Irrigators

Clean, sanitise and care for your mouth thoroughly

Enjoy a unique cleaning experience with different settings to adapt to any need and forget about interdental dirt in the most convenient and effective way.

MODES

Adapts to your needs

Up to 6 modes of use¹ to tailor cleaning to your needs: from high intensity for deep cleaning to massage mode for gentler, more delicate cleaning.

PRESSURE LEVELS

Complete interdental cleaning

Up to 10 pressure settings² ensure thorough cleaning without damaging the natural enamel.

¹Uses vary depending on the model.

²Pressure levels vary depending on the model.

PULSES PER MINUTE

Improves circulation

The most intense modes generate up to 1.700 pulses per minute³ for deep cleaning tailored to all types of needs. Removes plaque and increases gum stimulation and circulation.

NOZZLES WITH 360° ROTATION ⁴

Total cleaning with one product

It has up to 7 interchangeable nozzles⁵ with 360° rotation, designed for optimal cleaning, as they allow easy access to all areas of your mouth. Also, the nozzles can be washed with the tap water, ensuring they are properly maintained and preserved.

UV DISINFECTION

Keeps your nozzles always clean

It has a special space to store its 7 nozzles and be able to disinfect them with the built-in sterilisation UV light⁶.

TIMER

Protects your gums

The irrigator protects your gums thanks to its timer⁷ of up to 3 minutes that will alert you so that you don't exceed the recommended oral hygiene time.

RUNTIME

Anywhere, anytime

Enjoy your portable irrigator⁸ wherever you are and for as long as you need. Its generous battery will allow you to use the irrigator twice a day for 20 days without the need to charge it.

IPX7 RATING

Waterproof

Thanks to its IPX7⁹ rating, you can use the irrigators in the shower without any problems and with total safety, as they are completely waterproof.

⁴Only available for the ToothCare Jet Liberty model.

⁵The number of nozzles varies depending on the model.

⁶Only available for the Bamba ToothCare I200 Jet Pro model.

⁷Only available for the Bamba ToothCare Jet Fresh and Bamba ToothCare Jet Clean models.

⁸Only available for the Bamba ToothCare Jet Fresh, ToothCare Jet Splash and ToothCare Jet Liberty models.

⁹The energy class varies depending on the model.

ToothCare Jet Fresh

Battery-powered portable irrigator with 180 ml tank, 3 nozzles, 3 modes and 20 days of battery life (using it twice a day).

FEATURES:

- It has a large capacity 180 ml tank.
- Thanks to the power of its engine, you can enjoy 1200 rpm, without leaving any gaps to be cleaned.
- Our Jet Fresh includes a battery, which provides greater ease of movement.
- Includes 3 nozzles for different uses.
- Waterproof thanks to IPX7 protection
- It has 3 modes (standard/soft/pulse), adaptable to all types of gums.
- Long-lasting battery life, with 20 days of use (twice a day).
- It also incorporates a timer that alerts you every 2 minutes to change zones.
- Battery charging time is 2 hours.
- The water flosser is foldable, so it can be conveniently taken on trips or even takes up less space.
- Ergonomic design to aid in the grip of the water flosser.

Electric toothbrushes

Effortlessly white and flawless teeth

Take care of your teeth professionally at home. With Cecotec's range of electric toothbrushes, you can thoroughly clean your teeth every day and achieve a perfect smile.

WHITENING TECH¹

Movie-star smile

The ToothCare WhiteTeeth Premium model features built-in blue light that helps whiten teeth naturally, removing surface stains and improving the whiteness of your smile with each use.

BRUSH AND IRRIGATOR²

Instant complete cleaning

Enjoy a complete experience with the ToothCare Jet Splash UltraSonic model, offering the best 2-in-1 solution for your oral hygiene. Use the toothbrush by pressing the 'Tooth Clean' button, and to complete the cleaning, activate the irrigator mode with the 'Deep Clean' button.

60° OSCILLATION³

Reaches every corner of your mouth

With the innovative 60° oscillation technology of the attachment, you can reach the most difficult-to-reach areas, improving your oral hygiene in less time and with greater effectiveness.

AI

Customise your brushing routine

Personalise your oral hygiene routine with the addition of Artificial Intelligence⁴ that guides you through every brushing session. Thanks to the brushing zone change alert, duration and usage memory, you can adapt your oral hygiene routine to your needs. Moreover, the airplane mode ensures safe operation during travel.

BUILT-IN DISPLAY

Convenient and intuitive use

Its digital display⁵ allows you to view the battery level, brushing modes and receive a visual report on the effectiveness of your cleaning for a comfortable, personalised and intuitive experience.

5 MODES

Tailor-made experience

Up to 5 modes⁶ available, from daily cleaning to deeper care, so you can choose the one that best suits your needs: Sensitive, Whiten, Clean, Massage and Gum Care.

⁴Available only for the ToothCare WhiteTeeth Premium model.

⁵Available only for the ToothCare Swing Premium and ToothCare UltraSonic PlatinumSwing models.

⁶The modes vary depending on the model.

ToothCare Jet Splash UltraSonic

ToothCare Jet Splash UltraSonic: Combined toothbrush and water flosser, 60 ml tank, charging base, 2 functions, 3 modes, 2 attachments, 4-week runtime.

FEATURES:

Save space and time with a complete cleaning experience. Its compact and portable design allows you to take it anywhere, ensuring you can maintain your oral hygiene routine wherever you are. Combines toothbrush and water flosser.

With a single attachment, switch between toothbrush mode using the Tooth Clean button and irrigator mode using the Deep Clean button. Versatility and ease of use.

Customise your dental cleaning experience according to your needs, whether for deep cleaning or gentler care. With 3 operating modes for each function (clean, soft, pulse).

Provides a complete flossing session, ensuring constant and efficient flow without frequent refills. 60 ml water tank.

Effectively removes plaque and debris between teeth, providing deep interdental cleaning. Extra-fine 0.6 mm jet and water pressure over 120 PSI.

It ensures you brush for the recommended 2 minutes and use the flosser for 1 minute, optimising the effectiveness of your oral care routine. Built-in timer.

Includes 2 replacement tips.

Enjoy up to 4 weeks of use on a single full charge, ideal for travel or those who prefer a low-maintenance solution.

Easy, cordless charging while keeping your bathroom space tidy and modern. Induction charging base.

Ensures water resistance, allowing safe use in the shower and ensuring durability and reliability. IPX7 rating.

ToothCare DeluxeSwing

FEATURES:

The 60° oscillation ensures deep and effective cleaning, reaching and removing more plaque compared to manual brushing. This movement helps to improve gum health and keep teeth cleaner and healthier.

With 3 different brushing modes, you can customize your dental cleaning experience to suit your specific needs, whether for daily cleaning, sensitive gum care or extra polishing.

The memory function remembers your last brushing mode used, allowing you to easily resume your preferred routine without the need for choosing additional settings, saving time and effort.

The UV light storage case sterilizes the brush between uses, eliminating bacteria and germs. This ensures that your toothbrush is always sanitised and ready to use, providing an extra layer of protection for your oral health.

With an IPX7 water resistance rating, this toothbrush is safe to use in the shower and easy to clean, ensuring durability and comfort with every use.

S5157

ToothCare Swing Premium

FEATURES:

The combination of ultrasonic and 60° oscillating technology provides exceptional cleaning, reaching even the most difficult areas and removing plaque efficiently, for superior oral hygiene.

The digital display allows you to easily view the cleaning modes and battery level, ensuring intuitive use.

With up to 5 cleaning modes, you can customise your experience to your specific needs, from daily cleaning to deeper care.

Reaching up to 60.000 RPM, the ToothCare Swing Premium offers powerful and precise cleaning.

30 days of runtime, based on 2 times daily use, is ideal for home or travel use without worrying about constant recharging.

Designed with IPX7 water resistance

S5088

ToothCare WhiteTeeth Premium

FEATURES:

Whitening Tech. The integrated blue light helps whiten teeth naturally, removing surface stains and improving the whiteness of your smile with each use. Benefits of blue light and how it is used for whitening:

1. Activation of Bleaching Agents: Blue light helps to activate bleaching agents, such as hydrogen peroxide or carbamide, which are used in bleaching gels. This activation accelerates the whitening process, allowing for faster results.

2. Non-Invasive Whitening: Blue light provides a non-invasive method to improve the whiteness of teeth without the need for complex dental procedures. This makes it suitable for regular use at home.

3. Reduction of Superficial Stains: Blue light can help reduce surface stains caused by food, beverages and tobacco, improving the overall appearance of the teeth.

4. Complement to Oral Hygiene: When used along with good oral hygiene, blue light can enhance whitening results, providing an effective complement to the daily dental care routine.

5. Safety and Convenience: Blue light technology is generally safe for use at home and in professional treatments, offering a convenient option for those seeking to improve the appearance of their smile.

This smart brush uses AI to guide you through your brushing routine. With functions such as brushing area change notification, brushing duration and usage memory, it ensures optimal and personalised oral hygiene. Airplane mode ensures safe operation during travel.

S5155

Water flossers

Complete care for your mouth

The water flosser has an irrigator and an electric toothbrush that will allow you to satisfy all your oral hygiene needs.

WATER FLOSSER

Cleaning without damaging the enamel

Enjoy a deep clean with the irrigator, which features 10 water pressure settings, a removable 600 ml tank, and 7 nozzles. The water flosser has a compartment for storing all the nozzles and keeping them clean at all times.

ELECTRIC TOOTHBRUSH

Reaches the most difficult areas

Thanks to its 5 brushing modes, its electric toothbrush reaches the most difficult areas while protecting your gums. It also has a timer and a battery life of up to 31 days.

ULTRASONIC CLEANER

Night guard and denture always perfect

A clean, healthy smile thanks to ultrasonic cleaning technology that thoroughly removes food rests and dirt from your night guard and denture.

CLEANING IN 5 MINUTES

Your items always clean

The ToothCare EasyClean performs a thorough clean in just 5 minutes, allowing you to achieve fast and effective results. Ideal for your daily routine.

UV LIGHTS

An extra touch of cleanliness

Thanks to the UV lights located on the lid of the product, your night guards and dentures are cleaned more thoroughly during ultrasonic cleaning.

ToothCare Jet Clean

Water flosser: 600 ml capacity, 10 pressure levels, 7 nozzles, and electric 5-mode toothbrush

FEATURES:

Jet Clean is a water flosser consisting of an irrigator and a toothbrush.

Water flosser:

- The irrigator has up to 10 levels of water pressure, ensuring deep cleaning without damaging the natural enamel of each tooth.
- Removable 600 ml tank. Easy to disassemble, clean and refill for new use.
- Includes 7 tips for each use: 3 classic, 1 orthodontic, 1 plaque, 1 periodontal pocket and 1 tongue cleaner, providing a complete cleaning in one product.
- This irrigator automatically stops after 3 minutes of use, ensuring greater safety.
- It has a compartment for storing all the tips of the irrigator in order to keep them clean and always at hand.

TOOTHBRUSH:

- Sonic toothbrush, which allows a more gentle brushing of the gums thanks to the vertical movement, which prevents the gums from receding and allows you to reach the most difficult areas.
- The toothbrush has 5 modes: Clean, White, Sensitive, Massage y Gum Care, adapting to the preferences and needs of your mouth.
- It includes 2 heads to be used when wearing out occurs.
- It has a zone change warning function every 30 seconds, to get the most out of your brushing time.
- It has a timer after 2 minutes of use, as this is the recommended toothbrushing time.
- Its full charge time is 4.5 hours, giving you up to 31 days* of battery life, so you don't have to worry about charging it every day. *Two two-minute brushings a day, varying according to the pressure exerted on the brush.
- Thanks to IPX7, both the body and heads can be washed under running water, helping to maintain and preserve it.

ToothCare EasyClean

Ultrasonic cleaner.

FEATURES:

Ultrasonic cleaning of night guards and teeth: Ultrasonic cleaning technology provides thorough removal of food debris and bacteria from your night guard and teeth, ensuring impeccable oral hygiene.

UV disinfection lights in the cover: The UV lights located in the cover of the appliance disinfect your mouth guard and teeth while ultrasonic cleaning is performed, guaranteeing total hygiene and eliminating up to 99.9% of bacteria.

Tank capacity of 200 ml: With a tank capacity of 200 ml and a recommended maximum water capacity of 150 ml, ToothCare EasyClean allows you to perform complete and efficient cleaning cycles without worries.

Cleaning in 5 minutes: ToothCare EasyClean performs a complete cleaning in just 5 minutes, allowing you to achieve fast and effective results, ideal for your daily routine.

Interior basket. It includes a practical inner basket that makes it easy to insert and remove items, preventing them from touching the bottom of the device and keeping items completely clean.

Automatic shut-off when the cover is opened: The appliance automatically shuts off when the cover is opened to ensure your safety and convenience, preventing spills and ensuring safer use.
