and smooth movement for a consistent, quiet ride.

COMPLETE YOUR WORKOUT

- Heart rate monitor
- LCD display
- Transport wheels
- Device holder

[1]DrumFit Indoor Professional Incline, Drumfit indoor PulseRide and Drumfit Indoor 10000 Magnetic Connected.

[2]App availability varies on certain models.

[3]Only available on some models of indoor bikes and elliptical trainers.

X-Bike

Foldable magnetic bicycle with Silence Fit system and heart rate monitor.

FEATURES:

Folding stationary bicycle, magnetic operating.
Silence Fit system: Agile and silent pedaling.
Heart rate monitor that displays heart rate during training.
LCD display that shows time, speed, consumed calories, distance and heart beats. Built-in SCAN function.
8 variable resistance levels to simulate flat surfaces and hills.
2.5-Kg Flywheel. The best smooth transmission through chain.
Xtreme Confort: Maximum comfort saddle.
Advanced ergonomics, for optimum positions during training thanks to its design and its adjustable elements.
Pedals with belt for greater safety and maximum comfort.
Easy to move thanks to its transport wheels.
Maximum load: 100 kg.

COMPOSITION:

Bike, 2 AAA batteries, instruction manual, assembly tools

114.5 x 20.5 x 37.5 cm 15 kg

DrumFit X-Bike 3000 Neo Pro

Foldable stationary bicycle with backrest. LCD display. Adjustable magnetic resistance. Comfort seat with backrest and side grips. Tablet holder and transport casters.

FEATURES:

Xtreme Comfort Plus: Maximum comfort seat with padded folding backrest and side handlebar for maximum grip.
3 kg flywheel
8 adjustable resistance levels.
MultiTrainer system: incorporates two elastic bands for arm, back and shoulder training; and a waist and hip twisting disc for stretching, working out dorsal abdominals and improving balance.
EasyFold: easy and compact folding system to store the bike in small spaces.
LCD display that shows time, speed, consumed calories, distance and heart beats. Built-in Scan function.
Smart Training: includes holder for electronic devices.
Easy transport with casters.
Heart rate monitor: check your heart rate.
Pedals with belt for greater safety and maximum comfort.
Advanced ergonomics, for optimum positions during training thanks to its design and its adjustable elements.
Maximum user weight: 100 kg.

DrumFit Indoor Professional Incline

Professional indoor bike with magnetic resistance and motorised incline. APP. Aluminium 10 Kg flywheel. 16 incline levels. 32 resistance levels. Transport wheels. Device holder. Maximum weight 110 kg and maximum height 190 cm.

FEATURES:

10 kg aluminium flywheel, narrower, sleeker and lighter for a completely fluid and natural workout.
Up to 32 levels of motorised resistance thanks to the PMS resistance system that allows you to adapt your workouts according to your level of demand.
Up to 16 levels of motorised incline, with half moving forwards and the remaining eight moving backwards. It can be controlled from the handlebars to simulate real movements during training.
APP: compatible with the Kinomap app to offer a more fun and dynamic training with workouts and routes.
Circular LCD touchscreen display shows time, distance, incline, speed and resistance.
Horizontally adjustable handlebars and both vertically and horizontally adjustable saddle for maximum comfort to get the most out of your workouts.
Ergonomic design thanks to the sporty saddle and handlebars, as well as stable thanks to the various stabilisers that provide support and resistance to the whole. It also has a smart tri-colour light on the back that changes according to movements and intensities.
Taking care of details: Device holder for a more dynamic and entertaining workout, and transport wheels for easy storage.
Product dimensions: 150 x 80 x 116.5 cm
Maximum user weight: 110 kg

Elliptical trainers

Elliptical trainers

STRIDE

Increase your daily steps

Simulate a more natural stride (up to 43 cm) with our elliptical bikes

MOTORIZED RESISTANCE

Adjustable with a single click

Our bikes have a wide range of motor-controlled resistance levels, so you can choose from flat to mountain training with the utmost comfort.

APP

The route starts at home

Connect your bike to the Kinomap App and enjoy its advantages. Automatically adjusts the resistance level and detects slopes or gradients on the selected route. Plus, you can compete online with other users and track your workouts for a unique experience.[4]

COMPLETE YOUR WORKOUT

- LCD — LCD display
- Handlebar heart rate monitor
- Transport wheels
- Device holder.

[4]Only available on some models of indoor bikes and elliptical trainers.

Drumfit Elliptical 8000 Magno

Elliptical cross trainer with magnetic resistance and 8 manually adjustable levels. 8 kg flywheel. 38 cm stride. Heart rate monitor. LCD display. Device holder. Maximum weight 110 kg and maximum height 190 cm.

FEATURES:

Smooth pedalling: its magnetic resistance system with magnets provides a smooth and natural pedalling sensation, minimising maintenance.
Adapt the training intensity: its 8 kg flywheel offers a training intensity adapted to all types of people.
Natural stride: 38 cm stride length simulates the natural stride for a comfortable workout.
Choose the resistance: you can choose from 8 resistance levels, which are manually adjustable to achieve the ideal workout for you.
Hands Free: includes device holder, for smartphones, tablets, books, etc., for more entertainment while exercising.
Monitor your pulse: it is equipped with a heart rate monitor that measures your heart rate during training.
See everything on the display: the LCD console will show you your time, speed, calories burned, total distance travelled, heart rate and RPM.
Place it wherever you want: its easy movement thanks to its transport wheels will allow you to place it wherever you want.
Maximum weight of 110 kg: the maximum user weight must not exceed 110 kg for safe and accident-free use.

Air bikes

Air bikes

LEG AND ARM ACTIVATION

Full body

Air bikes also have movable arm bars that activate the upper body, stabilizing core muscles and providing a more efficient workout for the entire body.

FRICTION AND AIR RESISTANCE

Challenge your endurance

Our air bikes are ideal for those who are looking for an intense and demanding workout, since the more force you apply when pedalling, the greater the resistance will be.

BIDIRECTIONAL PEDALLING

Full training

Pedal forwards and backwards to add variety to your workout by engaging different muscles.[6]

COMPLETE YOUR WORKOUT

- Device holder.
- Transport wheels
- LCD display

APP

Total control

Connect to the app and keep a digital record of all your workouts.[7]

[6]Not available on the Drumfit WOD Rider 2000 Eolo PRO model.

[7]Available on the Drumfit WOD Rider 2000 Eolo PRO and Drumfit WOD Rider Ultimate models.

Drumfit WOD Rider 3000 Eolo

Air resistance bike. Air Bike. 62 cm diameter fan. Horizontally and vertically adjustable saddle. LCD display. Device holder. Toe clips Cushioned handlebar. Bidirectional pedalling. Transport wheels. Maximum weight 120 kg and maximum height 190 cm.

FEATURES:

Air resistance: the greater the power applied in training, the greater the resistance of the bicycle.
Adjustable saddle: position your saddle both horizontally and vertically and adjust your position for best performance.
Bi-directional pedalling: pedal forwards and backwards and achieve greater diversity in training by exercising different muscles.
LCD display: monitors distance, speed, time and calories with odometer function.
Full body training: with your bike you can train your whole body by combining leg resistance with pedalling, and arm strength with handlebar grips.
Aerobic exercise: improve cardiovascular endurance and aerobic capacity with your bike.
Reduce impact: train without impact and protect your joints.
Compact size: get your daily exercise without the size of your bike getting in the way.
Maximum weight: the maximum user weight supported by the bicycle is 120 kg.

Drumfit WOD Rider 2000 Eolo PRO

The Drumfit WOD Rider 2000 Eolo PRO is an air bike for intensive training, featuring a 480 mm fan with progressive resistance, silent belt drive, LCD screen, transport wheels, and compatibility with Swift and Kinomap.

FEATURES:

Achieve much more intense workouts with the progressive resistance and natural ventilation provided by this air bike's 480 mm diameter fan.
It offers smooth, quiet, and durable pedalling thanks to its belt resistance.
Keep track of time, distance, calories, WATT, speed, and RPM at all times with its LCD screen.
Heart rate receiver allows heart rate measurement via a compatible chest strap and displays the results directly on the console (not included).
Move and store the bike thanks to its transport wheels.
Provides safety and stability, especially for heavier users, with a maximum capacity of 135 kg.
Digital tracking. Kinomap and Zwift compatible.

COMPOSITION:

Air bike.
2 x 1.5 V AA batteries.

Drumfit WOD Rider Ultimate

The Drumfit WOD Rider Ultimate is a high-performance air bike with a 679.5 mm fan, offering progressive resistance, bidirectional pedalling, a smooth and silent dual belt, LCD screen, and connectivity.
Performance for users up to 135 kg, with transport wheels.

FEATURES:

Achieve more intense workouts with the resistance and natural ventilation provided by this air bike's 679.5 mm diameter fan.
It offers smooth, quiet, and durable pedalling thanks to its dual belt resistance.
Increase training effectiveness and train both pushing and pulling with its bidirectional pedalling.
Keep track of time, distance, calories, WATT, speed, and RPM at all times with its high-definition LCD screen.
Digitally track your workout. Kinomap and Zwift compatible.
Heart rate control.
Ensures your safety and stability, especially for heavier users, with a maximum capacity of 150 kg.
Move and store the bike thanks to its transport wheels.

COMPOSITION:

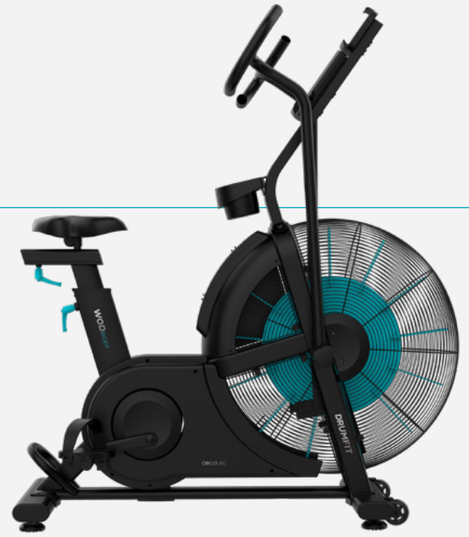

Air bike.

Treadmills

Treadmills

COMPLETE YOUR WORKOUT

Device holder.

MAXIMUM SPEED: 22 KM/H

Choose the speed

Run faster and exceed your goals with our treadmills, which have a maximum speed of up to 22 km/h.[8]

INCLINE ADJUSTMENT

Adjustable height

Our treadmills offer a wide range of resistance levels so you can choose between a flat workout and a hill workout with the utmost comfort.

RUNNING SURFACE

Larger, more comfortable

A wide running surface helps you run comfortably. Train without limits with up to 161 cm x 56 cm of surface.

MOTOR: 4.0 HP (RATED) / 5 HP (PEAK)

Train without limits

Perfect for intensive workouts.[10]

Rowing machines

Rowing machines

3 resistance types

MAGNETIC

Quiet, steady and smooth

Magnetic resistance paddles use large magnets that move towards or away from the flywheel to regulate the resistance. The resistance on this type of paddle is constant and is set from the console, so it will not increase if you start paddling harder.

HYDRAULICS

Safe and progressive training.

Offers safe, stable and progressive training.

WATER

A more authentic experience.

This type of resistance is ideal for simulating rowing on water. The water level in the tank simulates the weight of the boat in motion, so the more water, the greater the weight and the greater the force required. When the tank is completely full, the training will be based on a higher level of strength as the rowing will be heavier.

UP TO 12 RESISTANCE LEVELS

Customise every workout

Tailor every session to your needs and enjoy a unique, bespoke workout.

RAIL LENGTH

Deep rowing

With a rail length of up to 85 cm, the paddle is ideal for making deep strokes and increasing the demands of your workout.

APP

Work out while having fun

By linking the rowing machine to the Kinomap app, you can take advantage of benefits such as competing online against other users, keeping track of your workouts and exploring various routes.[11]

FOLDABLE

No space problems

Are you done working out for today? Fold your rowing machine and optimize the space in your home.

[11]Available on the Drumfit Rower 20000 Neptuno Wood model.

[12]Not available on the Drumfit Rower 7000 Regatta model.

[13]Available on the Drumfit Rower 7000 Regatta and Drumfit Rower 20000 Neptuno Wood models.

Drumfit Rower CompactROW

The Drumfit Rower CompactROW allows you to build strength and endurance at home with 12 levels of hydraulic resistance, helping to strengthen your arms and back and improve your cardiovascular condition.

FEATURES:

Train strength and endurance comfortably from home.
12 resistance levels for customised workouts.
Performance and safety for users up to 110 kg.
Train at your pace and reach your goals from home.
Safely strengthens arms, back and improves cardiovascular endurance.
Rear support with padded rollers to secure your legs and perform abdominal exercises.

Drumfit Rower 7000 Regatta

Magnetic resistance system with different intensity levels and 7-kg flywheel, with a silent, smooth and fuild glide. It features an LCD display to measure: time, stroke rate, cadence per minute, ccalories and SCAN. Completely upright foldable structure. It features footrest with adjustable straps and transport wheels.

FEATURES:

MagnetSystem: magnetic resistance system using magnets which provide a fluid and natural rowing sensation, minimising maintenance.
SilenceFit System: provides a silent rowing which does not disturb the peace of your home.
7-kg flywheel. It offers a training intensity adapted to all types of people with different levels of demand.
10 resistance levels, so you can choose the level of demand you want.
Rail length: 122 cm with a 1.90 m maximum recommended height.
LCD console: time, stroke rate, calories and scan.
Folding System: compact and foldable structure.
Maximum user weight: up to 100 kg.
Pedals with toe clips for greater safety and grip.
Easy to move thanks to its transport wheels.
ComfortFit: ergonomic saddle and padded grips to make your workout more comfortable.

Drumfit Rower 9000 Regatta

Rowing machine with magnetic resistance system and 8 intensity levels. 9-kg flywheel. LCD display. Upright foldable structure. It features a deck with adjustable straps and transport wheels. Device holder.

FEATURES:

Smooth rowing: its magnetic resistance system using magnets provides a fluid and natural rowing sensation, minimising maintenance.
Complete training: the 9 kg flywheel offers a training intensity adapted to all types of people with different levels of demand.
Adjust the level of demand: its 8 resistance levels allow you to choose the level of demand you want for each workout.
Large rail length: the rowing machine has a rail length of 95 cm, ideal for a complete workout.
Check out the display: includes an LCD display with device holder, that shows time, distance, calories, number of rows and rows per minute and totals.
Foldable structure: thanks to its Folding System and compact structure, the machine can be easily folded and stored.
Easy storage: it has transport wheels for convenient and light storage after use.
Ergonomics at your service: its ergonomic handle provides a better grip and comfort in every use.
Row safely: the pedals are fitted with straps for extra support and safety.
Maximum user weight: 110 kg. The maximum weight of the user may not exceed 110 kg.
Product dimensions: 185 x 58 x 57 cm.

COMPOSITION:

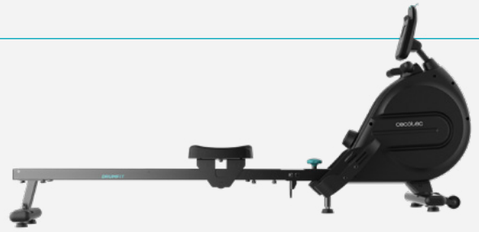

Rowing machine, 2 AAA batteries, instruction manual, assembly kit

Drumfit Rower 20000 Neptuno Wood

Water rowing machine with wooden finish. 13 l capacity tank. APP. Horizontally adjustable saddle. LCD display. Device holder. Double handlebar. Maximum weight 135 kg and maximum height 195 cm.

FEATURES:

Water resistance: the higher the rowing speed, the more force must be applied and therefore higher the level of resistance.
13 litre tank: the water level in the tank simulates the weight of the boat in motion, so the more water, the greater the weight and the greater the force required. When the tank is completely full, the training will be based on a higher level of strength as the rowing will be heavier.
Kinomap APP: the rowing machine is compatible with the Kinomap app, for a more entertaining workout.
Wireless heart rate monitor: incorporates a wireless heart rate monitor, a Bluetooth-enabled chip implanted in the display that can be paired to accessories, such as sport bands or chest straps.
Everything on the display: thanks to its LCD display, you can see the time, time/500 m, rows per minute, distance, total rows and calories at a glance.
Rail length: the length of the rail is 108 cm.
Enjoy training: device holder to enjoy your favourite content while you train.
Easy to transport: thanks to its transport wheels you can easily and comfortably transport the rowing machine after training.
Maximum user weight: 135 kg. The maximum weight of the user may not exceed 135 kg.

COMPOSITION:

Water rowing machine, 2 AA batteries, instruction manual, assembly kit

Steppers and mini exercise bikes

Steppers and mini exercise bikes

ADJUSTABLE RESISTANCE

Take control of your training

You can adjust the resistance manually and adapt it to the level of demand of your workout.

DISPLAY

Everything at a glance

REMOTE CONTROL

Convenience at your fingertips

Control your pedals with remote control and regulate the speed without bending down.[14]

ELASTIC BANDS

Tone your body

Thanks to the elastic bands, you can work your upper body whilst combining it with cardiovascular training and lower-body toning via the stepper.[15]

SILENCE FIT

Train in silence

Exercise your body on a quiet machine that allows you to train without noise or distractions.

EASYFOLD

Easy folding mechanism

Store the bike wherever you like thanks to its compact design.[17]

[14]Available on the Drumfit Cycle Compact Pro model

[15]Available on the Drumfit Step Train 1000 Banda stepper model.

[16]Available on the Drumfit Cycle Compact model.

[17]Available on the DrumFit X-Bike Neo Pro model.

Stepper Drumfit StepTrain 1000 Band

Stepper with elastic resistance bands. LCD display. Non-slip pedals. Manual resistance.
Maximum user weight: 100 kg.

FEATURES:

Tone your body: the elastic bands will allow you to work your upper body while combining it with cardiovascular training and toning your lower body thanks to the stepper.
Take a look at the display: check out its LCD display that shows time, calories, repetitions per minute, counter and SCAN function.
Adjustable resistance: you can adjust the resistance manually and adapt it to the level of demand of your workout.
Comfort and support: non-slip, wear-resistant pedals for greater comfort and support during training.
Compact design: its dimensions of 38 x 29 x 19 cm allow the stepper to take up minimal space in your home.
Maximum user weight: 100 kg. The maximum weight of the user may not exceed 100 kg.

COMPOSITION:

Resistance bands, LR44 battery, stepper, instruction manual

DrumFit AB Wheel

Abs wheel to exercise the core and abdominal muscles. Designed with a rubber coating on the outside for better grip and stability. Cushioned, non-slip grips. Includes EVA rubber mat.

FEATURES:

Designed to exercise the abdominal area, back, arms and shoulders.
Thanks to its small size (29.3x18x18 cm) and weight (452 g), you can train anywhere.
ComfortFit & SweatProof, padded, non-slip grips for optimal support.
A wheel with the ideal dimensions for maximum stability in the smallest size.
SilenceFit: rubber outer material for high grip with minimum noise.
Non-slip EVA rubber mat included: reduces the load and pain on your knees during exercise, as well as ensuring greater surface protection during exercise.
Maximum load capacity up to 180 kg.
Suitable for all types of users, from beginners to more advanced users.

Drumfit SmartComba 3000 Connected

Smart, compact and adjustable 2 in 1 skipping rope for jumping in tight spaces, with app and counter. 30 cm vs 3 m. LED display.

FEATURES:

Adjustable 2-in-1 Comba: adapts to your requirements and training conditions.
Connect it to the APP: it makes training more agile and manageable thanks to the different plans in the application.
SmartSize: 2 x 30 cm ropes. Includes two 30 cm PVC ropes for each of the handles, allowing you to exercise in confined spaces, such as at home, without hitting the floor or lamps.
Use it in large spaces. It also includes a 3 m long adjustable PVC rope that you can easily interchange with the 30 cm ones when you want to do exercise in a traditional way and in larger spaces.
LED display, 3 modes: choose whether to use its freestyle, timed or countdown mode, and watch it all on its LED display.
Fast 360° rotation: its SmartBearing function facilitates smooth and uninterrupted training.
When you complete a turn, the counter will automatically add one jump to your exercise.
Easy and convenient charging: the device has a USB Type-C charging port. The battery lasts up to 3 months after charging.
Compact design: thanks to its light weight of 250 g and the included transport pouch, you can conveniently take the Smart Comba with you, wherever you go.

COMPOSITION:

Charging cable, 3 m PVC rope, 30 cm PVC ropes, instruction manual, Smart Comba
