Freshness reinvented

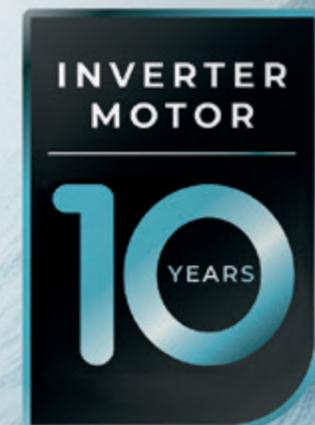

Keep your food fresh for longer with the latest refrigerator technology: artificial intelligence, FreshNess Zone, Multi AirFlow and much more. All models with A class¹, premium interior finishes and exterior designs that match any style. Discover Bolero CoolMarket, preserve your food and dress up your kitchen.

Classy fridges

SAVE ENERGY AND THE PLANET

A class

Take care of the planet thanks to the A class¹ energy efficiency of our refrigerators, which optimises energy consumption without altering the conditions inside.

Inverter compressor

It monitors the conditions inside to manage the refrigerator's operation and maintain the ideal temperature at the lowest possible cost. It also comes with a 10-year warranty.

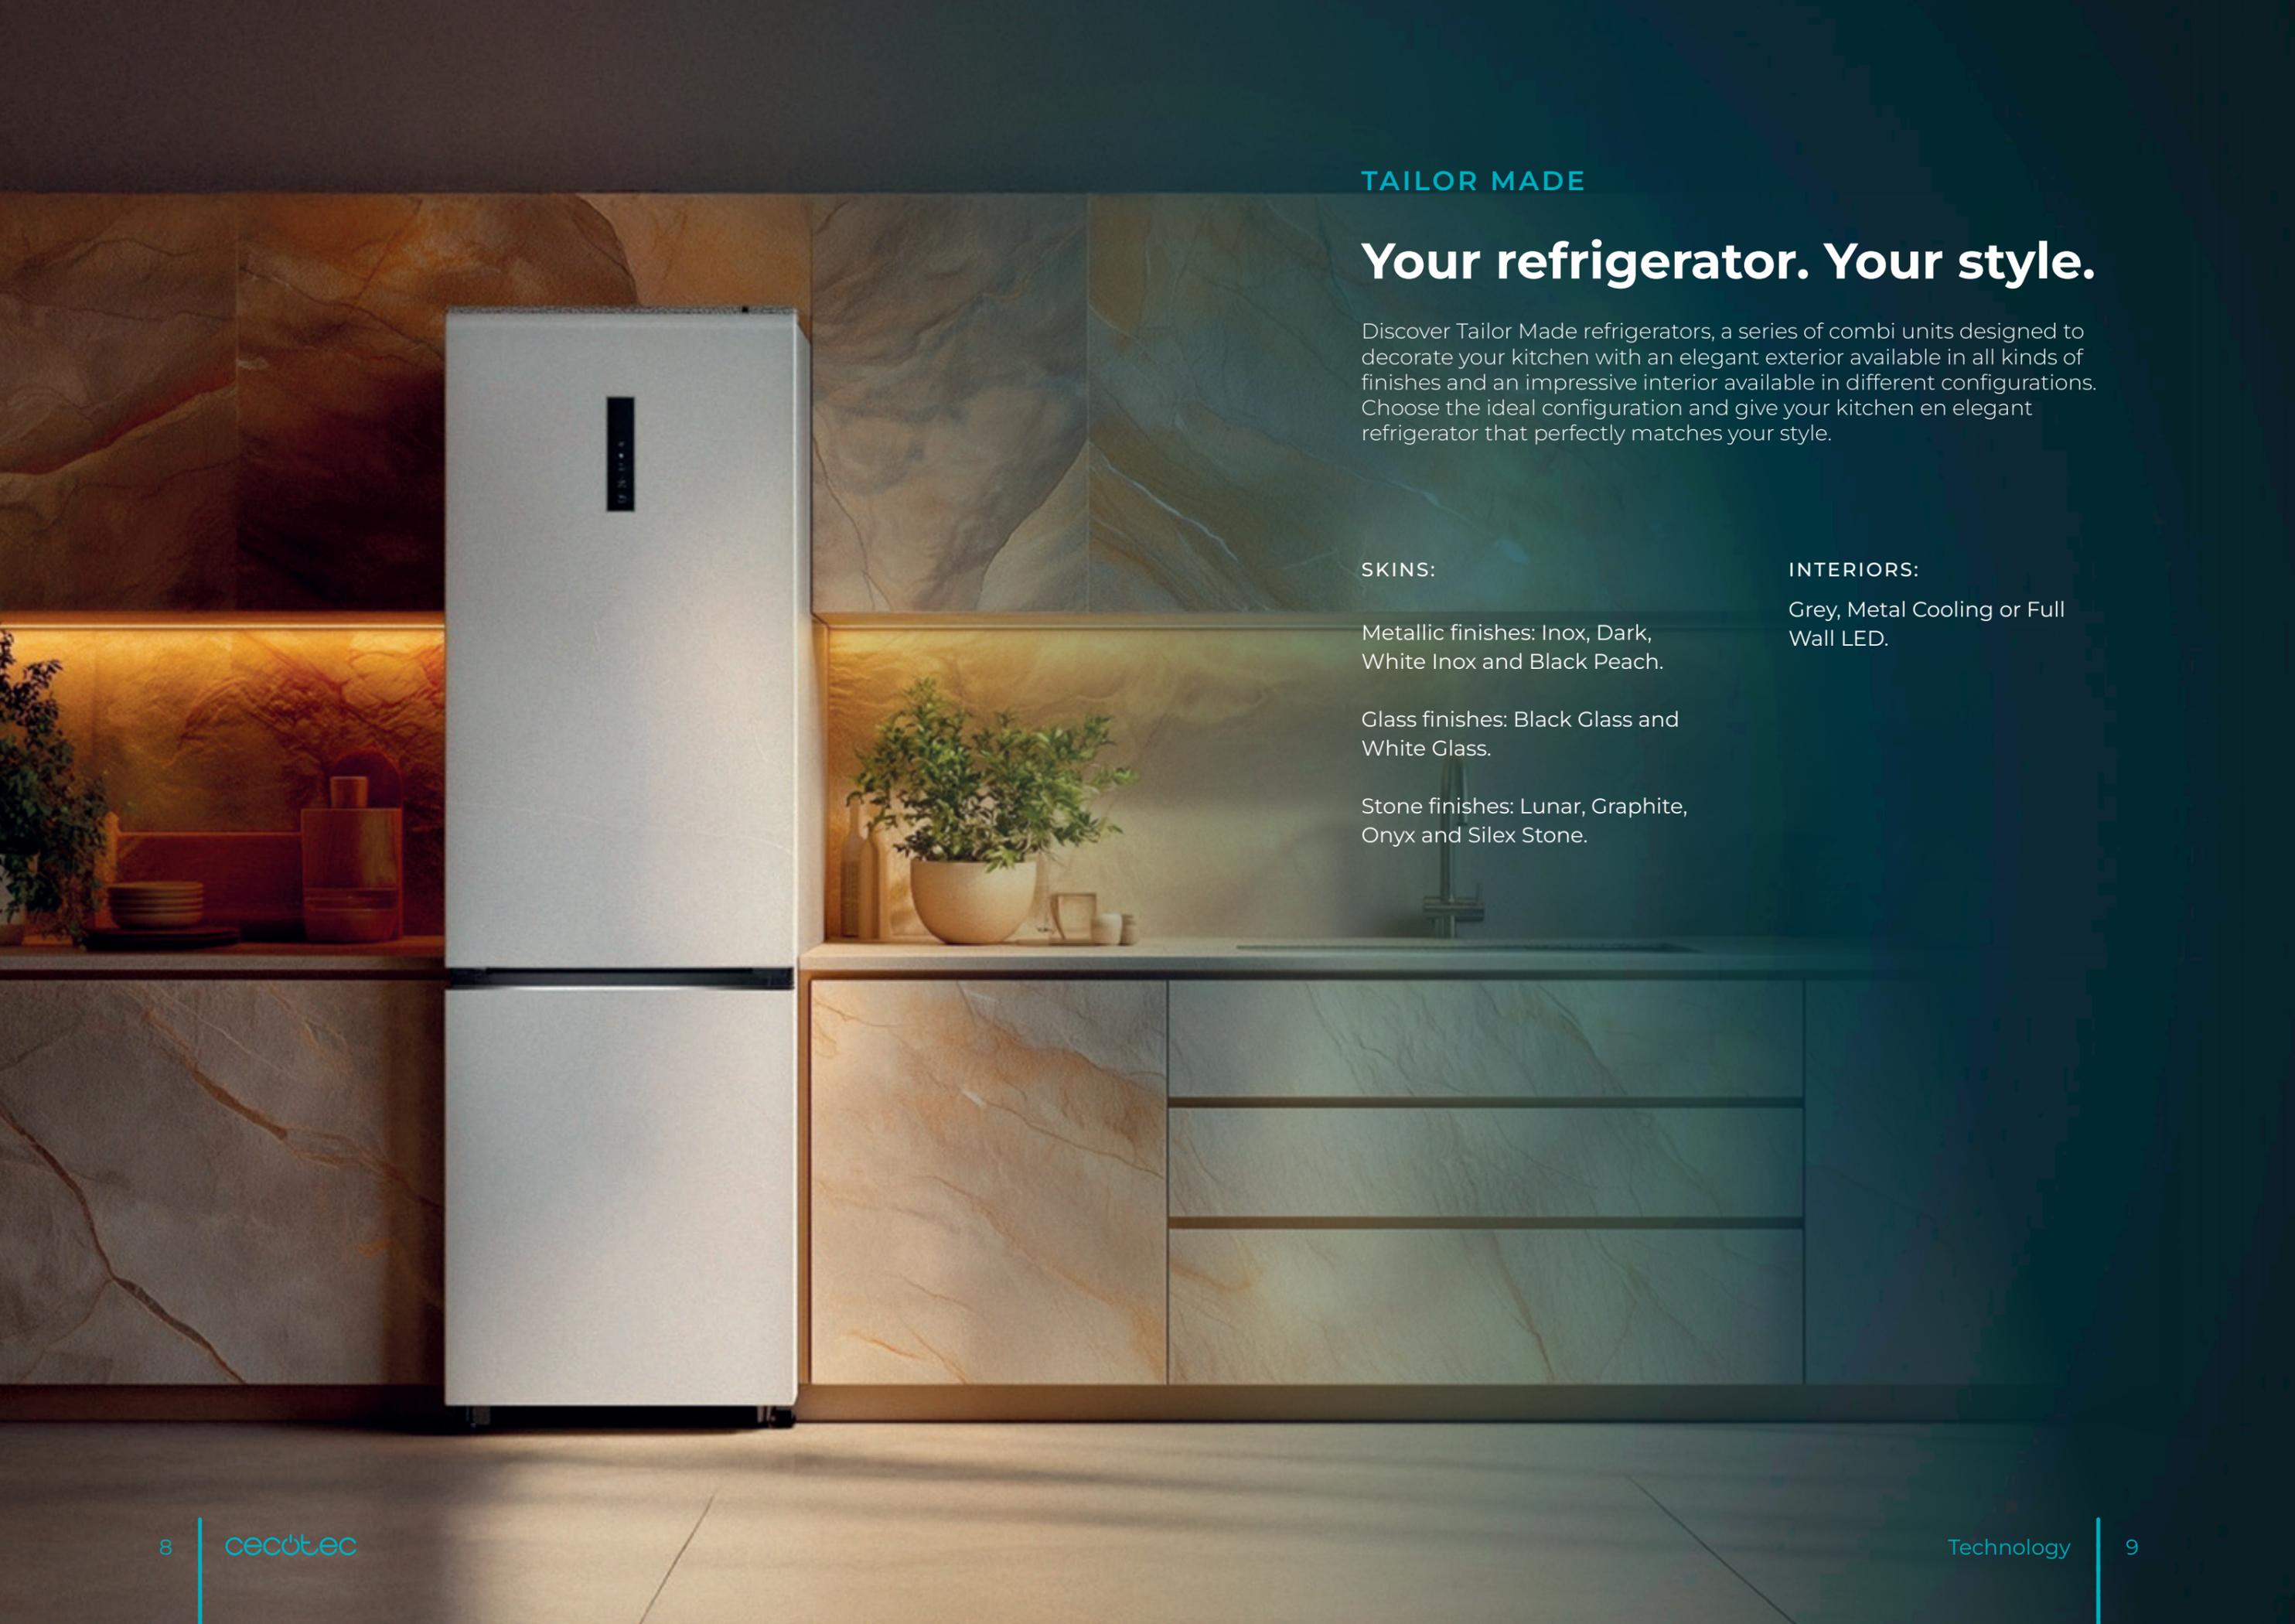

Bolero CoolMarket F2D 458 SBI

AI RADAR

The heart of your kitchen, now with artificial intelligence

Enjoy optimal preservation thanks to its AI-powered radar¹, which performs 15 temperature checks per minute to achieve uniform cooling with maximum variations of $\pm 0.5^{\circ}\text{C}$. This thermal stability ensures that the interior conditions are ideal for preserving the freshness and nutrients of all foods.

TAILOR MADE

Your refrigerator. Your style.

Discover Tailor Made refrigerators, a series of combi units designed to decorate your kitchen with an elegant exterior available in all kinds of finishes and an impressive interior available in different configurations. Choose the ideal configuration and give your kitchen an elegant refrigerator that perfectly matches your style.

SKINS:

Metallic finishes: Inox, Dark, White Inox and Black Peach.

Glass finishes: Black Glass and White Glass.

Stone finishes: Lunar, Graphite, Onyx and Silex Stone.

INTERIORS:

Grey, Metal Cooling or Full Wall LED.

XXL COLLECTION

The same combi, now bigger

MAX INSIDE

More inside, same outside

Enjoy a spacious interior in a 60 cm combi thanks to an interior design with ultra-thin interior walls, creating an extra-large interior with up to 456 L.

XL DOOR SHELVES

Stores more and larger bottles

Store your drinks without worrying about weight or capacity; the balconies are designed to hold everything from small to large bottles and even double rows of cans.

SBI REFRIGERATORS

Perfect fit, impeccable style

4 mm lateral GAP

It fits perfectly into your kitchen space, requiring only 4 mm of side gap, compared to the 15 cm required by conventional models.

Perfect alignment

With a depth of 59.5 cm, the refrigerator fits perfectly into the kitchen space, preventing it from sticking out from the line of the cupboards.

Frictionless opening

Place the refrigerator in the space between the cupboards or against the wall. Thanks to its 90° opening, you can open the door and pull out the drawers without any hassle.

FRONT VENTILATION:

Better performance
Greater durability
More silent

Advanced cooling technology

ICE MAKER²
WATER DISPENSER²

MULTI AIRFLOW

Enveloping cold

Achieve even cooling in the refrigerator so that every corner has the same cooling and temperature conditions as the rest.

METAL COOLING

Preserves the cold

Thanks to the metal foil, perfect cold preservation is guaranteed, allowing an optimum temperature inside the refrigerator and facilitating energy savings.

TOTAL NO FROST

Forget about frost

Cools without freezing thanks to optimal cold air circulation, which keeps your food in perfect condition without ice or frost.

CYRO FREEZE¹

Constant temperature

This system prevents temperature fluctuations, ensuring that changes are only of $\pm 0.1^{\circ}\text{C}$. This preserves food and its nutrients in perfect condition.

1. Available in upcoming releases.

2. Availability may vary depending on the model.

Premium interior¹

AURALED MATRIX

Illuminates every corner

The LED wall provides complete, uniform lighting that illuminates the entire interior of the refrigerator, creating a perfect visual experience with soft, natural light.

SHELF LIGHTING SYSTEM

Illuminated metal profile

Every detail counts, which is why our refrigerators feature glass shelves with LED-backlit metal frame that provides a perfect view of each level inside.

HETTICH TECH

Multi-articulated system

Hettich hinges support doors weighing up to 92 kg in XXL refrigerators. Also, they allow an opening angle of up to 115°, which can be limited to 90°, and smooth and silent door closing.

CRISPER TELESCOPIC

Maximum comfort

This telescopic slide system allows drawers to be pulled out easily and steadily, providing convenient access to fresh food.

Preserves original freshness

FRESHNESS ZONE¹

Convertible drawer

Choose the drawer temperature regardless of the refrigerator's. Select between 0°C, 4°C and 7°C with Fresh Zone technology or between -4°C, 0°C and 4°C with Fresh Zone Plus so each type of food keeps its properties.

DUAL HUMIDITY FLEX HUB²

Custom humidity

Space designed with two separate compartments to customise humidity levels, allowing different fresh products to be stored separately, preventing cross-contamination and maintaining optimal conditions for each type of food.

FULLCOLOUR DISPLAY
Elegant design, intuitive control.

BOLERO COOLSILVER COMBI BI 449 MAESTRE ELITE

The refrigerator for wine lovers

MACERATION HUB

Your home wine cellar

Space equipped with decanter holder, wine display rack, wine glass holder and napkin board. All this in solid oak ensures that you can prepare and enjoy your wines in the best possible way.

OAK HUB

The space for sommeliers

Store essential accessories such as bottle openers and corkscrews, keeping everything you need within reach for a complete wine experience.

ADJUSTABLE HUMIDITY

Always perfect wines

This system ensures that humidity levels are maintained at optimal levels, preserving the freshness and quality of stored wines and food.

Discover the range

Bolero CoolMarket 1D 242 white

One-door refrigerator with great capacity, 242 litres, autodefrost function, drawer for fresh food, ideal to combine with a freezer, energy class E.

FEATURES:

242 L capacity. Great storage capacity in a height of just 1.43 metres. Make the most out of space thanks to this fridge.

Auto Defrost function. Defrosting will never be a problem again thanks to the system. The water droplets generated are automatically sent to a drain and then evaporate. Forget about defrosting the back of the fridge.

LED. Great lighting system, brightness and energy saving.

Crisper Box. Drawer for storing all fruit and vegetables to keep them in optimum condition.

Preserves food as if it were freshly picked, ensuring great taste.

Side shelves. you can store any type of bottle, carton or cans, to optimise the storage space.

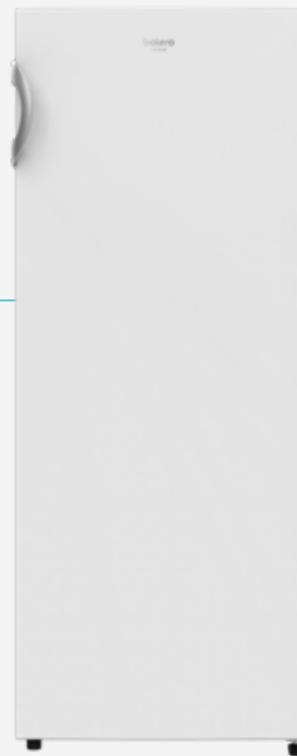

Glass trays. Substitute for plastic shelves, generating greater resistance and safety against knocks and the load they support, thus avoiding breakage.

Reversible door: don't worry about the opening of the door, as you can have the opening orientation that best suits your needs. Locate the fridge anywhere in the house and adapt the door opening to the corner where it is.

Noise level: 40 dB. You won't even know the fridge is running thanks to its low noise level.

Bolero CoolMarket 1D 360 inox

One door refrigerator with large capacity of 362 litres, Total No Frost, Crisper Box, Multi Airflow, Fast Cooling, reversible door ideal for combination with an upright freezer, Inverter Plus compressor.

FEATURES:

Impressive interior. The refrigerator has a capacity of 360 l, a large interior so you can store all your food without any worries.

Total No Frost: a system that prevents the formation of ice in the food and refrigerator, keeping food and nutrients for a longer period of time due to a better air circulation.

Multi Airflow: optimum temperature throughout the compartment that maintains the best possible food life for a longer period of time thanks to the uniform distribution of cold air.

Fast Cooling. Refrigerate your food much faster.

Adapt the temperature according to the food you have to store.

Crisper Box. Always fresh fruit and vegetables. With its special drawer for fresh products, your fruit and vegetables will keep better for longer.

Reversible door. Adapts to any space. Thanks to its reversible door, you won't have to worry about positioning the fridge, as the door can be opened in the direction that best suits your needs.

Energy Class E. Responsible energy consumption.

Inverter Plus compressor. Money and energy saving. The system maintains the temperature inside the freezer without incurring further costs by measuring interior conditions and managing operation accordingly.

Side shelves: these allow for the storing of all types of bottles, cans, and tetrabriks to optimise storage space.

Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

Bottle rack. Keep your drinks at an ideal temperature.

Noise level: you won't even notice the refrigerator is on with its low noise level of 41 dB.

Bolero CoolMarket Combi 250 Dark D

Combi fridge freezer, dark stainless steel, 180 cm high, 55 cm wide, 250 l capacity, Inverter Plus compressor, Total No Frost, energy class D and Multi Air Flow system. In addition, it features Fast Cooling mode and Humidity Box with humidity control, as well as Open door and Malfunction alarms.

FEATURES:

Fridge freezer: combines a refrigerator (top part) with a freezer (bottom part).

Inverter plus compressor: save energy and money thanks to the inverter plus compressor that maintains the temperature inside the refrigerator without incurring higher costs by measuring the conditions inside the refrigerator and managing the operation accordingly.

Total No Frost: keeps food and nutrients for a longer period of time thanks to optimal cold air circulation that prevents the formation of ice on the walls of the refrigerator.

Fast Cooling: refrigerate your food much faster.

Large capacity: Its 250 l capacity will allow you to keep a large amount of drinks and food very cold.

Class D: optimum energy classification for a refrigerator.

Multi Airflow: distributes air evenly to maintain the optimum temperature throughout the compartment to keep food fresh for longer.

Humidity Box: adjustable moisture for optimal preservation of your fruits and vegetables.

Internal display: check the temperature of your refrigerator when you open the door.

Reversible door: you don't have to worry about where you put the fridge, as the door can be positioned in the way that best suits you.

Door alarm: alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

Interior LED light that makes it easier to see all food.

Extra horizontal bottle rack: the refrigerator features a bottle rack that allows for increased bottle storage.

Fridge dimensions (W x D x H): 54 x 57.6 x 180 cm.

COMPOSITION:

Refrigerator, instruction manual.

 58 x 63.5 x 184 cm 55.31 kg
58 x 63.5 x 184 cm 55.31 kg

Bolero CoolMarket Combi 322T White D

Combi fridge freezer, white colour, 185 cm high, 60 cm wide, 322 l capacity, Inverter Plus compressor, Total No Frost, energy class D and Multi Air Flow system.

FEATURES:

Multi Airflow: optimum temperature throughout the compartment that maintains the best possible food life for a longer period of time thanks to the uniform distribution of cold air.
Total No Frost: a system that prevents the formation of ice in the food and refrigerator, keeping food and nutrients for a longer period of time due to a better air circulation.
Class D: optimum energy classification for a refrigerator.
Humidity Box: adjustable moisture for optimal preservation of your fruits and vegetables.
Crisper Box: special drawer for meat and fish.
LED light: easy to see inside the refrigerator.
Holiday Mode: optimises power consumption when you are away for a long period of time. The refrigerator's temperature changes to 15 degrees and the freezer's to -18 degrees.
ECO mode: optimises energy consumption, thus saving on your energy bill.
Reversible door: don't worry about where you place the fridge as the door can be opened in the orientation that suits you best.
Door alarm: alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.
Fast Freezing: achieve ultra-fast freezing with Fast Freezing technology.
Fast Cooling system that achieves a faster cooling of the refrigerator interior.
Temperature control: regulate the temperature at which you want your fridge to be in the most comfortable and simple way.
Inverter Plus Compressor: energy and money saving. The temperature inside the refrigerator will be perfectly maintained without incurring further costs.

Bolero CoolMarket Combi 322 WD Inox E

Combi fridge-freezer with water dispenser, stainless steel design, 185.5 cm height x 59.5 cm width, 322 L capacity, Total No Frost, energy class E and Multi Air Flow system. In addition, it features the Fast Cooling mode.

FEATURES:

- Fridge freezer: combines a refrigerator (top part) with a freezer (bottom part).
- Total No Frost: System that prevents frost formation on the refrigerator interior walls. Preserves food and nutrients for longer, thanks to a better cold-air circulation.
- Fast Cooling. Refrigerate your food much faster.
- Fast Freezing. Freeze your food much faster.
- Capacity 322 l: large capacity in all its compartments to avoid space problems.
- Class E: optimum energy rating for a refrigerator.
- Water dispenser to have cold water without having to open the fridge.
- Multi Airflow: distributes air evenly to maintain the optimum temperature throughout the compartment to keep food fresh for longer.
- Holiday mode. Optimise energy consumption when you are away for long. The refrigerator's temperature changes to 15 °C and the freezer's to -18 °C.
- ECO mode: optimises energy consumption, thus saving on your energy bill.
- Humidity Box: adjustable moisture for optimal preservation of your fruits and vegetables.
- Door Display. Control the temperature of the refrigerator without opening it.
- Door alarm: alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.
- Reversible door: you don't have to worry about where you put the fridge, as the door can be positioned in the way that best suits you.
- Fridge dimensions (W x D x H): 59.5 x 63.5 x 185.5 cm

Bolero CoolMarket Combi 409 White E

Combi fridge-freezer, white finish design, MAX INSIDE with VIP tech, Cool Matrix, variable drawer with 6 temperature settings and humidity control, Total No Frost, Inverter Plus Compressor, Multi AirFlow, 409 L, 185 x 59.5 cm, Fast Cooling and Fast Freezing functions, Smart mode, Green HUB XL, exterior display, reversible doors, glass shelves and Class E.

FEATURES:

MAX INSIDE: VIP technology maximises energy efficiency with vacuum insulation panels, maintaining a constant temperature and reducing electricity consumption. This keeps food fresh for longer and provides more internal storage space without increasing the external size of the refrigerator.

Fresh Flex and Humidity Flex: with an adjustable temperature and humidity drawer, keep your food fresh for longer and enjoy your beers and soft drinks always at the perfect temperature. Make your life easier today!

Total No Frost: Forget about frost with Total No Frost technology, which maintains a constant temperature and prevents ice build-up.

The Inverter Plus Compressor delivers quiet and efficient operation, adapting to cooling needs and saving energy.

Its dimensions of 185 x 59.5 cm and capacity of 409 litres make this combi fridge-freezer the perfect choice for all those looking to optimise available space to the maximum.

Multi AirFlow: distributes cold air evenly, ensuring every corner of the refrigerator maintains the right temperature.

The Fast Cooling and Fast Freezing functions allow rapid cooling and freezing, preserving food freshness and nutrients.

Smart mode automatically adjusts the temperature, optimising performance and energy consumption.

The GreenHub XL drawer is larger, perfect for storing fruit and vegetables in large quantities, keeping them fresh and crisp for longer.

Exterior display and reversible doors: The external display makes temperature control easier, while the reversible doors provide flexibility in installation.

Bolero CoolMarket Combi 335 Black E

Freestanding combi fridge-freezer in black colour, 195.3 cm height x 59.5 cm width, 335 L capacity, No Frost, Inverter Plus Compressor, Fresh Flex variable temperature drawer, humidity control drawer, Multi AirFlow, Fast Cooling and Fast Freezing, LED light, 90° opening, electronic control, reversible door, glass shelves and Energy Class E.

FEATURES:

No Frost: No Frost technology prevents frost build-up, keeping food fresh for longer without the need for manual defrosting.

Inverter Plus Compressor: The Inverter Plus Compressor ensures quiet and efficient operation, reducing energy consumption and extending the useful life of the refrigerator.

Freshnes Flex HUB: this innovative drawer features Fresh Flex (variable temperature between -3 °C and 3 °C) and Humidity Flex (humidity control) functions to keep food fresh for longer and to cool drinks and beers quickly, adapting to every situation.

Multi AirFlow: this system distributes cool air evenly, ensuring a constant temperature throughout the refrigerator.

Fast Cooling and Fast Freezing: the Fast Cooling and Fast Freezing functions allow the appliance to reach the ideal temperature in less time, preserving food nutrients better.

Crisper box: designed for optimal storage of fruit and vegetables.

This 195.3 x 59.5 cm combi fridge-freezer delivers the versatility of a refrigerator (240 L) and freezer (95 L) in one appliance, optimising space and efficiency.

The glass shelves are sturdy and easy to clean, providing a stable and safe surface for all your food.

Reversible door: allows you to easily change the door opening direction to adapt it to any space.

Bolero CoolMarket Combi 456 White E

Combi fridge-freezer, white finish design, MAX INSIDE with VIP tech, Cool Matrix, variable drawer with 6 temperature settings and humidity control, Total No Frost, Inverter Plus Compressor, Multi AirFlow, 456 L, 201 x 59.5 cm, Fast Cooling and Fast Freezing functions, Smart mode, Green HUB XL, exterior display, reversible doors, glass shelves and Class E.

FEATURES:

MAX INSIDE: VIP technology maximises energy efficiency with vacuum insulation panels, maintaining a constant temperature and reducing electricity consumption. This keeps food fresh for longer and provides more internal storage space without increasing the external size of the refrigerator.
 Fresh Flex and Humidity Flex: with an adjustable temperature and humidity drawer, keep your food fresh for longer and enjoy your beers and soft drinks always at the perfect temperature. Make your life easier today!
 Total No Frost: Forget about frost with Total No Frost technology, which maintains a constant temperature and prevents ice build-up.
 The Inverter Plus Compressor delivers quiet and efficient operation, adapting to cooling needs and saving energy.
 Its dimensions of 201 x 59.5 cm and capacity of 456 litres make this combi fridge-freezer the perfect choice for all those looking to optimise available space to the maximum.
 Multi AirFlow: distributes cold air evenly, ensuring every corner of the refrigerator maintains the right temperature.
 The Fast Cooling and Fast Freezing functions allow rapid cooling and freezing, preserving food freshness and nutrients.
 Smart mode automatically adjusts the temperature, optimising performance and energy consumption.
 The GreenHub XL drawer is larger, perfect for storing fruit and vegetables in large quantities, keeping them fresh and crisp for longer.
 Exterior display and reversible doors: The external display makes temperature control easier, while the reversible doors provide flexibility in installation.

COMPOSITION:

Refrigerator, instruction manual.

Bolero CoolMarket Combi 456 Elite Black Glass

Combi fridge-freezer, black glass, MAX INSIDE with VIP tech, Elite Grey interior, Cool Matrix, variable drawer with 6 temperature settings and humidity control, Total No Frost, Inverter Plus Compressor, Multi AirFlow, 456 L, 201 x 59.5 cm, Fast Cooling and Fast Freezing functions, Smart mode, Green HUB XL, exterior display, reversible doors, bottle rack, glass shelves and Class E.

FEATURES:

MAX INSIDE with VIP Tech: Experience maximum interior space thanks to innovative VIP Tech insulation technology. This system of thinner walls increases interior capacity and maximises energy efficiency, allowing for a large capacity of 456 litres without altering the standard dimensions of a fridge-freezer.

Superior capacity compared to the market standard: this refrigerator offers significantly more capacity than the market standard, providing extra space to store large containers, food and beverages. Make the most of every inch to keep your products organised and accessible, making this model the perfect choice for those who need flexible and spacious storage.

Much wider door shelves with a bottle holder for 5 extra bottles: Maximise space with extra-wide door shelves, ideal for storing large bottles, two rows of cans, small bottles and sauces. These XL door shelves make it easy to access frequently used beverages, allowing you to enjoy your products at any time. The horizontal bottle rack is perfect for large bottles and wines.

Elite Grey: The grey finish not only adds elegance to the interior of the refrigerator, but also offers a unique distinction, elevating the internal aesthetics for a refined visual experience every time you open it.

Fresh Flex: Flexible zone with variable temperature that prolongs the freshness of your food. Keep your food in optimal condition for longer with the Fresh Flex zone, which offers 6 adjustable temperatures to preserve a variety of products at their optimal temperature, from meat, fish and dairy products to delicate fruits.

Innovation in cooling with Cool Matrix technology: an advanced cooling system that provides even and efficient distribution of cold air throughout the interior. Technology that incorporates a film inside the refrigerator that maintains a constant temperature and cools food much faster, preserving the freshness and quality of your food for longer.

Bolero CoolMarket Combi F2D 395 Inox C

Fridge-freezer, stainless steel, A class, 90° opening, Total No Frost, Fresh Flex, Humidity Flex, large capacity 336 L, Inverter Plus compressor, Multi AirFlow, Smart Mode, Fast Freezing, reversible door, exterior display, bottle rack, ultra quiet 35 dB, dimensions 59.5×57.9×201.72 cm

FEATURES:

Saves energy and cares for the planet. A class: combines efficiency and sustainability, ensuring optimum performance with the lowest possible power consumption.

238 L refrigerator and 98 L freezer. Total capacity 336 L: large interior space that allows you to store all your food in an orderly manner.

Quiet and efficient functioning. Inverter Plus compressor: adjusts its speed according to the cooling needs, extending the lifespan of the appliance. Also, it comes with a 10-year warranty. Cools without generating frost. Total No Frost: maintains a constant temperature and prevents the formation of ice.

Enveloping cold. Multi AirFlow: distributes air evenly, ensuring that all areas of the refrigerator maintain the same temperature for optimal food preservation.

Preserves original freshness for longer. Drawers with independent temperature and humidity control, ideal for preserving fresh food in perfect condition for longer.

Take out the drawers without scratching the door thanks to the opening of only 90°. 90° opening.

Reduces power consumption, maintains efficiency. Smart Mode: reduces power consumption during periods of minimal use, thus saving energy and maintaining conservation efficiency.

Ultra-fast freezing. Fast Freezing: freezes food quickly, preserving its quality and nutrients, which is perfect for keeping your food fresh and ready to eat.

Simple and quick control. External display: adjust the temperature of the refrigerator without opening the door, avoiding loss of cold and gaining in comfort.

Adapt the opening direction to your space. Reversible door: facilitates installation and ensures that the refrigerator fits in the available space.

Quiet operation: 35 dB.

Organise your bottles and maximise space. Horizontal bottle rack.

Cecotec Bolero CoolMarket Combi 405 MC Inox D - fridge-freezer 2 m, NoFrost, stainless steel finish, MAX INSIDE technology, MetalFlex Cooling, Freshness Flex Hub convertible drawer (0°C/+4°C/+7°C), FullColor display, Inverter Plus compressor, ultra-silent 37 dB, D class, ADF+ anti-odour system, ECO mode, Fast Cooling, Ultra-fast Freezing and reversible door

FEATURES:

MAX INSIDE: Enjoy optimised space thanks to MAX INSIDE technology, which maximises the interior capacity of the refrigerator so more food can be stored without taking up space in your kitchen.

MetalFlex Cooling: Keep your food fresh for longer with the MetalFlex Cooling system, which ensures even and efficient cooling inside the appliance, preserving the quality and flavour of your food.

Fresh Flex: Flexible zone with variable temperature that prolongs the freshness of your food. Keep your food in optimal condition for longer with the Fresh Flex zone, which offers 3 adjustable temperatures (Green, Chill and Fresh) to preserve a variety of products at their optimal temperature, from meat, fish and dairy products to delicate fruits.

Ultra-fast Freezing: With the Fast Freezing function, quickly freeze your food to preserve its freshness and nutrients, ideal for big shopping and preservation of perishable products.

Full Colour display: The external colour digital display allows you to adjust the refrigerator settings easily and intuitively. With an accessible control, you can customise the temperature and other functions according to your daily needs, ensuring convenient and efficient use.

Total No Frost: Forget about defrosting with the Total NoFrost system, which prevents ice build-up and ensures optimal and efficient refrigerator performance.

Reversible door: Adapt the door opening to the arrangement of your kitchen with the reversible door, for greater convenience and flexibility.

Inverter Plus Compressor: Saves energy and delivers efficient performance with the Inverter Plus Compressor, which adjusts power according to cooling needs and reduces energy consumption.

Ultra-silent 37 dB: Enjoy a peaceful environment thanks to ultra-silent operation at 37 dB, ideal for homes where silence is essential.

COMPOSITION:

Product, ice cube tray, egg holder, instruction manual.

No Frost Multi AirFlow System: each compartment has its own system, preventing odours between fridge and freezer from mixing.

Metal Cooling: metallic plate for better and faster cooling.

495 Litres: Large storage capacity for all types of food.

Crisper box: adjustable moisture for optimal preservation of your fruits and vegetables.

Fresh box: special drawer to keep the meat and fish temperature between 0°C and 3°C.

Class E: Energy savings in the everyday life.

Interior Display: Easy temperature control.

Interior LED light.

Energy class:

E

Bolero CoolMarket Combi FD 439 Black Glass E

Combi fridge-freezer French door, black glass, MAX INSIDE with VIP tech, Cool Matrix, variable drawer with 6 temperature settings and humidity control, Total No Frost, Inverter Plus Compressor, Multi AirFlow, 439 L, 185 x 59.5 cm, Fast Cooling and Fast Freezing functions, Smart mode, Green HUB XL, exterior display, reversible doors, bottle rack, glass shelves and Class E.

FEATURES:

MAX INSIDE with VIP Tech: Experience maximum interior space thanks to innovative VIP Tech insulation technology. This system of thinner walls increases interior capacity and maximises energy efficiency, allowing for a large capacity of 456 litres without altering the standard dimensions of a fridge-freezer.

Superior capacity compared to the market standard: this refrigerator offers significantly more capacity than the market standard, providing extra space to store large containers, food and beverages. Make the most of every inch to keep your products organised and accessible, making this model the perfect choice for those who need flexible and spacious storage.

Much wider door shelves with a bottle holder for 5 extra bottles: Maximise space with extra-wide door shelves, ideal for storing large bottles, two rows of cans, small bottles and sauces.

These XL door shelves make it easy to access frequently used beverages, allowing you to enjoy your products at any time. The horizontal bottle rack is perfect for large bottles and wines.

Elite Grey: The grey finish not only adds elegance to the interior of the refrigerator, but also offers a unique distinction, elevating the internal aesthetics for a refined visual experience every time you open it.

Fresh Flex: Flexible zone with variable temperature that prolongs the freshness of your food. Keep your food in optimal condition for longer with the Fresh Flex zone, which offers 6 adjustable temperatures to preserve a variety of products at their optimal temperature, from meat, fish and dairy products to delicate fruits.

French Door design: the unique door design allows the freezer drawers to be pulled out, making it easier to find and handle food.

Innovation in cooling with Cool Matrix technology: an advanced cooling system that provides even and efficient distribution of cold air throughout the interior. Technology that incorporates a film inside the refrigerator that maintains a constant temperature and cools food much faster, preserving the freshness and quality of your food for longer.

Bolero CoolMarket Combi FD 400 Inox E

French door combi fridge freezer, stainless steel colour, 400 l capacity, 191 cm high and 60 cm wide, Total NoFrost system, Max Inside, Multi AirFlow cold distribution, external digital display, interior with premium design in grey colour, crisper drawers (one convertible), energy class E, silent Inverter compressor with low consumption. Fast Cooling and Fast Freezer functions, ECO mode, alarms for malfunction, open door and temperature.

FEATURES:

French Door design: the unique door design allows the freezer drawers to be pulled out, making it easier to find and handle food.

Stainless steel doors: the stainless steel finish of the doors is elegant and modern, blending perfectly with modern kitchens.

Premium design in grey colour: elegance has also been thought for the interior with an exclusive grey finish.

Large capacity of 400 litres: the large internal storage volume allows you to keep a large food storage space in an orderly and easily accessible manner.

Convertible crisper drawer: this drawer is particularly useful, as you can choose a customised setting for fruit, vegetables or cold drinks and other fresh products.

LED lighting: with minimal power consumption, it provides a clear and crisp view of all your food.

Inverter Plus motor: the inverter compressor operates with lower energy consumption and reduced noise emission. It is also much more durable than conventional motors.

Multi AirFlow and NoFrost: prevents the formation of ice on the food and on the interior walls, thus transmitting the cold more efficiently and without spoiling food. Multi AirFlow helps to prevent fresh food from over-drying.

ECO function: it automatically adjusts the temperature, reducing consumption but preserving the quality of conservation.

Temperature and open door alarm: it will alert you in the event of a malfunction or temperature failure, as well as if you forget that the door is open or it does not close properly.

Class E: energy efficiency to keep energy consumption under control at all times.

Fast Cooling & Fast Freezing: by activating these functions, the refrigerator will increase its performance allowing you to reach the cooling or freezing temperature more quickly when you introduce new food.

Bolero CoolMarket Combi F2D 395 Inox E

French door combi fridge-freezer in stainless steel, MAX INSIDE with VIP tech, Cool Matrix, variable 6-temperature drawer with humidity control, Total No Frost, Inverter Plus Compressor, Multi AirFlow, 395 L, 185 x 59.5 cm, Fast Cooling and Fast Freezing functions, Smart mode, Green HUB XL, external display, bottle rack, glass shelves, Energy Class E.

FEATURES:

MAX INSIDE: VIP technology maximises energy efficiency with vacuum insulation panels, maintaining a constant temperature and reducing electricity consumption. This keeps food fresh for longer and provides more internal storage space without increasing the external size of the refrigerator.

Cool Matrix: Advanced cooling system that ensures even and efficient cold distribution throughout the refrigerator. This innovative technology is the perfect ally to keep your food fresh for longer, preserving its original nutrients, flavour and texture.

Fresh Flex and Humidity Flex: with an adjustable temperature and humidity drawer, keep your food fresh for longer and enjoy your beers and soft drinks always at the perfect temperature.

Make your life easier today!

Total No Frost: Forget about frost with Total No Frost technology, which maintains a constant temperature and prevents ice build-up.

The Inverter Plus Compressor delivers quiet and efficient operation, adapting to cooling needs and saving energy.

Its dimensions of 185 x 59.5 cm and capacity of 395 litres make this combi fridge-freezer the perfect choice for all those looking to optimise available space to the maximum.

Multi AirFlow: distributes cold air evenly, ensuring every corner of the refrigerator maintains the right temperature.

The Fast Cooling and Fast Freezing functions allow rapid cooling and freezing, preserving food freshness and nutrients.

Smart mode automatically adjusts the temperature, optimising performance and energy consumption.

The GreenHub XL drawer is larger, perfect for storing fruit and vegetables in large quantities, keeping them fresh and crisp for longer.

COMPOSITION:

Refrigerator, instruction manual.

Bolero CoolMarket Combi F2D 400 White Glass E

French door combi fridge freezer with four doors, white glass colour, 400 l capacity, 191 cm high and 60 cm wide, Total NoFrost system, Max Inside, Multi AirFlow cold distribution, external digital display, interior with premium design in grey colour, crisper drawers (one convertible), energy class E, silent Inverter compressor with low consumption. Fast Cooling and Fast Freezer functions, ECO mode, alarms for malfunction, open door and temperature.

FEATURES:

French four door design: the exclusive design of its four doors allows the freezer drawers to be pulled out, making it easier to find and handle food.

White glass doors: the white glass finish of the doors is elegant and modern, blending perfectly with modern kitchens.

Premium design in grey colour: elegance has also been thought for the interior with an exclusive grey finish.

Large capacity of 400 litres: the large internal storage volume allows you to keep a large food storage space in an orderly and easily accessible manner.

Convertible crisper drawer: this drawer is particularly useful, as you can choose a customised setting for fruit, vegetables or cold drinks and other fresh products.

LED lighting: with minimal power consumption, it provides a clear and crisp view of all your food.

Inverter Plus motor: the inverter compressor operates with lower energy consumption and reduced noise emission. It is also much more durable than conventional motors.

Multi AirFlow and NoFrost: prevents the formation of ice on the food and on the interior walls, thus transmitting the cold more efficiently and without spoiling food. Multi AirFlow helps to prevent fresh food from over-drying.

ECO function: it automatically adjusts the temperature, reducing consumption but preserving the quality of conservation.

Temperature and open door alarm: it will alert you in the event of a malfunction or temperature failure, as well as if you forget that the door is open or it does not close properly.

Class E: energy efficiency to keep energy consumption under control at all times.

COMPOSITION:

Refrigerator, instruction manual.

Bolero CoolMarket Combi FD 499 Inox E

Cecotec Bolero CoolMarket Combi FD 499 Inox E: French door combi American-style refrigerator in stainless steel with 75.9 cm extra width, 499 L capacity, MetalFlex Cooling, Green HUB, AuraLED, electronic display, Total NoFrost, Inverter Plus Compressor, Fast Freezing & Cooling and Smart Mode.

FEATURES:

Extra width combi: 75.9 and 499 L capacity: With a French door design and an extra width of 75.9 cm, this refrigerator offers a large capacity of 499 litres, providing enough space to store all types of food and beverages, ideal for large families.

MetalFlex Cooling: MetalFlex Cooling technology ensures uniform cold distribution throughout the refrigerator, keeping food fresh for longer and preserving its quality.

Dual Green HUB: Composed of two independent drawers, it allows storing fresh products such as fruits and vegetables, avoiding cross-contamination and featuring automatic humidity control to preserve them in optimal conditions.

AuraLED: The AuraLED lighting not only improves the refrigerator's interior visibility but is also energy efficient, ensuring you can clearly see your food without increasing energy consumption.

Electronic display: The electronic display provides intuitive and easy control of all refrigerator functions, allowing precise and convenient settings adjustment.

Total No Frost: This system prevents frost and ice formation, ensuring constant temperature and eliminating the need for manual defrosting, saving time and effort.

Inverter Plus Compressor: Guarantees quiet and efficient operation, optimising energy consumption and extending the refrigerator's lifespan, resulting in savings and sustainability.

Fast Freezing and Fast Cooling: These functions enable rapid cooling and freezing of food, preserving freshness and nutrients, ideal for maintaining the quality of perishable products.

Smart mode: The Smart Mode automatically adjusts the refrigerator's internal conditions to maximise energy efficiency and maintain food freshness, adapting to your daily needs.

Bolero CoolMarket SBS 430 White E

White American Side by Side refrigerator with 430 litre capacity, 176 cm high and 84 cm wide, E class, Multi Air Flow and Total No Frost system, and Inverter Plus motor.

FEATURES:

Multi Airflow. Optimal temperature in every compartment. Preserve food for longer thanks to an even cold-air distribution.

Total No Frost. System to prevent frost formation on food and the refrigerator. Preserves food and nutrients for longer, thanks to a better cold-air circulation.

430 litre capacity. Large capacity in all compartments for improved storage.

E class: optimum energy rating for a refrigerator.

Inverter Plus motor. Money and energy saving. The system maintains the temperature inside the refrigerator without further costs by measuring the conditions inside the refrigerator and manages the operation accordingly.

Door Display. Control the temperature of the refrigerator without opening it.

Fast Cooling. Refrigerate your food much faster.

Fast Freezing. Freeze your food much faster.

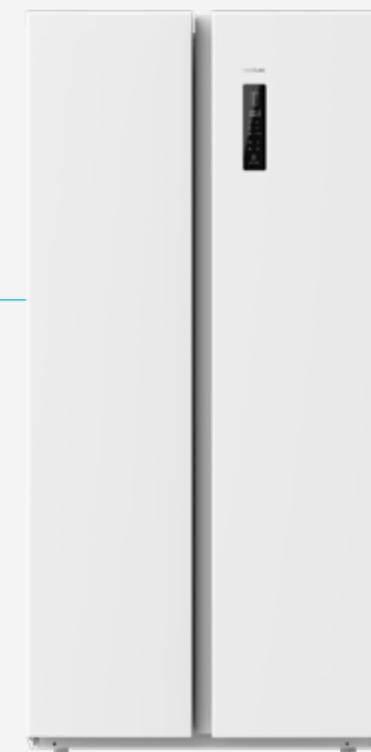

Holiday mode. Optimise energy consumption when you are away for long. The refrigerator's temperature changes to 15 degrees and the freezer's to -18 degrees.

Eco mode. Optimised energy consumption to save on the electricity bill.

Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

Bolero CoolMarket SBS 551 WD Inox E

Cecotec Bolero CoolMarket SBS 551 WD Inox E: American style refrigerator SBS stainless steel, Dual Cooling, water dispenser, extra capacity of 551 l, Door Display, Anti-tipping bottle shelf, Total NoFrost, Inverter Plus compressor, ultra-quiet 35 dB, LED light, Fast Freezing, Fast Cooling & Holiday Mode.

FEATURES:

Dual Cooling: Dual Cooling technology ensures independent cooling of the refrigerator and freezer, keeping food fresh for longer and allowing separate control of the refrigerator and freezer.

Water Dispenser: Enjoy fresh water instantly with the built-in water dispenser, providing convenience and easy access without having to open the refrigerator.

Extra capacity of 551 l: With a spacious 551 litres of storage space, this American-style refrigerator is perfect for large families or those who need to store large quantities of food and beverages.

Door Display: Control the temperature and functions of your refrigerator easily with the Door Display, which offers intuitive and modern operation.

Anti-tipping shelf: thanks to the extra 2 cm of the first shelf of the refrigerator, this shelf ensures that your bottles stay in place, preventing accidental spills and falls when opening the doors.

Total No Frost: Forget about defrosting thanks to the Total NoFrost system, which prevents frost build-up and maintains a constant temperature.

Inverter Plus Compressor: The Inverter Plus Compressor provides efficient and long-lasting operation, optimising energy consumption and ensuring quiet performance.

Ultra-silent 35 dB: With a noise level of only 35 dB, this refrigerator operates ultra-quietly, which is ideal for homes where silence is a priority.

Interior LED light: Interior LED lighting provides clear, bright view while saving energy and improving the efficiency of the refrigerator.

Fast Freezing: The Fast Freezing function freezes food quickly, optimally preserving its nutrients and flavour. **Fast Cooling:** Accelerates the cooling process to maintain the freshness of newly stored food, ideal for beverages and perishable products.

Bolero CoolMarket SBS 559 Dark D

Dark American Side by Side refrigerator with 559 litre capacity, 177 cm high and 90 cm wide, D class, Multi Air Flow and Total No Frost system, and Inverter Plus motor.

FEATURES:

Multi Airflow. Optimal temperature in every compartment. Preserve food for longer thanks to an even cold-air distribution.

Total No Frost. System to prevent frost formation on food and the refrigerator. Preserves food and nutrients for longer, thanks to a better cold-air circulation.

559 litre capacity. Large capacity in all compartments for improved storage.

D class: optimum energy rating for a refrigerator.

Inverter Plus motor. Money and energy saving. The system maintains the temperature inside the refrigerator without further costs by measuring the conditions inside the refrigerator and manages the operation accordingly.

Door Display. Control the temperature of the refrigerator without opening it.

Fast Cooling. Refrigerate your food much faster.

Fast Freezing. Freeze your food much faster.

Holiday mode. Optimise energy consumption when you are away for long. The refrigerator's temperature changes to 15 degrees and the freezer's to -18 degrees.

Eco mode. Optimised energy consumption to save on the electricity bill.

Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

Bolero CoolMarket SBS 559 Inox C

American-style refrigerator with 559 L capacity, 177 x 91 cm, energy class C, Inverter compressor, water dispenser, door display, Fast Cooling, Fast Freezing, ECO and Holiday modes.

FEATURES:

Energy class C: improves performance and reduces consumption compared to previous models, helping you save electricity on a daily basis.

Inverter compressor: delivers optimal cooling power without generating peaks in electricity consumption. In addition, it is quieter and more durable than conventional systems.

559 L capacity. Large capacity in all compartments for improved storage.

NoFrost: frost-free cooling system that prevents ice build-up on food and internal walls, improving cold transfer and food preservation.

Multi Air Flow: this system uses internal ventilation to ensure even cold distribution, maintaining uniform conditions throughout all compartments. Display: external display for temperature adjustment and mode selection to match your needs.

Fast Cooling. Refrigerate your food much faster.

Fast Freezing: enhances freezer performance for several hours to help new foods reach the freezing point more quickly.

Holiday mode. Optimise energy consumption when you are away for long. The refrigerator's temperature changes to 15 °C and the freezer's to -18 °C.

Eco mode. Optimised energy consumption to save on the electricity bill.

Door alarm. Door alarm that warns you when the refrigerator has been left open for some time and is starting to lose temperature.

Bolero CoolMarket SBS 556 WID Inox E

Cecotec Bolero CoolMarket SBS 556 WID Inox E: SBS American-style refrigerator in stainless steel with automatic water and ice dispenser, water filter, HomeBar, 556 L extra capacity, door display, MetalFlex Cooling, Multi AirFlow, Total NoFrost, Inverter Plus Compressor, LED light, Fast Freezing, Fast Cooling and 90° door opening.

FEATURES:

Automatic water and ice dispenser: Get water, ice cubes and crushed ice instantly with the integrated automatic dispenser, offering maximum convenience and immediate refreshment without needing to open the refrigerator.

Water filter and water connection: The integrated water filter ensures that dispensed water and ice are always fresh and pure, improving the consumption experience and cleaning impurities from the water that comes through the hose connected to the supply, eliminating concerns.

HomeBar: With this innovative HomeBar, easily access your favourite beverages without opening the main door, maintaining the internal temperature and saving energy.

Extra capacity of 556 L: This refrigerator offers a generous space of 556 litres, ideal for large families or for those who need to store large volumes of food and beverages.

MetalFlex Cooling: The MetalFlex Cooling technology distributes cold evenly, maintaining food freshness throughout all refrigerator areas.

Door Display: Easily control refrigerator functions with the Door Display, providing intuitive access to temperature and other settings.

Multi AirFlow: The Multi AirFlow system ensures homogeneous air circulation, preserving food quality and freshness in every corner of the refrigerator.

Total No Frost: Forget about tedious defrosting tasks with the Total NoFrost technology, which prevents frost formation and maintains a constant temperature.

Inverter Plus Compressor: Provides efficient and quiet operation, optimising energy consumption and extending the appliance's lifespan.

90° door opening: The 90° door opening allows comfortable access even in reduced spaces, facilitating food placement and removal.

LED light: The LED light provides clear and efficient interior illumination, allowing easy visibility of all food items.

Bolero CoolMarket SBS 592 inox

American refrigerator with XL capacity of 592 litres and E-class energy consumption, Inverter Motor, and Fast Freezing system.

FEATURES:

Multi Airflow. Optimal temperature in every compartment. Preserve food for longer thanks to an even cold-air distribution.

Total No Frost. System to prevent frost formation on food and the refrigerator. Keeps food and nutrients for a longer period of time.

Super Freeze: ultra-fast freezing.

Super Cool. Faster food cooling.

Holiday mode. Optimised energy consumption.

Inverter Plus motor: energy and money saving. The system maintains the temperature inside the refrigerator without further costs by measuring the conditions inside the refrigerator and manages the operation accordingly.

592 litre capacity.

Class E.

Control display. Control the temperature conveniently.

Interior LED light.

Door alarm: system that informs if the door is open or if the inside temperature has risen.

Bolero CoolMarket SBS 592 WD Dark E

Side by Side Dark American style refrigerator with 588 litre capacity, water dispenser, 177.5 cm high and 69.8 cm wide, class E, with Multi Air Flow system, Total No Frost, Fast Cooling, and Fast Freezing.

FEATURES:

592 litre capacity. Storage of a great variety of food, with easy and orderly access. Height: 177.5 cm. Width: 69.8 cm. Depth: 91 cm.

Multi Airflow. Optimal temperature in every compartment. Preserve food for longer thanks to an even cold-air distribution.

Total No Frost. System to prevent frost formation on food and the refrigerator.

Fast Freezing. Freeze your food much faster. Energy saving and food preservation without losing any of its properties.

Fast Cooling. Faster cooling of food reaching the optimum temperature much faster than normal.

Water dispenser. Cool off in total comfort without influencing the cold inside as you don't have to open the door.

Inverter Plus motor. Money and energy saving. Thanks to this efficient system, the interior temperature of the refrigerator is maintained without incurring further costs.

Class E. Daily energy saving.

External display. Manage temperature and functions without having to open any compartment.

Interior LED light. LED lights provide more light, more energy savings, and less heat.

Door alarm. Sound system to know if the door has been open for some time or if the indoor temperature has risen abnormally.

Holiday mode. Energy consumption optimisation, the refrigerator temperature changes to 15 °C and the freezer temperature changes to -18 °C.

Bolero CoolMarket SBS 623 Inox E

Cecotec Bolero CoolMarket SBS 623 Inox E: SBS American-style refrigerator in stainless steel finish and 623 L super capacity, 8 mm sides, 25 L Freshness Flex HUB with Green, Chill and Fresh Modes, Full Colour Display, MetalFlex Cooling, Green HUB with HumidPad, Anti-bacteria Freshness, AuraLED, Multi AirFlow, Total NoFrost, Inverter Plus Compressor, Fast Freezing & Cooling, Smart Mode and 90° door opening.

FEATURES:

Super capacity of 623 L: With an impressive capacity of 623 litres, this refrigerator is ideal for large families or those who need to store large quantities of food, ensuring enough space for everything.

Compact 8 mm side adjustment: Designed for a perfect fit, this refrigerator can be placed just 8 mm from the recess, allowing efficient integration in any space and optimising the available area in your kitchen.

Freshness Flex HUB 25 L drawer: This versatile drawer offers three storage modes: Green (4°C) for fruits and vegetables, Chill (0°C) for beverages, and Fresh (-4°C) for meats, adapting to your specific preservation needs and extending the life of your fresh products.

MetalFlex Cooling: The MetalFlex Cooling technology ensures cold is distributed uniformly, preserving food freshness in all areas of the refrigerator.

Full Colour Display: The Full Colour display enables intuitive and easy control of all refrigerator functions, featuring a modern and attractive interface.

Green HUB with HumidPad: The Green HUB features a HumidPad to maintain optimal humidity levels, preserving the freshness and nutrients of your vegetables for longer.

Anti-bacteria Freshness: This anti-bacterial system protects your food from harmful bacteria, ensuring it stays fresh and safe for consumption while preventing cross-contamination.

AuraLED: The AuraLED lighting provides clear and efficient illumination, improving refrigerator interior visibility without increasing energy consumption.

Multi AirFlow: The Multi AirFlow system ensures homogeneous air circulation, preserving food quality and freshness in every corner of the refrigerator.

Bolero CoolMarket 4D 394 Inox E

4-door refrigerator, 394 L capacity, Inverter compressor, adjustable temperature drawer, NoFrost, MultiAirFlow, ATT Antibacterial system, FastCool and FastFreeze functions, Holiday mode, open door alarm, 90° easy opening, energy class E, external display.

FEATURES:

4-door design: this configuration allows for greater width in the upper compartments, creating extra-wide shelves for better use of space.

Inverter compressor: delivers all the necessary power for optimal cooling without generating electrical consumption peaks. In addition, it is quieter and more durable than conventional systems.

FreshNessFlexHub adjustable temperature drawer: large drawer where you can choose a "cool" setting suitable for vegetables or a "coolest" setting more appropriate for foods to be consumed soon, such as meat, fish and prepared meals or food containers.

Total NoFrost: cools and freezes without producing frost on food and interior walls, improving cold transfer efficiency and better preserving food.

Antibacterial ATT: system that sterilises air through ionisation, thus eliminating bacteria that cause bad odours.

MultiAirFlow: distributes fresh air flow inside, ensuring consistent humidity and temperature conditions at all levels.

Easy 90° opening: extra-flat door design that facilitates convenient access to the drawers even with the door open at just 90 degrees.

FastCool: for two hours, the fridge compartment temperature is set to 2 °C to cool new quantities of food more quickly.

FastFreeze: for four hours the freezer performance increases to set the temperature at -32 °C, achieving quick freezing of new quantities of food.

Holiday mode: Optimise energy consumption when you are away for long.

Door alarm: Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

LED lighting: low-consumption LED interior light that offers clear visibility inside the fridge compartment.

COMPOSITION:

Refrigerator, egg tray, ice cube tray, instruction manual.

4-door refrigerator, stainless steel colour, 183 cm high and 83.6 cm wide, 436 l capacity, Inverter Plus compressor, open door alarm, Total No Frost, energy class E. Additionally, it features different modes such as Fast Cooling, Fast Freezing and Holiday, as well as systems such as MultiAirFlow and Metal Cooling.

FEATURES:

4 Cross Doors: the door design allows for zoned opening, providing greater convenience and better cold preservation, while saving energy.

Inverter Plus compressor: thanks to this system, the temperature inside the refrigerator is maintained without incurring higher costs, measuring the conditions inside the refrigerator and managing the operation accordingly.

Total No Frost: system that prevents the formation of ice on the walls of the refrigerator. Preserves food and nutrients for longer, thanks to a better cold-air circulation.

Metal Cooling: better cold distribution in each compartment.

Fast Cooling: refrigerate your food much faster.

Fast Freezing: freeze your food much faster.

Capacity of 436 l: large capacity in all its compartments to avoid space problems.

Energy class E: optimum energy classification for a refrigerator.

Multi Airflow: optimum temperature in the entire compartment. Preserve food for longer thanks to an even cold-air distribution.

Holiday Mode: optimise energy consumption when you are away for long. The refrigerator's temperature changes to 15 degrees and the freezer's to -18 degrees.

Humidity Box: humidity-absorbing drawer for optimum preservation of fruit and vegetables.

Bolero CoolMarket 4D 474 Inox E

4-door refrigerator, stainless steel, with a large capacity of 474 L, 177,5 cm high and 83,3 cm wide, variable temperature drawer, 90° door opening, and Inverter Plus compressor. Also, it's ultra-quiet (35 dB) and has different modes like Fast Cooling and Fast Freezing, as well as systems like MultiAirFlow, temperature sensors, and Total NoFrost.

FEATURES:

Cross Door. The cross-door design allows for zoned opening, providing greater convenience and better cold preservation while also saving energy.

474 litre capacity. Large capacity in all compartments for improved storage. Make the most of its 305 L refrigerator and 169 L freezer.

Variable temperature drawer: Flexible zone with variable temperature that prolongs the freshness of your food. Keep your food in optimal conditions for longer with the Fresh Flex zone, which offers 3 adjustable temperatures (fruit and vegetables, beverages, meat and fish) to preserve a variety of products at their optimal temperature, from meat, fish and dairy products to delicate fruits.

Door display: The external digital display allows you to adjust the refrigerator settings easily and intuitively. With an accessible control, you can customise the temperature and other functions according to your daily needs, ensuring convenient and efficient use.

Smart sensors: Optimise refrigerator performance with smart sensors that automatically control the internal temperature at all times.

Multi Air Flow: this system assists with internal ventilation for proper cold distribution, ensuring homogeneous conditions throughout all spaces.

90° door opening: improves accessibility to every area, making it easier to organise and access your food.

Ultra-silent 35 dB: Enjoy a peaceful environment thanks to ultra-silent operation at 37 dB, ideal for homes where silence is essential.

Inverter Plus Compressor: Saves energy and delivers efficient performance with the Inverter Plus Compressor, which adjusts power according to cooling needs and reduces energy consumption.

Total No Frost: Forget about defrosting with the Total NoFrost system, which prevents ice

Bolero CoolMarket 4D 490 Dark E

Dark 4-door refrigerator with a large capacity of 490 l, 183 cm high and 91 cm wide, E energy class, and Inverter Plus motor. Featuring modes such as Fast Cooling and Fast Freezing, as well as systems such as Multi Air Flow, Total No Frost, and Metal Cooling.

FEATURES:

Cross Door. The cross-door design allows for zoned opening, providing greater convenience and better cold preservation while also saving energy.

Inverter Plus motor. Money and energy saving. The system maintains the temperature inside the refrigerator without further costs by measuring the conditions inside the refrigerator and manages the operation accordingly.

490 l capacity. Large capacity in all compartments for improved storage.

Metal Cooling. better cold distribution in each compartment.

Multi Airflow. Optimal temperature in every compartment. Preserve food for longer thanks to an even cold-air distribution.

Door Display. Control the temperature of the refrigerator without opening it.

Fast Cooling. Refrigerate your food much faster.

Fast Freezing. Freeze your food much faster.

SN/T Climate Class. Versatile temperature range of 10 °C - 43 °C for use in a wider range of ambient temperatures.

Total No Frost. System that prevents frost formation on the refrigerator interior walls.

Preserves food and nutrients for longer, thanks to a better cold-air circulation.

Bolero CoolMarket 4D 503 Inox E

Stainless steel 4-door refrigerator with 503 L capacity, 177.5 x 85.3 x 69.8 cm, energy class E, Inverter compressor, grey interior, MetalFlexCooling technology, variable temperature drawer (0-7 °C), humidity control drawer, colour display, NoFrost technology, MultiAirFlow system, FastCooling, FastFreezing, alarm function, ECO mode and LED Light.

FEATURES:

4-door design: this allows placing full-width upper shelves, optimising storage space to accommodate even large items and serving platters.
Grey interior with MetalFlexCooling: elegant and modern grey interior finish that enhances the colours and freshness of food, while its metallic coating improves cold distribution.
FreshNessHub convertible drawer: adjustable humidity and temperature (0°C, +4°C or +7 °C) for optimal storage of meat, fish, fruit and vegetables or beverages.
HumidityFlexHub drawer with moisture control, perfect for preserving the freshness and texture of fruits and vegetables for longer.
External Colour Display: provides easy access to different functions and temperature settings through intuitive colour icons.
Inverter compressor: much quieter operation than conventional refrigerators and no power consumption peaks. In addition, it guarantees high durability and has a 10-year warranty.
Large 503 L capacity: optimised space for greater storage volume with compact exterior dimensions.
NoFrost: refrigeration system that cools without producing frost on food or interior walls, transmitting cold more efficiently and not spoiling fresh products.
MultiAirFlow: keeps the interior air circulating to maintain even temperature and humidity levels throughout the compartment.
Energy efficiency class E: efficient consumption that reduces daily electricity consumption.
ECO mode: sets the refrigerator temperature to 5 °C and freezer to -18 °C, maintaining perfect storage conditions while reducing power consumption.

COMPOSITION:

Refrigerator, egg tray, ice cube tray, instruction manual.

-  91.8 x 74.7 x 187.7 cm 99 kg

Bolero CoolMarket 4D 503 Inox D

Stainless steel 4-door refrigerator, 503 L capacity, 177.5 x 85.3 x 69.8 cm, energy class D, Inverter compressor, gray interior, MetalFlexCooling, adjustable temperature drawer from 0 °C to 7 °C, humidity control drawer, colour display, NoFrost, MultiAirFlow, FastCooling, FastFreezing, Alarm, ECO mode, LED light.

FEATURES:

4-door design: this allows for full-width shelves in the upper section, optimising storage space even for large food items and serving trays.

Grey interior with MetalFlexCooling: its grey interior provides a distinctly elegant and modern style that enhances food colours and freshness, complemented by a metallic layer that improves cold distribution.

FreshNessHub convertible drawer: adjust humidity and temperature to 0 °C, +4 °C or +7 °C according to your needs to preserve meats, fish, fruits and vegetables or beverages.

HumidityFlexHub drawer with humidity control, perfect for preserving the freshness and ideal texture of fruits and vegetables for longer.

Exterior colour display: exterior colour display allowing access to different functions and temperature settings through intuitive colour icons.

Inverter Compressor: much quieter operation than conventional fridges and without power consumption peaks. In addition, it ensures great durability and comes with a 10-year warranty.

Large 503 L capacity: optimised space for greater storage volume with specially adjusted exterior dimensions.

NoFrost: preservation system that cools without producing frost on food and interior walls, thus transmitting cold more efficiently and not spoiling fresh products.

MultiAirFlow: keeps interior air in circulation to maintain a uniform temperature and humidity levels throughout the cavity.

Energy efficiency class D: efficient consumption that reduces daily electrical usage.

ECO mode: sets the fridge temperature to 5 °C and freezer to -18 °C, maintaining perfect preservation conditions while reducing power consumption.

Bolero CoolMarket 4D 601 Inox E

Four door refrigerator, stainless steel colour, 601 l capacity, 177.5 cm high and 90.5 cm wide, NoFrost conservation system, Metal Cooling, crisper drawer with humidity control, convertible crisper drawer, silent Inverter Plus motor with low consumption, external digital display, energy class E, Fast Cooling and Fast Freezing functions, ECO mode, alarms for malfunction, open door and temperature.

FEATURES:

Four door refrigerator: the four door design allows for wider shelves. The capacity is multiplied to make room for large trays and foodstuffs.

Stainless steel doors: the stainless steel finish of the doors is elegant and modern, blending perfectly with modern kitchens.

Premium design in grey colour: elegance has also been thought for the interior with an exclusive grey finish.

Large capacity of 601 litres: the large internal storage volume allows you to keep a large food storage space in an orderly and easily accessible manner.

Crisper drawer with humidity control and convertible crisper drawer that are perfect for fruit or vegetables, and the humidity level can be adjusted to achieve optimum conditions.

Metal Cooling: this metal column transmits the cold inside the refrigerator more evenly, achieving a uniform temperature in all compartments.

Inverter Plus motor: the inverter compressor makes for a quieter, longer-lasting and more energy-efficient refrigerator.

No Frost preservation: prevents the formation of ice on the food and on the inside walls, working more efficiently and without spoiling food.

ECO function: it automatically adjusts the temperature, reducing consumption but preserving the quality of conservation.

Temperature and open door alarm: it will alert you in the event of a malfunction or temperature failure, as well as if you forget that the door is open or it does not close properly.

Class E: energy efficiency to keep energy consumption under control at all times.

Fast Cooling & Fast Freezing: by activating these functions, the refrigerator will increase its performance allowing you to reach the cooling or freezing temperature more quickly when you introduce new food.

Bolero CoolMarket TDW 548 Black Glass E

3-door refrigerator with wine cooler, black glass colour, 183 cm high, 91.1 cm wide and 70.6 cm deep, 548 l capacity, Inverter Plus compressor, Total No Frost, energy class E. Additionally, it features different modes such as Fast Cooling, Fast Freezing and Holiday, as well as systems such as MultiAirFlow and Metal Cooling.

FEATURES:

T Door: three vertical doors for a more attractive, innovative, and efficient design.
 Wine cooler to keep all your wines at the right temperature.
 Inverter Plus compressor: maintains the temperature inside the refrigerator without incurring higher costs by measuring the conditions inside the refrigerator and managing the operation accordingly.
 Total No Frost: system that prevents the formation of ice on the walls of the refrigerator.
 Preserves food and nutrients for longer, thanks to a better cold-air circulation.
 Metal Cooling: better cold distribution in each compartment.
 Fast Cooling: refrigerate your food much faster.
 Fast Freezing: freeze your food much faster.
 Capacity of 436 l: large capacity in all its compartments to avoid space problems.
 Energy class E: optimum energy classification for a refrigerator.
 Multi Airflow: optimum temperature throughout the compartment to extend the life of food for a longer period of time thanks to the even distribution of cold air.
 Holiday Mode: optimise energy consumption when you are away for long. The refrigerator's temperature changes to 15 degrees and the freezer's to -18 degrees.
 Humidity Box: humidity-absorbing drawer for optimum preservation of fruit and vegetables.
 Fridge dimensions (W x D x H): 91.1 x 70.6 x 183 cm.

3-door refrigerator with wine cooler and ice maker, black glass colour, 183 cm high, 91.1 cm wide and 70.6 cm deep, 529 L capacity, Inverter Plus compressor, Total No Frost, energy class E. Additionally, it features different modes such as Fast Cooling, Fast Freezing and Holiday, as well as systems such as MultiAirFlow and Metal Cooling.

FEATURES:

T Door: three vertical doors for a more attractive, innovative, and efficient design.
 Ice maker to make the ice you need instantly. In addition, cold water is available at any time.
 Wine cooler to keep all your wines at the right temperature.
 Inverter Plus compressor: maintains the temperature inside the refrigerator without incurring higher costs by measuring the conditions inside the refrigerator and managing the operation accordingly.
 Total No Frost: system that prevents the formation of ice on the walls of the refrigerator.
 Preserves food and nutrients for longer, thanks to a better cold-air circulation.
 Metal Cooling: better cold distribution in each compartment.
 Fast Cooling: refrigerate your food much faster.
 Fast Freezing: freeze your food much faster.
 Capacity of 529 l: large capacity in all its compartments to avoid space problems.
 Energy class E: optimum energy classification for a refrigerator.
 Multi Airflow: optimum temperature throughout the compartment to extend the life of food for a longer period of time thanks to the even distribution of cold air.
 Holiday Mode: optimise energy consumption when you are away for long. The refrigerator temperature changes to 15 °C and the freezer temperature to -18 °C.
 Humidity Box: humidity-absorbing drawer for optimum preservation of fruit and vegetables.
 Fridge dimensions (W x D x H): 91.1 x 70.6 x 183 cm.

Bolero CoolMarket F2D 403 Inox E

French door refrigerator, 403 L, Max Inside extra capacity, Inverter compressor, FreshNessFlexHub adjustable temperature drawer, ATT Ionic Antibacterial function, NoFrost, SuperCool and SuperFreeze functions, external digital display, Holiday mode.

FEATURES:

Max Inside extra capacity with 403 L: it provides much more usable storage volume than refrigerators of similar or even larger dimensions.

Inverter compressor: delivers all the necessary power for optimal cooling without generating electrical consumption peaks. In addition, it is quieter and more durable than conventional systems.

FreshNessFlexHub adjustable temperature drawer: large drawer where you can choose a "cool" setting suitable for vegetables or a "coolest" setting more appropriate for foods to be consumed soon, such as meat, fish and prepared meals or food containers.

Total NoFrost: cools and freezes without producing frost on food and interior walls, improving cold transfer efficiency and better preserving food.

Antibacterial: system that sterilises air through ionisation, thus eliminating bacteria that cause bad odours.

MultiAirFlow: distributes fresh air flow inside, ensuring consistent humidity and temperature conditions at all levels.

Easy 90° opening: extra-flat door design that facilitates convenient access to the drawer even with the door open at just 90 degrees.

FastCool: for two hours, the fridge compartment temperature is set to 2 °C to cool new quantities of food more quickly.

FastFreeze: for four hours the freezer performance increases to set the temperature at -32 °C, achieving quick freezing of new quantities of food.

Holiday mode. Optimise energy consumption when you are away for long.

Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

LED lighting: low-consumption LED interior light that offers clear visibility inside the fridge compartment.

COMPOSITION:

Refrigerator, egg tray, ice cube tray, instruction manual.

Bolero CoolMarket FD 576 Inox E

Cecotec Bolero CoolMarket FD 576 Inox E: French door American-style refrigerator in stainless steel finish with 576 L super capacity, MetalFlex Cooling, Green HUB XL, Dual Green HUB, metal handles, AuraLED, interior electronic display, Total NoFrost, Inverter Plus Compressor, Fast Freezing & Cooling and Smart Mode.

FEATURES:

Super capacity of 576 L: This refrigerator offers an impressive capacity of 576 litres, ideal for large families or those who need ample storage space for their food and beverages.

Its double upper door and French door in the freezer allow easy and intuitive access to any corner, whilst also considerably reducing cold loss.

MetalFlex Cooling: The MetalFlex Cooling technology provides uniform cold distribution throughout the refrigerator, ensuring food stays fresh while preserving its quality for longer.

Green HUB XL: The Green HUB XL is designed to store large quantities of fruits and vegetables, store leeks, celery, carrots and any vegetable, thus maintaining their freshness and extending their storage life and flavour.

Dual Green HUB: Composed of two independent drawers, it allows storing fresh products such as fruits and vegetables, avoiding cross-contamination and featuring automatic humidity control to preserve them in optimal conditions.

Metallic external handles: The metallic handles not only add a touch of elegance and modernity but are also durable and comfortable to use.

AuraLED: The AuraLED lighting provides clear and efficient illumination, improving refrigerator interior visibility without increasing energy consumption.

Interior electronic display: Enables intuitive and easy control of refrigerator functions, ensuring precise adjustment of temperature and other settings.

Total No Frost: Prevents frost and ice formation, maintaining constant temperature and eliminating the need for manual defrosting, saving time and effort.

Inverter Plus Compressor: Provides efficient and quiet operation, optimising energy consumption and extending the appliance's lifespan.

COMPOSITION:

Bolero CoolMarket 1D 317 SBI Inox D

Cecotec Bolero CoolMarket 1D 317 SBI Inox D: Semi-integrated stainless steel 1-door refrigerator with interior stainless steel finishes, less than 60 cm depth, KitFit, MetalFlex Cooling, Freshness Flex HUB, interior display, Smart Mode, Total NoFrost, Inverter Plus Compressor, Fast Cooling and compatible with Bolero CoolMarket UF 242 SBI Inox D freezer.

FEATURES:

Interior stainless steel detail finishes: The finishes with stainless steel details in the interior and grey finishes add a touch of elegance and modernity, as well as offering durability and resistance, ensuring a hygienic and sophisticated environment for your food.

PerfectFit: Optimised installation system that requires only 10 mm of separation on the sides, unlike the 50 mm or more needed in conventional models. Maximises the usable space in your kitchen allowing a perfect fit in the recess, without compromising ventilation or performance.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of all kitchens, allowing a compact and efficient installation without compromising storage capacity.

Metal Flex Cooling: Cooling technology using metal surfaces that ensures uniform cold distribution and ultra-fast temperature recovery, ensuring optimal preservation throughout the interior space.

Freshness Flex HUB: This versatile drawer allows temperature adjustment according to specific preservation needs, offering flexibility to maintain different foods in optimal conditions.

Interior display: The interior display provides easy and intuitive control of all refrigerator functions, allowing convenient settings adjustment from inside the appliance.

Smart mode: The Smart Mode automatically adjusts the refrigerator's internal conditions to maximise energy efficiency and maintain food freshness, adapting to your usage patterns.

Total No Frost: The NoFrost system eliminates frost formation, maintaining constant temperature and eliminating the need for manual defrosting, saving time and effort.

Inverter Plus Compressor: Provides efficient and quiet operation, optimising energy consumption and extending the appliance's lifespan.

Fast Cooling: The rapid cooling function ensures food stays fresh and efficiently preserves nutrients.

COMPOSITION:

Refrigerator, instruction manual.

220-240 V 50 Hz
1,5 A

Bolero CoolMarket SBS 436 SBI Inox E

Semi-integrated American style refrigerator, 436 L capacity, front ventilation, 4 mm side GAP, grey interior, NoFrost, quiet Inverter compressor 37 dB, 183 x 83.3 x 59.5 cm, colour display, Class E, convertible drawer for meat, drinks and vegetables, FastCooling, FastFreezing, Smart mode.

FEATURES:

- Two door design: its two door design facilitates access to its two large storage spaces.
- Stainless steel doors: the stainless steel finish of the doors is elegant and modern, blending perfectly with modern kitchens.
- External digital display: make the appropriate temperature settings and access its functions according to your needs.
- Large capacity of 436 litres: the large internal storage volume allows you to keep a large food storage space in an orderly and easily accessible manner.
- Convertible crisper drawer: this drawer is particularly useful, as you can choose a customised setting for fruit, vegetables or cold drinks and other fresh products.
- Inverter Plus motor: the inverter compressor makes for a quieter, longer-lasting and more energy-efficient refrigerator.
- No Frost preservation: prevents the formation of ice on the food and on the inside walls, working more efficiently and without spoiling food.
- Multi AirFlow: facilitates the circulation of air inside the appliance, maintaining the right humidity so that the food does not dry out.
- Fast Cooling & Fast Freezing: by activating these functions, the refrigerator will increase its performance allowing you to reach the cooling or freezing temperature more quickly when you introduce new food.
- Open door alarm: it will alert you if you forget the door open or if the door does not close properly.
- Class E: energy efficiency to keep energy consumption under control at all times.
- Display on the door: choose from the various settings and adjust the temperature conveniently from the large external display.
- Dimensions (W x D x H): 84.4 x 59.8 x 184.8 cm.

COMPOSITION:

Refrigerator, instruction manual.

Bolero CoolMarket 4D 456 SBI Inox E

Semi-integrated 4-door refrigerator, 456 L, front ventilation, MetalFlexCooling, convertible zone (fridge-freezer), NoFrost, Ion Sterilisation, Max Inside extra capacity, quiet 35 dB Inverter compressor, SuperCool and SuperFreeze functions, Holiday mode, display.

FEATURES:

- Lower-front ventilation: It allows installation with a minimum side clearance of just 4 mm, avoiding unsightly gaps that other models require for proper operation. In addition, with a depth of less than 60 cm, it won't protrude and will align perfectly with your kitchen cabinets.
- Large convertible DualFlexHub zone, with 78 litres of usable volume. The right freezer compartment supports a temperature range from -20 °C to +5 °C, allowing use as either a fridge or freezer according to your needs.
- Super-quiet inverter compressor: with improved performance and greater durability, it operates without consumption peaks and in an ultra-quiet mode at just 35 dB.
- MetalFlexCooling: the metal panel on the inside promotes a more stable temperature and faster temperature transfer.
- Ion sterilisation: system that sterilises air through ionisation, thus eliminating bacteria that cause bad odours.
- NoFrost with MultiAirFlow: cools and freezes without producing frost, achieving a more efficient operation and longer preservation time. In addition, MultiAirFlow maintains the natural moisture of food.
- Max Inside extra capacity: it provides much more usable storage volume than refrigerators of similar or even larger dimensions, with a total of 456 litres.
- FastCool: for two hours, the fridge compartment temperature is set to 2 °C to cool new quantities of food more quickly.
- FastFreeze: for four hours the freezer performance increases to set the temperature at -32 °C, achieving quick freezing of new quantities of food.
- Holiday mode. Optimise energy consumption when you are away for long.
- Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

COMPOSITION:

Refrigerator, egg tray, ice cube tray, instruction manual.

-  199 x 63.5 x 88.5 cm 96.7 kg
88.5 x 63.5 x 199 cm 96.7 kg

Bolero CoolMarket 4D BI 526 Select D

Cecotec Bolero CoolSilver 4D BI 526 Select D: Premium built-in French door combi fridge-freezer with interior stainless steel finishes, front-bottom ventilation, less than 60 cm depth, metal and glass shelves, Pure CoolMatrix, CryoFreeze PAD, Ultra Fast Freezing -35°C, Full Colour Display, Total NoFrost and Inverter Plus Compressor.

FEATURES:

Interior stainless steel finishes: The interior stainless steel finishes not only add a touch of elegance and modernity, but also offer durability and resistance to corrosion, ensuring a hygienic environment for your food.

Front-bottom ventilation: The front-bottom ventilation allows perfect integration into your kitchen furniture, ensuring optimal performance without compromising space or design.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of worktops, offering an elegant and efficient installation without sacrificing capacity.

Metal and glass shelves: The shelves combine metal and glass, offering robust support and a sophisticated appearance, allowing easy organisation of your food and clear visibility.

Pure CoolMatrix: The advanced Pure CoolMatrix cooling system ensures uniform cold air distribution throughout the refrigerator, keeping food fresh for longer. Additionally, it purifies the air by eliminating 99.9% of bacteria, providing a healthier environment for your food. This system combines 3 technologies: MetalFlex Cooling, Multi AirFlow and AntiBacteria Freshness.

CryoFreeze HUB: Equipped with an aluminium tray, this system allows ice crystals to quickly pass through meat and fish, preventing ingredient cells from being pierced or damaged. This keeps meat fresh and, once defrosted, doesn't affect its flavour.

Freshness Flex HUB: Offers flexibility in food storage, allowing temperature adjustment according to specific preservation needs of each food item.

Humidity Flex HUB: Enables precise humidity control, ideal for preserving fruits and vegetables in optimal conditions, maintaining their freshness and nutrients.

Bolero CoolMarket 4D BI 526 D

Cecotec Bolero CoolSilver 4D BI 526 Elite D: Premium built-in 4-door American-style refrigerator with Elite Grey finish, front-bottom ventilation, less than 60 cm depth, adaptive lighting system on shelves, Pure CoolMatrix, Freshness Flex HUB, CryoFreeze HUB, Humidity Flex HUB, Ultra Fast Freezing -35°C, Full Colour Display in drawer, Total NoFrost and Inverter Plus Compressor.

FEATURES:

Elite Grey: This premium built-in refrigerator features an Elite Grey finish that, together with stainless steel details, adds a touch of sophistication and elegance to any kitchen, perfectly complementing a modern design.

Front-bottom ventilation: The front-bottom ventilation allows perfect integration into your kitchen furniture, ensuring optimal performance without compromising space or design.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of worktops, offering an elegant and efficient installation without sacrificing capacity.

Premium AuraLED shelf lighting system: The light sources are integrated into the bottom of the shelves, providing hidden lighting that gradually turns on when the door is opened. The soft and gradual light offers a warm and sophisticated environment, improving the visual experience without increasing energy consumption. Additionally, these shelves have different height positions and arrangements without losing the lighting point.

Glass shelves with metal frame: The glass shelves with metal frame combine elegance and durability, providing robust support and a sophisticated appearance.

Pure CoolMatrix: The advanced Pure CoolMatrix cooling system ensures uniform cold air distribution throughout the refrigerator, keeping food fresh for longer. Additionally, it purifies the air by eliminating 99.9% of bacteria, providing a healthier environment for your food. This system combines 3 technologies: MetalFlex Cooling, Multi AirFlow and AntiBacteria Freshness.

CryoFreeze HUB: Equipped with an aluminium tray, this system allows ice crystals to quickly pass through meat and fish, preventing ingredient cells from being pierced or damaged. This keeps meat fresh and, once defrosted, doesn't affect its flavour.

Bolero CoolMarket 1D BI-D 306 GREY E

Built-in 1 door refrigerator with fixed door, 187 x 55.9 cm, 222 l, Metal Cooling, Premium grey interior, Fast Freezing, Holiday mode and energy class E.

FEATURES:

Built-in combi fridge-freezer: thanks to the possibility of paneling the door, you can choose the same type of finish as your kitchen furniture and completely conceal its presence.

Premium grey interior cavity: grey interior finish style.

Fixed door opening system: super simple opening system in which the door slides on rails.

Total No Frost. System that prevents frost formation on the refrigerator interior walls.

Preserves food and nutrients for longer, thanks to a better cold-air circulation.

Large capacity of 306 litres: its ample storage volume leaves room for all your foodstuffs in perfect order.

Metal Tech-Cooling: the flat surface metal plate inside helps to transmit cold more quickly and evenly.

Class E: optimal energy rating for a refrigerator.

Fast Cooling: Refrigerate your food much faster.

Holiday mode: optimise energy consumption when you are away for long.

Crisper Box: special drawer for preserving meat and fish.

Internal display. Enjoy the temperature control of your refrigerator when you open the door.

Reversible door. You don't have to worry about where you put the fridge, as the door can be positioned in the way that best suits you.

Bolero CoolMarket Combi 272 SBI Inox D

Cecotec Bolero CoolMarket Combi 272 SBI Inox D: Semi-integrated stainless steel combi fridge-freezer with interior stainless steel finishes, less than 60 cm depth, PerfectFit, BiFresh Cooling, MetalFlex Cooling, Freshness Flex HUB, exterior display, Holiday Mode, Smart Mode, Total NoFrost, Inverter Plus Compressor and Fast Freezing & Cooling.

FEATURES:

Interior stainless steel detail finishes: The finishes with stainless steel details in the interior and grey finishes add a touch of elegance and modernity, as well as offering durability and resistance, ensuring a hygienic and sophisticated environment for your food.

PerfectFit: Optimised installation system that requires only 10 mm of separation on the sides, unlike the 50 mm or more needed in conventional models. Maximises the usable space in your kitchen allowing a perfect fit in the recess, without compromising ventilation or performance.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of all kitchens, allowing a compact and efficient installation without compromising storage capacity.

BiFresh Cooling: Dual cooling technology that prevents food from drying out, keeping it fresh for longer thanks to its two differentiated temperature zones. Additionally, it effectively prevents odour transfer between the freezer and refrigerator compartments, ensuring each food preserves its original flavour and aroma without cross-contamination.

Metal Flex Cooling: Cooling technology using metal surfaces that ensures uniform cold distribution and ultra-fast temperature recovery, ensuring optimal preservation throughout the interior space.

Freshness Flex HUB: This versatile drawer allows temperature adjustment according to specific preservation needs, offering flexibility to maintain different foods in optimal conditions.

External display: The external display provides easy and intuitive control of all refrigerator functions, allowing settings adjustment without opening the doors.

Holiday mode: This smart function reduces energy consumption during extended absences, maintaining minimum necessary temperature and saving energy.

Smart mode: The Smart Mode automatically adjusts the refrigerator's internal conditions to maximise energy efficiency and maintain food freshness, adapting to your usage patterns.

COMPOSITION:

Refrigerator, instruction manual.

Bolero CoolMarket 1D 317 SBI Inox D

Cecotec Bolero CoolMarket 1D 317 SBI Inox D: Semi-integrated stainless steel 1-door refrigerator with interior stainless steel finishes, less than 60 cm depth, KitFit, MetalFlex Cooling, Freshness Flex HUB, interior display, Smart Mode, Total NoFrost, Inverter Plus Compressor, Fast Cooling and compatible with Bolero CoolMarket UF 242 SBI Inox D freezer.

FEATURES:

Interior stainless steel detail finishes: The finishes with stainless steel details in the interior and grey finishes add a touch of elegance and modernity, as well as offering durability and resistance, ensuring a hygienic and sophisticated environment for your food.

PerfectFit: Optimised installation system that requires only 10 mm of separation on the sides, unlike the 50 mm or more needed in conventional models. Maximises the usable space in your kitchen allowing a perfect fit in the recess, without compromising ventilation or performance.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of all kitchens, allowing a compact and efficient installation without compromising storage capacity.

Metal Flex Cooling: Cooling technology using metal surfaces that ensures uniform cold distribution and ultra-fast temperature recovery, ensuring optimal preservation throughout the interior space.

Freshness Flex HUB: This versatile drawer allows temperature adjustment according to specific preservation needs, offering flexibility to maintain different foods in optimal conditions.

Interior display: The interior display provides easy and intuitive control of all refrigerator functions, allowing convenient settings adjustment from inside the appliance.

Smart mode: The Smart Mode automatically adjusts the refrigerator's internal conditions to maximise energy efficiency and maintain food freshness, adapting to your usage patterns.

Total No Frost: The NoFrost system eliminates frost formation, maintaining constant temperature and eliminating the need for manual defrosting, saving time and effort.

Inverter Plus Compressor: Provides efficient and quiet operation, optimising energy consumption and extending the appliance's lifespan.

Fast Cooling: The rapid cooling function ensures food stays fresh and efficiently preserves nutrients.

Bolero CoolMarket UF 242 SBI Inox D

Cecotec Bolero CoolMarket UF 242 SBI Inox D: Semi-integrated stainless steel 1-door freezer with interior stainless steel finishes, less than 60 cm depth, PerfectFit, compatible with Bolero CoolMarket 1D 317 SBI Inox D refrigerator, large capacity with 8 Glacier HUB drawers, interior display, Smart Mode, Total NoFrost, Inverter Plus Compressor and Fast Freezing.

FEATURES:

Interior stainless steel detail finishes: The finishes with stainless steel details in the interior and grey finishes add a touch of elegance and modernity, as well as offering durability and resistance, ensuring a hygienic and sophisticated environment for your food.

PerfectFit: Optimised installation system that requires only 10 mm of separation on the sides, unlike the 50 mm or more needed in conventional models. Maximises the usable space in your kitchen allowing a perfect fit in the recess, without compromising ventilation or performance.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of all kitchens, allowing a compact and efficient installation without compromising storage capacity.

Large capacity with 8 Glacier HUB drawers: The 8 Glacier HUB drawers offer exceptional organisation and large storage capacity, allowing you to classify and easily access different types of frozen foods.

Interior display: The interior display provides easy and intuitive control of all refrigerator functions, allowing convenient settings adjustment from inside the appliance.

Smart mode: The Smart Mode automatically adjusts the refrigerator's internal conditions to maximise energy efficiency and maintain food freshness, adapting to your usage patterns.

Total No Frost: The NoFrost system eliminates frost formation, maintaining constant temperature and eliminating the need for manual defrosting, saving time and effort.

Inverter Plus Compressor: Provides efficient and quiet operation, optimising energy consumption and extending the appliance's lifespan.

Perfect to combine with Bolero CoolMarket 1D 317 SBI Inox D refrigerator: Specifically designed to form a perfect set with the Bolero CoolMarket 1D 317 SBI Inox D refrigerator, creating a complete and aesthetically coherent cooling solution for your kitchen.

Fast Freezing: The Fast Freezing function ensures food is frozen efficiently, preserving its quality, texture and nutrients.

COMPOSITION:

Freezer, instruction manual.

Bolero CoolMarket SBS 436 SBI Inox E

Semi-integrated American style refrigerator, 436 L capacity, front ventilation, 4 mm side GAP, grey interior, NoFrost, quiet Inverter compressor 37 dB, 183 x 83.3 x 59.5 cm, colour display, Class E, convertible drawer for meat, drinks and vegetables, FastCooling, FastFreezing, Smart mode.

FEATURES:

Two door design: its two door design facilitates access to its two large storage spaces.

Stainless steel doors: the stainless steel finish of the doors is elegant and modern, blending perfectly with modern kitchens.

External digital display: make the appropriate temperature settings and access its functions according to your needs.

Large capacity of 436 litres: the large internal storage volume allows you to keep a large food storage space in an orderly and easily accessible manner.

Convertible crisper drawer: this drawer is particularly useful, as you can choose a customised setting for fruit, vegetables or cold drinks and other fresh products.

Inverter Plus motor: the inverter compressor makes for a quieter, longer-lasting and more energy-efficient refrigerator.

No Frost preservation: prevents the formation of ice on the food and on the inside walls, working more efficiently and without spoiling food.

Multi AirFlow: facilitates the circulation of air inside the appliance, maintaining the right humidity so that the food does not dry out.

Fast Cooling & Fast Freezing: by activating these functions, the refrigerator will increase its performance allowing you to reach the cooling or freezing temperature more quickly when you introduce new food.

Open door alarm: it will alert you if you forget the door open or if the door does not close properly.

Class E: energy efficiency to keep energy consumption under control at all times.

Display on the door: choose from the various settings and adjust the temperature conveniently from the large external display.

Dimensions (W x D x H): 84.4 x 59.8 x 184.8 cm.

COMPOSITION:

Refrigerator, instruction manual.

Bolero CoolMarket 4D 456 SBI Inox E

Semi-integrated 4-door refrigerator, 456 L, front ventilation, MetalFlexCooling, convertible zone (fridge-freezer), NoFrost, Ion Sterilisation, Max Inside extra capacity, quiet 35 dB Inverter compressor, SuperCool and SuperFreeze functions, Holiday mode, display.

FEATURES:

Lower-front ventilation: It allows installation with a minimum side clearance of just 4 mm, avoiding unsightly gaps that other models require for proper operation. In addition, with a depth of less than 60 cm, it won't protrude and will align perfectly with your kitchen cabinets. **Large convertible DualFlexHub zone,** with 78 litres of usable volume. The right freezer compartment supports a temperature range from -20 °C to +5 °C, allowing use as either a fridge or freezer according to your needs.

Super-quiet inverter compressor: with improved performance and greater durability, it operates without consumption peaks and in an ultra-quiet mode at just 35 dB.

MetalFlexCooling: the metal panel on the inside promotes a more stable temperature and faster temperature transfer.

Ion sterilisation: system that sterilises air through ionisation, thus eliminating bacteria that cause bad odours.

NoFrost with MultiAirFlow: cools and freezes without producing frost, achieving a more efficient operation and longer preservation time. In addition, MultiAirFlow maintains the natural moisture of food.

Max Inside extra capacity: it provides much more usable storage volume than refrigerators of similar or even larger dimensions, with a total of 456 litres.

FastCool: for two hours, the fridge compartment temperature is set to 2 °C to cool new quantities of food more quickly.

FastFreeze: for four hours the freezer performance increases to set the temperature at -32 °C, achieving quick freezing of new quantities of food.

Holiday mode. Optimise energy consumption when you are away for long.

Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

LED lighting: low-consumption LED interior light that offers clear visibility inside the fridge compartment.

External digital display: digital touch screen from which you can adjust the temperature settings or access its multiple functions in just a few steps.

COMPOSITION:

Refrigerator, egg tray, ice cube tray, instruction manual.

 199 x 63.5 x 88.5 cm 96.7 kg

Bolero CoolMarket F2D 458 SBI Inox E

Semi-integrated 4-door French door refrigerator, 458 L, front ventilation, MetalFlexCooling, independent temperature drawer (-1 °C, -3 °C and +4 °C), Ionic Sterilisation, Inverter compressor, Max Inside extra capacity, NoFrost, MultiAirFlow, quiet 37 dB operation, SuperCool and SuperFreeze, Holiday mode.

FEATURES:

Lower-front ventilation: It allows installation with a minimum side clearance of just 4 mm, avoiding unsightly gaps that other models require for proper operation. In addition, with a depth of less than 60 cm, it won't protrude and will align perfectly with your kitchen cabinets.

FreshNessFlexHub independent temperature drawer: The temperature can be controlled independently from the external display between -1 °C, -3 °C or +4 °C, making it suitable for meat, fish or fruit and vegetables respectively.

Super-quiet inverter compressor: with improved performance and greater durability, it operates without consumption peaks and in an ultra-quiet mode at just 37 dB.

MetalFlexCooling: the metal panel on the inside promotes a more stable temperature and faster temperature transfer.

Ion sterilisation: system that sterilises air through ionisation, thus eliminating bacteria that cause bad odours.

NoFrost with MultiAirFlow: cools and freezes without producing frost, achieving a more efficient operation and longer preservation time. In addition, MultiAirFlow maintains the natural moisture of food.

Max Inside extra capacity: it provides much more usable storage volume than refrigerators of similar or even larger dimensions, with a total of 458 litres.

FastCool: for two hours, the fridge compartment temperature is set to 2 °C to cool new quantities of food more quickly.

FastFreeze: for four hours the freezer performance increases to set the temperature at -32 °C, achieving quick freezing of new quantities of food.

Holiday mode. Optimise energy consumption when you are away for long.

Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

LED lighting: low-consumption LED interior light that offers clear visibility inside the fridge compartment.

Bolero CoolMarket 4D 466 SBI Inox E

Semi-integrated 4-door refrigerator, 466 L capacity, front ventilation, 4 mm side GAP, grey interior, NoFrost, quiet 37 dB Inverter compressor, 193 x 83.3 x 59.5 cm, colour display, Class E, convertible drawer for meat, drinks and vegetables, FastCooling, FastFreezing, Smart mode.

FEATURES:

Four door refrigerator: the four door design allows for wider shelves. The capacity is multiplied to make room for large trays and foodstuffs.

Stainless steel doors: the stainless steel finish of the doors is elegant and modern, blending perfectly with modern kitchens.

External digital display: make the appropriate temperature settings and access its functions according to your needs.

Large capacity of 466 litres: the large internal storage volume allows you to keep a large food storage space in an orderly and easily accessible manner.

Convertible crisper drawer: this drawer is particularly useful, as you can choose a customised setting for fruit, vegetables or cold drinks and other fresh products.

Inverter Plus motor: the inverter compressor makes for a quieter, longer-lasting and more energy-efficient refrigerator.

No Frost preservation: prevents the formation of ice on the food and on the inside walls, working more efficiently and without spoiling food.

Multi AirFlow: facilitates the circulation of air inside the appliance, maintaining the right humidity so that the food does not dry out.

Fast Cooling & Fast Freezing: by activating these functions, the refrigerator will increase its performance allowing you to reach the cooling or freezing temperature more quickly when you introduce new food.

Open door alarm: it will alert you if you forget the door open or if the door does not close properly.

Class E: energy efficiency to keep energy consumption under control at all times.

Display on the door: choose from the various settings and adjust the temperature conveniently from the large external display.

Bolero CoolMarket Combi BI-S DF 270 E

Built-in combi fridge-freezer with sliding door, 177 x 54 cm, 270 l, glass drawers and shelves, Defrost, door alarm, Crisper Box and energy class E.

FEATURES:

Bolero CoolMarket Combi BI-S DF 270 E: Bolero CoolMarket Combi BI-S DF 270 E is the best ally to keep your food fresh and organised in style. Its modern design and advanced functionality adapt to your daily needs.

Built-in combi fridge-freezer with sliding door: Designed to blend seamlessly into your kitchen, this sliding door combi fridge-freezer offers easy access and a sleek look that fits into any environment.

270 l of capacity: With a large capacity of 270 litres, you will have enough space to store all your food and drinks. Forget about the lack of space and organise your shopping with total comfort.

Glass drawers and shelves: Tempered glass drawers and shelves not only offer greater durability, but also allow for better visibility and organisation, keeping your food at your fingertips at all times.

Defrost: Thanks to the Defrost function, frost build-up is minimised, saving you time and effort in maintaining your fridge. Keep your fridge running efficiently with this advanced technology.

Open door beeping: The built-in door alarm warns you if you forget to close the door, ensuring your food stays fresh and energy waste is avoided.

Crisper Box: The Crisper Box compartment keeps your fruits and vegetables fresh for longer, thanks to its optimal humidity control, preserving their nutrients and flavour.

177 x 54 cm: With compact dimensions of 177 x 54 cm, this combi fridge-freezer fits into small spaces without sacrificing capacity or functionality.

Energy Class E: This refrigerator features an Energy Class E, which means lower energy consumption and significant savings on your electricity bill, contributing to the care of the environment.

Bolero CoolMarket Combi BI-D MC 232 GREY E

Built-in combi fridge-freezer with fixed door, 177 x 54 cm, 232 l, Metal Cooling, Premium grey interior, Fast Cooling, Fast Freezing, Holiday mode and energy class E.

FEATURES:

Integrated and panel-ready design. Combi SBI: it fits perfectly into the space in the kitchen and integrates with the design of the furniture thanks to the possibility of installing a door panel.

Grey interior. Premium design: The cavity has a grey finish that adds an elegant and sophisticated look.

Convenient opening. Door on rails: this fixed opening system makes it easy to open and close the fridge door.

Cools without generating frost. Total NoFrost: a system that prevents the formation of ice on the walls of the refrigerator, preserving food and its nutrients for longer thanks to a better circulation of cold air.

232 l capacity. Ample interior space for storing all food in perfect order.

Cools quickly and evenly. Metal Tech-Cooling: inner metal plate that helps to transmit the cold quickly throughout the interior.

E class. Optimum energy rating for efficient cooling.

Instant cooling and freezing. Fast Cooling and Fast Freezing: faster cooling of food and ultra-fast freezing.

Optimises energy consumption at off-peak times. Holiday mode: changes the temperature in the refrigerator to 16 degrees and in the freezer to -18 degrees, which reduces energy consumption without compromising on preservation.

Preserves original freshness for longer. Crisper Box: special drawer for preserving meat and fish in perfect conditions.

Comfortable and intuitive control. Interior display: adjust the temperature and the settings of the refrigerator conveniently and intuitively.

Adapts to your home. Reversible door: allows the refrigerator to be placed anywhere, as the door opening direction is adjustable.

Bolero CoolMarket Combi BI-D FLW 267 E

Built-in combi fridge freezer with fixed door, 267-litre capacity, 193.7 cm high and 54 cm wide, class E, Total No Frost, Inverter compressor and Full LED Wall. It features Fast Cooling and Fast Freezing technologies, as well as Holiday and Smart modes.

FEATURES:

Large capacity: the refrigerator has a capacity of 265 l so you can store all your fresh food.

Total No Frost. System that prevents frost formation on the refrigerator interior walls.

Preserves food and nutrients for longer, thanks to a better cold-air circulation.

Inverter Plus compressor. Money and energy saving. The system maintains the temperature inside the refrigerator without incurring additional costs by measuring the conditions inside the refrigerator and managing the operation accordingly.

Class E: optimum energy rating for a refrigerator.

Built-in installation inside a kitchen unit, allowing it to blend perfectly with the kitchen design.

Fixed door: premium hinge that allows the panel to be anchored directly to the refrigerator door.

Total LED Wall: LED light panel built-in in the bottom of the fridge for better visibility of foodstuffs.

Fast Cooling. Refrigerate your food much faster.

Fast Freezing. Freeze your food much faster.

Holiday mode. Optimise energy consumption when you are away for long. The refrigerator's temperature changes to 15 °C and the freezer's to -18 °C.

Smart mode. Optimised energy consumption to save on the electricity bill.

Crisper Box: special drawer for preserving meat and fish.

Internal display. Enjoy the temperature control of your refrigerator when you open the door.

Reversible door. You don't have to worry about where you put the fridge, as the door can be positioned in the way that best suits you.

Door alarm. Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

Bolero CoolMarket Combi BI-D FLW 341 E

Built-in combi fridge-freezer, 341 l, 193.7 x 69 cm, with fixed door, Total NoFrost, Full LED Wall, Fresh Zone Plus, XL size with Inverter Plus Compressor, Fast Cooling and Fast Freezing modes, Holiday mode, Smart mode and class E.

FEATURES:

Bolero CoolMarket Combi BI-D FLW 341 E is the perfect choice for those who are looking for a high quality and efficient built-in XL combi fridge-freezer without compromising on functionality.

This fixed door refrigerator fits perfectly into any kitchen, offering a stylish and functional design that blends in with your furniture.

The XL design of the Bolero CoolMarket Combi BI-D FLW 341 gives you more storage space, ideal for large families or those who enjoy shopping big.

341 l: With a large 341 litre capacity, you'll have plenty of room to store all your food and drinks, keeping them fresh and organised.

Total No Frost: Forget about defrosting your refrigerator. Total NoFrost technology prevents the formation of any ice or frost, ensuring a constant temperature and uniform distribution.

Full LED Wall: the Full LED Wall lighting system ensures homogeneous and optimal illumination of the entire interior of the refrigerator, making it easy to locate your food without any effort.

Inverter Plus Compressor: The Inverter Plus Compressor is not only quieter, but also optimises energy consumption, extends the lifetime of the refrigerator and maintains a stable temperature.

Fresh Zone Plus: this drawer is particularly useful, as you can choose a customised setting for very cold meat, fish or drinks and other fresh food. Adjust its temperature between +3 °C and -3 °C and choose the perfect temperature for every occasion.

Fast Cooling: The Fast Cooling function cools your food quickly, ideal for when you need your fresh food to reach the right temperature immediately.

Fast Freezing: With Fast Freezing function, quickly freeze your fresh food, preserving its flavour and nutrients immediately and more efficiently.

Holiday mode: Activate Holiday mode and save energy while you are away. This mode automatically adjusts the temperature to maintain minimum power consumption.

Bolero CoolMarket Combi FD BI 438 D

Cecotec Bolero CoolSilver Combi FD BI 438 Elite D: Premium built-in French door combi fridge-freezer with Elite Grey finish, front-bottom ventilation, less than 60 cm depth, premium shelf lighting, glass shelves with metal frame, Auto Ice-Making HUB, Pure CoolMatrix, CryoFreeze PAD, Ultra Fast Freezing -35°C, Full Colour Display, Total NoFrost and Inverter Plus Compressor.

FEATURES:

Elite Grey: This premium built-in refrigerator features an Elite Grey finish that, together with stainless steel details, adds a touch of sophistication and elegance to any kitchen, perfectly complementing a modern design.

Front-bottom ventilation: The front-bottom ventilation allows perfect integration into your kitchen furniture, ensuring optimal performance without compromising space or design.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of worktops, offering an elegant and efficient installation without sacrificing capacity.

Premium AuraLED shelf lighting system: The light sources are integrated into the bottom of the shelves, providing hidden lighting that gradually turns on when the door is opened. The soft and gradual light offers a warm and sophisticated environment, improving the visual experience without increasing energy consumption. Additionally, these shelves have different height positions and arrangements without losing the lighting point.

Glass shelves with metal frame: The glass shelves with metal frame combine elegance and durability, providing robust support and a sophisticated appearance.

Auto Ice-Making HUB with water tank: This practical automatic ice-making system includes a water tank, allowing you to enjoy fresh ice at any time conveniently and efficiently.

Pure CoolMatrix: The advanced Pure CoolMatrix cooling system ensures uniform cold air distribution throughout the refrigerator, keeping food fresh for longer. Additionally, it purifies the air by eliminating 99.9% of bacteria, providing a healthier environment for your food. This system combines 3 technologies: MetalFlex Cooling, Multi AirFlow and AntiBacteria Freshness.

CryoFreeze HUB: Equipped with an aluminium tray, this system allows ice crystals to quickly pass through meat and fish, preventing ingredient cells from being pierced or damaged.

Bolero CoolMarket WineCooler BI 449

Cecotec Bolero CoolSilver Combi BI 449 Maestre Elite: Premium built-in 3-zone wine cooler refrigerator with French doors and Elite Grey finish, front-bottom ventilation, less than 60 cm depth, adjustable oak shelves, pairing HUB, oak HUB drawer, water tank for humidity control, Pure CoolMatrix, LCD Full Colour Display, Total NoFrost and Inverter Plus Compressor.

FEATURES:

Elite Grey: This premium built-in refrigerator with included wine cooler features an Elite Grey finish that, together with stainless steel details, adds a touch of sophistication and elegance to any kitchen, perfectly complementing a modern design.

Front-bottom ventilation: The front-bottom ventilation allows perfect integration into your kitchen furniture, ensuring optimal performance without compromising space or design.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of worktops, offering an elegant and efficient installation without sacrificing capacity.

Adjustable and removable oak wood shelves: The adjustable oak wood shelves not only offer robust and attractive support for your wine bottles, but are also removable thanks to their rails, allowing easy and flexible access to accommodate different bottle sizes.

Pairing HUB: This zone with independent temperature and humidity control is perfect for wine pairing, equipped with decanter support, wine display shelf, glass holder and napkin board. All crafted in solid oak to ensure optimal wine preparation and enjoyment.

Oak HUB: The Oak HUB is the ideal zone for storing essential accessories such as bottle openers and cork stoppers, keeping everything necessary within reach for a complete wine experience.

Water tank for humidity control: This system ensures humidity levels remain optimal, preserving the freshness and quality of stored wines and food.

Pure CoolMatrix: The advanced Pure CoolMatrix cooling system ensures uniform cold air distribution, keeping wines and food fresh for longer. Additionally, it purifies the air by eliminating 99.9% of bacteria, providing a healthier environment.

LCD Full Color Display: The LCD Full Color display provides intuitive and easy control of all wine cooler refrigerator functions, allowing precise temperature and settings adjustment for each wine variety.

Total No Frost: The NoFrost system eliminates frost formation, maintaining constant temperature and eliminating the need for defrosting.

COMPOSITION:

Refrigerator-wine cooler, instruction manual.

Bolero CoolMarket 4D BI 526 Select D

Cecotec Bolero CoolSilver 4D BI 526 Select D: Premium built-in French door combi fridge-freezer with interior stainless steel finishes, front-bottom ventilation, less than 60 cm depth, metal and glass shelves, Pure CoolMatrix, CryoFreeze PAD, Ultra Fast Freezing -35°C, Full Colour Display, Total NoFrost and Inverter Plus Compressor.

FEATURES:

Interior stainless steel finishes: The interior stainless steel finishes not only add a touch of elegance and modernity, but also offer durability and resistance to corrosion, ensuring a hygienic environment for your food.

Front-bottom ventilation: The front-bottom ventilation allows perfect integration into your kitchen furniture, ensuring optimal performance without compromising space or design.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of worktops, offering an elegant and efficient installation without sacrificing capacity.

Metal and glass shelves: The shelves combine metal and glass, offering robust support and a sophisticated appearance, allowing easy organisation of your food and clear visibility.

Pure CoolMatrix: The advanced Pure CoolMatrix cooling system ensures uniform cold air distribution throughout the refrigerator, keeping food fresh for longer. Additionally, it purifies the air by eliminating 99.9% of bacteria, providing a healthier environment for your food. This system combines 3 technologies: MetalFlex Cooling, Multi AirFlow and AntiBacteria Freshness.

CryoFreeze HUB: Equipped with an aluminium tray, this system allows ice crystals to quickly pass through meat and fish, preventing ingredient cells from being pierced or damaged. This keeps meat fresh and, once defrosted, doesn't affect its flavour.

Freshness Flex HUB: Offers flexibility in food storage, allowing temperature adjustment according to specific preservation needs of each food item.

Humidity Flex HUB: Enables precise humidity control, ideal for preserving fruits and vegetables in optimal conditions, maintaining their freshness and nutrients.

Ultra Fast Freezing -35°C: This advanced function ultra-freezes food to -35°C to prevent any nutrient loss, effectively and quickly preserving texture and flavour.

Above-drawer Full Color Display: The Full Color display located above the drawer provides intuitive and easy control of all refrigerator functions.

Bolero CoolMarket Combi Origin 231 NF Red E

Combi fridge freezer, retro design, red colour, 176.5 cm high, 54 cm wide, 231 l capacity, Total No Frost, energy class E and Multi Air Flow system. In addition, it features the Fast Cooling mode.

FEATURES:

Combi fridge freezer with retro design: combines a fridge (top) with a freezer (bottom), with a retro design to add a vintage touch to your kitchen.

Total No Frost: System that prevents frost formation on the refrigerator interior walls. Preserves food and nutrients for longer, thanks to a better cold-air circulation.

Fast Cooling. Refrigerate your food much faster.

Large capacity: Its 231 l capacity will allow you to keep a large amount of drinks and food very cold.

Class E: optimum energy rating for a refrigerator.

Multi Airflow: distributes air evenly to maintain the optimum temperature throughout the compartment to keep food fresh for longer.

Humidity Box: adjustable moisture for optimal preservation of your fruits and vegetables.

Give your kitchen a touch of retro design with the resistant chrome-plated fridge handle.

Internal display. Enjoy the temperature control of your refrigerator when you open the door.

Door alarm: the freezer will warn you when the door is left open to prevent it from losing temperature.

Reversible door. You don't have to worry about where you put the fridge, as the door can be positioned in the way that best suits you.

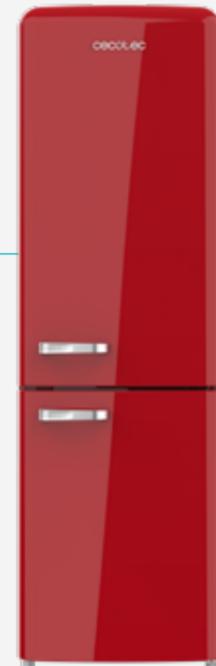

Interior LED light that makes it easier to see all food.

The refrigerator features a bottle rack that allows for increased bottle storage.

Fridge dimensions (W x D x H): 54 x 68.8 x 176.5 cm.

COMPOSITION:

Refrigerator, instruction manual.

 58 x 71 x 180.5 cm 61.34 kg

Bolero CoolMarket Combi Origin 294+ Red E

Retro fridge freezer, red colour, 190 cm high and 60 cm wide, with 294 l capacity, class E, Total No Frost, Multi Cooling, Ultra Fresh, Convertible Box, Multi Air Flow, Fast Freezing, Eco Mode, bottle holder and door alarm.

FEATURES:

Retro fridge freezer: add a vintage touch to your kitchen

Total No Frost: a system that prevents the formation of ice in the food and refrigerator, keeping food and nutrients for a longer period of time.

Multi Cooling: Separates cold distribution to avoid mixing of bacteria and odours between compartments.

Class E: Save on your electricity bill thanks to an optimum energy rating.

Convertible Box: Vegetable crisper drawer with humidity valve that converts into a crisper drawer for meat and fish with temperatures between 0-3 °C by means of a knob.

Ultra Fresh: Air purification system with carbon filters which prevents unpleasant odours, protects your food and makes it last longer.

Fast Freezing. Freeze your food much faster.

Capacity 436 l: large capacity in all its compartments to avoid space problems.

Multi Airflow: optimum temperature throughout the compartment that maintains the best possible food life for a longer period of time thanks to the uniform distribution of cold air.

ECO mode: Mode that reduces power and optimises energy consumption.

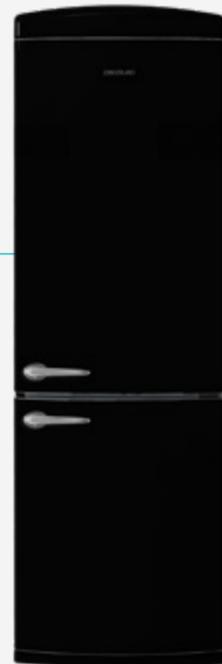

Display: simple and convenient control of both the refrigerator and the freezer.

Door warning: Alarm that warns you when the refrigerator remained open for some time and is starting to lose temperature.

Bolero CoolMarket TT 114 L White

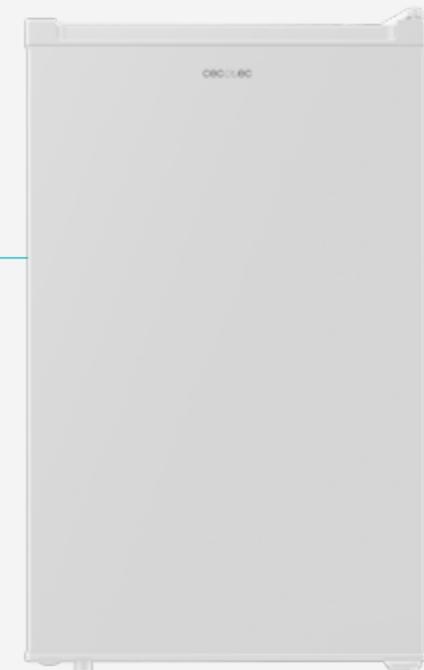

Mini fridge, white colour, 83.6 cm high and 50.6 cm wide, with 114 l capacity, energy class E, Crisper Box, LED interior light and mechanical temperature control.

FEATURES:

114 l capacity: the large capacity of the mini fridge makes it ideal for keeping a large number of drinks and food cold. Place the fridge wherever you want and keep your favourite refreshments close at hand.
It has a class E energy label, which ensures adequate day-to-day consumption.
Save space thanks to its compact design, and place the mini fridge anywhere.
Crisper box for storing all fruit and vegetables to keep them in optimum condition. Preserves food as if it were freshly picked, ensuring great taste.
LED light to see the inside of the fridge at all times every time you open it.
Defrost function: defrosting will never be a problem again thanks to its system that automatically sends the water droplets generated to a drain, so that they evaporate later.
Reversible door: it can be adapted to any room and space by selecting the side of the door from which you want to open the refrigerator.
Mechanical control: set the temperature of your mini fridge by means of a knob.
Ideal dimensions: 50.6 x 55.1 x 83.6 cm (W x D x H).

Bolero CoolMarket UF 242 SBI Inox D

Cecotec Bolero CoolMarket UF 242 SBI Inox D: Semi-integrated stainless steel 1-door freezer with interior stainless steel finishes, less than 60 cm depth, PerfectFit, compatible with Bolero CoolMarket 1D 317 SBI Inox D refrigerator, large capacity with 8 Glacier HUB drawers, interior display, Smart Mode, Total NoFrost, Inverter Plus Compressor and Fast Freezing.

FEATURES:

Interior stainless steel detail finishes: The finishes with stainless steel details in the interior and grey finishes add a touch of elegance and modernity, as well as offering durability and resistance, ensuring a hygienic and sophisticated environment for your food.

PerfectFit: Optimised installation system that requires only 10 mm of separation on the sides, unlike the 50 mm or more needed in conventional models. Maximises the usable space in your kitchen allowing a perfect fit in the recess, without compromising ventilation or performance.

Less than 60 cm depth: With a depth of less than 60 cm, this refrigerator perfectly adapts to the depth of all kitchens, allowing a compact and efficient installation without compromising storage capacity.

Large capacity with 8 Glacier HUB drawers: The 8 Glacier HUB drawers offer exceptional organisation and large storage capacity, allowing you to classify and easily access different types of frozen foods.

Interior display: The interior display provides easy and intuitive control of all refrigerator functions, allowing convenient settings adjustment from inside the appliance.

Smart mode: The Smart Mode automatically adjusts the refrigerator's internal conditions to maximise energy efficiency and maintain food freshness, adapting to your usage patterns.

Total No Frost: The NoFrost system eliminates frost formation, maintaining constant temperature and eliminating the need for manual defrosting, saving time and effort.

Inverter Plus Compressor: Provides efficient and quiet operation, optimising energy consumption and extending the appliance's lifespan.

Perfect to combine with Bolero CoolMarket 1D 317 SBI Inox D refrigerator: Specifically designed to form a perfect set with the Bolero CoolMarket 1D 317 SBI Inox D refrigerator, creating a complete and aesthetically coherent cooling solution for your kitchen.

Fast Freezing: The Fast Freezing function ensures food is frozen efficiently, preserving its quality, texture and nutrients.

Upright freezers

INVERTER COMPRESSOR

Save energy and the planet

Your refrigerator evaluates the inside conditions to manage its operation and maintain the ideal temperature at the lowest possible cost.

BUILT-IN DESIGN

What your kitchen needs

Save space with our built-in freezers¹ and turn your kitchen into a large, open-plan space.

METAL COOLING

Optimum cold preservation.

NO FROST

Prevents ice build-up on walls.

FAST FREEZING

Ultra-fast freezing.

Bolero CoolMarket TF 87 White freezer

Tabletop upright freezer, white colour, 83.6 cm high and 50.6 cm wide, large capacity of 87 l, energy class E.

FEATURES:

87 l capacity: the large capacity of the tabletop freezer makes it ideal for keeping a large number of drinks and food cold.

It has a class E energy label, which ensures adequate day-to-day consumption.

Save space thanks to its compact design, and place the freezer anywhere.

Reversible door that can be adapted to any room and place.

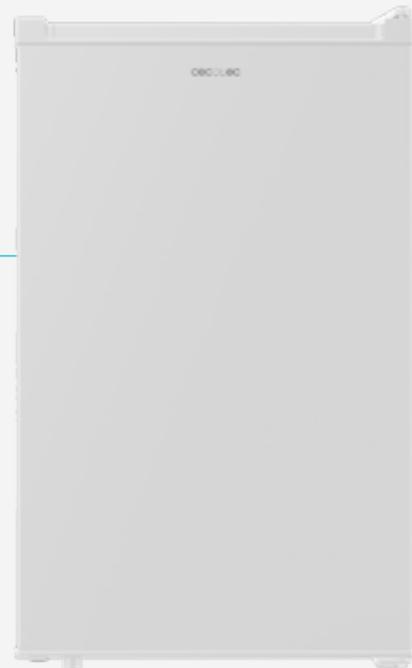

Mechanical control: set the temperature of your tabletop freezer by means of a knob.

You will be able to organise the storage of your food perfectly, thanks to its 3 separate drawers.
